**CONGRESS AND THE CABINET.**

**Importance of Not Reducing Democratic Strength in House or Senate.** [New York World.] WASHINGTON, Dec. 25.—A Democratic public man who is greatly interested in the future of his party said to-night that Mr. Cleveland's work of making his Cabinet was of such vital importance to the future of the party that the party leaders could not think of or discuss much else besides the men who may be possibly selected.

**President Cleveland** should have in his Cabinet those who are familiar not alone with public men and their methods, but with the men who ruin and wreck all with whom they come in contact, engulfing in their fall parties and principles, but let the President be ever so strong and his Cabinet ever so able an administration is powerless without strong support in the House and in the Senate.

**HARTFORD, Conn., Dec. 25.**—Connecticut delegation which paid a visit to Gov. Cleveland has returned. A great deal of indignation is expressed at the despatches sent to various newspapers in New York stating that the members of the party urged the name of William H. Barnum for a Cabinet position.
