Between ten and fifteen thousand bales of cotton were sold at Smithfield during the past season, and it is safe to say that much the larger part of it came over the A. & N. C. Railroad.

The counsel for defendant introduced to evidence, but continued the defense poll tax three dollars. upon the ground that the State had not made out a case of attempt to burn. Mr. C. C. Moore, Esq., closed for the defense. Mr. Simmons made one of his best speeches for the prosecution, one that elicited remarks of commendation from many that heard it. The defense had a hard road to travel; the evidence as to the intent and preparation to commit the offense was so pointed and clear night. Proceedings will appear to that counsel threw themselves entirely upon the ground that the overt act as

PHILADELPHIA, Pa., May 30.—The Pearson tactics were attempted in this city to retain Gen. Huidekoper as Postmaster. A despatch from Washington says that his removal has been decided on. A letter of Mr. Huidekoper's discharging a sub-carrier for not supporting the Republican ticket is one of the many causes.

MONTREAL, May 30.—The Chaplain of the Montreal Garrison Artillery, now at Regina, returned here today. He says the feeling in Manitoba and Ontario is intensely bitter against Riel, and that it will be a bart thing if he is not hanged. At first, he says, the Winnepeg people blamed the Government, but that after bloodshed they put that feeling aside and looked only to the suppres-sion of the rebellion. Winnepeg people sion of the rebellion. Winnepeg people suffered greatly through the rebellion, the Ninetieth Regiment of Winnipeg having more killed than any other battalion in the field. The Government has appointed prosecuting lawyers in Riel's case, both being of Ontario, where the feeling is strongly in favor of hanging the rebel. The decision of Secretary Whitney, ordering the release of Dumont, is not unfavorably received here, much avanisthy being felt for the here, much sympathy being felt for the escaped rebal.

Skin Diseases.

I have a little daughter seven years old, who for the last four years has been afflicted with a peculiar skin eruption on the face and one hand. I have tried seven or eight physicians, among them the best in California and in this province, but to no purpose. The child kept growing worse. Fortunately, I saw a statement in a St. Paul, Minn., paper, of a cure of a disease similar to that of my child. It was effected by Swift's Spe I secured six bottles and commenced giving it to my little girl. In less than one week this terrible disease, which had baffled all the known remedies within reach, began to disappear. She has been taking it three months—is perfectly well, and her skin is as clear G. A. SMITH,
