

THE DAILY JOURNAL.

VOL. III.

NEW BERNE, N. C., WEDNESDAY, FEBRUARY 11, 1885.

NO. 269.

LOCAL NEWS.

Journal Minute Almanac.
New Berne, latitude, 35° 6' North,
longitude, 77° 3' West.
Sun rises, 6:51 | Length of day,
Sun sets, 5:37 | 10 hours, 46 minutes.
Moon rises at 4:18 a. m.

BUSINESS LOCALS.

New Samples and New Goods at
102 1/2 W N. M. GASKILL'S.

Hosiery for Ladies, Gents and Children,
in great variety and at low prices,
at Asa Jones's.

Blanks for overseer's reports and their
appointments for sale at this office.

St. Johns Lodge No. 3, A. F. & A. M.,
meets to-night.

Elm City Camp No. 38, Fraternal
Legion, meets to-night.

The steamer *Trent* arrived from Jolly
Old Field yesterday with a full cargo
of cotton.

The steamer *Carolina* arrived from
Hookerton yesterday with a full cargo
of cotton.

The schooner *Agile*, once a portion of
the blockade below this city, is in port
with a cargo of corn.

The schooner *Jas. L. Maloy*, Capt.
Truit, is in port with a cargo of fertilizers
for J. J. Wolfenden.

Mr. R. O. E. Lodge is again before the
public with a large lot of hay and Liver-
pool ground alum salt. See advertisement
on second page.

The stockholders of the New Berne
and Pamlico Steam Transportation
Company will hold a meeting at the
Cotton Exchange rooms to-day at 11
o'clock a. m.

John S. Long, Esq., has been invited
by the intelligent community of Beach
Grove to address them on the subject of
education on next Friday afternoon,
February 13th, at 3 o'clock. He ex-
pects to go.

Mr. J. J. Wolfenden is getting in a
large lot of truck and other fertilizers,
and it is in fine condition, being packed
in barrels headed tight, thus preserving
its strength, or at least its scent, until
opened on the farm.

The steamer *Shenandoah* arrived late
yesterday evening, having been detained
on account of the strong head wind.
She discharged her cargo and left on the
return trip last night with a good cargo
of cotton, rice, etc.

Mr. James Redmond, agent for the
Bergner & Engel beer, has presented us
the company's annual descriptive catalog
showing the plans of manufacturing,
and the increase in the sales of this
beverage. The sales from May, 1871, to
May, 1872, were 43,790 barrels, from
May, 1883, to May, 1884, 213,903 barrels,
showing the steady, increasing popular-
ity of this drink.

The Superior court is jogging along
on the calendar with many cases ahead.
In the case of C. E. Mallett vs. Clifford
Simpson, Clement Manly, Esq., closed
the argument for the plaintiff yester-
day morning and the case was given to
the jury, who returned a verdict for the
plaintiff. Several other cases of minor
importance were disposed of during the
day and court adjourned to 9:30 o'clock
this morning.

Good Chance for Investment.

A store, plantation and gin mill are
offered for sale by an advertisement in
the JOURNAL. It is a good chance for a
profitable investment. Read the adver-
tisement and call on us for information.

Ho, For Washington!

As will be seen from advertisement
elsewhere, the steamer *Elm City* will
make a trip to Washington City on the
occasion of President Cleveland's inau-
guration. This is a splendid opportu-
nity to visit Washington and get a peep
at the President. The number of pas-
sengers is limited to forty-five, which
insures good accommodations. The ad-
vantage in taking this route is that you
carry your hotel along with you and no
danger of being crowded.

Investive Genius.

