Some of the husbands in the General Assembly must have had a rough time at some period of their matrimonial existence. When Mr. Pou, of Johnson, introduced a bill to make the battery of a wife by her husband a misdemeanor, it created quite a discussion, and when Mr. Henderson moved to amend by adding that if a woman whips her husband she shall be subject to the same penalty, it passed. The bill, however, failed to pass; the legal wing of the Senate holding that the law was already sufficient on the subject.

EDITOR JOURNAL:—I noticed among the "clippings" in this morning's paper two items in regard to temperance mat-ters, which shows that you are not averse to airing that topic occasionally. I wish to say a few words in regard to one of them. The item is in these words: "In Des Moines the number of saloons has increased from sixty to one hundred and two since the so-called prohibition went into effect. As these sellers have no license to pay, they can stand an occasional confiscation of stock, which is kept low in expectation of such emergencies."

The point I wish to make is just this (supposing this increase to be a fact, and the man who can believe it can believe anything): that one hundred and two saloons under prohibition cannot do a tithe of the evil which would be produced by sixty under license. For in the case of the "sixty," the keepers, having each given a certificate of good moral character, would stand upon the same footing for reputable business and respectability as manufacturers and merchants, and their business might be advertised and built up by ordinary methods. But in the case of the "one hundred and two," every one would be engaged in an unlawful business, and so contemned or despised by law-abiding and right minded people; every one would be obliged to carry on the business in secresy and by stealth; and ev-ery one would live in constant fear and trembling lest his profits should have to go to pay costs, and his stock, "kept low for emergencies," should go still lower, that is, into the gutter. Public opinion constantly strengthens under prohibition, and the saloons, deprived of the sanction of law and the element of respectability which license gives, would be shorn of their power, diminish in number, and "fade away and droop and die." Give us prohibition and we will take our chances with the "contraband" saloons.

Minneapolis and St. Paul are having a lively discussion over the formation of a State fair ground and State park half way between the two cities, each to contain 200 acres, and the latter to embrace the famous Falls of Minnehaha. Ten years ago the cities were fifteen miles apart. Now the park, if formed, will be the only neutral ground between them.

A Chinaman was caught in a clever trick at a jewelry store in San Francisco a short time since. He bargained for a \$100 diamond ring, and offered in payment what appeared to be five \$20 rolls of silver. He took up the ring and broke one of the rolls, which contained half dollars. He pushed over the other four, but there being something sus-picious in his movements, the storekeeper sent for an officer, who took charge of the ring, money, and unopened rolls. When the latter were undone it was discovered that they were lead rolls, at each end of which a half dollar was placed.
