NO. 97.

LOCAL NEWS.

Journal Miniature Almanac.

Sun rises 5:01 | Length of Day,
Sun sets, 7:11 | 14 hours, 10 minutes.
Moon sets at 7:49 a. m.

Neuse Council No. 1, Order of Chosen Friends, meet to-night.

The schooner *Cherubim* sailed for Beaufort yesterday evening.

There were several passengers from the up-country for Morehead City last night.

The steamer *Nellie B. Day* of Beaufort arrived yesterday evening, loaded with fish scrap and oil from Day Bros. factory at Cape Lookout.

We call attention to the advertisement of L. M. Sutton, Kinston, N. C. The gin, engine and press are offered low and a bargain may be had by any one wanting such machinery.

E. A. Richardson has received the appointment of Postmaster of New Berne. He was nominated by the President and the Senate failed to confirm, hence the appointment now.

There was a grand masquerade given at the Atlantic Hotel on Monday night. Many of New Berne's young gents and fair ladies participated. We hope our special reporter did not forget to take notes.

The Morehead fever is spreading. Wm. Hay, Esq., was at the depot yesterday evening seriously contemplating laying aside the paint brush and taking a holiday by the seaside. Go ahead, it won't hurt you.

Senator Vance, Mrs. Vance and son, arrived on the *Shenandoah* yesterday morning and left on a special, accompanied by President Whitford, Hon. C. C. Clark and Mr. F. C. Roberts for Morehead City. The Senator has been fishing at Nag's Head, and when he rests a few days at Morehead City we hope he will get "sassy" enough to come up and enliven the Cleveland and Scales Club.

Off For Morehead City.

Messrs. Geo. Allen, J. F. Ives, Gen. Ransom, Miss Matt Ransom, Miss Annie Boyd and Mr. Charles Hollister.

Call at the Court House To-night.

C. Manly, President pro tem, calls a meeting of Democratic voters to meet at the court house to-night to organize a Cleveland and Scales Club and to make arrangements for the distinguished visitors to meet here and address the people at an early day. Give them a rouser.

Mayor's Court.

Edith Wood was before His Honor, Mayor Street, yesterday morning charged with disorderly conduct—"kicking up a row" on the streets. She was fined \$5.00 and cost. Not being able to put down the cash she was given thirty days to "kick up another row" on the streets.

Personal.

Rev. Mr. Lumley, of the N. C. Conference, and family, formerly residents of this city, are in the city and leave to-day for Portsmouth.

Messrs. J. N. Foscoe, John Simmons and F. Wilcox, of Jones, were in the city yesterday and appeared to be satisfied with the crop prospects.

Mr. Joseph Pede of the South Creek section was in town yesterday and reports crops looking well, but gives some remarkable statements of the havoc played with corn by the curlew bug.

Organize.

The duty to organize is now upon us; the utility of organization needs no argument, and there is but one way to meet it, and that is to ORGANIZE. We are neither an alarmist nor Siren, we would neither arouse the fears of the Democracy on the one hand nor lure them into a fancied security on the other, but tell them that the coming campaign will be one of earnest work. The Republicans always work, they are always organized, and it would be little less than criminal in the Democracy of this section to sit down and discuss what ought to be done, and what might be done, and go to the polls in November a disorganized rabble with neither head nor front to lead the column nor a rear guard to bring up the stragglers; we say but little less than criminal, because they have a first rate ticket, a good platform and a fair chance of success before them, but only attainable, we believe by well organized and intelligent effort.

Individual ideas of what to do, and how to do, should be freely given, but they should be given to an organized campaign club. One man may be able to suggest better than execute; another may be better at execution of plans than in devising them; but in a well organized club each will find his appropriate sphere and we will say right now there will be work enough for all. Talk is cheap but it takes work to wage a successful campaign. Let's go to the meeting to-night.

Too Cool.

Monday night was quite cool and while it rendered sleeping enjoyable, and made the mosquito seek a harbor from the gentle zephyrs yet it was against the excursion which was to come off by the steamer *Shenandoah* yesterday morning. Persons who awoke refreshed with such a nights rest felt but little disposition to seek a recreating trip on the water, hence a sufficient number did not present themselves to induce the ship to run the route, and it was postponed.

As usual, the JOURNAL had its effect, and we saw several Jones county people who came down to take the ride, who were apprised of it by reading our paper. To them we say try again; and to the ship owners we would say give a little longer notice, and we think the country people for some distance around would come in and go.

Kinston Items.

