A slight change has been made in the schedule on the A. & N. C. Railroad.

Those popular clothiers, Howard & Jones, on Pollock street, give notice of Christmas goods in this issue.

Sam. K. Eaton gives fair notice that his Christmas stock recently purchased in New York for cash is going fast.

The schooner Melvin arrived at Morehead City on Sunday from the West Indies with a load of fruit. Notice is given elsewhere of sale.

The Cummins Bros., of Kinston, were from Palo Alto, Onslow county, where they had been and painted the town white. They know what to do with a paint brush.

One of our citizens attended Watson & Street's auction sale of C. B. Hart & Co's goods and returned home with a dray load of tin ware. When told by his wife that they had no use for it he remembered that it was the anniversary of their marriage and proposed to celebrate his tin wedding.

#### The City Debt.

"Truth" takes pretty strong grounds for funding the city debt, but we beg to call his attention to the fact that a part of this debt is now bearing only four per cent interest. By funding the balance of the debt we think the city would be able to pay this as it becomes due, if it is not prepared to pay the money when the notes mature, then it will be time enough to issue the six per cent bonds to take its place.

The Legislature will soon convene and there will doubtless be a rush of business before it. It is therefore important that something definite should be agreed upon by the citizens of New Berne who favor an amendment to the charter that will relieve the present embarrassment. We would be pleased to comply with the request of a correspond dent whose communication appeared a 42 lighthouse keepers, 200 to 1,000 few days ago in regard to publishing Supt. Let the matter be 2 District Attorneys, fees and ..... thoroughly discussed and some plan Assistant District Attorney...... agreed upon.

Reading Clerk of the Senate.

There have been many suggestions, and many announces made in the columns of the newspapers, for men to fill various positions in the next General Assembly, and we wish now to add to the list the name of our young townsman Philemon Holland, Esq., for the position of reading clerk of the Senate. that pay from \$600 up to \$1,480. His fitness and qualification for the position need not be discussed. We only wish to remind Senators that Mr. Holland made a gallant fight for the party in this county, knowing that there was no chance for his election, but knowing at the same time that every votre brought to the polls by his canvass would ount for the State and National tickets. It must be remembered that the "black district" had no representation on the State ticket, but the Democrats therein did not faiter on that account, but made as large gains proportionately as any other district in the State. Our speakers eight acres of land. We will not undertake to explain the matter, but we appose he farms on the intensive systica in the counties of Pamlico, Carten but stacks his fodder on the extension of the counties of the counties of Pamlico, Carten but stacks his fodder on the extension of the counties of the c vice in the counties of Pamlico, Carteret, Jones and Onslow.

We think the Senate in electing Mr. Holland to this position will not only be recurring the services of a good officer, but will be recognizing the service and devotion to party of the Democrats of

Christmas Oysters.

Just What Democrats Need.

Henry N. Copp, the Land and Pension Attorney of Washington, D. C., sends the "U. S. Salary List and Civil Service salaries above \$500 are given, including Esq. the executive departments, army and navy, internal revenue, custom houses, Indian agencies, diplomatic and consular service, postoffices, etc. There are fully 110,000 Federal offices for President Cleveland to fill. Twenty night accompanied by his mother. pages of specimen examination questions are given, with the Civil Service law and regulations. This is probably the cheapest form in which this muchdesired information has been published.

Every young man and woman who has not decided a life calling needs this book. The Government offers lucrative and honorable employment. Every mates. citizen who expects his Senator and Representative to secure him something under Government can, by possessing this manual, decide at once whether to accept or refuse an offered position. It may save candidates from refusing "fat places" through wrong information. The book does not profess strict accuracy on postmasters' salaries, which go up or down with every readjustment, but is near enough for practical purposes. Mr. Copp wishes to correspond with parties who know the address of any Mexican war survivor or widow.

For the benefit of those in North Carolina who desire positions, we give a partial list of the officers to be filled in North Carolina with the amount each pays. We do not give this list out of we know they would like to hear from all their constituents who want an office. in the city yesterday on their return There are some right nice positions to be filled, which will probably be abolished by the next Congress if there are og applicants Hare is the list

#### Bond the Debt.

EDITOR JOURNAL:-Our city is in debt to the amount of \$12,516.35; a portion of this debt has four years to run before maturity; about three thousand five hundred dollars is in the shape of judgments; the remainder, floating. Now the question is, how shall we settle this indebtedness to the satisfaction of all concerned? The way is "so plain and straight that a wayfaring man though a fool need not err therein"; it can be done by the issue of bonds for the whole amount of the indebtedness, running a term of years, and bearing interest at the rate of six per cent. The holders of the city indebtedness would gladly receive them. We can also issue bonds for the purpose of building a market house, near the centre of the city, with an engine house, police station and city hall all under one roof. This can be done and the city government carried on without one cent of increase of the rate of taxation agreed upon at a late meeting of the citizens called together by the Mayor. This rate was fixed at 60 cents upon the \$100 valuation of property which would give upon the real estate and personal property about \$9,000, and with license tax, the amount collected would approximate \$14,000. It will require about \$10,000 of this amount to carry on the fire department, to keep streets, pumps, wharves, and work for a living, and v cemeteries in order, and to furnish the should be made to do it. city with light; the remainder, four ,000 thousand dollars, to pay the yearly had this winter. Up to the present time officers, and to create a sinking fund most favorable for farm work for many for the gradual reduction of the debt. The question now arises, What shall we save by the operation of funding the advantage, have their crops in and most debt and issuing bonds? We will save of their wheat seeded. 511 25 to 40 per cent on city's purchases, for 992 then she will be in a condition to purchase for cash, and by a judicious expenditure of the money arising from the sale of the bonds, in the erection of an engine house, police station, city hall, together with a good market house centrally located, we will saye \$600 a year in rents; and from the rents arising from the market house we will receive a handsome revenue.

The indebtedness of New Berne seems

to some people so enormously large that it can never be paid. It is a very small sum for a city of 8,000 people to owe; and think for a moment what we have received for this indebtedness. The result shows that for the past six or eight years we have had our city affairs faithfully and economically admin-istered. We have artesian wells that give us an inexhaustible supply of water. We have a fire department, one of the best in the United States. We have a beantiful and well kept cemetery; we have two miles of macadamized streets; we have a brick building used as an engine house, etc., etc. Notwithstanding this showing, the dis-cordant notes of grumblers are heard Besides these, there are twenty-three on our street corners declaiming against the "unlawful extravagance" as they call it of the city council. These grummove trying to create discontent in the minds of the tax payers. I often won-der what kind of an administration of the city affairs we would have if their

His bones were twisted, and he was all doubled out of shape. All persons doing business as merchante or otherwise, upon all goods be carried about on a pillow. As these cases of rheumatism, where the bones were twisted and the joints were all crooked, had for years bafiled the skill of the most eminent physicians, I determined to use Swift's Specific, as I had seen testimonials from men whom I knew to be trustworthy, of similar cases it had cured.
