### PHOSPHATES.

FROM DR. DABNEY'S REP RT.

The special feature of the work of the Experiment Station during tween the States." the last two years is the phosphate. material is the most significant occurrence in the material development of the State. The existence of regular beds of phosphate, which the table. Carried. had been little more than rumored before that time, was definitely determined by the work of the officers of your Board during 1883 and

Agriculture has stated some of the results of the phosphate survey in his report, and it will be unnecessary to give any details here. The report of the Engineer and the Chemist will be published in a few days. It is sufficient to record here ship, Wayne county. that numerous beds of phosphates have been discovered in Sampson Code. and Duplin counties, chiefly between Faison's on the north, Hallsville on the east, Wallace station on the south, and Clinton on the west, being a territory about twenty miles square. Outside of this ter- University passed. ritory beds have been noted in and probably Brunswick, all of which need to be more thoroughly have found workable beds of phosphates of a greater or less extent in fifty-eight of these. Undoubtedly many beds exist in the same territory which are not yet known. The average amount of phosphate of lime in twenty-five samples, from this morning. beds nearest the line of the Wilmiugton and Weldon Railroad, was forty-one per cent. Phosphate rock of this character was successfally manufactured into superphoshundredths of an acre yielded fortyeight tons of clean rock at a cost of
one hundred and sixty-five dollars
for excavation, hanling and loading
to be a control of the co on board the cars. From a portion was one of those unfortunates given in some localities after the beavy farmers, and reports from 55 of these farmers, which have been received, are very favorable to the North Carolina superphate. These experiments show beyond a doubt not only that we have good phosphates, but that they will produce results in the field equal to other phosphates. The rather basty and incomplete phosphate reconnois.

pits dug 790; total enbie feet of two years I have not tasted liquer, and I have no desire for it. Lately, of phosphate rock actually weighed to try my strength, I have handled and smelt whisky, but I have no temptation to take it. I give this for the 124.98 acres explored unfortunates

This particular 124.98 acres will know have recovered by means which I no longer require." North Carolina in one year. In addition to the above we have ex- Clara," said the teacher, "if you ring in New Hanover and Pender "Doesn't a bear squeeze people?" nunties. This material was also queried the girl. tried on various crops last year with encouraging results. This is

GENERAL REWS.

Offawa, Feb. 9.—It is reported that Col. Williams's proposition to raise a regiment of Canadian volunteers for imperial service has been accepted and he will proceed to enlist men at once. The regiment will do garrison duty in England.

TUESDAY, Feb. 10, 1885. COLUMBUS, O., Feb. 8.—The The Senate was called to order at Hocking Valley was greatly excited 11 o'clock, President Stedman in last night over rumors of a concentrated attack by the strikers. Over 400 shots were fired in the neighborbood of Nelsonville and Buchtel at about 10 o'clock, but no attack was made. Patrol trains drove the strikers off.

PITTSBURGH, Feb. 9.-The Edgar in relation to the payment of the Thomson Steel Works at Braddocks will resume operations in all departments to-morrow, giving emmen who have been idle for eight weeks. The men return to work at a slight reduction.

NEWPORT, Feb. 9 .- Capt. Mills, of the steamer Lancaster, bound from Philadelphia to Boston, has just come in here, having in tow the schooner Setagawa, of Rock-land, Me., which he found at 1 p. m. yesterday abandoned, near Broken Ripps South Shoals, she having evidently been in collision

JOHNSTOWN, N. Y., Feb. 9.— This village is in danger of a water famine. It was discovered that ere was not enough water supply Bill to authorize the Governor in the reservoir to warrant the runuse until further notice. With the factoring Company.

S. H. GRAY, AND OTHERS. second floor of business blocks. In Mr. Gudger moved to reconsider case of fire fears are apprehended

WASHINGTON, Feb. 9.—There seems to be a row all around in the Navy Department. First comes the Naval Academy investigation; then the Tallapoosa investigation, in which Secretary Chandler in his reply did not once touch the real ground of complaint, his carrying his wife and family and a large contingent of female relatives To prevent live stock from run- around in it. Next the Lancaster trouble, when Commodore English To amend section 3,111 of the closely, and gave parties on the to the General Assembly to amend the Char-Code.

Lancaster a la Tallaposa. Now ter of the City of New Berne, N. C. To amend section 3,835 of the comes war with John Roach, who is ordered to take all the steel shafts out of the new cruisers and replace them with iron ones, Meanwhile the naval frauds trials are going on, and Secretary Chan-The special order, the bill to dler is in a blue blaze of anger.

LOUISVILLE, Feb. 9 .- The darkest piece of daylight, the citizens of Louisville ever saw visited the city The bill to increase the number just before 9 o'clock this morning. A brisk rain had been failing for three hours, and an unusually o'clock a sudden gust of wind came from the west, and a heavy mass of black cloud overspread the sky. The fog increased in density, mak-
