Lake Landing Canal. Mr. H. C. Carter, of Hyde county, is in the city in the interest of the Lake Landing canal. He met quite a num-ber of the members of the Board of Trade at their room yesterday evening and gave a statement of the progress of the work. About \$10,000 has been apent in dredging and several thousand more have been pledged, enough, he stid, to secure drainage, but not enough to secure navigation. With \$2,000 ad ditional be said they could put on an

four months could go to the warehouses. He pointed out the difference it would

make to the shipper in putting his corn aboard from the warehouses and having to take it to the steamer out in the bay. In the course of his remarks he said that most of the corn at Fairfield was shipped to Wilmington by way of Elizabeth City, which seems a little curious to us. The idea that corn should be taken right from the doors of New Berne, carried around through Virginia and pass again within sixty miles of New Berne in order to reach Wilmington is rather strange. Why should it not come to New Berne and go over the A. & N. C. Railroad?

Mr. J. O. Foy, recently from central Nebraska, visited our sanctum last evening. He left the Eastern part of this State a little over a year ago, and went West, expecting to permanently locate, but after passing through one winter, he decided he would return to the Western part of this State. He is very favorably impressed with the free chool system of the West, and thinks it outweighs all other inducements offered to actual settlers. And in his opinion North Carolina could adopt no wiser plan for her advancement, than to inaugurate a free school system, (not your fittle log school houses dotted here and there through the woods; they an-swer a purpose, but are inadequate to the needs of our country.)
