Last day of August.

Fall does not begin to-morrow.

Three-fourths of the year is past.

John Banyan died Aug. 31st 1638.

County commissioners meet to-morrow.

Our Mayor held a full term court yesterday. Seven cases were disposed of for disorderly conduct and keeping disorderly houses. They were discharged on payment of cost, except one who cursed out \$2.00.

Messrs. Geo. Allen & Co. received from Rev. G. W. Sanderlin by the *Shenandoah* a lot of the timothy hay, made upon the farm of that gentleman, near Elizabeth City. The quality is pronounced very good and will meet, we hope, a ready sale.

Mr. E. R. Cox showed us a basket of extra fine apples and one pear yesterday, raised on his plantation near the city. They were fully as good as any exhibited at the fruit fair. We hope he may be able to keep some of them for the State Exposition.

The New York *Herald* puts Cleveland's electoral vote down 277 to Blaine 124. That paper predicts a tidal wave for Cleveland between now and November. Surely the opinion of this leading journal with its facilities for information ought to counteract any influence that the opinion of Mr. Satterlee, published in the *JOURNAL* a few days ago had upon weak kneed Democrats.

Next Wednesday night is the time for the meeting of the Central Cleveland and Scales Club of Craven county. The Committee on Hall will announce the place of meeting in due time. In the meantime the books are open and all who have not enrolled their names as members can do so by calling at the *JOURNAL* office. We wish to see the Democrats of Craven show their faith by their acts in this contest. If they believe their party to be in the right, and we think we know it is, and have confidence in the nominees, and we see no reason why they have not, then they should go to work earnestly; organize and make a strong effort to get the people out to the polls and try to get them to vote the ticket.

The Swallows Homeward Fly.

Dr. Geo. Slover and E. W. Smallwood have returned from the West.

W. M. Watson and family have returned from Morehead.

Clement Manly, Esq., returned from a trip North last night and is in fine trim for the fall courts and the Cleveland and Scales campaign.

County Offices Removed.

The offices of the Register of Deeds and Clerk of the Superior Court were removed from their old quarters yesterday, and will open tomorrow in the McLean building.

Mr. Nelson, the Registrar, will receive visitors at the Pollok street entrance near the east end of the building, while Mr. Carpenter will have his office at the Craven street or main front entrance.

A Wonderful Discovery.

The account of the discovery of a subterranean river at Birmingham, Alabama, which we publish on our editorial page, was handed us by Gen. Ransom who received it from his sister who lives in Birmingham only a short distance from the entrance to the stream. It is a most wonderful discovery and further explorations will be watched with much interest throughout the country.

The Cotton Crop.

In conversation with Mr. E. B. Cox, one of the best farmers in Eastern Carolina, on yesterday, he spoke rather unfavorably of the prospects for a large yield of cotton in this section this fall. He says the growth of the weed is very good, but it has fruited poorly; and while the crop is considerably better than last, which was the poorest for many years, yet it is nothing like a full crop, and farmers who expect a full yield will be disappointed. He is hopeful, however, of a better price.

A Healthy Town.

We are gratified to learn that our city is at present enjoying a fine condition of health. There is less sickness, we are informed, than there has been at this season for some years. Much credit is given to the shelled streets and the drains bored by the authorities, in producing this effect.

This is encouraging to the can't-get-away-portion of the community as well as to those who are returning from their tours in search of health and pleasure, and we trust that this condition may continue.

Factory Removed.

Capt. S. H. Gray has been engaged for some days in moving the machinery of his plate factory to his new building, on the South side of the river, and has nearly completed the job. He will be at work in his new quarters in a week or so.

Personal.

Major W. A. Hearne is in the city.

S. H. Scott left for New York yesterday.

Alexander Miller has returned from his trip North.

Rev. C. A. Jenkins has returned from his vacation and will occupy his pulpit to-day.

Church Services To-day.

