

# THE DAILY JOURNAL.

VOL. III.

NEW BERNE, N. C., THURSDAY, JANUARY 22, 1885.

NO. 252.

## LOCAL NEWS.

**NEW ADVERTISEMENTS.**  
M. HAHN—Sheriff's sale.  
M. HAHN—Sheriff's sale.  
D. L. ROBERTS—Adjourned meeting.

**JOURNAL MINE AND ALMANAC.**  
New Berne, latitude, 35° 8' North.  
" longitude, 77° 8' West.  
Sun rises, 7:09 | Length of day,  
Sun sets, 5:17 | 10 hours, 9 minutes.  
Moon sets at 11:25 p. m.

## BUSINESS LOCALS.

Genta's Clothing at Bottom Prices at  
Asa Jones's.

FISHERMEN may find it to their interest to remember the following REDUCED PRICES on Netting at FOWLER'S NET AND TWINE FACTORY, ELIZABETH CITY, N. C., viz.: No. 6 Netting, 55c. per pound; No. 9 Netting, 45c. per pound; No. 12 Netting, 40c. per pound; No. 16 Netting, 38c. per pound. j17 d6w2

We have a first-class Piano Tuner and Repairer located in our city. His work is said to be the best ever executed in the city. Give him encouragement.  
PROF. GEORGE,  
Central Hotel.

The steamer *Elm City* is on Howard's ship railway.

Counterfeiters in Wilmington have been arrested.

Some very fine turnips at the market dock yesterday.

Freights on the Atlantic and North Carolina Railroad continue good.

The inauguration train that went up yesterday morning was not over crowded.

The Atlantic Steam Fire Engine Company is having an important improvement made to their engine house.

The revenue cutter *Stevens* started down the sound on a cruise Tuesday, but her boiler sprung a leak and she returned to the city for repairs.

A cow-boy appeared in the JOURNAL office last night and wanted to advertise some cows in Texas. Not having the cash he was given the grand bounce.

Mrs. Dewey's chimney on Pollock street caught fire last night and caused the fire bells to ring furiously for a few minutes. The button engine got out but was not needed.

The Republican members of the General Assembly cast their ballots for Tyre York for U. S. Senator. We presume the Doctor will no longer refuse to answer to what party he belongs.

One of the brick stores recently built on South Front street by Capt. J. A. Richardson is being fitted up for a banking house. Hope it will make money more plentiful and cheaper.

Gov. Scales was inaugurated yesterday with imposing ceremonies. May he guide the Ship of State as successfully as the retiring Governor has for the last six years, is the wish of all good people.

The stockholders of the Neuse and Trent River Steamboat Company held a meeting at the Board of Trade rooms yesterday and adjourned to meet on Thursday the 13th day of February at the same place at 3 p. m.

Perhaps it is not known that meat is now shipped from St. Louis and other western markets to New Berne in bulk and boxed after it arrives here. But such is the case, and we are glad to see one step made in the right direction. There is certainly no use sending our lumber North and West to be made into boxes and brought back to us. Let the boxes be made here, and after awhile we hope to see something made here to fill them with.

**Personal.**  
Chas. H. Fowler, Esq., of Stonewall, was in the city yesterday.

**Larceny of Rice.**  
Capt. E. B. Roberts missing several sacks of rice from the Old Dominion wharf yesterday morning, gave information to the City Marshal, who in a little while had Thos. Havens, col., before Justice Watson, charged with the larceny of said rice. Upon hearing the evidence, the Justice required of him a justified bond in the sum of one hundred dollars for his appearance at the next term of the Superior Court. Not being able to give the bond, he was sent to jail.

**Neuse River.**  
The river Neuse, which in the Indian language means "The River of Peace," takes its rise in the northwestern part of Wake county, and is formed by the confluence of three streams at one point, to-wit: The Eno, Flat river and Little river. With its tributaries it has a length of 235 miles, and drains an area of 5,000 square miles. The fall to New Berne is 240 feet. See Professor W. C. Kner's Geological Report for the year 1875.

If you are in need of bill, letter or press board, call at the JOURNAL office and have them printed neat and cheap.

