NO. 172.

LOCAL NEWS.

Journal Miniature Almanac.
Sun rises, 6:10 | Length of day,
Sun sets, 5:21 | 11 hours, 11 minutes.
Moon rises at 4:43 a. m.

The Cleveland and Seales Club meet to-night.

Trent Council, No. 411, Royal Arcanum, meets to-night.

Jones and Onslow will be well represented at the Cotton Exchange to-day.

Hands were at work at the steamer *Defiance* yesterday getting off the burnt cotton.

Mr. U. S. Mace is building a brick store on the burnt district, next to T. A. Green.

The Boston engine was out yesterday squirting water over the Episcopal Church spire.

We call our readers' attention to the Old "Dominion Ham," advertised in another column.

The partridge season has opened. Two sportsmen buckled on their accoutrements yesterday evening and went forth to slay them.

Mr. Daniel Stinson has added a grist to his new saw mill. He is also putting in new boilers to his old mill. Everything looks like life around his and Congdon's establishment.

If the Democrats intend to do any effectual work in this city it is time they were at it. A club has been organized and committees appointed, but what are the committees doing?

We call attention to the change in the advertisement of Geo. Allen & Co. in this issue. They offer a large stock of hardware and agricultural implements and solicit consignments of produce.

Our colored farmers near New Berne certainly made hay while the sun shone this year. Not a day passes but what they are to be seen on our streets with their "steers" and a load of hay which they say they will sell at the "gwine price," forty-five cents per hundred.

The cotton marketed here this season seems to be of a better quality than usual, and we suppose this accounts for the good price paid compared with other markets. We were shown a very fine sample on yesterday taken from a bale sent in by Perry Bros. It was ginned with the new Brown gin sold by Geo. Allen & Co.

Jos. Schwerin gives notice in this issue of a mammoth stock of clothing which he has determined to sell in proportion to the price of cotton. His stock is very large and well selected. He can fit a person with a nice suit of clothes and furnish a fine trunk or valise to carry them in; but to know fully what he has to offer to the public read his advertisement in this issue.

"Where's de place to redish," inquired an old colored man of a gentleman yesterday. "I's gwine to vote de Democratic ticket dis year sho. it's time der was a change." The old man is right, it's time for a change but we hardly think the time has come when he can walk to the ballot box and deposit his ballot for the Democrats without being sorely ostracized, and probably turned out of the church, by his race.

Mr. James Redmond has laid a new plank walk in front of his establishment near the Cotton Exchange. He has made marked improvements in his Bergner & Engel beer business; the latest is that of a Sombart gas engine, purchased of J. C. Whitty, which is used for bottle washing and pumping water. It's a nice trick; nothing to do but apply a match and "steam is up" and the engine goes to work. No boiler to burst, no fire to raise nor water to pump; nothing to do but apply the match to the gas. It's a daisy.

Personal.
Miss Sadie Manly has returned from a visit to Hillsboro and Warm Springs.

Plenty of Game.
We have often urged the advantages of New Berne as a winter resort for Northern tourists, giving as one reason that we had plenty of wild game which would afford enjoyment to those seeking pleasure.

We have been corroborated in this statement by Mr. Edward Stanley, of Beaver Creek, Jones county, who is in the city. He says he was down to the Ravenwood plantation, near Pollockville, recently and took a moonlight deer hunt. He took a position in a tree near the pocusin and waited for them to come. It was not long before a drove of twenty-five came along, and he played away and killed a buck that weighed one hundred and forty pounds net. But he says the fun was in seeing the rest of the drove run after he fired his gun.

How our Northern friends would be delighted to board the steamer *Trent* for Pollockville, go out to Ravenwood and tackle a drove of twenty-five deer.

Henry Brown
Keeps the best oyster—clean and nice—on board the flat at the market dock.

Steamer Arrivals.
The *Elm City* from Bayboro, cotton, rice and passengers.
Snoke Hill, from Jolly Old Field, with a cargo of cotton.
The *Trent*, from Trenton and Pollockville, with a full cargo of cotton.