There will be services to-day at 11 o'clock a. m. and at 8 o'clock p. m. in the First Baptist Church, by the Pastor, Rev. C. A. Jenkins.

Presbyterian Church—There will be services at the Presbyterian Church by Rev. Dr. Burkhead at 8 o'clock this evening.

Christ Church—V. W. Shields, Rector. Twelfth Sunday after Trinity. 8 a. m. Holy Communion. Other services at 11 a. m. and 6 p. m. Sunday School at 5 p. m. The public are always invited to attend the services of this church.

Methodist Church—There will be services at the theatre this morning at 11 o'clock by Rev. Dr. Burkhead. Sunday School at 4. Seats free and public cordially invited.

MARRIED.

In the Freeman street Baptist Church, in the city of Norfolk, Va., on Thursday, August 28th, at 5 p. m., by Rev. Dr. Burrows, Mr. H. B. Duffy, of New Berne, N. C., to Miss Juliet A. Core, of Norfolk. After the ceremony, the happy couple took the Bay steamer for a Northern tour.

AT CONCORD.

The Gubernatorial Canvass Quieter
Special Dispatch to the News and Observer.

CONCORD, N. C., August 29.
The candidates met here to-day. There was a calm after the storm. A large crowd greeted the candidates, estimated at 1,500. All was quiet and orderly. York behaved himself. He made his usual rambling speech about the tariff, the internal revenue, the poor man's party, and the Blair bill. His strongest language in referring to Gen. Scales was that he "mystifies things." There was no reference to the topic that provoked the disturbance at Salisbury. York spoke without a cheer and sat down in silence. He made no impression. Mott, Humphrey and York had been in conference this morning. Gen. Scales made a strong speech and made a fine impression. The crowd manifested deep interest, standing four hours to hear the discussion. York appears hacked and used up. His reply to-day was a complete failure. When he said Zeb Vance belonged to the "Cobden Club," whose purpose was to break down American labor, the crowd yelled "Hurrah for Vance!" He knows what he is about." Scales concluded his speech with an eloquent tribute to Cleveland, predicting his triumphant election.

Pollokville Items.

Crops are doing well.
There is much sickness in our vicinity now.
Fodder saving time has been blessed with fine weather.

Mr. J. N. Foscutt set 'em up to muskmellons the other day.
The town laws have gone up; fleas are likely to make us go up now.

Charles Whitty has just returned from Baltimore, where he went to purchase his fall goods.

Mr. Joseph Whitty has been quite sick since his return from Florida. We are glad to see him up again.

We are glad to note that Mr. A. H. White, who has been very sick for the past week is now slowly convalescing.
Miss Willie A. Bell, one of Jones county's fairest daughters, has returned to Greensboro to complete her collegiate course.

Richard T. Croome.

LENOIR CO., N. C., Aug. 27th, '84.
EDITOR *JOURNAL*—The letter of enquiry of Mr. Wm. D. Murphy of Albany, N. Y., relative to "Richard T. Croome who lived in New Berne about 1830 and his heirs" which you requested me to answer was received yesterday. The gentleman Mr. Murphy alludes to is probably Richard Croome, a native of this county.

His father was Gen'l William Croome, one of the most prominent men of his day in this part of the State, who died in 1829 and was buried on the plantation now owned by my friend Capt. Sam'l H. Rountree. His mother was Mary Bryan, daughter of Col. Nathan Bryan who died and was buried in Philadelphia while a member of Congress then in session there. She died in 1807 and was buried by her husband.

Richard Croome, the 3d son of his father, was born Sept. 20th, 1805, and died in Alabama Feb. 2d, 1869. He was at school in New Berne and afterwards spent some time in that city with his older brother, Hardy, who was noted for his literary attainments and afterwards lost with his family on the ill fated "Home."

