The Board of County Commissioners will meet tomorrow for the purpose of revising the tax list.

The Young Men's Christian Association meets this evening at the Methodist Church at 6 o'clock.

The members of Middle street Baptist Church have granted their Pastor, Rev. C. A. Jenkens; a month's vacation from today.

Four cases before the Mayor yester day; one for disorderly conduct was fined \$5.00 and cost. Three boys were up for jumping on the train as it passed through the city; they were admonished

and let off on payment of cost. The thunder squall on Friday evening

was accompanied by considerable hail and wind in the Northern portion of the city, blowing down several trees, and wringing limbs off of others. Down town there was no hail and not much wind. TA SYNC

Information Wanted.

Allen Rutherford, Attorney at Law Washington, D. C., wants information as to the whereabouts of the heirs of George Ellis and Thomas and Jeremiah Readin, who he says lived in the beginning of the present century and at one time resided at or near New Berne. He further states the information is not desired for the purpose of obtaining a pen" aion claim.

Boats Capsized.

During the thunder-squall on Friday evening Capt. L. C. Angel, of the lighthouse service, with his wife and brotherin-law, was on route for New Berne, and when within about eleven miles of the city the equall struck the boat and capsized it. Mrs. Angel was in the old, and it was with much difficulty rescued. The sons of Josephus Miller were the rescuing party.

On Friday night, during another thunder-storm, a wood-boat in Trent river was capsized. Two negroes were aboard, but were rescued.

District Collector Appointed. this vicinity, who will, we have no doubt, be gratified to hear that he is the new appointee.

Mr. Wood has well earned a position at the hands of the administration, that is if earnest work and active attention to the interest of his party is considered. As to his efficiency, there can be no doubt among those who know him. We congratulate you, Alpheus, and also Col. Yarboro in his selection.

Church Services To-Day.

Christ Church-V.W. Shields, Rector. Sixth Sunday after Trinity. Holy Communion at 8 a. m. Other services at 11 a. m. and 6 p. m. Sunday School at 5 p. m. The public are always invited to attend the services of this Church.

Baptist Church-Rev. C. A. Jenkens. Pastor. Services at 11 a. m. and 8 p. m. Seats free and the public cordially invited to attend.

The Funeral of Miss Haskett.

The funeral of Miss Tryphin: a Has kett took place from the M. E. Church yesterday morning; the services conducted by Dr. Burkhead, and the underbearers were Messrs. Hill Humphrey, David Willis, J. K. Willis, J. M. Howard, Henry L. Hall and Rudolph Ulrich. A large number of our citizens were present.

The deceased was a young lady of

interesting history, and a great sufferer from a fall from ice on the door-steps of a dwalling in which she was attending an aged lady who was suffering from a similar accident, some years ago. By this accident Miss Haskett was rendered a cripple for life and unable to walk without the aid of a crutch. Her amiable disposition and genial manners won her warm friends among all acquaintances, and the sadness of her death is increased by the fact that her marriage to one of our worthy young of a fool. men was to have taken place in the near

future. The relatives and betrothed have a large circle of sorrowing and sympathizing friends in their hours of grief and mourning.

Farm Notes.

Mr. Pat Trenwith has a sample of rice at Geo. Allen & Co's store three feet high. He has a patch of ten acres and no doubt he will read Secretary Fair child's letter with much interest.

Sweet potatoes of the new crop of

Board of Council and Policemes. By a private telegram we learn that A. W. Wood. Esq., has been appointed collector of internal revenue for this district, and has been duly commis-sioned. This is the same position here-tofore held by Mr. R. C. Kehoe, and one of much interent to the merchants of this vicinity, who will, we have no doubt, be gratified to hear that he is the fortunately for it,) of a small city only, could conceive the narrow and con-temptible parallel which he seeks to

draw. Upon his theory each and every indi-vidual member of the Board of Council should vote for, or against, every propsition regulating the city government as it might affect him, and that no require ments should be exacted from a subordinate that was not observed by the law-maker.