Speaking at Maysville.
Clement Manly, Esq., addressed a good crowd at Maysville yesterday. He was introduced by P. H. Pelletier, Esq., and made one of his best speeches. His theme was: "Who, and what we vote for in this contest," and it was discussed in an explicit and able manner.

Where to Register.
The registration books of the city can be found at the following places:
1st Ward, at the store of Thos. Gates & Co., B. M. Gates, Registrar.
2nd Ward, at the City Clerk's office, J. H. Ball, Registrar.
3rd Ward, at the store of J. J. Tolson & Co., on Broad street, J. J. Tolson, Registrar.
5th Ward, St. Phillips precinct, at E. G. Hill's office on Broad street, E. G. Hill, Registrar.

Further Election News.
We give this morning further news from West Virginia. As we understand the telegram, the Republicans gain in thirty-two counties over five thousand on their 1880 vote; this is by a fusion with the Greenbackers, while they also gain in the same counties about 850 over the combined vote of 1880.

The Democratic majority in that election was 2,029 over the combined vote of Republicans and Greenbackers, which makes a showing quite different from the ten thousand majority telegraphed to us Wednesday night.

WHEELING, W. V., Oct. 16.—Returns complete from thirteen counties show a net Republican gain of 1,897 and 883 over fusion vote of 1880. Estimates of 19 other counties show a Republican gain of 3,146 and 463 over fusion vote of 1880. This elects the Democratic ticket, but can give no majority as 400 out of 630 precincts have not been heard from.

Piney Green Items.
Very dry and dusty; rain would do good.
Mr. L. H. Cox is up at his plantation preparing to move; hope he will be up soon.
Mr. J. F. Gillett has his dwelling nearly completed; we expect something else to follow soon.

Farmers are getting on very well housing their crops. They are coming in better than we expected. Mr. E. W. Cox has the best crop at Piney Green that has been there in twenty-five years.

We are glad to say that our neighborhood is improving. The Debating Society at Piney Green academy is in a flourishing condition. The last query was "Which is the most damage to the community, a liar or a thief?" Having more liars than thieves in this county, the liar was considered the most.

THE ELECTIONS.
WHEELING, Oct. 15.—The official vote in Berkeley county gives Flick, for Supreme Court Judge, 324 majority, and Brown 11 majority. Maxwell carries the county by 55 majority. The balance of the Democratic ticket has a small majority. The Democrats will have the sheriff, State's attorney, one member of the House of Delegates and one assessor. The Republicans elect one member of the House of Delegates, the clerk of the court and assessor.

COLUMBUS, O., Oct. 15.—A Wheeling (W. Va.) dispatch says: The Republican State Committee concede the election of the entire Democratic ticket by from 3,000 to 5,000 majority.

COLUMBUS, Oct. 15.—Up to 3 p. m. returns have been received from 43 counties in Ohio, including Hamilton, showing a net Republican gain of 13,624. Out of the 45 counties yet to hear from 21 gave Republican and 24 Democratic majorities in 1883. Cuyahoga, Lucas and Franklin are among the number not heard from. Hurd is defeated in the Tenth, and Campbell is elected in the Third district.

DIED.
At Hookerton, Greene county, October 6th, little Guy, five years old, eldest son of Mr. and Mrs. John W. Tilman; and on the following day Almada, their only daughter, aged eight years.

Seldom does death visit a home under more touching circumstances. Two bright and interesting little ones are attacked suddenly with fatal violence and after a very brief illness are committed to the same grave. Little Meda seemed conscious, young as she was, of her approaching end. Between her paroxysms of pain she would call on her friends to kiss her good-by and begged her mother to go with her. In her last moments she put her arms around her father's neck, and with a celestial smile, breathed her life away, laughing softly and whispering about the angels. Those pure eyes had pierced the veil and caught a glimpse of the glory beyond. To the sad hearts of the bereaved parents there is this consolation, that their darlings are safe in the Saviour's arms. The two rosebuds, snatched so rudely from the parent stem, have been transplanted in a furrier land, to bloom into full perfection and undying beauty on the shore of the River of Life.

