than any cotton planted or ever was planted in the South. The Jones Cotton has, also, long limbs, beginning to branch at or near the ground. Large, pointed bolls, holds the cotton in storms, yet not hard to pick out. Short jointed, which makes the bolls thick on stalk, and the earliest cotton I have ever planted. Last year it was all open and picked out by the 20th of October, and not a boll opened after.

It is at least three weeks earlier than any cotton I ever was acquainted with. The Dickson Cotton, all know what the pure, selected seed are. Suffice it to say they are all as good and as prolific as I have ever sold the seed of.
