BUSINESS LOCALS.

ICE CREAM AT SARAH OXLEY'S STAND.
on Broad, near Middle. Separate parlors for white and colored. The best cream in the State, delivered in any part of the city by
16d1w ELZEY ANDREWS.

A heavy rainfall occurred in this city Sunday evening.

The Methodist Sunday School will give a picnic at Rock Spring next Thursday.

Mr. J. E. Fowler has prepared picnic grounds, with awnings, seats, tables, bath houses, etc., opposite the city. See "ad."

A good many of our citizens went to hear Elder Mann preach, Sunday, at Beach Grove Church, a few miles out of the city.

The 17th of June has been designated as the time of the meeting of the Press Association. Smithville is the place of meeting.

Claremont bridge is up for a few days for repairs on the draw, which is being attended to by Capt. Joseph Robinson and Mr. E. Outburt.

Mr. J. W. Hill sends us in a bean vine with young beans 14 inches long. A few days of warm weather and they will be ready to pick.

Rev. Mr. Jenkins, of Middle Street Baptist Church, began a series of meetings last night, to continue through the week. Rev. Mr. Hires of Kinston is expected tonight to assist in the meetings.

"I wish my girl lived in the city so we could take a stroll to the National cemetery while it is so pretty," a young New Bernian was heard to remark the other day. That young man does not seem to be as plucky as those who, a few Sundays back, had to hire a hand cart to carry them to visit their.

Prof. Eugene C. Branson, the excellent Superintendent of the Wilson Graded School, was in town last Saturday making arrangements for the Wilson Normal, of which he is Superintendent. He visited our school and seemed much pleased with everything he saw. Mr. Branson made marked improvements in his school during the present year, and the people of Wilson are warm in his praises. They expect the Normal at Wilson this year to be the best in the State.

Hallen and Kahl's Market Report.
New York, May 18, 1885.

Peas \$2.25. Market firm. Norfolk commences.

MALLET & KAHL.

New Berne and Beaufort Canal.
A Harlowe letter in the Beaufort Telephone says:

Since the opening of the canal the schooner Emily was the first to take advantage of its benefits. She took a load of lumber through it this week for Beaufort and Morehead City.

Personal.
Dr. W. H. Barker left yesterday morning for Danville, Va., on a phrenological tour.

Messrs. M. DeW. Stevenson, F. M. Simmons, W. W. Clark, W. E. Clarke, Owen H. Guion and Capt. K. R. Jones are attending Pamlico court.

Traveler's Mailed.

Clement Manly, Esq., in closing the door of an iron safe on Saturday evening carefully let it catch his thumb, and j-e-w-e-l-l-e-r-y didn't he see stars? He hastened to Dr. Duffy's office where it was treated, and he was able to be out yesterday, carrying his hand in a sling. It is a painful bruise and doubtless convinced Mr. Manly that an iron safe may be a safe place for valuable papers and money but very unsafe for a man's thumb.

Entertainment at the Theatre.

An entertainment will be given at the theatre, on next Friday evening, by pupils of the Graded School and others, under the excellent supervision of Miss Maria Manly, the proceeds to be applied in improving the grounds of the Academy Green.

The pieces produced will be "Cinderella," and "The Trial Scene in the Merchant of Venice." The rendering promises to be excellent, the costumes elegant, and the entertainment most pleasant and entertaining.

The Revised Old Testament.

LONDON, May 14.—The revised version of the Old Testament will be issued to the newspapers on Friday night, and will be distributed among the bookshelves on Monday. The changes are described as being less numerous than those of the revised New Testament. Great consideration is taken to prevent their disclosure before the publication of the work.

Commencement Exercises.

The commencement season is about to begin, and the invitation cards being sent out from our high schools and colleges are gotten up with much taste and skill.

The first in order on our list of invitations is Trenton High School, W. E. Mewborne, Principal, on May 27th and 28th. On the 27th, at 8 p. m., there will be exercises by the school; on the 28th, at 11 a. m., the annual address will be delivered by N. J. Rouse, Esq., of Kinston, a young man of talents and fine education.

On the 28th of May is the 5th grand annual reception given by the cadets of Horner School at Oxford. We are indebted to our young friend Henry R. Bryan, jr., for an invitation, and regret that we shall not be able to attend.