## Beacons, Lights and Buoys.

On our editorial page will be found an article from Maj. W. A. Hearne, on the condition of lights, beacons and buoys in North Carolina waters. He treats the subject with remarkable clearness; points out many needed improvements and asks the people to demand of their representatives in Congress the consideration they are entitled to in providing for coast and inland water navigation. In speaking of the needs of stakes and buoys in Core sound he seemingly charges neglect upon the buoy tender in this district. The tender was in this port last week and the Captain informed us that he was going to Washington in a few days and take in fittings for Core sound and Beaufort harbor and that he would remain in the North Carolina waters until all necessary work was complete.

We agree fully with the Major that this section of North Carolina has not had its share of the public benefits. He says it is because our people and representatives have not demanded it. Whether this be the cause or not we know the fact that towns of much less population and of far less commercial importance than New Berne have had government buildings erected. We have here a custom house, district court and a postoffice which is the distributing point for several adjoining counties, and yet the government has no building here nor do we suppose it ever will until the district can be represented on the popular side of the House of Representatives.

## Why Don't They Publish?

**EDITOR JOURNAL:**—I see in your paper of the 20th instant that the Commissioners of Onslow are going to have published what they are doing monthly, as Jones county has been doing, but I can't see why they should have their proceedings published any more than the Craven county Commissioners. Neither do I see why the county and town treasurers of other counties should publish what they have been doing with the people's effects when Craven does not; neither does the city treasurer; nor have they, for lo! these many years. Therefore I think the Legislature should make a law to compel the officers of Craven to be sworn to obey the law before they could be installed as acting officers. Then we would have a different state of affairs in old Craven, and would change her from a monarchy to a republic again. JOG.

Our correspondent is perhaps not aware of the fact that the commissioners of Onslow and Jones counties pay us a small sum to publish their proceedings. Now if the commissioners of Craven county were to appropriate a small sum for the purpose of having their proceedings published monthly, would he not be among the very first to grumble about it? The Legislature ought to pass an act compelling county commissioners to publish their proceedings monthly where there is a newspaper in the county, fixing a reasonable compensation for the printer. But we believe it is already done in almost every county where there is a paper except Craven.

## The Counterfeiters.

At the office of Commissioner Gardner, yesterday, we were shown a quantity of the spurious coin found in the possession of Ben Allen and his alleged accomplice, Louisa Allen, together with the moulds used by the counterfeiters in turning out the various denominations of coin. The moulds are mere blocks of plaster of paris, with the necessary indentation in the centre, into which the hot composition is poured, when an upper block, with its appropriate impression, is added, and the two form the exact counterpart of the coin to be counterfeited. We were shown the spoon used in transferring the liquid metal from the vessel in which it is heated to the various moulds. The handle is lengthened out, so as to protect the holder from the intense heat, by a thin piece of twisted iron. After the coin is moulded powder is flashed over it, which gives it a dark color, and then it is wiped off with a camels skin, which takes away the bright, new appearance and leaves it with a semblance of having been in use for sometime. A file is used to do away with whatever unevenness or roughness may necessarily occur in the process of moulding. The material is in short bars, evidently prepared with a view to the use which is made of it.

The parties were seemingly in a position to carry on an extensive business, and it appears that they were inclined to make the best use of their time and opportunity. The colored festivals are said to have suffered quite seriously from the imposition of the bogus coin, and the store-keepers and bar-keepers have nearly all been "stuck" to a greater or less extent. Some of it was even imposed on the tax collectors, as shrewd as they are. One store-keeper gave a five-dollar greenback in exchange for its equivalent in coin, which he thought genuine at the time, but afterwards discovered to be spurious.

Detective Carr deserves great credit for his success in working up the case and the final capture of the counterfeiter and his accomplice, together with the tools, material, bogus coin, etc. Allen is about 40 years of age, apparently, is a mulatto, and in stature is five feet six inches high, being somewhat low and squat. There is no doubt that Allen had other confederates. The case comes up for preliminary examination before U. S. Commissioner Gardner this morning.—H. J. Dine.

## Condensed from News and Observer. THE GENERAL ASSEMBLY.

### SENATE.

MONDAY, Jan. 19, 1885.  
President Boykin called the Senate to order at 11 o'clock.  
Prayer by Rev. Dr. Marshall.  
The minutes of Saturday were read and approved.