Turpentine—Hard, 80c.
Dip, \$1.40.
Beeswax, 25c.
Honey, 8c. per lb.
Hams, country, 14c. per lb.
Lard, country, 14c. per lb.
Hides, dry, 8c. per lb.
Meal, 90c. per bush.
Corn, 80c. per bush.
Potatoes, 60c. per bush.
Tallow, 5c. per lb.
Chickens, 35c. per pair.
Eggs, 10c. per doz.

The kitchen of that "man of letters," Wm. W. N. Hunter, caught fire last Sunday morning about church going hour, doing more damage, however, to the Sunday sermons than to the "man of letters" or the kitchen.

Col. Wm. C. B. Loftin indulged once more last Saturday evening in his favorite pastime—hoorahing on the streets—and was required by our "Good King Moses" to hand over, instantly, \$10 as a payment to go on the town mule debt.

L. J. Hill, the creek boat and shoe maker of Kinston, seeking the town mule at large last Monday contrary to the stock law, penned the animal and demanded his fees. The gallant Colonel of the Wayne county militia called it insurrection and telegraphed to Zeb Vance if he should proceed to suppress it.

The special Kinston tobaccoist, with a large concourse of people, responded with alacrity, last Sunday morning to the alarm of the fire bell, but when getting near the scene of the fire, some one told him it was at Bruton Taylor's.

"Oh!" said the tobaccoist, "there is too much lightwood—it will burn up anyhow and I'll go back home."

In the society of the Kinston elite, Lawn Tennis has bursted Croquet and the Reading Club. It is said the next amusement will be "Fly Loo"—a game in which all set around a table, with a lump of sugar in the fingers of each one, and the lump that attracts the first fly wins the pool made up by a ten cent contribution from each performer.

Winfield Scott McArthur was the first arrest for fast driving under the present "powers that be." The present elegant condition of Queen street since it has been well drained and graded tempted the young man probably, to show off his "240" mule. The Lord Mayor promptly discharged him, however, adjudging it utterly impossible to violate the ordinance even with the best mule ever brought from Kentucky.

"What's de matter wid dem people—what's da making all dat fuss 'bout?" said Uncle Caesar Croom last Saturday evening to Col. Henderson Nunn, pointing to a room adjoining the postoffice. "Don't no," responded Col. Nunn. "Come let's see." "By George," said the Colonel, "da holdin' a nominating convention with Adam Bowlegs in de chair and Frank Brown nominating de best Loosen Swamp farmer for de Legislature."

Since the rigid enforcement of the Sunday law by our town commissioners, the bar rooms now dispense "Mum," "Conservative Water" and ice buttermilk. Buttermilk should be used judiciously, however. It is very strong—much stronger indeed than many think. It contains no alcohol, but a large amount of phosphorus. Phosphorus acts on the brain. When a man arrives home from a "hung jury," hangs his coat on the spittoon, puts his watch in the water pitcher to cool and attempts to sleep with his head on the floor and his feet in the bed, it is an evidence his buttermilk has contained a large amount of phosphorus.

Notice to Mariners.

Notice is hereby given that, on or about August 1, 1884, a bell buoy, No. 4, to make the Middle North Breaker, St. Simon's Sound, Georgia.

Also, on or about the same date, a bell buoy will be moored in the place of black buoy, No. 3, off the knuckle which marks the turn in the main channel into Doboy Inlet, Georgia.

These buoys will be rung by the action of the sea.

By order of the Light House Board.
STEPHEN C. ROWAN,
Vice-Admiral U. S. Navy, Chm'n.

CLEVELAND AND SCALES CAMPAIGN CLUB.

To-Night at the Court House.

The members of this Club and all who wish to join, and all Democrats in the city are invited to be present.

The committee will report and an organization will be effected. Senator Vance, Gen. Roberts and other distinguished gentlemen now at Morehead are to make a visit to the city soon and will make speeches while here. The time will be set by the meeting to-night to give them an audience, and appoint the time and place for the grand rally.

C. MANLY,
President pro tem.

La Grange Items.

Rain in abundance Friday evening and night.

The walls of Sim. Wooten's brick stores are going up rapidly.

John Paris, of Tarboro, is visiting relatives and friends in our town.

Mrs. L. L. in *Agriculturist* recommends the planting of the Castor oil plants as a protection against flies.

From one pear tree in this township nine dollars in cash was realized from the sale of pears this year, besides a quantity used at home and given away.

Rev. J. D. Cavanaugh will preach in the M. E. Church here next Friday night, and at Hickory Grove on Saturday and Sunday. The third quarterly meeting for the year will be held on Saturday.

The crop reports for this section are not encouraging, and every succeeding report seems to be less so. It is believed that not more than a half crop of cotton will be raised, while the corn is said to be not as good as the growth would indicate.

