Large numbers of hands are leaving every day for the turpentine orchards down South.

Mr. John T. Dawson don't know whether he is truck farming or not. He planted out fifteen thousand cabbage but the maggots have left him but about three thousand.

We have received the January number of *The Tar-Heel Magazine*, published by George I. Nowitzky. Among the contributors are Col. T. C. Fuller and J. I. McRee, of Raleigh. It is quite an interesting number.

There were nine cases before His Honor, Mayor Meadows, yesterday. Five young gentlemen were up for having fun last Saturday night and obstructing the streets. Three had neglected to pay their license tax, and one drunk and disorderly. The obstructionists were fined \$1.00 each and cost, making their fun cost them \$3.40 each, which they shuffled out and went on their way not rejoicing. The others were discharged upon payment of cost.

Twice Married.
 On Thursday night, Jan. 1st, 1885, Mr. John Alphin and Miss Catharine Alphin were united in marriage at the county line between Duplin and Onslow counties by Justice Mills, of Duplin. Next day they concluded to put the matter beyond all doubt as to the legality of the ceremony and went to Richlands and had the rite performed by Justice Mills, and they went away happy. We received this information from a man who wrote, "don't sign my name."

A. M. Baker requests us to give notice that he will sell no more goods on credit to any one. He sells very cheap but must have the cash.

THE JEWELS IN SESSION.
 After New Years, the Panel assembled in regular session. Each had holiday presents to exhibit, varying from a new hat, fancy bordered handkerchiefs and red cedar pencils up to insurance company calendars and patent medicine almanacs. The comparison of presents and the recounting of incidents of Christmas were both interesting and diverting.

For solid enjoyment but few people equal the members and none excel them. Philosophically inclined, they take things by the easy end, and always rub a cat the way the fur grows. Generously disposed they are liberal in giving a chew of tobacco or sharing their peanuts with each other. Mirthfully inclined, they can draw as much fun to the square inch out of a dry joke as anybody, not excepting the Sandwich Islanders, who chaw each other for another purpose.

Evangelical Alliance.
 Union service will be held to-night, Wednesday, January 7, in the Methodist Episcopal Church South. The public are earnestly requested to attend. Seats free, and all are welcome. The topic for prayer to-night is:
For the Church of Christ.—That all believers may be filled with the Holy Spirit; that the unity of the Church of Christ may be manifested and brotherly love increased; that the churches may more deeply realize their responsibility in regard to increased evangelical work among the masses; that all pastors, evangelists, teachers and workers may become fervent in spirit, diligent in their ministry and faithful in preaching Jesus Christ and him crucified; for Sunday-schools and for the better observance of the Lord's Day.

La Grange Items.
 With New Year came the closing of two of the bar-rooms in our place. Sunday was a cold, cloudy, rainy day, just such as to keep one home. No preaching in town.
 Will N. Hadley, son of our townsman, Dr. J. M. Hadley, was here on a short visit last week.
 The weather is very unfavorable for farming operations. We hope to see an improvement in the weather soon, and to see work commence in earnest.
 We regret to hear that our townsman, Shade Wooten, of the firm of J. S. Wooten & Bro., is confined to his home by sickness. Hope to see him out again soon.
 Several new cadets have entered the Davis School since the holidays. The school is in a prosperous condition, which proves that effective work is being done.
 The new county move seems to have hung fire about here. Many seem to favor the move, but no one pushes. It is useless to start, unless the intention is to vigorously shove the matter.
 We hear that services will be held in the new P. B. Church in town the third Sunday in this month. We suppose it is intended to have the church completed, or nearly so, by that time.
 Noah Rouse, Esq., believes oyster shells to be the cheapest manure. Several car loads have been shipped to this place, which he is hauling to his farm near here, where they will be burned and properly distributed.
 "Doc" Hadley, formerly of the firm of Hadley, Parks & Co., in Goldsboro, was here Sunday visiting his brother, Dr. Hadley. We have noticed that Mr. Hadley comes to see his brother quite often, or ——
 With the new year came the usual removals. Sim. Wooten occupies the C. G. Grady house; Capt. Rogerson, Dillon's Woodland House; A. E. Rouse, Mrs. Hardee's house; while John Rouse and Mrs. M. Croom occupy their new residences up town.
 We acknowledge the receipt of a copy (No. 3, vol. 3) of the *Davis Cadet*, published in the interest of the Davis School in our place; W. E. Ormond, editor; A. C. Davis, publisher. The *Cadet* contains much reading matter and is well gotten up. Subscription price 50 cents a year.
 Mr. Baker, of the firm of Lee & Baker, left here Monday for Georgia with about twenty turpentine hands. They pay good wages, and still many of the hands claim that they can save as much here in twelve months as there. The wages paid hands here is small in comparison to that paid in many places, and yet we pay full price for all the labor we get, and in many instances more.

