

THE DAILY JOURNAL.

VOL. III.

NEW BERNE, N. C., WEDNESDAY, FEBRUARY 25, 1885.

NO. 281.

LOCAL NEWS.

Journal Miniature Almanac.
New Berne, latitude, 35° 6' North, longitude, 77° 8' West.
Sun rises, 6:35; Length of day, 11 hours, 16 minutes.
Sun sets, 5:51; 11 hours, 16 minutes.
Moon sets at 3:36 a. m.

BUSINESS LOCALS.

New Samples and New Goods at 102 1/2 N. M. GASKILL'S.
One Large Size Herring Safe for sale by Geo. Allen, Assignee.

Notice to Debtors of Asa Jones. Your accounts must be paid.
GEO. ALLEN, Assignee.

Ladies' Dress Goods, Below Cost to Close Stock, at Asa Jones's.

Envelopes and business cards printed in good style and cheap at the JOURNAL office.

Cotton continues to boom.
Shad were scarce in the market yesterday.

Local Branch No. 95, Order of the Iron Hall, meets to-night.

Mr. N. S. Richardson's job printing office is undergoing repairs.

The revenue cutter Stevens returned from a cruise down the sound yesterday evening.

The paint brush is improving the appearance of the fence around the Episcopal Church grounds.

The steamer Trent takes up a cargo of paragon lime to Pollockville to-day from Capt. White's mill.

John W. Smallwood was opening a fine lot of lamps at Kimball's old stand near the Cotton Exchange yesterday.

The Shenandoah took out a large mixed cargo yesterday evening consisting of clams, fish, rice, cotton, peas, etc.

Men who want to borrow money or be run by a merchant, say the cold weather is an indication of a might good crop year.

The steamer Kingston took out the heaviest freight for Kinston and landings along the Neuse yesterday that she has taken out in some time.

Lewis King, Esq., of Jones county, is in the city with a fine lot of turkeys. One gobbler was swung out at Burrus' that weighed nineteen pounds. Farmers have something to sell besides cotton.

The statement that appeared in the JOURNAL of the 15th inst. in reference to the Order of the Cincinnati, which Prof. Ed. Graham Daves speaks of in his communication, published on the 2nd page of this issue, was clipped from the Elizabeth City Economist. We call Bro. Crosey's attention to Prof. Daves' communication.

To the Commissioners of Wayne County.

Captains Roberts and Dixon, of the steamers Kingston and Trent have recently made trips to Spring Banks on Neuse river in Wayne county and they complain earnestly about the condition of the draw in the Broadhurst bridge in that county. Capt. Dixon was detained for three hours on his trip and Capt. Roberts nearly as long and the crews of the boats assisted the keeper in opening the draw.

The county commissioners should have the draw put in condition at once and probably avoid the expense of a suit. These boats have other freights to carry to that point and probably beyond, and they cannot afford to be detained on account of a deficient draw in a bridge. We deem it only necessary to call the attention of the commissioners to the matter, and that they may be fully informed, we ask our esteemed contemporary, the Messenger, to call their attention to it.

Magnetic Delineations.

Our county surveyor, Mr. Henry J. Lovick, has received from the officers of the United States coast geodetic survey the following magnetic delineations, or variations of the magnetic needle, at New Berne from 1700 to the present time:

Year	East	West
1700	1.50°	
1770	1.90°	
1780	2.20°	
1790	2.40°	
1800	2.30°	
1810	2.10°	
1820	1.80°	
1830	1.35°	
1840	0.82°	
1850	0.21°	
1860	0.43°	
1870	1.05°	
1880	1.53°	
1890	1.90°	

The figures to the right of the period represent so many hundredths of a degree. These multiplied by sixty will give the number of minutes. Thus, in 1700 the magnetic needle had varied to the East one degree and thirty minutes.

If you have a bad cold, Sine's Syrup of Tar will cure you. Only 25c. For sale by B. N. DUFFY.

Fire.
At a little after 10 o'clock last night Maj. Dennison's turpentine distillery, situated about midway between his gin house and oil mill, was discovered in flames. The alarm was given and the Button engine was on the spot in a few minutes and put on two streams of water, the Sibley engine being in the shop for repairs. Fortunately the wind was right to take the flames, which were huge, out towards Trent river. This circumstance and the timely arrival of the Button saved the gin house and the oil mill. The loss is not definitely known. Two charges of turpentine had been run off during the day, and Maj. Dennison himself had left the yard but a few minutes before the fire was discovered. No insurance.