FOREIGN NEWS.
LONDON, Oct. 13.—Catania has been visited by another hurricane. Thirty persons were killed, King Humbert has sent £400 for the relief of sufferers.

QUEBEC, Oct. 13.—The government has increased the reward for the arrest and conviction of the authors of Saturday's outrage to \$4,000. The police are at work upon the clue obtained, and an arrest may be looked for before long. It is thought the infernal machine was placed in the building on Friday night. Four men were seen hanging around in that vicinity that night acting in a suspicious manner.

HARTFORD, Oct. 13.—Maud S. will be driven at Charter Oak Park to-morrow afternoon to beat her record of 2:09 $\frac{3}{4}$, and, with good weather and track, it is confidently expected that she will be successful. Mr. Bonner and a party of friends are coming from New York to see the trial.

CAMDEN, Oct. 13.—As the West Jersey Railroad train was going over the cross-switch at Third street this morning it ran into the train from Burlington. Engineer Joseph Carman of Burlington was dragged out from the ruins of his engine dead. His fireman was badly hurt. The fireman of the other train had both legs broken and was badly scalded, and it is thought he cannot live. The passengers were thrown from their seats, and some were cut by broken glass.

WASHINGTON, Oct. 13.—The Secretary of the Navy has issued this general order: "A college is hereby established for an advanced course of professional study for naval officers, to be known as the Naval War College. It will be under the general supervision of the Bureau of Navigation. The principal building on Coasters' Harbor Island, Newport, R. I., will be assigned to its use. A course of instruction embracing the higher branches of professional study will be arranged by a board, consisting of all the members of the faculty, and including the President of the college, who will be the presiding officer of the board. The course of instruction will be open to all officers above the grade of naval cadet. Commodore S. B. Luce has been assigned to duty as President of the college."

LONDON, Oct. 13.—The *St. James's Gazette* has a new sensation this evening. It prints statements showing a degree of sloth, incompetency, and favoritism on the part of British officers in India which is unparalleled. The *Gazette* says that it has indisputable authority for saying that we are approaching a crisis in comparison with which the Sepoy rebellion of 1857 will be commonplace. The principal dangers arise from the disloyalty of the Mohammedans in Calcutta and Bombay and the Russian invasion which is always threatened by way of Afghanistan. The *Gazette* promises to publish still more startling revelations in which the oppressions of the natives of India by tax farmers and collectors will be shown in as bad a light as the crimes of Warren Hastings.

SAN FRANCISCO, Oct. 13.—By the arrival of the *Oceanic* to-day it is learned that on September 15 Yokohama and Tokio were visited by a terrible typhoon. In the latter city 3,000 houses were wholly or partially destroyed and twenty persons killed. The loss of life at sea was appalling. No estimate could be made of the number of lives lost. The typhoon was followed on the 17th by another great force, but of brief duration.

CHICAGO, Oct. 13.—Senator Bayard delivered an address on the issues of the day in Battery D armory. The vast building was crowded, many ladies being present. After the address he reviewed the Cleveland and Hendricks marching clubs of the city, several thousand strong, and was subsequently tendered a reception by the Iniquos Club and its ladies.

GOOD LAUGHING.—Young people should acquire the habit of correct speaking and writing, and abandon, as early as possible, any use of slang words and phrases. The longer you put this off, the more difficult the acquirement of correct language will be; and if the golden age of youth, the proper season for the acquisition of language, be passed in its use, the unfortunate victim will most probably be doomed to talk slang for life. You have merely so use the language which you read instead of the slang which you hear, to form a taste in agreement with the best speakers and poets in the country.—*Good Cheer.*

Jones County Items.
Mr. Sylvanus Barker has opened an eating house in Trenton and he has also opened a meat market.
Our farmers are taking advantage of the dry weather by gathering in their cotton and preparing it for market.

