Suitable gates will be placed to allow the ingress and egress of the freight and passengers of that popular line.

How blessed it will be when the available lumber of our section is exhausted, and the agri-cultural interests have a show! We have thousands of acres nearly or quite equal to famed South creek lands that are idle, and will be until the lumber is out, and then the attention of the land owners will of necessity be turned to the improvement of their lands.

So terrible has its nature been that when I blew my nose small pieces of bone would frequently come out of my mouth and nose. The discharge was copious, and at times exceedingly offensive. My blood became so impure that my general health was greatly impaired, with poor appetite and worse digestion.

Numerous medicines were used without relief, until I began the use of B. B. and three bottles acted like magic. Since their use not a symptom has returned, and I feel in every way quite restored to health. Soon after my marriage, about four years ago, my wife was stricken with some trouble peculiar to her sex, which broke down her general health. In this condition she was soon after attacked with inflammatory rheumatism of such a severe type that it made her a cripple. She was reduced in flesh to sixty-five pounds, and came very near losing her life. She was attended by three good physicians who treated her with some physicians who treated her with some benefit, but the swelling in her joints never left her. Last summer the rheu-matism returned in a still more severe and painful form, which seemed to defy the skill of all the doctors. She would almost go frantic with pain, and would lie and scream all day. A frien mine, who is an engineer on the Bruns-wick & Albany railroad, suggested that I should use Swift's Specific (S. S. S.). which I did. After she had taken one small bottle she was up and able to walk over the house, and after taking the six small bottles she is now able to do any kind of house work; the swelling gone, all the pain has left her, and she is in better health than she ever was.
