SOME YOUNG BLOOD.

Fablus Haywood Busbee for Attorney General.

EDITOR JOURNAL:-The political campaign of 1884 is going to be a hot fight. Give us some young blood. I mean no disrespect to the older men who have served and are likely to serve the State, but we have a campaign before us the result of which is of the greatest import, and for its success is demanded advocates of vigor and of eloquence sustained by the fire of youth.

There have been in the State press several names mentioned as proper to come before the convention at Raleigh for the position of Attorney General on the Democratic ticket.

If we are to have a change I beg leave to call the attention of the delegates of this and other parts of North Carolina to past services and high talents of Fabius H. Busbee of Wake.

As a counsellor and as an advocate, Mr. Busbee stands in the very front rank. His reputation is not neighborhood gossip, but has been gained in contests with many of the ablest lawyers of the State. No man in the State has given more of his time or done greater service unrewarded in behalf of good government and the Democratic party. In every campaign for the past ten years he has been an earnest worker.