The Firemen.
The American Jack Fire Company held an important meeting on Monday night at the office of the Secretary. The meeting was with especial reference to joining in the parade on the fourth of March. For this it is necessary that wheels be procured for their engine. To accomplish this, two subscription lists were started and committees raised to take them around.

The Company also received a donation of two trained goats, which were received with thanks, and while the Company will retain its corporate name in all legal matters, its name in common parlance hereafter will be the American Butting-Team Fire Engine Company.

The officers say that while they may not get to a fire as promptly as the New Berne or Atlantic, nor do as much work, they can all but.

Personal.
Mr. E. S. Havens, who has been on a visit to his father, Mr. Johnathan Havens, for a few days, left on the Shenandoah yesterday evening for Philadelphia.

Mrs. A. E. Kimball and mother left on the Shenandoah yesterday evening for Norfolk.

Capt. J. S. Lane, of Stonewall, was in the city yesterday.

Prof. George has returned to the city to look after the pianos and other musical instruments.

Mr. D. M. Stanton, of La Grange, is in the city. He is a strong advocate of labor-saving machinery. It is certainly the way to solve the labor problem on Southern farms.

Mrs. Mary Bayard Clarke is visiting Raleigh.

Miss Irene Radcliff has returned from Kinston.

C. C. Green, Esq., and wife, of Trenton, are in the city.

O. H. Guion, Esq., leaves this morning for Tarboro on professional business.

B. K. Bryan, Esq., returned from Raleigh last night and will leave shortly for his new field of labor down South.

Miss Emily Benson, of Milburn, N. J., is in the city visiting Mrs. J. F. Ives.

Insurance.
We call attention to the advertisement of Geo. Allen & Co. in this issue in relation to the People's Mutual Assurance Fund. This plan of insurance is receiving considerable attention, and is destined to become a leading feature in the business. The following letter contains information as to the progress it is making:

OFFICE OF PEOPLES' MUTUAL ASSURANCE FUND,
An Endowment Association,
345 Fifth street,
LOUISVILLE, KY., Feb. 19, 1885.
To Geo. Allen & Co.:

We are pleased to announce that our Company has grown with such rapidity that we will be able from and after date to pay the full amount of the first maturing coupon on each certificate in Form No. 2 to the beneficiary entitled thereto. The Peoples' Mutual is now established on a secure footing, and we are daily in receipt of the most flattering and encouraging letters approving its plan. The public is beginning to realize that ours is the only company in the State that couples the two-fold benefit of paying the assured in cash his coupons as they mature during life, and at death to his personal representative. The Board of Directors are determined to spare no efforts to make this Company the equal of any in the land. With energy and enterprise they hope to secure for the Peoples' Mutual that measure of success which will make it a power for good to all of its beneficiaries. Soliciting your co-operation and influence to aid in attaining this end, we are,
Very truly,
WM. L. JACKSON, Pres't.
ED. N. CALDWELL, Sec'y.

Notice to Mariners.
Notice is hereby given that the front beacon of the Oak Island Range, North Carolina, is about to be moved 450 feet to the eastward of its present position, and that, during its removal and until its establishment in its new location, a red light will be shown from a lantern suspended from a mast in the position of the present light.

When the above named light is re-established, it will, in connection with the new lights to be established in Cape Fear river, form a new system of ranges, due notice of which will be published hereafter.

By order of the Lighthouse Board:
STEPHEN C. ROWAN,
Vice-Admiral U. S. Navy, Chm'n.

La Grange Items.

The weather is severely cold.
Rev. Mr. Hires preached here last Sunday and Sunday night, his regular appointment.

Solomon Burroughs was married to Mrs. Sanders, of Jones, last week, O. K. W. Howard, J. P., officiating.

W. H. Smith, of Wayne, was married to Miss Fannie Fields, of this county, last week. Capt. J. W. Rice, J. P., officiated.

A large crowd in town Saturday evening. Some of our merchants complain that business was dull, while others say it was pretty fair.

Capt. W. A. Darden, representative to the Legislature from Greene county, was here last Saturday and Sunday, visiting Shade Wooten of our place and Col. J. W. Isler, near here.

About one hundred and seventy-five tons of kaint, nine tons Lee's prepared lime, and about thirty tons of other fertilizers have been shipped to this place this season. These figures show that kaint is taking the lead so far.

