

THE DAILY JOURNAL.

VOL. III.

NEW BERNE, N. C., FRIDAY, JANUARY 2, 1885.

NO. 235.

LOCAL NEWS.

Journal Minutiae Almanac.

New Berne, latitude, 35° 6' North, longitude, 77° 3' West.
Sun rises, 7:11; Length of day, Sun sets, 4:57 1/2 hours, 46 minutes. Moon rises at 7:02 a. m.

Now to business.

The thermometer in the JOURNAL office registered 70 yesterday.

Our truck farmers are carrying out their seed pens preparatory to planting. The steamer Trent arrived from Trenton yesterday evening with a cargo of cotton, cotton seed and rice.

The calendar committee for the February (special) term of Craven Superior Court will meet at the Clerk's office tomorrow morning at 10 o'clock for the purpose of calling over the docket and preparing a calendar. The attorneys have been requested to attend.

New Year's day was decidedly dull down town. Our colored citizens did most of their celebrating up town. The day opened with a heavy fog, followed by rain in the evening. Our business men did not close up for holiday, but many of them might just as well have been closed for their stores resembled holiday very much.

The holidays are about gone, and the time is come now for work. The fall and winter so far have been so favorable that farmers are pretty well up, and with a favorable spring will soon be able to dispel the gloom of hard times. In fact so much cry of "hard times" is very much like the young man in olden times that cried wolf! wolf! when there was no wolf.

The large rattlesnake killed by Collins H. Hunter near Havelock last spring, which we made mention of at the time, has been nicely mounted and leaves on the Shenandoah to-day for Norfolk as a Christmas present from Jas. H. Hunter, Esq., to our former townsmen, Thos. J. Latham, Esq. He is over seven feet long, has thirteen rattles and a button, and is a terrible looking monster for this section. He was on exhibition at Dail's corner, where many went to see him.

Thanks.

We return thanks to Messrs. Rountree & Co., of New York, for valuable count and market reports, which that firm sends us with punctual regularity.

Personal.

J. P. Brogden, Esq., of Trenton, is in the city.

Mr. W. P. Burrus left yesterday morning for Roxobelle, Bertie county.

A Pleasant Entertainment.

Among the most pleasant entertainments of the holidays was one given by Miss Shiny Oliver to the children of her charge in the Graded School.

Miss Oliver has won the esteem of the children, and by this advantage may the more successfully control and instruct them. The entertainment was at her home, and between 50 and 60 children were present on the happy occasion.

Waterspout.

Yesterday evening about four o'clock a waterspout formed at Sandy point, near the confluence of the Trent and Neuse channels and proceeded down the river, widening as it moved. From the Old Dominion wharf Capt. E. B. Roberts had a full view of it. It formed like a tall pillar of cloud enlarging as it moved, and throwing the waters of the river into the most violent commotion, lasting for nearly five minutes. Capt. Roberts says it was a brilliant sight to behold, but the master of a wood boat that missed it only a few yards, says when he saw it coming he struck sail, fell on his knees and prayed until it was gone. It was not such a beautiful sight to him.

Lawyer's Convention.

At a meeting of the Raleigh bar on December 30th, it was resolved that a committee of five be appointed to issue an invitation to the bar of the State to meet in convention in Raleigh at an early day to consider what changes are necessary and proper in the judicial system of the State, and to take such further action as may be proper to secure desired reforms in the administration of justice in the State. T. M. Argo, Esq., Hon. D. G. Fowle, Col. T. C. Fuller, Hon. Jos. B. Bachelor and R. H. Battle, Esq., were appointed as the committee.

The demand for increased facilities for hearing and determining civil causes so as to prevent delay is so universal that the General Assembly will be compelled to do something. An organized effort like this proposed by the Raleigh bar will bring the matter prominently before that body, and will probably aid in determining the best plan.

A. M. Baker requests us to give notice that he will sell no more goods on credit to any one. He sells very cheap but must have the cash.

New Year's Day in the City.

At twelve O. S., or twenty-four N. S., the bell rung in the new year and a few horns sent forth a blast to join the welcome. Although the last hours of the dying year were bright and clear, the earliest of the new were sufficiently cloudy to shield a short shower to refresh the sod upon the grave of its predecessor.

The day broke in foggy and somewhat gloomy and the quietude of the streets was much like that of Sunday. But few callers were out and the number of those receiving was limited.

The afternoon was damp and rainy, which kept some from contemplated trips of pleasure, while it furnished others an opportunity to take a nap.

It has been a notable fact that less noise on the streets has accompanied the Christmas and New Year's festivities this season than for many years and philosophers say it is because the stock was exhausted in November over the results of the election.

The Week of Prayer.

The following is the programme of the Evangelical Alliance for the Week of Prayer, beginning with January 4 next, and continuing until the following Sabbath, January 11, 1884.