A few days ago, while at Kinston, we
were shown Bailey's Combination Baby
Carriage. It is the invention of Mr.
Oleasant Bailey, of Kinston, for which
he has obtained a patent, and is the
most complete thing of the kind we
have seen. It is first a baby carriage; it
can then be changed, in a minute's
time, to a crib, then to a cradle and
lastly to a chair. It is an elegant car-
riage, a snug little crib, a beautiful,
convenient cradle, and an easy chair.
Mr. Bailey has associated with him in
the patenting Oettinger Bros. and Mr.
B. O. Outtinger, of this firm, has taken
the invention to New Orleans. We
think Mr. Bailey fortunate in the selec-
tion of his associates. It takes genius
to invent a thing, but it takes genius
also to get money out of it after it has
been invented. We wish them much
success in this enterprise.

Personal.
Phil. Holland, jr., is in the city at-
tending court. By the time the Legis-
lature adjourns he will be the best read
lawyer, on the acts of the present Gen-
eral Assembly, that resides in New
Berne.

Reverends J. L. Winfield, of the
Watch-Tower, and J. E. Parsons called
to see us yesterday.

Protect Your Fruit Trees.

Mr. Josephus Edwards gives the fol-
lowing recipe for the protection of fruit
trees against worms and sap suckers:
Dissolve a box of concentrated lye in
about one gallon of water and wash the
body of the trees with it once per month
for the first three months in the
year. It will destroy deposits of
worms in the bark. To protect peach
trees from borers pour boiling water
around the roots. The insect that de-
posits the egg that produces the worm
in the fruit, crawls up the tree. To
prevent this lash a piece of sheep skin
with the wool on it to the body of the
tree, the skin next to the bark. It will
also protect the trees from blight.

Banking Capital for New Berne.

We are pleased to see a portion of our
business men turning their capital into
the channels of business other than sell-
ing goods on time. Before the war New
Berne had several banks with an aggre-
gate capital of over half a million of
dollars, besides there were several in-
dividuals who loaned money, and they
all did good business. The small amount
of banking capital employed here since
the war has been one great drawback to
the place and surrounding country. If
our land-owners could obtain money at
a lower rate of interest it would
enable them to develop their lands and
add to them permanent improvements.
We are often told that our Northern
friends have plenty of money which
they would be glad to invest down here
if they knew it would be safe. The
trucking industry is steadily increasing
in this section and becoming more cer-
tain and profitable each year, and we
see no reason why as much banking
capital cannot be as profitably employed
here now as there was previous to the war.

A Dynamite Hoax.

Yesterday about 11 o'clock an un-
known, large-framed, red bearded man
resembling a tramp, but dressed very
well, quietly approached the counter in
one of the most prominent business
houses in this city and unnoticed de-
posited thereon a small package about
four by two inches labelled "open this
end," and with a fuse at the other end.
Immediately upon dropping it he
left, and the gentleman waiting at the
counter was greatly surprised and
alarmed when he discovered the box,
for it was evidently a dynamite "in-
fernal machine," and was intended for
him.

However, his presence of mind en-
abled him to carefully lay the machine
where it could do no harm, and then
commence a strict search for the guilty
party.

He has two detectives engaged in the
search and hopes to capture the would-
be assassin to-day, when, if successful,
the punishment so justly merited will
be given, according to the "statute,"
that is, a can of shot pinned to his coat
tail and he headed for the country.

Kinston Items.

Large crowd in town on Saturday.

Some new dwelling houses going up.
Capt. Jo. Robinson, of New Berne,
was here on Saturday.

Mr. W. C. Moore is a little easier at
this writing (Monday p. m.).

There are now four colonies of Eng-
lish sparrows in our town.

Mr. Henry G. Griffin, of this place,
has engaged in the steamboat business
with Capt. White.

Our famous colored weather prophet,
Tripp, is dead. He died while on his
knees, praying, on Friday last.

The "shad frogs" are piping prophetic
warnings of the arrival of the shad. We
wait, with patience, for their arrival.

We are sorry to hear of the sickness
of Dr. H. D. Harper. He has had an
attack of bilious fever, since he has
been in Nashville, Tenn.

Some young gentlemen of Kinston are
now engaged in discussing the question:
"What is a bachelor?" in view of the
near approach of cholera.