Next in order is Kinston College from June 1st to 4th inclusive. The closing exercises of this institution are always interesting and attract a large crowd. This year they will be usually interesting. The address will be delivered on Thursday, June 4th, at 11 a. m., by Col. John N. Staples, a fine orator and an accomplished scholar. Expect to be on hand.

June 3rd and 4th the exercises at Chapel Hill begin. Hon. J. W. Reid delivers the address before the Literary Societies, and Bishop A. W. Wilson, D. D., of Baltimore, the baccalaureate sermon. We acknowledge invitations from the marshals, also W. D. Pollock, of Kinston, and J. C. Johnson, of Pitt county.

June 9th, 10th and 11th Wake Forest will have her say. At 8 p. m. on Tuesday, the 9th, the Alumni address will be delivered by Rev. G. W. Sanderlin, of North Carolina. On Wednesday, the 10th, at 11 a. m., the address to the Literary Societies will be delivered by Hon. R. F. Armfield, of N. C., and at 8 p. m. on the same day the baccalaureate sermon will be delivered by F. M. Ellis, D. D., of Maryland. On Thursday evening, June 11th, a promenade concert will be held at Memorial Hall.

We hope the boys will all have a good time, and hearts brave enough to pull through all right. Commencement day is a severe ordeal for many of them, and doubtless they are glad when it is over.

Families Court.
The Superior Court of Pamlico convened on Monday, Judge Shipp presiding. Besides the local bar, there were in attendance, Messrs. O. H. Guion, W. E. Clarke, W. W. Clark, F. M. Simmons and M. DeW. Stevenson of New Berne and Solicitor Blount of Washington.

There were about thirty cases on the criminal docket, which Solicitor Blount went at with a vim as soon as the grand jury was charged.

His Honor, Judge Shipp, seems to fatten on the good water, fish, oysters, fresh pig and fat beef of our Eastern counties. The lawyers keep him busy during the day, and farmer "Tripp Ptolemus Yellowday" entertains him at night. Who would not fatten on such treatment?

Newspaper men were in abundance as usual. There was Cobb of the Messenger, Taylor of the Journal, Tyson of the Gazette, and Chapin of the Enterprise; all complaining of the scarcity of money, and so were the lawyers, but there was Rev. T. L. Troy, agent for the American Bible Society, who has canvassed the county and says he has sold more Bibles in Pamlico than in any county he has canvassed. The people prefer to invest in the Word of Life instead of law or newspapers.

The farmers are very hopeful this year. The curlew bugs have not been so troublesome as last year, and they have good stands of corn and cotton, and rice is looking well, though there is not so much of this crop in cultivation as last year.

The people want a court house very much, but on account of the railroad debt, which they are now paying off every year, they are compelled to deny themselves this pleasure a while longer.

Pamlico contains large bodies of rich swamp lands, and notwithstanding the crops have been short for two years, improvements in the way of ditching and clearing new lands and erecting nice dwellings, are steadily moving on.

The Atlanta Constitution.
In a long article relating to the B. B. B. of that city, says:

The Blood Balm Company started one year ago with \$100.00, but to-day the business cannot be bought for \$50,000! The demand and the satisfaction given is said to be without a parallel, as its action is pronounced wonderful.

We are glad to announce that our druggists have already secured a supply, and we hope our readers will supply themselves at once.

It is said to be the only speedy and permanent blood poison remedy offered, giving entire satisfaction in all cases before one bottle has been used. For Blood Diseases, Kidney Troubles, Scrofula, Catarrh, old Ulcers and Skin Diseases, try one bottle of B. B. B.
For sale in Newbern by R. N. Duffy.

From Sand Hill.

