NO. 133.

## LOCAL NEWS.

### NEW ADVERTISEMENTS.

J. J. WESTBROOKS—Liquor for sale.  
P. G. SIMMONS—Cotton broker, etc.  
STEED & THOMPSON—Dissolution.

### Journal Miniature Almanac.

Sun rises, 5:38 | Length of day,  
Sun sets, 6:26 | 12 hours, 53 minutes.  
Moon sets at 9:38 a. m.

### September.

September opened up cool and pleasant.

Mr. Simpson is pushing the work on the graded school building.

Wednesday night is the regular meeting for the Cleveland and Scales Club.

The Experiment, of the Clyde line, arrived on Sunday with a good cargo of general merchandise.

The American Jacks yesterday bought their engine. As yet it is not on wheels but they can get on a stream, just the same.

An unknown steamer ashore on Rehoboth beach, was reported by the signal service station at the Delaware Breakwater on the 28th, ult.

Mr. R. G. Mallett, of Riverdale, was in the city yesterday. He reports a flourishing Cleveland and Scales Club in the 8th and 9th townships.

Among the names of the young men authorized to report to the Naval Academy for examination yesterday for the position of cadets, we notice that of L. B. Myrick, of North Carolina.

A quiet rowing party was considerably agitated Saturday night by a fish taking passage with them uninvited. He jumped on board attracted probably by the brightness of the countenances.

We call attention to the card of Mr. F. G. Simmons, cotton broker and commission merchant. Mr. Simmons will give attention to all business entrusted to him and give satisfaction to his patrons.

The county commissioners were in session yesterday and declared the McLean building, on the corner of Pollock and Craven streets, to be the court house of Craven county until further orders. The board will be in session to-day.

The only disturbance in the city on yesterday was the striking of a little girl in the stomach by a negro boy with a piece of brick. A policeman being near by arrested the youngster and took him to his grandpa who spared not the rod.

The Committee on Contributions for the Cleveland and Scales Central Club will call on the Democrats of the city during the week for contributions to the campaign fund. All intelligent Democrats know the necessity of this fund and will respond in proportion to their ability and desire for the success of the Democratic ticket. No organization can be kept up without money, much less can an active campaign, such as one as will have to be made in Craven to bring out the vote, be conducted without funds. So then let every good Democrat respond with something, no matter how small.

### Personal.

Josephus Poed, Esq., of South Creek, was in town yesterday and reports the crops in fair condition.

### Give Credit for Candor if You Can't for Piety.

The Rocky Mount Reporter begins an account of a hunting expedition thus:

On Sunday, the 17th day of August, in company with a party of gentlemen, we left this place, all loaded down with guns, ammunition, blankets, and in fact everything that goes to make a camp hunt complete.

### Have Completed the Ticket.

The Republican and Liberal State committees were in session last week at Greensboro and filled the vacancies on the State ticket. Geo. W. Stanton was nominated for treasurer and W. G. Candier for secretary of state. Washington Duke of Durham was nominated by the convention for treasurer and declined, and now Mr. Stanton, who was nominated for secretary of state, takes that place on the ticket, and Mr. Candier takes the one originally assigned to Mr. Stanton.

### Society for Prevention of Cruelty to Animals.

Raleigh is starting a society for the prevention of cruelty to animals. A good move. New Berne had one some years since but we believe it went down because G. W. Nason, Jr., the principal mover in the matter, left the city, and not because there was no cruelty to prevent.

Mr. Bergh, of New York, has rendered his name immortal and a service to the brute creation beyond expression, by his efforts in that direction. The present move being at the capital, it is to be hoped will make better progress than ours did, and that it may spread to every county in the State. There is need of it.

### Steamer Movements.

The Elm City from Bayboro.  
The Kinston for Kinston.  
The Experiment for Baltimore.

### Revivals.

The Free Will Baptists have been conducting an interesting revival at Mill creek, Jones county, during the last week. Nine were baptized last Sunday morning.

Rev. A. D. Betts, of the N. C. Conference, is conducting a revival at Lee's Chapel, near Pollockville, Jones county.

### Another Steamer Run Down and Sinks in Six Minutes.

The excursion steamer *Rose Standish*, with 125 passengers on board, was run down by the powerful tug boat *W. A. Gore*, in Boston harbor on Thursday morning of last week and owing to a well-drilled crew and cool officers, the whole of the passenger and crew were taken off without even wetting a garment, although she sunk inside of six minutes after the collision.