### BILLS AND RESOLUTIONS.

Bill providing for exempting certain personal property from taxation. Laid upon the table.  
Bill concerning concealed weapons, placing it under jurisdiction of justices of the peace. Laid upon the table.

Bill making it unlawful for persons to practice medicine without license.

Mr. Robbins said several physicians, members of the Senate, had requested that the bill be informally passed over; that there would be a meeting of physicians later in the season, who would draw up a bill and submit it.

Bill to alter the constitution of the State, providing that whipping be made a punishment for certain felonies. Informally passed over, until there should be a full meeting of the Senate.

Bill to define the duties of Superior court judges in certain cases; providing that judges shall be at the county seats on Monday morning and shall stay until Saturday night. Passed over informally.

Bill to regulate the sale of property under mortgages and deeds of trust.

Mr. Connor said that a great deal of property is sold under short notices or notices placed in obscure places; and this bill was intended to remedy this, to complete the record, so that the claim of title can be traced.

Mr. Winston said this seemed to him to be useless legislation; the question would arise as to whether the second section would be mandatory or merely directory. Informally passed over.

Mr. Gatling—Bill to establish a true meridian in the various counties of the State, for the correct retracing of surveys.

Bill to amend the Code in regard to malicious injury to personal property.

Mr. Bason said that whenever a wanton and wilful destruction of personal property was committed, he thought it ought to be made a direct crime against the laws of the State.

Mr. Mason moved that the Hon. Carl Schurz, who was in the hall, be invited to a seat upon the floor of the Senate. Carried. Messrs. Mason and Thompson were appointed a committee to conduct him to a seat.

Bill to amend the Code in regard to entry of public lands.

Mr. Alexander thought that the bill ought to be referred to the committee on finance, as that committee has charge of the revenue of the State.

Mr. Graham read from the report of the Secretary of State in 1882, showing the amount of public lands in various counties.

Mr. Graham said he was willing to vote for an amendment making the price \$1 an acre.

Mr. Bower said he agreed with Thomas H. Benton, that these lands ought to be so as to encourage settlers and not be made a source of revenue. Referred to the committee on finance.

### HOUSE.

The House met at 11 o'clock a. m., Mr. Speaker Holt in the chair. Prayer by Rev. Dr. M. M. Marshall, of this city.

Mr. Whitted—From citizens, asking the repeal of section 3,425 of the Code. Committee on fish interests.

Mr. Stanford—From citizens of Duplin county, relative to draining the swamp lands of said county. Committee on agriculture, minerals and mining.

Mr. Pearsall—From citizens of Jones county, opposing the annexation of a part of Jones county to Lenoir county. Propositions and grievances.

### BILLS AND RESOLUTIONS.

Mr. Overman—To facilitate the erection of fences around territories adopting the stock law. Committee on propositions and grievances.

Mr. Adams—To regulate the trial of actions before justices of the peace. Committee on judiciary.

Mr. McKee—To amend section 1,003 of the Code, to prevent injury to farms or growing crops. Propositions and grievances.

Mr. King—To prohibit the Superior court clerks of Onslow and Pender counties from licensing persons to stake off oyster gardens in

Stump sound and other waters. Committee on fish interest.

Mr. Stanford—To amend section 2,799 of the Code, concerning fences. Committee on agriculture, manufacturing and mining.

### CALENDAR.

Resolution to provide for the expense of the inaugural ceremonies. Passed second and third readings. [Mr. Pou was the only member who voted against this resolution.] To fix the standard weight of a bushel of corn and a bushel of peas. Indefinitely postponed.

To amend chapter 50, section 2,019, of the Code relative to the road-law.

Mr. Overman moved to refer to the committee on roads. The motion prevailed.

To exempt certain classes of persons from work on public roads.

Mr. Williamson moved to amend by adding ministers of the gospel.

Mr. Burton moved to amend by adding physicians in regular practice. Informally passed over.

To work the public roads in the State by taxation. Tabled.

Bill relating to cotton weighers. Lost on second reading.

To amend section 456 of the Code, relating to advertising the sale of land. Passed second reading.

Mr. Burton moved to amend by adding that this act shall not apply to Halifax county. Adopted. The bill then passed its third reading.

On motion of Mr. Stanford, the house adjourned until to-morrow.