Mr. Elijah Lottin has discovered a
new form of phosphate on his land.
This makes the third kind of valuable
fertilizer that he has found on his plan-
tation near Kinston.

Lenoir County Teachers' Association
met at the graded school on Saturday.
There was an interesting discussion of
"Best Methods of Teaching Primary
Numbers" and of teaching fractions,
participated in by Prof. Goodwin, Prof.
Grimesley and Dr. Lewis.

On Saturday a colored girl went too
near the fire and her garments were
soon in a blaze. A colored man, who
lived near, seeing the light, went in
and, throwing a heavy coat around the
girl, soon extinguished the flames. She
was scorched in a few places, but not
seriously hurt. This was in Kinston on
Saturday morning early.

Perhaps our twenty-eight bachelors
are waiting for a reduction in the mar-

riage license fee. Well, yes, three dol-
lars is too much. But then the cholera
will surely come; for, like revolutions,
it never goes backward. Your doctors'
bills, young men, will be more than
double three dollars, when you are laid
low with the disease. But these incor-
rigible bachelors say that married men
are frequently troubled by cholera—
cholera infantum—of which they know
nothing.

La Grange Items.

We are sorry to hear that Mrs. N. W.
Herring is very sick at her home near
here.

Rev. Mr. Swain, P. M., preached here
last Sunday. The first quarterly con-
ference for the year was held on Sat-
urday.

R. B. Kinsey left here Tuesday to visit
Sumterville, Fla., in the interest of the
business of R. B. Kinsey & Co. in that
place.

Capt. A. C. Davis will, in a few days,
begin the building of new barracks, the
increased number of cadets making it
necessary.

Sim. Wooten is making a regular
stockade around his lot in the upper
part of town. It looks as if it would
keep that which is in, in, and what is
out, out.

Dr. J. S. Bizzell, resident dentist in
our place, reports business in his line
for the month of January, slightly an
increase on last year for the same
month.

Miss Bettie Jackson is visiting Mrs. M.
A. Croom and Mrs. Ida Hardee in our
town. Mrs. Croom has erected a very
handsome residence in the western part
of our place, and is welcome among us.

L. J. Edwards, of Sumterville, Fla.,
left here for his home Monday. Mr. E.
will visit his old home in Chatham
county on his way. We wish him a
safe trip and abundant success in busi-
ness.

Four or five car-loads of kaint have
arrived and are for sale in our town.
This fertilizer, if fertilizer it can be
called, has been used extensively by
many of our farmers, and has given
fair satisfaction.

In passing through the country among
our farmers we notice that the wheat
crop is not very promising. Probably
the cold unfavorable weather is the
cause. We hope that when spring opens
there will be an improvement.

Some few of the town people are put-
ting in Irish potatoes with a view to the
trucking business. We know nothing
of the pay about this industry, and we
suppose those who engage in it know
more about the pay of it after the crop
is sold.

The man who undertakes to build
himself up by pulling others down will
have an up-hill business for life. If the
man he is trying to pull down is not a
fool, he will try to prevent it, so the
puller will be all the time pulling and
have no time to push himself up. The
better way is to get up among them—if
you can—in this way you have but one
to work on—self.

The farmers are busy preparing for
crops. Many are well advanced in
plowing, clearing fences, ditches, etc.,
while we notice in some few places a
few piles of compost. This way of manur-
ing has almost gone out of use, and the
commercial manures substituted. There is
no doubt but compost used in connection
with concentrated manures would
give better results.

An inquiry among our merchants re-
veals the fact that business here, for the
month of January this year, has been
better than for the same month last year,
and this extends to cash trade as well
as to time. We hope that after all the
complaint of short crops and low prices,
that our people will be able to move
forward the present year, without much
real embarrassment.

We learn from good authority that
some of our business men in town will
engage in farming again this year. We
hear of one who has, in addition to last
year's crop of collars, laid in a pair of
three dollar leather traces, which he
has been advised to cover with velvet.
His team has had the attention of a
horse doctor, and we see no grounds,
with these advantages, for failure.