EDITOR JOURNAL.—Allow me to say to you that we had a most excellent meeting at British Chapel on last Saturday night, it being Elder Cunningham's appointment. Sister Sue West, who is doing all she can to help the church, and also doing a great deal to help bring up the children in the way they should go; has organized a working society of little folks, and they, through her influence, went to work and pieced up a beautiful quilt and had it quilted and on last Saturday evening sixteen of these little girls, with one little boy to go in front of them, all dressed in light with a wreath of flowers on each one's head, formed a line and tried marching until they could get trained enough to march well. Sister West, with others, had the quilt placed on the table in front of the stand and all the little folks out just back of the church, and when Elder Cunningham came he was informed what was on hand, and soon he took his seat at the table and the class sang a few good pieces and stopped, and just then everybody seated and looking to see what was going to be done, in marched these little folks and took their seats at the left of the stand, and soon arose Cattle Daughtry; and with a few striking remarks, presented Elder Cunningham the quilt, showing the love and respect they have for him, after which he, with full heart and quivering lips, made a few remarks and accepted the beautiful present. Sue Kilpatrick arose and tendered thanks to sister Betty Jane Daughtry for quilting the quilt for them. It seems like the people want the services of Elder Henry, and they want to show him that they do want him.

I never saw anything better arranged than were these little children; they acted so well. I wish them long lives in this world; and that they may die Christians at last and go home to heaven, is my prayer for them.

A CHURCH MEMBER.

Swansboro Items.

Mrs. Dr. Fulford has returned home to New Berne.

All well in town. No marriages or deaths this week.

Cold weather for the time of year. A light frost for two mornings.

Big banks party at Browns Inlet Tuesday and one at Bear Inlet next Saturday.

Schooner Gold Leaf, Hill, just from New Berne, and is on the ways for repairs. M. Russell undertaker.

Will give you some good news of snakes and frogs soon, as we have been eating them here in place of chickens for sometime, our chickens having all been eaten by Farrell's old sow.

Last night we had one of the nicest parties in our school room, Messrs. Geo. Bell and V. Willis musicians; all in town except a very few attended; old and young too enjoyed themselves well.

We have fine Irish potatoes now; Pittman and D. Ward are both bragging on them; both had some on exhibition yesterday, and both claimed the prizes as best, and while they were quarrelling and almost fighting, I walked off with a mess of fine potatoes and heard both accuse the other of stealing his Irishman.

Heard a good sermon at Queens creek last Sunday by Rev. P. J. Carraway, P. E., of this district. Text from Hebrew 9:4: "There is a rest that remaineth for the people of God." Mr. C. is a fine speaker and all who fail to go and hear him preach when they have the opportunity will miss a treat certainly. He is a brother of Maj. D. T. Carraway, of your city.

The weather has been so cold lately that but few snakes and alligators have been around this week. George E. Moore killed two coachwhip snakes that measured 18 feet, but one was a young one. Mr. Russell heard his dog bark and howl near his house and went to see what was the matter and found a rattlesnake with a mouthful of dog hair and the dog lying dead a few feet from the snake. Mr. R. killed the snake and buried his dog. The snake had six rattles.

The South of the Future.

In the Agricultural and Mechanical College of Missouri the visitors at commencement were strikingly impressed when they found boys, who, until they entered college, were strangers to labor, actively employed in everything that constitutes farm work, some of them earning enough to defray their boarding and incidental expenses. One boy had taken up the barber's trade, and was earning enough to pay his own expenses and those of a younger brother. Another spent his vacation working on the railroad, beginning with pick and shovel at one dollar per day, but before the end of his vacation was receiving seventy-five dollars per month, and his employers were loth to give him up.

The college is sending out many boys of this stamp every year, and their influence is going to be left all through the State, and in the South generally. It will matter little what "party" such boys belong to, for their life work will be to develop the industries of the country rather than to go to the Legislature or to Congress, and the best of it is, these boys who thus spend their spare time in earning money to pay their expenses are, as usual, among the best scholars in college. The prosperity of any people is ensured when they educate their youth to take pride in honest, useful labor. The South has a bright future in prospect, for it is such men as these boys will make that will give character to a community. —New England Farmer.

To any body who has disease of throat or lungs, we will send proof that Pico's Cure for Consumption has cured the same complaints in other cases. Address, E. T. HARRINGTON, Warren, Pa.

STATE NEWS.

Gleaned from our Exchanges.

Newton Enterprise: Cotton has come up exceedingly well this year, but farmers say the cold nights are very hard on it. It is not dying very much, but it is turning yellow and very unhealthy looking.