Sunday, Jan. 4.—Sermons.—"The good fight of faith."—1 Tim. 6:12; Ephes. 6:10-13.

Monday, Jan. 5.—Praise and Thanksgiving.—"For the long-suffering love and faithfulness of God; for his many answers to prayer graciously vouchsafed during the past year; the gifts of his Fatherly goodness and mercy; the general preservation of peace; for the opening of all countries to the gospel and for the power of the Holy Spirit in its publication."

Tuesday, Jan. 6.—Humiliation and Confession.—"On account of national sins and the increase of lawlessness; the non-recognition of God's judgments in public calamities; unfaithfulness to God and his truth; for personal transgressions; the growth of infidelity and superstition; desecration of the Lord's Day; with prayer that the Holy Spirit may convince of sin and lead men to repentance."

Wednesday, Jan. 7.—Prayer for the Church of Christ.—"That all believers may be filled with the Holy Spirit; that the unity of the Church of Christ may be manifested and brotherly love increased; that the churches may more deeply realize their responsibility in regard to increased evangelical work among the masses; that all pastors, evangelists, teachers and workers may become fervent in spirit, diligent in their ministry and faithful in preaching Jesus Christ and him crucified; for Sunday-schools and for the better observance of the Lord's Day."

Thursday, Jan. 8.—Prayer for Families and Instructors of Youth.—"That God's goodness and mercy may not be withdrawn, and that the word of God may run and be glorified; that Christian parents may more fully recognize the obligation to train up their children in the fear of God; that young people may be saved from intemperance, immorality, and other sins; for universities, schools, professors, teachers, and students of the ministry."

Friday, Jan. 9.—For the Nations.—"For rulers and governments and all in authority; for the prevention of war; that all laws which favor vice and cruelty may be removed; that wicked men and their conspiracies may be confounded, and loyalty and good citizenship prevail; for soldiers and sailors; for the removal of Mormonism, intemperance, and the social evil; and for the suppression of all that is impure in art or literature."

Saturday, Jan. 10.—For Missions, Home and Foreign.—"For the outpouring of the Holy Spirit and the spread of the gospel in all lands; for more laborers to be sent forth endowed with power from on high; for native Christians, that they may be established in the faith and become more earnest in seeking the salvation of their countrymen; for all missionaries; for God's ancient people Israel; and the conversion of many to the faith of Christ; for increased blessing to attend the circulation of the Scriptures, and the religious training of the young in missionary schools and colleges."

Sunday, Jan. 11.—Sermons.—"Waiting for the Lord's appearing."—Isa. 25:9; 2 Thess. 3:3-5.

Evangelical Alliance—Notice.

There will be a meeting of the New Berne Branch Evangelical Alliance at the Custom House in this city at 4 o'clock p. m. to-morrow (Saturday). A full attendance is requested.

The following named persons constitute the Executive Committee: Rev. L. S. Burkhead, D. D., Corresponding Secretary; Revs. L. C. Vass, G. W. Neal, Edward Bull and J. A. Suydam, Drs. W. H. Barker and J. D. Clark, Messrs. O. Hubbs, J. A. Simpson, John H. Bell, A. M. Baker, B. M. Gates, F. W. Hancock, J. B. Holland.

President, Hon. Aug. S. Seymour. Treasurer, Mr. George Allen. By request of Executive Committee. T. A. HENRY, Recording Secretary.

A. M. Baker requests us to give notice that he will sell no more goods on credit to any one. He sells very cheap but must have the cash.

It is wise to provide against emergencies that are liable to arise in every family. A cold may be a dangerous enemy, or not, depending upon the means at hand to combat it. In sudden attacks of cold, croup, asthma, etc., Ayer's Cherry Pectoral will prove the quickest and most effective cure, and your best friend.

Jones County Items.

Our coroner was called upon Thursday to hold an inquest on the dead body of Mark McCleese's wife, in the upper part of our county, near Dover. I understand she was shot down in her house by a negro named Battle, who is considered crazy.

It is about time for the Jones county weather prophets to hold their convention and make their aw-man-ic for 1885. Why don't Uncle America attend to it so we can tell how to plant our crops, and whether we must clean out ditches or not, or whether we should plant forward or late? Why, gents, you must act; we are anxious to hear from you.

Mr. T. L. Hunter, the young man who attends Capt. Page's mill, has invented a machine that will clean corn and wheat of all chaff, husks and corn silks while grinding. I have seen it in operation, and it does its work thoroughly and it is simple in construction and not liable to get out of order. I will not describe any of its parts as I understand he intends to get a patent for it.

Married, on the 31st of December, at the residence of the bride's father, Rev. W. N. Pritchett officiating, Miss Lela Dillahunt, daughter of Lafayette Dillahunt, of Cypress Creek township, Jones county, to our worthy Mayor, George T. Hill, of Trenton, N. C. May the sunny side of life always be the side they are on and their pathway ever be strewn with flowers.