### Nominations in Jones.

At the Democratic convention at Trenton yesterday the following nominations were made:

For House of Representatives, P. M. Pearsall.

For Sheriff, John C. Parker.

Register of Deeds, K. F. Foscoe.

For the Senate, Dr. Cyrus Thompson was recommended to the convention at Swansboro.

Dr. Thompson was present and made a stirring speech.

### Passengers for the West.

The following persons left for the West on the excursion train yesterday morning:

E. H. Barnum, Dr. Wm. Poll Ballance, D. P. Henry, B. G. Credle, E. K. Bryan, T. C. Daniels, W. P. M. Bryan, Capt. David Roberts, E. S. Street, J. H. Hackburn, Mr. T. E. Mace, Mr. Enoch Wadsworth and lady, Mr. Roe and lady, Mrs. J. R. Wagner and Miss Rachel Brookfield, from this city; Mr. Wiggins and family, from Morehead, and a party of gentlemen from Washington whose names we could not get.

### Dr. W. H. Barker.

This well known phrenologist is talking phrenology to our people and feeling the knobs of their heads this week. He is lecturing nightly at the court house and will probably be with us until the middle of next week. Phrenology is an interesting science and Dr. Barker is remarkably interesting in his exemplification of it. He is one of the most entertaining of talkers, and whether in private conversation or before a public audience, he can command undivided attention. The people are always glad to see him when he comes around.—*Statesville Landmark*.

### Reaching for the Shadow May Lose the Substance.

Senator Plumb, of Kansas, was at Greensboro trying to establish a perpendicular for the Republicans and Liberals last week, and Judge Foraker, of Ohio, was in Virginia. Now it might look funny if both of these gentlemen should find their States wheeling into the Cleveland line in November. We respectfully submit it as our opinion that such an event is much more likely, than that either North Carolina or Virginia should go for Blaine, Foraker and Plumb's visits to the contrary, notwithstanding.

### A Child Lost.

On Sunday at Rabbit Hill church, on Mill creek, near Pollockville, there was a large meeting and a baptism at the creek not far off. Mr. Henry Hall was there and had with him his little boy, about three years old. After the baptism he took the child to the house of his grandmother, Mrs. Mercer, near the church, and left it with her, and went to the church to preaching. Some time after this the little fellow started out at the yard gate, saying he was going to look for papa. Mrs. Mercer, thinking it had gone to the church, and Mr. Hall not knowing that the child had left the house, the little fellow was not missed till about dinner time—probably two hours after he had gone out at the gate. The alarm spread rapidly through the neighborhood and a hundred or more people were in eager search up to midnight without discovering any traces of the child's whereabouts. The parents are in deep distress and have the sympathy of all who hear of it.

LATER.—We are glad to report that the child was found yesterday about noon alive and well. He had wandered into a deep woods, was all the particulars we could get over the telephone.

The gloomy fears, the desponding views, the weariness of soul that many complain of, would often disappear were the blood made pure and healthy before reaching the delicate vessels of the brain. Ayer's Sarsaparilla purifies and vitalizes the blood; and thus conduces to health of body and sanity of mind.

### Biased Reports.

EDITOR JOURNAL.—Will you not give your many readers the full statement of the joint discussion between Doctor York and General Scales at Salisbury on the 29th as it appears in the Raleigh Observer of the 30th of August? This report was made by Mr. S. A. Ashe, the editor of the Observer and not D. R. Walker. I was present at the meeting and know the report to be as fair as it is possible for a Democratic editor to give the public through his paper, much better than most of them would have given, and although I differ with Mr. Ashe as to the cause of the disturbance I desire that your readers may read and judge for themselves if Gen. Scales had any cause or provocation to have used the epithet he did towards Doctor York and for the further purpose of judging how bias and one-sided the reports of Walker have been of the other meetings between the two candidates, so they can in the future be able to make due allowance for his statements regarding these discussions. By reading Mr. Ashe's report of the Salisbury meeting and Walker's, in the same issue, of the Concord meeting they can judge for themselves if the man that could remain cool, calm, and self-possessed as Doctor York did at Salisbury in the centre of a howling mob would appear hacked and used up the next day at Concord where all was quiet and peaceful. Walker has gone a little too far; the people know him and he has been exposed by the editor of his own paper in his appearance in the field and reporting the Salisbury meeting.

Respectfully,

REPUBLICAN.