We learn that some thief stole the Church Bible from Union Church on the south side of Neuse, last week. About two weeks ago some unknown thief stole a bag of shot from the counter of J. S. Wooten & Bro., in this place. When a thief gets ready to steal, it makes but little difference to him what he takes, judging from these thefts.

Swansboro Items.

Hops we shall have better weather by the time Cleveland is inaugurated.

Doctor Blount is now ready to hear from those wishing a summer resort during the coming summer.

Mr. E. B. Harget of Silver Dale is in town. Says he will have his new store at Smithville done some of these days.

George Littleton and Capt. W. Daniels caught nine hundred mullets this week, some of them two inches in length, and oysters and clams no end to them.

Mr. Mallett is getting on finely with his school. He wants a few more music scholars. Come down and see him and his school, Friday the 27th, instead of Friday the 24th inst., as stated in the JOURNAL last week. The next entertainment comes off here for the benefit of the school house.

Mr. James B. Pollock of Kinston is in town prospecting for insurance on a new plan. Says his company pays before you die if you insure with him. That suits us; but we would like to have the money to insure with first. Wonder if they could pay that in advance; if so we will take 30 or 40 cents worth.

Plenty of ducks, coons and fish. Heady killed ten fat coons in two days this week, two at one shot and three up one tree. Everett McLean and Capt. M. Bloodgood killed twenty-one fine ducks in two innings last week; killed them on the wing. Any one who loves this kind of sport will find Swansboro the place for it.

Yes, Cleveland's time to be President is fast approaching. I wonder if he will give me the postmaster's place here. Oh, I forgot, he don't give away those offices, but one man thought so, I guess. Well, I want somebody to give me an office of some kind or I shall perish pretty soon. Any one wanting a first-rate third-rate common school teacher at a big salary right away will please let me know.

One death occurred lately we failed to mention—Miss Callie Sparks, daughter of I. T. Sparks, lately of our town, but now of Pollockville. Callie was a bright and good girl, a strict member of the M. E. Church, greatly beloved by all who knew her, and the pride of her parents at home and abroad. She was stricken down by that grim monster, death, in the pride of life, by that dread disease, typhoid pneumonia, in the 16th year of her age. We do not mourn for you, Callie, but we do sincerely sympathize with your grief-stricken parents. May your loss be their eternal gain.

No bad cases of sickness with us here, but several cases of pneumonia around us and several deaths. Mr. Asa Smith, an old and respected citizen, died last Monday, aged about 75 years. Mr. A. L. Willis, another respected and good citizen, died about the same time, aged about 88 years. A young woman, name not remembered, died at Mr. Sol. Gorton's this week. She was living there. A little daughter of Mr. Wm. Bell died this week. Mr. Bell is the gentleman who accidentally shot himself in the hand recently. Mr. M. Russell, Mr. G. W. Ward, Mrs. Nancy Ward and Mr. K. Willis are among those who have been sick lately and on the mend a little.

Stonewall Items.

Geo. W. Lukens, while taking an interest in a dog fight at Aurora in Beaufort county, succeeded in having his right hand badly bitten. He is supplied with a most excellent nurse.

F. F. Cherry is off on a tour in the upper counties in the interest of his planter. It is decidedly the best for all purposes that I have ever seen. It will plant cotton, corn, rice and peas to perfection.

Ground hog days over or what not, the weather holds its own just the same. I have been trying for three weeks to have twelve bushels of oats sown, and only three and a quarter in the ground up to this time.

Ed. Jewell, a nephew of John Robbins of Vandemere, was accidentally shot in his arm on last Sunday at the residence of Tom Campen, by Benj. son of Mr. T. Campen, while the boys were fooling with a pistol. Mr. T. Campen brought the wounded boy to Dr. Atmore. After an examination the Doctor pronounced the wound not serious and advised not extracting the ball for the present, it being lodged against the bone.

Jones County Items.

Every dwelling in Trenton is occupied but one.

The cold snap has nearly ruined the turpins in our section.

Mrs. George N. Hill, who has been so very sick for several days, still continues very sick.

Ira Westbrook, a pauper at the poor house, died there with bowel consumption on Monday last.

Mr. Mewborn, the Principal of the Trenton Academy, informs me that he has 21 pupils in attendance.

The people of Trenton and vicinity must consume a great many apples and oranges, as our confectioners receive a fresh supply on nearly every boat.

Eggs are plenty and as current here as silver money. You can purchase anything in our stores with plenty of this hen fruit from a pound of sugar to a suit of clothes.