Sweet Gum and Mullein.
 The sweet gum, as gathered from a tree of the same name, growing along the small streams in the Southern States, contains a stimulating expectorant principle that loosens the phlegm producing the early morning cough, and stimulates the child to throw off the false membrane in croup and whooping cough. When combined with the healing mucilaginous principle in the mullein plant of the old fields, presents in TAYLOR'S CHEROKEE REMEDY OF SWEET GUM AND MULLEIN, the finest known remedy for Coughs, Croup, Whooping Cough and Consumption; and so palatable, any child is pleased to take it. Ask your druggist for it. Send two-cent stamp for Taylor's Riddle Book, which is not only for the amusement of the little ones who will gather around your knee to hear the puzzling questions, but containing information for the health and welfare of every home.
WALTER A. TAYLOR.

Kinston Items.
 Haven't seen the adjutant in a long time. Send him up on his pony. Large crowd at the Disciples' Christmas Tree in the court house Friday night.
 Lenoir County Teachers' Association meets Saturday, Jan. 10, at Kinston College.
 Quite a crowd in town Saturday, notwithstanding the cold wind. Auctions going on in two places at once.
 Mr. G. E. Miller has rented his fine residence to Capt. Wm. Midyette, who will open a boarding and lodging house there.
 Steamer Kinston arrived Saturday. After discharging cargo, the stevedores at once began loading her for New Berne.
 Maj. W. J. Barrett will leave for Raleigh on Monday. We heartily wish him success as Engrossing Clerk of the House.
 Mr. B. McCullen, sr., has bought Mr. G. E. Miller's office and, having built a neat porch in front, has made a pretty little nest of it.
 Mr. John O'Connor, who for several years past has been one of Mr. S. H. Loftin's most efficient clerks, is now in the insurance business with Messrs. Midyette & McCullen.
 6,200 bales of cotton have been weighed here since first of September. This is the smallest number, except the first year, since the law for weighing cotton was passed. Most of this cotton has been shipped by rail, owing to low water in the Neuse.
 There have been many changes in our town during the past week. Dr. W. A. J. Pollock has removed to the Moseley house, opposite the residence of Mr. E. F. Cox. Mr. S. Einstein will remove soon to the new residence of Mr. Wm. Hunter. Mr. H. will not keep house this year.
 Dr. H. D. Harper will leave on the 12th inst. for the University of Tennessee, where he is to take a special course in the Dental Department. The Doctor is already a good dentist, but he loves his profession and is determined to keep posted in all the improvements in the science.
 We were glad to shake hands with Mr. Matthew Harvey on Friday last. He was for several years a merchant in Kinston, where he has many warm friends. He is now farming in Craven county. He reports his neighborhood as in a much better financial condition than Kinston. We note his prosperity with much pleasure.
 At its last meeting, Caswell Lodge, No. 640, Royal Arcanum, the following were elected the officers for the ensuing term: Regent, E. S. Laughinghouse; Vice-Regent, S. M. Harrell; Orator, Wm. J. Pope; Ass't Regent, Rev. Israel Harding; Secretary, Dr. V. E. Weyher; Collector, B. L. Taylor; Treasurer, B. F. Scarboro; Chaplain, R. F. Bright; Guide, George F. Parrott; Warden, H. C. Bailey; Sentry, W. J. Street; Trustees: J. M. Konegny, E. B. Isler, W. J. Pope; Medical Examiner, Dr. H. O. Hyatt.

GENERAL NEWS.
 A young Jewish student of Berlin University, late applied for admission to the night brigade of scavengers that he might earn a little in aid of his support. He sweeps well.
 An act which has for a very long time received but scant attention in England requires bakers to carry scales when they bring bread to their customers, and the baking fraternity are not a little exercised by the Supreme Court confirming, on appeal, a magistrate's punishment for failure to do this.
 The heavy fall of snow among the pineries of Wisconsin has been of great advantage to the lumbering interests by enabling the crews in the woods to begin a heavy season's work. Swamp logging is delayed by the snow having fallen before the cold weather set in, making a bad footing for teams.
 Marshall Northrop, of Woodbridge, Conn., has a novel barometer in the shape of four bulldogs, which live in a half hoghead in his spring. In fair weather they sun themselves around a hole in the hoghead's bottom, but when the storm centre moves their way they dive through the hole and out of sight.
 The latest surgical luxury is an instrument by which incisions may be made without giving pain. It consists of a knife which is regulated by a watch attachment, so that it advances at the rate of only one inch in six hours. A slight sensation of uneasiness is produced, which does not, however, prevent the patient from going to sleep.
 According to the *Philadelphia Medical and Surgical Journal*, a girl who would have been a beauty save for a Roman nose of undesirable prominence called upon a surgeon to transform the organ into a graceful Grecian article. The surgeon declined to operate for such a purpose, but the girl said she would "find a man to do it if it cost \$5,000."
 The Marquis of Bute has sold out most of his enormous dock property at Cardiff to a railroad company. He and his two immediate predecessors probably expended not less than \$25,000,000 in docks. Immense sums were spent in this way during the present Marquis's minority. The wisdom of the expenditure was doubted at the time, but events have justified it.
 The Kennebec this season, says an extensive ice operator on that river, has frozen up in unusually good shape, very smooth and very clean. The ice is now from three to five inches in thickness and of excellent quality. Cutting will not commence until the ice is about 11 inches thick. The storing capacity for ice on the Kennebec, which is now about 800,000 tons, is rapidly increasing.