We cannot comply with "Republican's" request for two reasons; 1st, the report of the speeches covers nearly an entire page of the *News and Observer*, entirely too much for an issue of the JOURNAL, and 2nd, we have lost the paper that contained it. But so far as we are concerned we do not hesitate to say that we disapprove of the language used by General Scales on that occasion, and we believe we speak the sentiments of all thoughtful and fair minded Democrats; and we do not doubt that General Scales himself regrets that he lost his temper, no matter how great the provocation. Such language as was used at Salisbury, if persisted in, would result in a personal encounter, and it is fearful to contemplate the result of a fistfight between two candidates for Governor in a crowd of two thousand people, where the friends of each had been wrought up to the highest pitch. If Dr. York so far forgets himself as to make reckless charges for the purpose of irritating his opponent, Gen. Scales is but playing into his hand by descending to notice them. Dr. York cannot truthfully assert that Gen. Scales was lacking in courage during the late war, and a denial of the charge is totally unnecessary on the part of Gen. Scales, for the people of North Carolina are satisfied on that point.

But how does "Republican" know that D. R. Walker's accounts of the discussions have been so "biased?" The fact that Dr. York was cool, calm and self-possessed on one day is not proof positive that he would not appear hacked and used up" the next day. The first speeches, at Newton, were reported in full in the Raleigh Register, and according to our way of thinking Scales won a victory. Besides, we have seen gentlemen who heard the discussion at Marshall and they say emphatically that Scales made votes. D. R. Walker is a Democrat, and of course desires the success of the Democratic ticket, but we do not believe that he would wilfully deceive the people even in reporting a discussion between the candidates of the two parties. The *News and Observer* can't afford to let him do it; the Democratic party can't afford to have it done. Of course some allowance must be made for a man's inclinations. Walker naturally desires to see Scales victorious in the discussions, and may color the reports when he honestly believes his man has won the victory. But we know that Walker is just as free from bias in his reports as "Republican" would be, if not a little more so.

### A Bed of Wild Roses.

Several miles this side of Trenton, N. J., on the line of the Pennsylvania Railroad, is a beautiful bed of wild roses, over six acres in extent. The flowers, freshened by the recent showers, are very fragrant and are a source of great interest to the passengers on the trains. The variety is known as the "dog-rose." They grow only in marshy land.—*N. Y. Herald*.

The Emperor Louis Napoleon smoked only the finest cigars the world could produce. Prof. Horsford says the Emperor's cigars were made specially for him in Havana from leaf tobacco grown in the Golden Belt of North Carolina, this being the finest leaf grown. In order that American smokers may have as good tobacco as the late Emperor, Blackwell's Durham Long Cut is now offered to the public. It is made from the same leaf used in the Emperor's cigars, is absolutely pure and is unquestionably the best tobacco for either pipe or cigarette ever offered.

HANOVER, O., Feb. 13, 1884.

After having lung fever and pneumonia I had a dreadful cough and could not sleep at night. The doctors told me I had consumption and would die. I have taken six bottles of Pico's Cure and my cough is entirely gone, and I am well as ever.

### Gum Branch Items.

E. W. Murrill and son have splendid crops, both corn and cotton.

Friend Jack Murrill is still bragging on his brag piece of cotton and he has a right to brag, for it certainly is a fine piece of cotton.

Another party out deer hunting to-day (Thursday), and while I write the dogs are making pretty music. A large bear came out to see us Tuesday, but did not tarry long, and we didn't care much either, not that we are afraid of bears, but we were busy just then and didn't have time to fool with bears.

Thanks to Mrs. C. Stephens for a nice bucket of fresh country butter, and watermelons. While melons may not be a rarity to some they are to us, sure, and a present of anything that is a present is acceptable to us, especially a tin bucket of nice butter. Mrs. S., c-c-can't you, or—if you do so any more, we won't throw it away, so you need not be afraid of that. Irish potatoes and butter are not bad to take, if any one loves them like us.

We receive some fine fruit now and then from our friends. Wednesday we received some of the finest and largest pears of the Le Conte variety we have seen this season; one of them, sent to us by Miss Katie Venters, weighed 16½ ounces. Thanks, Katie, please do so again. They were grown by her father, Mr. S. Venters, who has a great variety of pears, apples, peaches and grapes. Also, we received some very fine apples from Mr. Ned Murrill; some time do so again, Ned, and don't forget it.