Stonewall Items.

Jas. W. Dawson, J. P., our newly ap-
pointed Esq., has been quite busy in an
official way for the past day or two. He
is quite an improvement on his prede-
cessor, for Jimmy is a gentleman.

Mr. Geo. W. Lukins made his arrival
in Stonewall Monday night after an ab-
sence of nearly two weeks with Mr. W.
A. Harvey in Hyde county, taking les-
sons in the art of horse trafficking. He
could hardly fall into the hands of a
more learned professor in the art.

Squalls continue with the weather.
There was one of the same kind, at the
residence of the Rev. Mr. O. Rider in
this place Monday morning, that hap-
pened at R. H. Lane's a few days since,
with the same result. It is one of the
finest boys you ever saw; it is the first.

The farmers are preparing for potato
planting. A few will try their hand; in
fact there is a general disposition to
diversify. Those who tried peanuts last
year think they are better than cotton
or rice either. The fact is, rice will
occupy a small acreage in our county this
year.

Auction Sale.

Will sell at public auction at the
court house door on Saturday, Febru-
ary 14th, 1885, the hose cart for-
mally used by the Atlantic Steam
Engine Co. By order of the Board.
ALPHUS W. WOOD,
Chm'n Com. on Fire Department.

If you have a bad cold, Sine's Syrup
of Tar will cure you. Only 50c. For
sale by R. N. DUFFY. feb1 dwtm

FOR SALE.—Lot of old papers at the
JOURNAL OFFICE.

Proceedings of the Board of Commis- sioners of Jones County.

The Board met in regular session on
Monday the 2d day of February, 1885.
Present: J. A. Smith, chairman; James
C. Bryan, F. M. Dixon, Cyrus Brown
and J. E. Harrison.

The following bills were audited and
allowed, viz:

Wm. Pollock, repairing Trenton
bridge, \$7.04.
Lewis King, poor house supp's, \$18.04.
T. S. Gillett, taking tax list, \$12.00.
B. Meadows (jailor), feeding prison-
ers, \$50.40.

Wm. Loftin, attending draw of Pol-
lockville bridge and oil for same, \$8.50.
B. Meadows, serving court papers,
\$2.85.

S. E. Koonce, sheriff, official services,
etc., as per acct., \$226.90.
Simmons & Manly, professional ser-
vices, \$50.00.

J. L. Hawkins, serving on jury of in-
quest, \$1.00.

James Hargett, serving on jury of in-
quest, \$1.00.

D. Stimson, lumber for Pollockville
bridge, \$19.53.

D. S. Barruss, agt., freight on lumber
for bridges, \$2.65.

J. F. White, J. P., examining lunatic;
\$4.00.

E. F. Sanderson, services on finance
committee, \$6.00.

I. T. Wilson, Rez. Deeds, official ser-
vices, \$160.83.

I. T. Wilson, Reg. Deeds, (out school
fund), official services, \$12.10.

J. H. Scarborough, county superin-
tendent, out of school fund, \$8.00.

A duplicate of county order No. 343
for \$100.00, issued 7th of May 1883, was
allowed to C. E. Foy, the original hav-
ing been lost.

Lewis Bynum was appointed to repair
Black swamp and Holstons creek
bridges and Thos. S. Gillett and John
Collins were appointed a committee to
examine work and charges and report
on same at next meeting.

E. R. Page was appointed county auc-
tioneer.

John Pearce, H. A. White and R. N.
White were appointed a committee to
condemn school site for district No. 41,
colored.

John Pearce was appointed to repair
Mill creek bridge and render bill for
same at next meeting of the Board.

The boundaries of school district No.
13, white, were changed so as to take in
persons living on the farms of L. F.
Koonce, L. A. Haywood, Mrs. Ann D.
Koonce and the Coombs place.

Lafayette Berry was appointed school
committeeman for district No. 6, col.
Jno. A. Kinsey district No. 23, white,
Moses Brown district No. 14, col., and
A. P. Barrow for district No. 6, white.