A. M. Baker requests us to give notice that he will sell no more goods on credit to any one. He sells very cheap but must have the cash.

Stonewall Items.
 There is as much substantial improvement in Washington as any town in the Eastern part of North Carolina that I have seen for the last three years. On my way home I tarried all night with Mrs. Joe Edwards, at Edwardville, Mr. E. being absent on business. I was disappointed at not seeing him, but I can say to all who wish to know how to fix a feed trough, see fine pigs and chickens, call on Mr. E.
 On my way to Oregon on last Sunday I met Mr. Henry Reel, and he had in charge the one that rumor says is to grace his new house which is just about ready for occupancy. At Oregon I was the guest of Mr. Tuthill, and received the same hospitality that is on all occasions dispensed at his house. There I met Lute Tuthill and Sam Springer, who have been out in Dakota for sometime to try their fortunes. They report wells 30 feet deep as freezing so hard that water could not be drawn from them until thawed, and no wood to be had for love for money, and coal \$12 to \$14 per ton. If the young gent's will let me guess for them, I should say there is an attraction in Oregon, that there is so much magnetism for Sam that his eyes will never view the prairies of Dakota again. And as for Lute, the country in which wells have to be thawed 30 feet below the surface to get water for all people, without wood, and coal at \$12 to \$14 per ton, will never hold him again. There is plenty room in North Carolina for all such good citizens. From Oregon, accompanied by Mr. L. Hawkins, we wended our way to Washington, the most hospitable place in North Carolina.

STATE NEWS.
Wilmington Review: Capt. Loof, of the Ger. barque *Texas*, which arrived here yesterday, reports that when in lat. 27.53 North and lon. 75.10 West, he passed a two masted schooner with no one on board. A heavy sea was running at the time which washed the schooner's deck. Did not learn her name nor how long she had been abandoned.
Greenville Eastern Reflector: Hon. Thos. G. Skinner, our very worthy Congressman, was united in marriage to Miss Palin at Elizabeth City, on Wednesday, the 21st inst.—Just before going to press we learn that Mr. Orlando Hearn, an estimable citizen of the county, died at his home about six miles from Greenville, on yesterday morning.
Raleigh News and Observer: At the State Treasury yesterday \$48,000 in old bonds were exchanged for new ones. The time for such exchange expired by limitation December 31, 1884, but these were sent in by that date.
 Dr. Worth said to a reporter, speaking of bonds, that North Carolina 4 per cents are a splendid security. He has made arrangements to pay the interest at New York as well as here, and always keeps at New York an abundant supply of funds wherewith to meet the interest as it falls due.—Three young men of New York State will be here in a day or two, and will settle in Wake. One is Mr. Curtis W. Kursteiner, son of Dr. August Kursteiner, of this city. Mr. Kursteiner has lived in Columbia county, New York. The other young men are Messrs. Hallenback and Hale. They will have a farm, truck garden and apiary, and will raise fowls of all kinds.
NAMING THE BABY.—A certain punster in Cincinnati, interested in the street car lines of the city, recently received an addition to his family, and a friend met him two days afterwards.
 "Hello!" was the greeting, "stranger at your house, I hear."
 "Yes," was the reply.
 "Boy or girl?"
 "Girl; I'm right sorry, too, for I wanted a boy so I could call him Oscar."
 "Don't let that disturb you," remarked the other wretch, "just call her Carline."—*Merchant Traveler.*

An Editor's Experience.
 After trying numerous remedies for Rheumatism, but without permanent relief, I was advised to use S. S. S., which had given permanent relief to others suffering from rheumatism. After taking half a dozen bottles I found that the disease was entirely driven out of my system, and a permanent cure secured. This was over a year ago, and since then, even during the most severe weather, with sudden changes, I have never suffered a return of the old attacks which disabled me from editorial work.
 It is very seldom, indeed, that I recommend anything to the public in this manner, but I feel it due to your valuable preparation, that has given me such long desired and much needed relief, to state these facts thus publicly. I am sure that but for your Specific, I should have been laid aside from journalistic work, as the severest attack was in my right arm and hand.
