

AYER'S Ague Cure

contains an antidote for all malarial disorders which, so far as known, is used in no other remedy. It contains no Quinine, nor any mineral or deleterious substance whatever, and consequently produces no injurious effect upon the constitution, but leaves the system as healthy as it was before the attack.

WE WARRANT AYER'S AGUE CURE to cure every case of Fever and Ague, Intermittent or Chill Fever, Remittent Fever, Dumb Ague, Bilious Fever, and Liver Complaints caused by malaria. In case of failure, after due trial, dealers are authorized, by our circular dated July 1st, 1882, to refund the money.

Dr. J. C. Ayer & Co., Lowell, Mass.

T. A. Green and others

vs.

Ellis W. Bissell and others.

To Eliza W. Bissell and C. W. McLean:

Take notice that pursuant to the judgment rendered in the above named action, the property described in the complaint was offered for sale at the court house in said county on the 1st day of September, 1884, and when and where the same was bid off by James A. Bryan for the sum of \$7,100, and that a motion will be made before His Honor J. L. Gudger, Judge of said court, at the court house in Tarboro, in Edcombe county, on the 23rd day of October, 1884, to have said sale confirmed.

This 10th September, 1884.

DUVAL & NORTON'S

HORSE TONIC,

THE JOURNAL.

NEW BERNE, N. C., OCT. 16, 1884.

The Pyramids Built Downward.

Mr. Cope Whitehouse, who seems to be treated as a crank by the Science Association in meeting at Philadelphia, got the stage of the academy as the scientists were leaving the hall Wednesday, and proceeded to give an illustrated lecture on "The Libyan Deserts." Some of the audience remained and others out of curiosity turned back to hear him.

Mr. Whitehouse enunciated some singular scientific theories, based upon the most careful researches. One of these was that the Pyramids had been built partially downward not upward. He took Herodotus and other ancient writers for his authorities, and on the strength of personal examination, which he had made, expressed the opinion that the chambers, at the base of the Pyramids, had been used for temples and were constructed beneath the center of big hills, and that the apex of these hills had been cut off, and through the holes thus made the big boulders of rocks had been dropped one upon another until they had risen to a new apex. The hills he said, were then smoothed off and the sides of the Pyramids molded, leaving them as they are seen today. The theory presented by Mr. Whitehouse is not novel. It has been advanced before. Whatever its merits, says the New York Tribune—and if the judgment of the standing committee be taken as final, it has none—it is the subject of much comment to-day, that the committee should have shown such animosity in the matter. There are probably many more dangerous "cranks" in the ranks of the association than Mr. Whitehouse. There are many scientists whose opinion is entitled to weight who think that Mr. Whitehouse's services in other branches of science have been eminent. He is, for instance, recognized as an authority on the Lybian deserts. But his notions regarding the Pyramids are generally ridiculed and little attention paid to them.

A BET EXTRAORDINARY.—V. C. Place, General Manager of the Pinas Atlas Gold & Silver Mining Company, at Las Vegas, N. M., and Charles M. Shannon, of the Hughes & Shannon Copper Works, at Clifton, have made the largest bet on the result of the Presidential election thus far on record. Mr. Place bet a new mill recently erected at a cost of \$40,000, and all the company's mines and property, including the merchantile establishment, all valued at \$500,000, against Hughes & Shannon's copper property, valued at \$600,000. The necessary papers have been made out and placed in the hands of an escrow pending the result of the election.—*Santa Fe Review.*
