**Poor "Old York."**  
Big crowd at the show yesterday.  
John Robinson's circus goes to Kinston to-day.

Cosmopolitan Council No. 211, American Legion of Honor, meets to-night.

Many people from the country were in the city yesterday to see the circus and hear the news.

The run of mullets is reported very good this season by the fishermen, but they are rather small in size.

The board of county canvassers will meet to-day at the court house at 12 o'clock to canvass the returns of the election. We will give the vote in full to-morrow.

The net Democratic gain in Craven county so far as heard from is 383. There are still three precincts to hear from; Adams Creek, Temples and Dawson's Store which will be in to-day.

The election news is not very promising for Cleveland. New York and Indiana are still doubtful with chances in favor of Blaine. Connecticut and New Jersey are considered safe for Cleveland. In the State elections there are still indications that Seales is elected by a large majority.

Judge Clarke was complimenting our candidate, Phil Holland, Jr., yesterday on his election to the Senate. He claims that Holland is elected because the ballots cast for Geo. H. White did not give the number of the Senatorial district of which he was a candidate. Here is a knotty question for the legal fraternity to untie.

Pearsall is elected to the Legislature in Jones, Darden in Greene, and Grainger in Lenoir. Dr. Rountree is also elected to the Senate, as we learn, from Greene and Lenoir. We are glad to record these facts. The best should begin to consider her interest in legislative matters by sending men to represent her who have some business tact, and can wield some influence in shaping legislation for their sections.

### The Election News.

All day long yesterday crowds were around the telegraph office, and "What's the latest?" was asked on every corner, but not a word could be heard. The Democratic and Republican clubs and the JOURNAL had made arrangements with the Western Union Telegraph Company to furnish them with the bulletins until the result of the election was indicated. The bulletin on Tuesday night left the matter in as much doubt as it was on Tuesday morning, as to the Presidential election. The operator here, who no doubt is doing all he can to give us the news, when asked why we could get no news replied that the lines were busy with private dispatches. It may be the rule of the Company to give private business the preference, but it appears to us that if the Company desires to do the fair thing by its patrons they will refund the money paid them when they are unable to fulfill their contract. Our object in paying for these bulletins was to give the news to our readers early, but if there is such a rush of business that they could not give the news then what right have they to retain the money. Perhaps we view the matter from the wrong stand point, but to be kept in suspense a whole day over a matter in which there is so much interest is enough to try the patience of a saint.

### Seven Springs Items.

Cranks refused to vote.  
Messrs. J. A. Patterson & Son, of the U.S. Navy, passed through our town on the 3d inst. in search of white oak timber for ship building purposes.

Mr. Lewis Barnett, while out hunting last week, discovered and shot a rattlesnake thirty feet from the ground perched in a tree top. His snakeship showed six rattles and a button.

Bro. Dick Hatch keeps a junk shop just across the street from Joe Allen, the wine merchant; he and Joe are great friends and often discuss politics and religion. Bro. Dick won't get drunk, that is not very drunk, but some how he likes to just smell of Joe's wine. The other day he awoke from a kind of reverie with his face smutty. Some think his legs got befuddled from the smell of the wine and caused him to stumble over an old mule pipe, hence the smut. Others think as he hears a shirt collar 6 inches too large for him that it got up over his eyes and blindfolded him and caused him to stumble and smut his face, while others are an generous enough to speculate that his land lady had done to prevent her husband from drinking every

## THE ELECTION.

**Large Gains for Seales and Cleveland in North Carolina.**

**Presidential Election Still in Doubt.**

Hillsboro.—On the electoral and State vote the precinct shows a Democratic gain of sixty.

The vote at Hillsboro precinct gives Cleveland 275; Blaine 275. A Democratic gain of 40. The vote at Cole's Store gives Cleveland 82; Blaine 18. A Democratic gain of 24. The Democratic majority in the county is estimated at 400, a gain of 125.

Tolson.—Cleveland 281, Blaine 266; Democratic gain of 15; Seales' majority 19.

#### BRUNSWICK.

Brunswick.—Bennett gets in this precinct 170, Dockery 200 majority, on the State ticket for Republicans. Twenty-one electors gave as Dockery and Bennett.

#### GRANVILLE.

Oxford.—The Republicans are thoroughly demoralized and routed—Granville goes Democratic surely.

Granville goes Democratic for the whole ticket. A gain of over 200.

#### BEAUFORT.

Washington.—Chocowinity precinct: Cleveland's majority 93; Democratic gain 60. Washington precinct: York 394, Seales 354, York's majority 40, a gain over Jarvis' vote of 73. Beaufort county Democratic by 300 certainly, perhaps more.

#### CLEVELAND.

Kings Mountain.—Kings Mountain and Whitaker precincts, township No. 4, Cleveland county, N. C., give Cleveland 286, Blaine 55; a gain of 80; Seales 288, York 51, Merrimon 292, Russell 45. Cleveland county, Democratic majority 1,500, Democratic gain 350.