F. B. Becton, Thos. C. Wilcox and
James Gray were appointed to condemn
school site for district No. 20, col.

It was ordered that the proceedings of
the Board be published in the New
Berne JOURNAL, and that \$25 per annum
be allowed therefor.

Lewis King was authorized to furnish
one pair of andirons for poor house.

George Robinson was released from
payment of poll tax for two years.

The following allowances were made
for transient paupers, viz:

Kizza Hall and children, \$5.00; M. A.
Jones, \$3.50; Mitchell Gilbert, \$3.00;
Kills Koonce, \$2.00; Judy Bryan, \$1.50;
Lydia Bryan, \$1.50; America Ister,
\$1.50; Thomas Dudley, \$1.00; Nancy C.
Southernland, \$2.50; Alex. Koonce, \$1.00;
Violet Hargett, \$1.00; Fred Hudler,
\$5.00; Dennis Hargett, \$4.00; Leah
Green, \$1.00; Judy Kinsey, \$1.00; Sam'l
Metts, \$2.00; Betsy Jones, \$2.00; Chana
Pipkin, \$1.00; Moses Hooks, \$1.50.

On motion, Board adjourned until
first Monday in March next.

I. T. WILSON, Clerk.

Resolutions of Respect.

At a meeting of the board of commis-
sioners of Jones county the following
resolutions were adopted.

Whereas, The Supreme Ruler of the
universe has removed from us, by the
hand of death our most highly esteemed
and worthy associate, Dr. A. F. Ham-
mond. Therefore, be it

Resolved, That we humbly submit to
the decree of the All-Wise, believing
that He doeth all things well.

Resolved, That in the death of Dr.
Hammond our body is deprived of the
association and council of a most active
and zealous member and the community
a most worthy and respected citizen.

Resolved, That we tender our heart-
felt sympathies to his bereaved family
and point them to Him who has prom-
ised to be a husband and friend.

Resolved, That as a further token of
our regard we have a copy of these res-
olutions spread upon the minutes of our
court and a copy furnished the family
of the deceased; also a copy sent to the
New Berne JOURNAL for publication,
with request that the Kinston Free Press
copy.

To any body who has disease of throat
or lungs, we will send proof that Piso's
Cure for Consumption has cured the
same complaints in other cases. Ad-
dress, E. T. HAZELTINE,
Warren, Pa.

Scrofula.

I have had hereditary scrofula broken
out on me for eight years. My mother
and one sister died with it, and I, sup-
posing that I would go as other mem-
bers of the family had, had despaired of
life. The treatment of mercury and
potash seemed to aggravate instead of
curing the disease. In this condition I
was pressed to use Swift's Specific.
After taking six bottles the fearful ul-
cers on my neck and arms disappeared
and the scars only remain to remind me
of my sufferings. Had I taken S. S. S.
at first, I would have been a well man
long ago.

FRANK GILCHER, Danville, Ky.,
Oct. 18, 1884.

Scars.

I was affected for nearly four years
with scrofula. The doctors called it
first erysipelas. I was treated by phy-
sicians. I was cured by Swift's Specific.

I used about thirty bottles and have had
no trouble with it since. I refused to
take it, even after it was recommended
to me by others, for some time—such
was my prejudice to the name of it; but
having tried it myself, I now believe it
is the best blood purifier in all my
knowledge. It did another thing for
me. I had suffered from piles for many
years. Since taking this medicine I
have been relieved, and believe it cured
me. R. H. JONES.
Cartersville, Ga., Aug. 25, 1884.

My daughter, seven years old, has
been afflicted with eczema for two
years, and after trying other remedies
in vain I gave her Swift's Specific (S. S.
S.), and one and a half bottles cured
her sound and well. It is the best blood
remedy in the country.

MRS. M. S. JUDKINS.
Cedartown Mill, July 23, 1884.

Treatise on Blood and Skin Diseases
mailed free.

The Swift Specific Co., Drawer 3, At-
lanta, Ga.