### Swansboro Items.

Our school opened last Thursday, 15th inst., and is progressing finely. Mr. Harry Mallett, our teacher, has started right, we think, and will build up a No. 1 school.

John Pittman and Ned Jones are jabbering over the Hammock place. John wants to rent it to Jones, and they are worse than a parcel of blackbirds; both parties are afraid of being cheated.

Capt. K. Willis launched a fine sharpie last week, painted up in style. This is the third or fourth boat of this kind Capt. Willis has built and launched since he has been with us. The Captain is a No. 1 boat builder.

Some of our people have so much meat on hand that they have built scaffolds out doors to smoke the bacon—haven't got house room. One bad fellow says it is nothing but pure down stinkiness to get it to do it.

Mr. Robt. Gillette, son of the late Seth Gillette, died last week of pulmonary consumption. Robert was a good boy and liked by all his associates. He was twenty years of age, and lived with his mother, brothers and sisters near Duck Creek in this county.

Talk about your big fish and big coons, but Isaac Hewitt, better known as Swamp Sam, caught the largest ro drum fish this week that we ever saw or heard of. The fish was six feet long and weighed nearly 100 pounds. Iko said he thought he had a whale for once. The fish got tangled in his net and was killed after a struggle by Iko with a crowbar.

Capt. Heady caught the largest coon I ever saw; it measured 4 feet 4 inches from head to tail end, and 3 quarters of an inch across the chest. But this is not a circumstance to Ned Farnell's "possum." Ned says Durant Morton and Ezekiel Morton, two farmers, killed a regular genuine N. C. "possum," that weighed 45 pounds, full weight, and fat in proportion, and we reckon it is so, for Ned is a man of truth.

The people around are finishing killing their hogs. Capt. Loughlin has just killed some very fat ones, and they are good too, because we tried them. Bertie Loughlin, son of the Captain, received his birthday dinner last Tuesday, and we were there, and the turkey was splendid, and things didn't look like hard times, though times are pretty hard with us at present. Bertie was awfully surprised when he lifted his plate and found a gold dollar under it. Couldn't tell where it came from.

Rev. Mr. Futrell preached a good sermon from 2nd Cor., ch. 5, v. 1, last Sunday evening. He is a good speaker though a young man. His appointments for this place are every second Sabbath in each month. We are sadly in need of a good church, a place to preach in; our old church is neglected and bids fair to become firewood in a short time. We ought to have a new church in Swansboro, and we will, if possible, before this year closes. Our hotel is closed, too. Where are you, Dr. Blount? if you don't come back and attend to your business I shall report you. A day or so ago Mr. Mace of Beaufort, Lieut. Parker of Washington, D. C., and others came in town and found no public place to stay, and had to go to a private house.

### A \$20.00 Biblical Reward.

The publishers of *Rutledge's Monthly* offer twelve valuable rewards in their Monthly for February, among which is the following:

We will give \$20.00 to the person telling us the longest verse in the Old Testament Scriptures by February 10th, 1885. Should two or more correct answers be received, the REWARD will be divided. The money will be forwarded to the winner February 15th, 1885. Persons trying for the reward must send 20 cents in silver (no postage stamps taken) with their answer, for which they will receive the Monthly for March, in which the name and address of the winner of the reward and the correct answer will be published, and in which several more valuable rewards will be offered. Address: *Rutledge Publishing Company*, Easton, Penna. d2w14

## Furman's Formula.

Cor. of the News & Observer.

RALEIGH, N. C., Jan. 19.  
I see your correspondent F., from Sutton, Franklin county, asking for information in regard to the use of the Furman formula on corn, cotton and tobacco. Having had some experience with the manure, and long experience in farming, I take the liberty of differing with you in your reply. Mr. Furman's system was entirely broadcasting, and double the dose every year for all crops, but for "F" we would recommend broadcasting for cotton and in the drill for corn, for the first year at least. After that, if he plants the same land in corn and doubles the amount of manure, to broadcast for all crops except for tobacco. Don't use kaint in any of its forms on that crop, if he wishes to make a fine, smooth, evenly-colored yellow tobacco, as kaint will cause it to spot and cure red and yellow; but use some good special fertilizer for that crop. M.