#### YANCEY.

Middleton.—Cleveland, 104; Blaine, 211.

#### RALEIGH, Nov. 5.—

Liaqon county gives 200 Democratic majority. Net Democratic gain of 61. Rutherford county has gone Democratic again. In Iredell county the Democratic majority is estimated at 1,250. A net Democratic gain of 507. In Northampton county, as far as heard from, the Democrats make extensive gains. Returns from about 230 precincts show net Democratic gains of 7,000; Democrats carry Greene county, making gains.

#### LENOIR.

Kinston.—Greene and Lenoir counties both elect Democratic tickets. Seales has about 150 majority in Lenoir county.

#### NEW YORK.

New York.—The latest returns from New York State, outside of New York City and Kings county, show that for 1,423 election districts already reported from that section of the State, the average Republican plurality has been as nearly as possible to 35; if each of the 664 districts yet to hear from returns the same average plurality they will yield 19,754 plurality for Blaine. This added to the 49,938 plurality show by those already reported that it will make the Republican plurality exclusive of New York and Kings county, 69,678. The Democratic plurality in New York county is, according to the last compilation, 42,736 and that of Kings county 15,103. It appears, therefore, that the Democratic plurality of 57,938 will be overcome with upwards of 11,000 to spare.

Cleveland, 313,680; Butler, 9,312; St. John, 19,349. Late returns indicate a Republican majority of 10,000 to 12,000.

New York.—1,365 election districts in New York State outside New York City and Brooklyn give Blaine 357,903; Cleveland, 303,411.

Corrected returns of New York city give Cleveland 43,083 in that city. His majority in Brooklyn is 15,888. This gives him 58,477 in the two cities. Garfield carried the rest of the State by 71,629. Cleveland has made gains as far as heard from of some 9,000 on this vote. The State is close with chances favoring Cleveland.

New York.—1,705 districts in New York State outside cities of New York and Brooklyn give Blaine 383,081; Cleveland, 324,890; Butler, 10,538; St. John, 19,989.

New York.—1,743 election districts in New York State, outside the cities of New York and Brooklyn, gives Blaine 389,404; Cleveland 332,109; Butler 10,569; St. John 20,029.

New York.—Last 37 districts from West Chester county put Cleveland about 700 ahead of Blaine on State.

New York City and county Democratic ticket, headed by Grace for Mayor, is elected excepting Coroner by a majority ranging from 7,000 to 15,000. Tammany Hall candidate for Coroner selected by 10,000 majority.

#### INDIANA.

Late returns indicate a Republican majority of 1,000 or 1200.

Indianapolis.—Chairman New, of the Republican State central committee, concedes the State to the Democrats by 5,000 majority. It is thought that the following Republican Congressmen are elected: Brown in the 6th district, Johnson in the 8th, and Dixey in the 9th. The results in the 7th, 10th and 13th districts are doubtful. Other districts are thought to be Democratic.

On the strength of private advices and the returns received at the Democratic headquarters, chairman Henderson claims the State by 15,000 majority and the election of ten Congressmen. The latter he does not, however, specify. The Republican committee make no claims.

Indiana.—673 voting precincts show net Republican gains of 5,203. Plurality for Blaine in the State of 2,000.

#### CONNECTICUT.

Hartford.—The Mill towns heard from give Blaine 25,167; Cleveland 25,897; Garfield 25,840; Hancock 24,635; Republican loss 673. Same rates of loss would give the State to Cleveland by a small plurality. (Garfield's plurality was 2,656.—Ed. N. & O.)

Hartford.—One hundred and ten towns give a Republican loss of 2,614. Cleveland's plurality probably 1,500.

Hartford.—Cleveland carries this State by 1,200 plurality. There is no election of Governor by People's Party. Waller, Democrat, falling of a majority by about 1200. The Legislature is largely Republican and will elect Mr. Harrison. This is definite and reliable and the result will not be changed.

#### NEW JERSEY.

Trenton.—The Trenton Times estimates Cleveland's majority at 3,000; Republicans carry four out of seven Congressmen and probably carry the Legislature by five majority on joint ballot; the Senate will be Republican by one majority.

#### ARKANSAS.

Returns are coming in slowly; vote light; indications are that Democrats elect all Congressmen and that State will give a Democratic majority of upwards of 20,000.

#### NEBRASKA.

Nebraska has gone Republican by about 2,000 majority.

#### NEVADA.

About half the ballots counted show that Blaine has carried that State by 1,500 to 2,000 majority.

#### GEORGIA.

Reports as far as heard from indicate a Democratic majority of 10,000 as compared with 1880, accounted for by light vote.