Many things happen here that are worthy of printing—any amount of real funny things. Most of these funny things are caused by an article that is brought here in barrels; our boys call it "Wee Drop." It has a tendency to annihilate; time and space to prove this, I will mention just one instance: A citizen who resides on the Core Creek road, one mile from Trenton, came over to Trenton and just, he says, "took a little tetch of this wonderful stuff," and started home again and he says before he was aware of it he found himself standing at Core Creek station; having passed right by his home and had traveled 8 miles. But my informant says he needed just another "small tetch" to bring him back.

The town of Trenton was enlivened by the boys on Monday night last; when I say boys, I mean all who act with boys, whether they are 12 or 69 years old. Some of them say they painted old Trenton red—a real old time Christmas; fire crackers, fireworks and other boyish freaks. They had with them a real old jovial associate from the town of Kinston, who furnished plenty of capital to aid them. Besides this, they had a number of foot races, in which the boys say the Colonel participated, and they have a high opinion of his running capacities. The boys say their old friend is hard to beat in any crowd, and they sincerely hope he may be spared many years yet to dispense justice in Kinston and help have a good time in our old town even if it is only in a foot race.

The Latest News.

LITTLE ROCK, Ark., Dec. 31.—The rainfall here continued until six o'clock yesterday afternoon, when it slackened. Telegrams from all quarters of the State record continuous rains. The Arkansas river at this point had risen up to last night four feet in the preceding 18 hours, when it was one foot ten inches below the danger line and still rising. All other rivers, north, south and east, continued to rise and additional damage to fences, houses and stock is reported, but the extent can only be conjectured, as miles of bottom lands along rivers are flooded. The total rainfall here for December has been over sixteen inches; two-thirds of it fell in the past ninety hours. At some points on the Ouchita river it spreads through bottom lands a distance of ten miles. Three miles north of Arkadelphia there is a break over 200 feet long, and the water rushes at the rate of twenty-five miles per hour; while there is another break, believed to be worse, reported half a mile further north.

GALVESTON, Tex., Dec. 31.—Terrific rain storms have deluged this State during the past four days, doing great damage to railway and other property. Trains have been delayed and country roads rendered impassable, owing to bridge washouts.

LACONIA, N. H., Dec. 31.—The Pitman hosiery manufacturing company stopped their machinery last night, throwing about 150 hands out of employment. They will remain closed about six weeks on account of the scarcity of orders.

CHICAGO, Dec. 31.—The temperature has fallen 30 degrees in this city since midnight. At 9 o'clock this morning it stood 23 degrees above zero. At Omaha it stood 4 degrees below; at St. Paul 5 below; at Keokuk 4 above; at Fargo 20 below, and at Winnipeg 18 below.

COLUMBUS, O., Dec. 31.—The officers of the Hocking Valley railway and coal exchange report everything quiet in the valley this morning, though they express the opinion that there will be some trouble to-night. They say the demonstrators last night failed to take an active part for the reasons that the strikers were met with such a strong force of guards at a point where they expected to make an attack. They consider the unusual demonstrations at this time as an effort to keep the miners from breaking from their ranks and going to work, as many of them have decided to do. Early this morning several shots were fired at Happy Hollow, but without doing any damage, and this was the extent of the outward demonstration on the part of the unlawful element.

Geo. Andrews, overseer of the Lowell Carpet Corporation, was for over twenty years, before his removal to Lowell, afflicted with salt rheum in its worst form. Its ulcerations actually covered more than half the surface of his body and limbs. He was entirely cured by Ayer's Sarsaparilla. See certificate in Ayer's Almanac for 1883.

The Child and the Year.

Said the Child to the youthful Year:
"What hast thou in store for me,
O giver of beautiful gifts, what cheer,
What joy dost thou bring with thee?"

"My seasons four shall bring:
Their treasures; the winter's snows,
The autumn's store, and the flowers of spring,
And the summer's perfect rose.

"All these and more shall be thine,
Dear Child,—but the last and best
Thyself must earn by a strife divine,
If thou wouldst be truly blest.

"Wouldst know this last, best gift?
'T is a conscience clear and bright,
A peace of mind which the soul can lift
To an infinite delight.

"Truth, patience, courage, and love
If thou unto me canst bring,
I will set thee all earth's ills above,
O Child, and crown thee a King!"

—ST. NICHOLAS.

Cotton.

WASHINGTON, Dec. 30.—The December report of the department of agriculture upon the cotton product indicates a smaller yield than the returns of the condition in October. The October average was 74, against 68 in 1883, 88 in the great harvest of 1882, and 66 in the disastrous season of 1881. The returns of the condition in October and of the product in December have been unusually divergent this year. The first indicated a larger crop than last year, the latter a product slightly less or about 98 per cent. The comparative decline is in the States west of Alabama.

