HOWARD RELIEF.

Final Test of the New Steam Fire Engine "A. Adrian"-The Engine Accepted.

The Howard Relief Fire Engine Company No. 1 yesterday afternoon had the final test of the new engine "A. Adrian," recently purchased by them from the Button Fire Engine Company, of Waterford, New York. The test took place at the foot of Market street, and was witnessed by quite a crowd of spectators; the company having left their engine house about half-past 2 o'clock. The engine being in position, with cold water of the temperature of 38½ degrees in the boiler, which is only a little above the freezing point, steam was made and a stream thrown in 3:38. This, of course, will be bettered in summer, when the temperature of the water in a bottle of balsam, or he has caused a the boiler at the start will be about 80

The test as to quick steaming having been settled satisfactorily, the next was to see how far the engine point could throw through one thousand (1,000) feet of hose, which resulted in a stream being thrown a distance of 175 feet. This could have been improved upon but for the fact that the hose could not stand a full pressure, as it was already bursting in some places under a steam pressure of 110 and a water pressure of about 200 pounds. The wind was also against the stream. The next trial was to see how far she would throw a stream horizontally through 100 feet of hose, and 265 feet was the

Then two streams were thrown through the same length of hose (100 feet), perpendicularly a distance of 195 feet. This completed the tests, and it was found that the committee and the company were equally well pleased with the result.

The new engine is nickel-plated throughout, is a double-pump engine, and has a capacity of more than 500 gallons per minute. It has all the latest mprovements belonging to a steam fire engine, the brakes and gongs being con-

trolled by the driver. trolled by the driver.

The Company will accept the new engine and the old one will be returned to the factory where it was purchased; both the old and the new engines being from the Button Manufacturing Company's works, at Waterford, N. Y.

The hose carriage of the Company has been repainted, and appeared yesterday on the streets for the first time, as bright as if new.

The new engine was purchased by the members of the Company, without the aid of any subscriptions from the city or citizens, the money being taken from the Treasurer's fund.

The Company is now in good trim, and they expect an appropriation from the city at an early day for the extension of their building on Fourth street, and the improvement of their engine house generally, which, we understand, is very much needed.—Wü. Star.

The Special Tax Bonds. Raleigh Register.

The people too have made very plain their intent in regard to them. There are no innocent holders of these

bonds. There never was an innocent

allow the millionaire bankers of New with any idea of making a "good thing" of it. Bear one another's burdens, is a text not intended for such cases as this. As to the bonds themselves, without going into their history, it may be stated that if there is any obligation anywhere to pay them it rests with the Federal Government. The placing of the bonds on the New York Exchange was earnestly resisted, because clear notice had been given on the part of North Carolina by private citizens, by the public press, by the Treasurer of the

as representative bodies of the people of North Carolina; Because on the part of the United States it had been admitted with equal clearness by Congress in its acts, by General Canby in his orders, by Gov-ernor Holden in his proclamation, and by the Convention and Legislature

State, by the Governor of the State, and

by the President of the United States,

Tax Bonds had no valid, legal existence

themselves in the official records of their proceedings, that Federal authority and not State authority had given them existence. The United States was repreonets, therefore, let the Special Tax

Bondholders look for payment. From 1861 to 1865, the State of North military occupation of the soil of North and seriously wounding two others. Carolina, making and unmaking its laws and appointing and removing its only such tax-payers and propertyowners as had permission from the mil itary authorities were permitted to vote, while in 1868, 70,000 ignorant negroes were turned loose to plunder the property of their late masters, the aforesaid disfranchised tax-payers and propertyowners, under the lead of a cormorant band of carpet-baggers protected by Federal bayonets. This plundering they sought to accomplish by means of Convention and Legislature of 1868.

manner bound by the acts of men thus put over them by the Federal troops, by Indians were routed. The Mexican whom they were then being held in military subjection after a bloody war CTY ISLAND, Feb. of four long years.

No person could have bought these bonds supposing they had any validity, No sane person could for a moment have supposed that the people of North Carolina would bear the shackles thus forced upon them an instant after they had acquired the power to shake them off. Every purchaser had full notice of mediately after being made. Hart's their pedigree, and in point of fact Island roads are completely closed up, seemed not for a moment to consider and people are passing to and fro on the that the State of North Carolina had any existence independent of the Federal Government. It was known then as it is known now, that the property-owners of North Carolina spurned and spit upon the men who controlled the so-called Convention and Legislature of 1868. It is simply impossible for any person to be an innocent holder or purchaser of a North Caralina Special Tax Bond.

Until the captive shall be held responsible for the acts of his captor; until the vanquished army shall be held responsible for the rapine of the victorious; until the true owner shall be bound by the deeds of the wrongful holder, the tax-payers of North Carolina will not be held bound to pay either principal or interest of the so-called Special Tax

LONDON, Feb. 23 .- The troop ship Poonah is thirty-five miles off Saint Ives in a disabled condition. A tug was sent to her assistance, but, owing to the heavy gale which prevailed, was unable to take her in tow. The Poonah has troops for the Soudan on board. She is drifting at the rate of a mile an