Washington Gazette: Rev. S. M. Smith, of the Presbyterian Church here, who had the honor of being appointed a commissioner to the General Assembly which meets at Houston, Texas, leaves tomorrow morning to attend to that duty. He will stop over at Wilmington and preach there on Sunday by invitation.

Pamlico Enterprise: While visiting Smith's creek last Wednesday we were shown by Mr. Louis Midyett the finest field of Irish potatoes we have seen this year. The vines averaged two feet in height and were in full bloom. The appearance of Mr. Midyett's entire crop shows that the Smith's creek section is well adapted to trucking.

Bladen Bulletin: One man called this week and seeing us at work thought that we were preparing to make shoes on a large scale—mis taking our type for shoe pegs.—Mr. J. Henry Johnson, an enterprising farmer, who lives near White Hall, killed a hawk one day last week, which beats anything we ever heard of for size. It measured 3 feet 7 inches from tip to tip of its wings.

Winston Twin City Daily: As our readers will remember, quite a heavy thunder storm passed over our place Wednesday night last, that the lightning was dazzling and the thunder loud. Mr. Stone, of Yadkin, informs us that quite a severe storm accompanied by hail, wind, thunder and lightning passed through the northern portion of his county the same night, and that as late as yesterday morning hail to the depth of 5 inches could be found in many places. Much damage was done to vegetation.

Carteret Telephone: A brigantine laden with sugar went ashore on the beach about forty miles east of this place on Friday night last. The captain had lost his reckoning on account of his chronometer being out of order, and did not know where he was. We understand he was well off shore and was standing in, thinking he might sight the land in a day or two. The cargo, we are informed, is valued at \$40,000. The vessel, named the Julia A. Merritt, is eleven years old, was built in St. Johns, N. B., and is sailing under the British flag. She is said to be remarkably strong, and does not leak at all, and will probably be gotten off without much trouble. The cargo consisted of 273 tons of sugar, from some port in Brazil, the vessel having been out 45 days. The sailors made a lumping bargain with the agent and received \$1,500 for their services, they having landed the whole cargo without damage. The sugar will be transported here and reshipped to New York.

GENERAL NEWS.

LONDON, May 15.—The Globe this afternoon publishes the startling announcement that England has demanded from Russia a definite pledge that she will respect the new Afghan frontier, and that in any circumstances she shall renew her assurances concerning the integrity of Afghanistan outside of the present conceded Russian sphere. The Globe also asserts that Russia has refused to accede to England's request, and that she goes to the length of demanding further concessions.

TEHRAN, May 15.—The Musselmans of Kohgar, in Chinese Turkistan, have revolted, and ask Russian protection. Desperate fighting is now going on.

Beware of Mercury and Potash.
Mercury is more destructive to human health and life than war, pestilence and famine combined. So said a distinguished writer many years ago, and it is as true today as then. The poor victim of Blood Disease is drugged with Mercury to cure the malady, and then dosed with Iodides to cure him of the Mercurial Poisoning; but instead of any relief, the first breaks down his general health and makes him a cripple, and the other ruins his digestive organs. Mercury and Potash are dangerous even when administered by directions and under the eye of a good physician, and when put up in nostrums, often by incompetent persons are apt to produce evil consequences. Be careful of these poisonous mixtures or you may regret it. Swift's Specific is entirely a vegetable preparation, and should not be confounded with the various imitations, such as "Succus Alterans," etc., all of which either contain Mercury and Potash, or are composed of old remedies which have long since been discarded as of no value in the treatment of Blood Diseases, and none of them contain a single article which enters into the composition of Swift's Specific. There is only one Swift's Specific (S. S. S.) and there is nothing in the world like it. Be sure to get the genuine.

Inflammatory Rheumatism.
I have been afflicted for nearly fourteen years with the severest form of inflammatory rheumatism. For a large portion of the time was confined to bed, and suffered the most excruciating pain, my legs badly swollen. My case was thought incurable by the physicians, and I have often hoped that death would ensue and relieve me of pain. Last month I secured, at the suggestion of a friend, one dozen bottles of Swift's Specific, and after using about six bottles I am entirely free from pain, the first time in nearly fourteen years. My joints are becoming more supple and the swelling gone. I am ready to answer any inquiries as to the facts in the case.