James and Frank Westbrook were convicted at our last Superior Court for resisting the town officer at Trenton during last week and were fined heavily.

Our merchants are complaining of dull sales. Say that their sales are not near so good as they were last season. Short crops and the people are using more economy I suppose are the causes. I have been informed that the commissioners have had the registration books transcribed. Now it is the duty of every voter to see that his name is on the books, also that of his neighbors. See that all are properly registered.

Every Democrat in Jones county says "hurrah for Dr. Cyrus Thompson." I can't find one that says he is not for him. Thompson has a kind of magnetism about him that takes with our people and no mistake.

The Democrats of Jones have nominated that price of good fellows for sheriff, John C. Parker, who is worthy of the support of every good citizen in the county. I suppose he, too, will be around. John is always in good humor and you will find in him, too, all that it takes to make a good citizen, and if elected will make a good officer.

Gen. Matt Ransom, who is loved and respected by every good man of all parties, will address the people of Jones county at Trenton on Thursday, the 30th of October, on the issues that divide the parties. Let every one that can make it convenient be at Trenton on that day and listen to this eloquent and noble North Carolinian.

Our nominee for the House of Representatives, P. M. Pearsall, informs me that he will open the county canvass about the 21st of this month. I hope every man in the county will attend and listen to him attentively, as he is a live Democrat and will give no uncertain sound, and should be elected, will make us a faithful and honest representative and will be watchful of the needs and wishes of his constituents.

Dr. Grissom says that Dr. York has not the qualifications for the Governor's chair and Dr. Grissom says further that he does not think that his qualifications or his antecedents are such as to entitle him to the support even of Republicans. Well if he is not fit for the Governor's chair, according to Dr. York's own testimony at Trenton he is a mighty man on the stump. Any man that can meet Scales, Jarvis, Vance, Coke and Morehead, some of the best stump speakers in the State, and run them all home and have an open field to himself certainly must possess some mighty qualifications. Here is a genuine case of doctors differing and when doctors differ who is to decide? Why the people will decide with Grissom in November.

A Case Without Hope.
Jno. R. Booker, of Macon, Ga., writes: "In 1878 I was attacked by the most ravensome sort of cancerous sores, that ate great holes into my flesh and spread rapidly over my body. I received the very best medical attention; was doctored with mercury and potash until I was so crippled with mercurial rheumatism that I could scarcely hobble about; my throat and mouth were badly ulcerated; my hair began to fall out. So wrecked was my general health, that I became a physical ruin and my life was a burden. For a long time I was bed-ridden, and my suffering was so intense that I prayed for death as a relief. I exhausted the whole catalogue of patent medicines, in each case following the directions religiously. Each in turn seemed to aggravate the malady, and none of them benefited me in any way. When life was apparently hopeless I commenced taking S. S. S. To this Specific I owe my life. In ten days I commenced improving, and in a short time was perfectly well. My hair has grown out thick; my health and strength have returned; the ulcers in my throat and mouth are entirely cured; my appetite has returned, and for the first time in years I enjoy my food. Every sore has disappeared from my body. I weigh as much as I ever did in my life, and am perfectly healthy in every way. The very germs of the cancerous affliction are destroyed. Not only is the malady that was preying on my life, and which every one pronounced incurable, entirely cured, but I am also relieved of the bad effects of the mercury and potash mixtures that I was fed on for years."

Beware of Potash and Mercury mixtures, gotten up to imitate our specific, they are dangerous.
Treatise on Blood and Skin Diseases mailed free.

The Swift Specific Co., Drawer 3, Atlanta, Ga., 159 W. 23d St., N. Y., and 1305 Chestnut St., Phila.

Why go about with that aching head? Try Ayer's Pills. They will relieve the stomach, restore the digestive organs to healthy action, remove the obstructions that depress nerves and brain, and thus cure your headache permanently.