Richard Croome married Winnie Whitfield, daughter of Gen'l Bryan Whitfield of this county and lived a while, I think, at Tower Hill where Mr. John Tull now resides. He afterwards moved to Sumter county, Ala., where he bought large real estate; he also owned valuable lands in Leon county, Florida. His children were, Winnie, who married Geo. W. Sappington; they lived in Florida; she died, leaving one son, Richard, who, with his father, moved to Louisiana. I don't know whether they are living or not. Mary W., 2d daughter, married Richard A. Whitfield, Esq., died in 1867 leaving five sons who are now living with their father in Tallahassee, Florida. Susan M., the youngest daughter, is the wife of Maj. James G. Whitfield of Livingston, Ala. She is the only surviving child of Mr. Croome. Nicholas P. never married—died in Sumter county, Ala. Bryan W. married a Miss Marshall of Alabama and died without issue. His widow is now the wife of Col. W. B. Gere of Gaston, Sumter county, Ala.

Mr. George Alexander Croome, of Tallahassee, a half brother of Mr. Richard Croome, is the only member of that generation now living.

Mr. Editor, I have told you of the only Richard Croome that I ever knew about New Berne, if there is any other probably my old and valued friend, Col. Wm. G. Bryan, of New Berne, can tell you.

Very truly,
N. B. WHITFIELD.

Seven Springs, N. C.

Cheap John.

An Austin Israelite, says the *Texas Siftings*, has his dwelling and place of business in the same house, which is quite a small one. There were several customers in the store when his wife, who is a very affectionate creature, called out from the next room:

"O, Schon, my dear Schon, come to dinner."

A shade of rage passed over his Hebraic features, and going to where she was, he seized her brutally by the arm, and with a voice hoarse with annoyance, said:

"Rebecca, does you want to ruin me in my piness? What for you call me dear Schon, ven I wants to be known as sheep Schon? Do you want to have dot peebles lose confidence in me?"

In Japan, as in America, the gentle sex monopolize most of the attention of society, while their unfortunate brothers are left to struggle for themselves. This discrimination begins early in life, for it is the Japanese custom to give baby girls the names of delicate and lovely plants or flowers, while the boys are simply numbered, and are known as First-boy, Second-boy and so on.

A CARD.

Owing to a radical defect in the alteration of the warehouse at Union Point for an ice house, the meltage has exceeded to a considerable extent, what is known to be the average loss as laid down by experts. This excessive lossage has caused the undersigned to be out of ice at this date, much to his disappointment, and the inconvenience of his patrons. Had it been possible to alter the building to have temporarily answered the purpose of storing ice, he would have ordered ice to supply his customers through this season. Under the circumstances, he respectfully requests the public to judge the matter with leniency. At a future date, probably by next January, the building now used as an ice house will be torn down, and on its site, will be erected an ice house of the most improved modern model. Those not desirous of holding their ice tickets until next season, may have them redeemed by sending the same to ice depot.

R. O. E. LODGE.

WISE AND OTHERWISE.

THE WAY OF THE TRANSGRESSOR IS HARD.

Richard Tweed eldest of W. M. Tweed of New York, has died in a mad-house in France, and left little or no property.

DON'T WANT ANY.

The Cantonal authorities at Berne have resolved to impose a fine of 200 francs, or three days imprisonment, for violation of the order prohibiting Salvation Army meetings.

A PRINCESS SICK.

A Berlin telegram of the 27th states that the fever from which the Princess Victoria, wife of Prince William, of Prussia, is suffering continues with unabated severity.

DR. TANNER IS LEFT.

FORT PLAIN, N. Y., Aug. 27.—This is the 109th day of Kate Smulsey's fast. Dr. Zoller says that at his request she took to-day a piece of steak the size of a caramel, masticated it well, but swallowed the juice only. It caused great distress, but he will attempt it again. He believes that there is not the slightest hope for her. She still looks well. Her flesh is hard. She keeps up the constant motion as before, and sleeps about one hour a day.

THEY STILL WISH TO TRY.