Another big picnic at the Alum Springs last Friday. It was a combined Sunday-school picnic, in which all, or nearly all, of the schools in the county were represented. A very large crowd were there, and it is said to have been one of the grandest affairs of the season. Dancing, singing, instrumental music on pianos, organs and violins, made the whole one brilliant and pleasant affair. Mrs. Joseph Rhodes, Mrs. S. B. Taylor and other ladies performed on the organ, while Oscar Hartsfield, Walter Murrill and other gentlemen accompanied with violins. The young ladies were from all parts of the county, and several from other counties.

Cad, Koonce and Ed. Franks have talked so much about their fine prospects in farming, that other people begin to look around too, and find out the best way to be found out was to brag a little now and then on their crops, like Cad and Ed. But it certainly is a fact in our community that people won't have so much corn to buy next year, that is, if no worse things happen than have happened so far, and such is the case, I hear, all over the county, and provisions are not very high in price, though turpentine is very low. We quote the prices of a few things we buy as follows: Beef, 5 to 6c; dressed lambs, 6 to 8c; dressed chickens, 12 to 25c; eggs, 10c; cabbage, 1c per pound; onions, \$1.00 per bushel; country butter, 25c per pound; cider, 15c per gallon; green apples, 83c per bush.; Irish potatoes, good, \$1 per bush., and so on; and if the good farmers make as good crops as expected, they ought to live and help others to live also.

### GENERAL NEWS.

HAVANA, CUBA, Aug. 30.—The steamer City of Merida took fire in the harbor here yesterday and was completely destroyed, together with her cargo. The latter consisted of 1,400 bales hemp, \$17,000 in silver from Vera Cruz, 912 bales tobacco and 537 bags sugar, which were shipped here for New York.

ST. PETERSBURG, Aug. 30.—Another outbreak against the Jews has occurred, this time at Dubrovitzka, near Kovno, in western Russia. The anti-Semitic mob pillaged twelve shops and twenty houses. Many Jews were wounded during the riot and one woman was killed. The police and clergy were powerless to quell the disturbance.

SALEM, OREGON, Aug. 30.—The State central committee of Greenbackers and Anti-Monopolists met yesterday. Butler and West electors were chosen and it was decided to print and distribute 50,000 copies of Butler's addresses.

SHANGHAI, Aug. 30.—All the French have left Canton. It is now asserted that admiral Courbet left Min river with the intention of going to Canton. The Chinese military commanders everywhere have received imperial orders to attack all the French war ships and merchant vessels which attempt to enter the leading treaty ports. Those in port now have been ordered to depart immediately. Telegrams from the Chinese government lines are not accepted unless written in English.

MARSEILLES, Aug. 30.—There were seven deaths from cholera at Marseilles last night and one at Toulon. The weather has become cold.

ONESSA, August 30.—The details of the attempted shooting a few days ago of Col. Katansky, chief Gen. D'Annes, in this city, which have hitherto been suppressed, have now become public. The motive leading the young woman, Maria Kalininskaja, to attempt the desperate deed was a desire for revenge. Col. Katansky, had sentenced her brother, who was a member of the revolutionary society to penal servitude for life. The girl entered Col. Katansky's private room and twenty minutes later drew a revolver from her pocket and fired point blank at the officer. The bullet grazed his ear and before she could fire again Col. Katansky seized the weapon and immediately placed the young woman under arrest.

Ayer's Ague Cure, when used according to directions, is warranted to eradicate from the system all forms of malarial disease, such as Fever and Ague, Chill Fever, Intermittent, Remittent and Bilious Fever, and disorders of the liver. Try it. The experiment is a safe one, and will cost you nothing if a cure is not effected.

### Father!!!

Your poor wearied wife losing sleep night after night nursing the little ones suffering from that night fiend to children and horror to parents, CROUP, should have a bottle of Taylor's Cherokee Remedy of Sweet Gum and Mullein, an undoubted croup preventive, and cure for Coughs, Colds, Whooping Cough, Consumption, and all lung and bronchial troubles. Price 25cts. and \$1.00. This with Dr. Biggers' Southern Remedy, an equally efficacious remedy for Cramp, Colic, Diarrhea, Dysentery, and children suffering from the effects of teething, presents a little Medicine Chest no household should be without, for the speedy relief of sudden and dangerous attacks of the lungs and bowels. Ask your druggists for them. Manufactured by Walter A. Taylor, Atlanta, Ga., proprietor of Taylor's Premium Cologne. aug15dw1m