#### CALIFORNIA.

San Francisco.—Partial returns including the city give Blaine 23,350; Cleveland 13,674. It is not expected that this increase will be maintained. It is conceded that the Republicans carry the State by 6,000. Republicans probably elect three Congressmen and the Democrats two. Republican gain of three with one still doubtful.

California.—286 precincts and wards in 44 counties give Blaine 26,620; Cleveland, 21,820, against Garfield 21,674, Hancock 18,718.

#### ILLINOIS.

One hundred and sixty-two precincts, Cook county, give Cleveland 43,137, Blaine 43,197. These include the strong Republican precincts and leave heavy Democratic precincts to hear from. It is estimated that Cook county (Chicago) will go Democratic by 3,500.

Later returns are more encouraging to the Democrats and they now claim that the Cleveland ticket will be elected by not less than 3,000 majority. Republicans still stand by their claim of from 3,000 to 5,000 for Blaine.

Two hundred and seventeen precincts outside of Cook county gives a Democratic gain of 4,857.

Chicago, July 5.—Republicans elect Congressmen in 1st and 4th districts; Democrats elect Congressmen in 2d and 3d; Republicans elect Congressmen in 8th and 10th. 774 precincts, including 164 in Chicago, give Oglesby 183,134, Harrison 157,968, Oglesby's plurality over all 4702. Chicago gives Blaine 49,418, Cleveland 46,353, St. John 497, Butler 993; Blaine's majority over all 1,250.

in Chicago with 7 yet to hear from, show net Republican gain of 10,463. 18 wards in Chicago with 7 precincts yet to report, show net Democratic gains of 1,633. Republicans gain 6,541 on Garfield vote in 1880.

#### WEST VIRGINIA.

Wheeling.—A gain of 700 more will give Blaine this State; 16 counties give 1,600 net Republican gains. Returns come in slowly. Washington county gives Cleveland a majority of 678; Democratic gain of 217. Accomoci county gives Cleveland a majority of 1,258; Democratic gain of 527. Giles county gives Cleveland 314 majority; Democratic gain of 285.

Wheeling, Nov. 6.—Present indications are that West Virginia will give a majority for Blaine, and think Republicans have elected two Congressmen.

#### VIRGINIA.

Virginia has certainly gone Democratic with a majority of at least 5,000. Republicans for the first time admit the State doubtful. Returns now coming in will swell the Democratic gain.

Kansas claimed by the Republicans by 50,000.

State Democratic Committee concede Wisconsin by 7,000 to 8,000. Republicans claim about 10,000.

Columbus.—On returns received up to midnight, it is estimated that the State will go Republican by 23,000 to 30,000 majority.

Montgomery.—Alabama has gone Democratic by a large majority.

#### Dickens's Dress.

Dicken could describe humorously the bad dressing of his characters, and yet few men dressed with such poor taste as did the novelist. An English writer says: Mr. Dickens at no period of his life was a correct or tasteful dresser. He was too fond of stripes and colors. I remember meeting him one day in the Strand about the year 1865. He was evidently just going into the country, for he was clad in an astonishing costume that might have been worn by a lion comique at a music hall.

On another occasion, when I was lessee of the Egyptian hall, during the absence of poor Albert Smith in China, a gentleman called but left no name.

"What kind of looking person was he?" I asked of the lackey in charge, thinking to get a clew to the caller. The talent of the servant being limited in the way of description, he remarked: "I should say, sir, by his dress, he was a respectable sort of gas-man."

Subsequently I discovered that it was Mr. Dickens who had looked in, and whose toggerly had thus misled the menial. A man who at any period of his life could wear at the same moment a crimson velvet waist-coat and yellow kids must have had a vicious notion of combining colors.

#### A Wonderful Structure.

The new Cathedral of St. Saviour at Moscow is a remarkable structure. It was built to commemorate the departure of the French army from Moscow. The style is ancient Russian. The five copper cupolas, for the gilding of which was required 900 pounds of gold, cost \$170,000. The domes are surmounted by crosses, the center one being thirty feet high and 340 feet from the ground. The largest bell weighs twenty-six tons. The whole edifice is faced with marble, the doors are of bronze, ornamented with Biblical subjects and lined with oak. The principal entrance is thirty feet high and eighteen feet broad. Two of the doors weigh thirteen tons, and the total cost of all the doors was \$62,000. It is in the form of a Greek cross. The walls are adorned with frescoes illustrating the chief events in the history of the Russian Church. Throughout the building are many of the most remarkable paintings produced by Russian artists. The whole cost of the structure is placed at £2,250,000 sterling, and it is said to be capable of containing 10,000 worshippers.

The health and beauty of children can be restored by giving them Shriner's Indian Vermifuge to kill the worms that darken their complexion.

Trial proves that honesty is the best policy in medicine as well as in other things. Ayer's Sarsaparilla is a genuine preparation, an unequalled blood purifier, decidedly superior to all others.