The best thing to drive away rats is the peppermint plant; they cannot bear the smell of it and disappear. In the absence of the green herb, a few drops of the oil of peppermint should be equally efficacious.—*American Agriculturist*.

Rev. J. D. Carpenter preached at Hickory Grove last Sunday, as previously announced. His sermon was attentively listened to, and full of edification to Christians and admonitions to non-professors. Such discourses are a blessing to any congregation. His next appointment will be announced hereafter.

Your itemizer regrets the loss of an intended serenade last Sunday. The turnout of the serenaders was splendid, and the troupe composed of the best looking young men of the town and vicinity. The "Judge" appreciates the compliment, and "taking the will for the deed," returns thanks. The Wizard Oil Co. may look to their laurels.

The executive committee for Moseley Hall township met last Saturday evening, and organized by electing S. I. Sutton chairman, a Cleveland and Scales club will be organized next Friday at 3 o'clock, p.m. The Democrats and all good citizens of the township are invited to be present and assist in the organization. The township meeting to elect delegates to the county convention will meet at 2 o'clock p.m., August 9th. Efforts will be made to have one or more speakers present.

Willie Reid, while asleep about 1 o'clock last Sunday morning, got up and jumped from the second story window of Edwards & Murchison's store to the roof of Burk's bar-room. The distance is about ten feet, and the jar awoke the sleeper. A little assistance from his brother, sleeping in the same room, brought him back unhurt. This is the first case of somnambulism known in our place, and we would not advise the constant practice of such, as all may not have so harmless a termination.

Stonewall Items.

Jas. H. Gaskins lost a good farm horse a few days since. The second one this year; serious loss to Haze.

Mr. Marler, of South Creek, was over here Monday with his daughter for treatment for her eyes by Dr. Attmore.

Chas. H. Fowler and W. T. Cahlo left Monday for a trip to Morehead City. Recreation is good to all who can afford it.

Corn has gone back from \$1 to 80c. per bushel, and ere long the owner will be glad to get 60 cents. Mark my prediction.

Mr. Bill Midyette, of South Creek, brought to our market Tuesday morning a fine lot of mullets, which he had no trouble to get rid of; all hands were fish hungry.

The Republican nominating convention is billed for the 24 day of August. The Democratic mass meeting is posted for the same day, both to come off in Bayboro.

B. Bennett says his neighbor, Henry Ippock has had two steeltraps setting, catching his (Bennett's) chickens, for he saw the trap with his chickens in it. Pretty good evidence.

Quite a pleasant change in our steamboat warehouse here. No patron of the line need fear being insulted now when he goes after his freight. If any person wants a pair of mated domesticated wild geese or a natural stump tail cat can be supplied by addressing Jas. S. Lane, of this place, for terms, etc.

Wm. Potter, sr., is canalling out a fine piece of swamp land in the mill pond section which will add many acres to the arable land in that neighborhood. I verily believe that if parties owning swamp land that cost so much to cut leading canals to drain it would try boring wells and drains in them like the frog pond in your place is drained, would save many a dollar. I am sure the experiment is worth trying.

Little Grude, son of H. H. Dowdy, of Bayboro, was thrown by a horse several days since and has been attended by Dr. Attmore for several days. Is not fatally, but seriously ill. An infant child, some three weeks old, Church Miller, of the same place, died on last Sunday and its mother, Mrs. Miller, is, and has been, very sick for some time. John Lewis died last night at his home below Trent. He is the man whose first wife so mysteriously disappeared a few years since and has not been heard from. He leaves a second wife.

Colored Normal School.

Dr. R. H. Lewis, President of Kinston College, will, until further notice, give instruction as follows:

Every morning at 9 o'clock, a lecture on School Management and Discipline. Three times a week, at 3 p.m., a lecture on Physiology and Hygiene.

J. A. SAVAGE,
Superintendent.

Jones County Items.

We were favored with a good rain on Friday last, which was very much needed.

Captain E. R. Page has a fine patch of four acres in cotton in Trenton; the best that I have seen this year.

Lewis M. Pollock has taken eight beehives, which he says yielded him 72 gallons of good strained honey.

Watermelons are getting plentiful now. Mr. Green and Dr. Scarborough had better lay in a fresh supply of quinine, as the chills and fevers always follow the melons, and quinine follows also.

The Free Will Baptists held their communion meeting at the Nethercutt school house on Saturday and Sunday last by washing each other's feet and taking the sacrament. I understand that the members were all present and a large congregation met there also.