The comparison with last year is as follows: North Carolina, 100; South Carolina, 107; Georgia, 101; Florida, 103; Alabama, 105; Mississippi, 94; Louisiana, 98; Texas, 89; Arkansas, 97; Tennessee, 101. Applying these percentages to our figures for the crop of 1884 they indicate a product of 898,000 bales in North Carolina; 602,000 in South Carolina; 700,000 in Georgia; 60,000 in Florida; 661,000 in Alabama; 847,000 in Mississippi; 480,000 in Louisiana; 995,000 in Texas; 513,000 in Arkansas; and 314,000 in Tennessee. The remaining territory will probably give about 50,000 bales. This makes an aggregate of 5,580,000 bales. These figures are provisional and may be slightly modified by future returns. It is possible that the general disappointment at the outcome of the middle States' crop made the December returns unusually conservative, but it is certain that the rate of yield will be much below the average.

Obituary.

Died, at her residence in Lenoir county, on Dec. 15th, 1884, Mrs. Lucy Jane Kennedy, wife of J. E. Kennedy, aged 36 years.

She leaves a devoted husband, six children and many friends to mourn her loss.

"May God comfort them in their sad bereavement."
"And may Heaven feel nearer them now."

Lucy was indeed a pure, noble, Christian woman; self-sacrificing, caring always for the comfort of others, a true and devoted friend. She bore her afflictions only as a true Christian can. She expressed herself as willing to leave her loved ones in the care of Him who has promised to never forsake those who put their trust in Him.

Though we can never see her again, on earth, we will ever cherish her memory. She has gone to a home prepared for the soul. No sickness, sorrow, pain or death can reach her there.

"There is no home on the shores of time which the waves will not wash away." There is no path here which the foot of disappointment will not tread. There is no sanctuary here which sorrow will not evade.

There is for all those that live for God, a home prepared. One not made with hands, but eternal. God and the Angels dwell there, and I feel that there we will meet dear Lucy.

No parting yonder,
The spoilers hand
Can never enter
The happy land.

A DEVOTED FRIEND,
Lenoir Institute, N. C. Dec. 27, '84.

Notice.

To the officers and members of the Craven County Teachers' Association, and all those holding teacher's certificates:

You are expected to meet at the colored Graded School building Saturday at 12:30 o'clock, to attend to some particular business pertaining to the Association.

Sweet Gum and Mullein.

The sweet gum, as gathered from a tree of the same name, growing along the small streams in the Southern States, contains a stimulating expectorant principle that loosens the phlegm producing the early morning cough, and stimulates the child to throw off the false membrane in croup and whooping cough. When combined with the healing mucilaginous principle in the mullein plant of the old fields, presents in TAYLOR'S CHEROKEE REMEDY OF SWEET GUM AND MULLEIN, the finest known remedy for Coughs, Croup, Whooping Cough and Consumption; and so palatable, any child is pleased to take it. Ask your druggist for it. Send two-cent stamp for Taylor's Riddle Book, which is not only for the amusement of the little ones who will gather around your knee to hear the puzzling questions, but containing information for the health and welfare of every home.

WALTER A. TAYLOR,
Atlanta, Ga.

A Case without Hope.

Jno. R. Boker, of Macon, Ga., writes: "In 1878 I was attacked by the most ravenous sort of cancerous sores, that ate great holes into my flesh and spread rapidly over my body. I received the very best medical attention; was dosed with mercury and potash until I was so crippled with mercurial rheumatism that I could scarcely hobble about; my throat and mouth were badly ulcerated; my hair began to fall out. So wrecked was my general health that I became a physical ruin and my life was a burden. For a long time I was bed-ridden, and my suffering was so intense that I prayed for death as a relief. I exhausted the whole catalogue of patent medicines, in each case following the directions religiously. Each in turn seemed to aggravate the malady, and none of them benefited me in any way. When life was apparently hopeless I commenced taking S. S. S. To this Specific I owe my life. In ten days I commenced improving, and in a short time was perfectly well. My hair has grown out thick; my health and strength have returned; the ulcers in my throat and mouth are entirely cured; my appetite has returned, and for the first time in years I enjoy my food. Every sore has disappeared from my body. I weigh as much as I ever did in my life, and am perfectly healthy in every way. The very germs of the cancerous affliction are destroyed. Not only is the terrible malady that was preying on my life, and which every one pronounced incurable, entirely cured, but I am also relieved of the bad effects of the mercury and potash mixtures that I was fed on for years."

Beware of Potash and Mercury mixtures, gotten up to imitate our specific, they are dangerous.

Our Treatise on Blood and Skin Diseases mailed free to applicants.