Mr. Thos. C. Whitaker has his notices posted to sell out his entire stock of goods at auction for cost. I understand that he intends to try to make a farm pay him better than merchandising.

Mr. A. C. Gooding, one of our successful farmers, remarked in Trenton on Saturday last that the farmers were having a severe time about now as it was all eat and no work.

The people of our county cry out hard times and no money, but the way a horse and a mule sold in Trenton on Saturday for cash to close a mortgage, makes us think that times are not so bad and money plenty.

"Cold nights are fearful to think of," said a colored man from Cypress creek on Saturday last. "Particularly," said he, "if bed covering is scarce." "But," says he, "we have one friend that saves us—the fire place, well wooded—and don't we use it!"

Mr. Thos. Harrison, who has been very sick for several weeks, died on Monday morning last. W. H. Puckett preached his funeral. Mr. Harrison was a very old man, I suppose the oldest in the county, aged nearly 89 years. He was, all concede, a truly honest man, which is said to be the noblest work of God.

Some times we have in Trenton, during a crowd, the various characters enumerated below: We can find the handsome man who parts his hair in the middle, and if you could purchase him at his worth and sell him at what he thinks he is worth, what a fortune you'd have. We can find him who enquires of all—a kind of curious prodigy—who is asking about everybody's business, everybody's health, character, outgoes and incomes. We can find him who drinks with all, particularly if it is others' set-up. We can find also the knowing man who is continually giving you advice how to fatten pigs; how to make money and grow rich speedily and do a host of wonderful things that you might do and he could do were he you. We can find the man who trades with all, who divides with the merchants, believing that it is right to build up and help all alike. We can find them who cheat all they can and would sell you 11 eggs for a dozen, provided you take their word and don't count them; weigh you 14 ounces sugar, charge you with a pound. We can find some who look for all and if they find you on the wrong road lead you out and place you right. We can find some who doctor all; some with minerals, some with roots and herbs; some kill, some cure, all charge. We can find a few who try to humbug all; some times they succeed and some times they don't. We can find few who lie to all; some lie to make money, some to tell ghost yarns, some to trade horses, some to make you believe that their old dad was the dad of one great man and that man was their dad's son. Will close the enumeration this week, hope to resume it next week.

Delleate Women.
I have been using for a month or two in my household Swift's Specific, the greater portion of it having been consumed by the female portion of my family, and with the happiest results. It acted like a charm on my wife, who had been in bad health for a long time, and for whom I had paid hundreds of dollars for doctors and medicines. It began to build her up from the first dose. Another female member of my family took it up with equally satisfactory results. It is certainly the best tonic for delicate ladies that I have ever used, and I have tried them all. I have no doubt that want of exercise, close confinement in poorly ventilated houses, sewer gas poison and malarial poison often produce sickness among our wives, daughters and sisters, and I believe Swift's Specific is the remedy for all this sort of blood poisoning. I know many of the best families of this county are using it for this purpose, and I have never known or heard of any failure to give entire satisfaction. I have known the remedy a long time. I know it to be entirely vegetable, and the best tonic and alterative, especially for females.
F. L. JONES, J. F., Quitman, Ga.

General Debility.
For several years past my wife's health has been exceedingly feeble—a general break down of the nervous system. She was greatly reduced in flesh. No remedy seemed to do her any good. In the spring of 1883 I induced her to try Swift's Specific. The first bottle gave her hope and twenty bottles produced wonderful results. She gained thirty pounds in flesh and it renovated her whole system. It is certainly the greatest tonic in the world.
T. J. HIGGINS,
Indian Springs, Ga., Nov. 8, 1884.
Treatise on Blood and Skin Diseases mailed free.
The Swift Specific Co., Drawer 3, Atlanta, Ga.
For sale in New Berne at HANCOCK BROS.

If you are in need of bill, letter or note heads, call at the JOURNAL office and have them printed neat and cheap.

Fire at Warsaw.

WARSAW, N. C., Feb. 22.
The Warsaw seminary was destroyed by fire to-night at 7:30. The loss on the building is six thousand dollars; no insurance. The furniture was partly insured. The property belonged to the Baptist Eastern Association, and W. M. and D. S. Kennedy were the principals of the school.
M. M. W.
—News and Observer.

DIED.

Tuesday morning, Feb. 24th, Mrs. Mary E. Brinn, in the 59th year of her age. Funeral this afternoon 4 o'clock, at the M. E. Church.

COMMERCIAL.