ST. PETERSBURG, Aug. 27.—The Ministry of Marine has issued to several learned societies a plan for a Russian polar expedition. The idea is to have several large parties start from Jeanette Island and proceed entirely on foot across the ice, leaving large depots of provisions in their rear. It is thought that there are many islands north of Jeanette Island that could be utilized.

FRENCH FASHIONS.

PARIS, Aug. 27.—The trial of the directors and managers of the Banque de Lyons et Loire, which failed two or three years ago, was concluded yesterday. M. Savary, an ex-Deputy and at one time Under Secretary of State, was sentenced to five years in prison, to pay a fine of 20,000 francs, and to suffer for ten years a suspension of his civil and political rights. M. Zielenki, the manager, was sentenced to five months in prison and to pay a fine of 3,000 francs; M. Bellantani, sub-manager, four months in prison, with a fine of 5,000 francs. The rest were only fined, the amount ranging from 1,000 to 10,000 francs. M. Savary, the chief offender, has fled the country.

THEN SHARKS WILL BITE AND FIGHT.

Edward S. Monroe, of Farmersville, Ind., who is visiting friends in Bayonne, went on a fishing excursion to Prince's Bay on Tuesday. As he was dipping his right hand in the water two of his fingers were bitten off by a shark. The shark showed fight, and was struck several times with the oars before it would leave the vicinity of the boat. Monroe was taken to Huguenot, Staten Island, where his wounds were dressed by a physician.

DEACON WHITE AND JULIAN NATHAN.

Julian Nathan bought a put of Deacon S. V. White on 500 Union Pacific for the week. According to the practice of the Stock Exchange, privileges for the week expire at 2 1/2 p. m. Saturday. Nathan, who is a very orthodox Jew, does not deal in anything on Saturday, and tried to get the best of White's privilege. Upon meeting White at the Exchange, he told him that the privilege he held was one day to his disadvantage, and that any Christian could deal upon it for six days, while he had only five to deal in.

White's answer was: "My dear Julian, I am a religious man myself, and I shall have to give you an extension. You can put to me that stock on Sunday. You will find me at Beecher's church, in Brooklyn. I shall have a check ready in my pocket if you bring the stock."

A BLESSED PEOPLE.

In Warsaw the police of the city have posted placards in the public places announcing that the Czar of Russia will arrive here at the end of the month, and giving the people permission to decorate and illuminate their houses on that occasion.

BLUEFISH AND MACKEREL.

Near New London schools of voracious bluefish have driven the mackerel along the coast out to sea. They are caught in large numbers and of the best size and quality about five miles south and west of Block Island. Bluefish are plentiful at Block Island, but they will not bite. Small boat loads are occasionally taken. The fish are the largest ever known at the island.

Boat loads of the fish average nine pounds in weight apiece. Hundreds of guests at Block Island hunt the fish daily, and old boatmen say that the passing of so many boats across the water frightens the fish so that they go to the bottom and sulk.

AN ALARMING REPORT ABOUT THE CATTLE DISEASE.

Dr. Salmon, of Washington, reports that the disease among cattle in the West is positively contagious pleuro-pneumonia. He says: "We have not been able to decide which of the animals brought it to the Virginia sale; but one that came from Dye of Ohio was sick with inflammation of the lungs, supposed at the time to have been the result of exposure. This is the most likely origin of the disease, and, if the suspicion proves correct, it makes the matter still more serious. Dye is the most extensive speculator in Jersey cattle in the country, and has sent cattle into nearly every herd in the West. If his herd is infected, the disease must have been spread to nearly every State in the Union."

THE TENDER CONSCIENCE OF SWEET SIXTEEN.

A novel contribution to the conscience fund was received at the Postoffice Department in the shape of a two cent postage stamp enclosed in a perfumed note. The sender, who signs herself "Sweet Sixteen," writes that she inadvertently used a cancelled stamp upon a letter that found its destination, and she cautions the postoffice officials to be more careful in future.