Mr. Thos. Harrison has had Mr. Friar to protect his dwelling by having him put up some rods to his dwelling. Mr. Friar says that while there he had the pleasure of seeing some as good corn as he has ever seen in this country. E. M. Foscoe also employed Mr. Friar to put some additional rods to his dwelling, besides having him place on them some nice ornamental works.

Business of every kind is dull; merchants, mechanics, and farmers, too, are all looking forward to the time just ahead when cotton will open, which will put everything in motion. Even the average darkey is peeping ahead wishing that their good time would hasten on so they could get plenty of work and good pay picking cotton. Cotton is king, so they say, and I must say he is king over all who raise him and all who are dependent on the raiser, too.

Duplin is still ahead. I see in the last *Messenger* a correspondent says a Mrs. Williams, of Duplin, has a collar that measures 8 feet across the top, which beats Mr. Oxley's collar just 2 feet. Can't some of our collar men do a little better than 6 feet; 2 feet is too bad a beat. Duplin, I hope, will secure her collar and send it to Raleigh to the exposition. As to our county, it appears that our people have not a sufficiency of public spirit and county pride to take any interest in the exposition, whatever.

THE DAILY JOURNAL has failed to arrive at our office two or three times in three weeks, much to the annoyance of our whole vicinity. You have no idea how disappointed we all are when it fails to come. On the 9th of July the JOURNAL took a trip somewhere and did not arrive until the Saturday following, which was an annoyance to us all, as every one had a thought on Chicago and was eager to learn who had been nominated. It appears that our mails are certainly out of joint some way, for I had a letter mailed to me at Jacksonville last October and never received it until a few days ago, it having taken the whole time of 8 or 9 months to travel about 35 miles.

We hope every voter in Trenton township, who desires the success of good government, will meet at Trenton on Saturday, the 26th of July, for the purpose of organizing and forming a Cleveland and Scales Club. We desire a full attendance of the Democratic voters, as we wish to consult with them as to the best plan of action to be pursued in the township during the campaign. Let us all meet and understand each other and consult together and have the township thoroughly organized, so we can at a short warning meet the enemy and check him in his every move. Remember if we have proper concert of action we can the more easily carry out our points. Let us show the enemies of our good party that we are ready to meet them, not only ready, but prepared to meet them, and let us not leave anything undone that is honorable to secure the election of the whole ticket.

DIED.

At the residence of T. J. May, in this city, on Monday evening, July 21st, of malarial fever, Richard M. Brock, son of R. J. and Susan M. Brock, in the 24th year of his age.

The funeral will be held at Stony Branch Church, in this county, this morning at 10 o'clock. The services will be conducted by Rev. A. McCullen. Friends and acquaintances invited to attend.

Notice to Public School Teachers.

In order that the examination of teachers for the next Public School term in Craven county may not be crowded, but may be conducted regularly and in order, I hereby give notice that I shall begin to examine applicants in the first week of August. Teachers of the last year are expected and requested in every case to bring the certificates of that year with them. I desire to fix in advance, beginning with the colored Normal School, the particular days best suited to the convenience or preparation of those who expect to teach. Very respectfully,

July 21, 1884. JOHN S. LONG,
22d3wlt

WAR! WAR! WAR!

The greatest political war perhaps for the last century is now about to open, and that every Cleveland or Blaine man may take an active part in this great political fight, it is of great importance that he should commence at once to lay in his supplies of Groceries and Dry Goods at the Great Cheap Cash Store of HUMPHREY & HOWARD'S, that he may give the necessary time to achieve the greatest victory ever gained in these United States. The war has actually begun from the Presidential Chair down to the lowest county offices. Some may cry peace, peace, but there will be no peace until every man shoulders his pocket-book and goes down to the Great Cheap Cash Store of HUMPHREY & HOWARD'S, and buys a supply of Dry Goods, Groceries, Boots and Shoes, etc. Sold at the lowest living prices. dw

Firemen Coming.

Having received notice from the Salamander Fire Company of Washington and the Rough and Ready Fire Company of Greenville, N. C., of their intention to visit our city on the 29th inst., we, the joint committee of the Reliance Fire Company No. 1, and the Rough and Ready met and are making arrangements to receive them. We ask the aid of the Board of Councilmen and the citizens in contributing to the companies so as to enable us to give them a grand reception.

Committee on Finance—C. R. Robbins, L. L. Lewis and G. R. Green.

Joint Committee of Arrangements—L. L. Lewis, W. W. Lewis, W. M. Moore, Geo. R. Green, Collins Cutler, C. R. Robbins, Geo. Banks and Dock Stamps.

W. W. LAWRENCE, JR., Ch'mn.
R. C. BAKER, Sec'y.