This upon its face is so silly and puerile that it needs but to be alluded to, to

show the author as a fool. The Parliaments of England, the Congress of the United States, the Legislatures of North Carolina when enacting rules and laws for the government of and compliance with subordinates, do it for the general good, and not with a view to a self-application, and the mem-bers of these illustrious bodies like the members of onr Board of Ollowing States and the same nature, the appraising members of onr Board of City Council, enact laws and rules only because they believe it will best subserve public interests.

Now for a comparison; the members of the Board of Council are chosen by the people, who, in selecting them, have a full knowledge of their habits mode of life, and characteristics, and they select, and celect them to serve without pay or reward to adopt such laws and measures as will best con tribute to the maintainence and enforcement of such measures as in their opinion will best carry out the wishes of the people.

A portion of the Board (the police committee) saw fit to frame certain rules for the government of the police force, the other members of the Board saw fit to approve them, believing that they were conducive to the best inter-ests of the community, and because of this, some Pharasaical fool takes occasion to draw a parallel between "lord and servant." Such a fellow could be lord of nothing, and if known could be Bervant to no one. • The Board of Council, as a matter of

public spiritedness, are willing to perform their duties without pay, or the expectation of conforming their per-sonal habits to the assimine inferences JUDAS VALE. W.

Carteret County Items.

[From Telephone.]

Mackerel sold on Monday last at \$10 per hundred-a pretty good price for the Beaufort market.

The surveying party under Capt. Price is still at work in the harbor and will probably be engaged for several months.

We learn that Mr. A. E. Oglesby has been appointed Postmaster at Wildwood in this county and has forwarded his bond for approval.

Mr. W. Dunn is lying in a critical full opportunity of presenting, and did

Cisseffication of Granulated Rice. TREASURY DEPARTMENT,

Office of the Secretary Washington, D. C., June 25, 1885.

SIE:-The department duly received your letter of the 22d ultimo, with its enclosures, regarding the classification under the tariff acts of imported broken and granulated rice. By departmene's decision of April 26,

1985 (Synopsis, 5678), it was held that rice meal, or granulated rice, a com-modity which is made trom the broken and small grains of rice (sifted from the larger grains in the process of cleaning) by grinding or manufacture, whereby it becomes coarse granules, and which is devoted mainly to brewers' use in the manufacture of beer, was not the cleaned rice of commerce, but was dutiable at the rate of 20 per cent. ad val-

orem, under section 2513, R. S., as an unenumerated manufactured article. It was prescribed, however, by said decision that such classification should only extend to the ground or granulated rice which was the actual subject thereofficers being instructed to see to it that rice, or merchandise containing whole rice is not passed as granulated rice.

By a further ruling, dated February 24, 1894, not published, it was decided to adhere to such decision, the Depart-ment saying that "it is to be stated, however, that customs officers should take special pains to see that that decision is not applied to merchandise of a character different from that mentioned therein." "A distinction is recognized between granulated rice, which is an intentional product, and where the particles are generally of uniform size and where none of the merchandise was rice, which is the article covered by said decision and that referred to in the decision of March 29, 1882, on the appeals of Dan Talmage's Sons, which involved the siftings or screenings of rice, consisting of small whole grains and broken grains, resulting from the process of cleaning and sifting rice, and which was held to be dutiable in its entirety as rice."

will be enforced by customs officers." The question has been lately raised,

however, that such broken and granu-lated rice should be classified as cleaned rice, at a duty of 22 cents per pound. Upon a full and careful consideration of the whole matter, and after hearing arguments of parties interested and inspecting samples representing the mer-chandise in various conditions, I have arrived at the conclusion that while the questions involved are not free from doubt, I would not be justified in making any change in the existing practice so far as it covers the kind and description of "rice meal or granulated rice, which was the subject of such decision. I arrived at this conclusion the more readily inasmuch as it should be the policy of the department not to disturb existing rules of practice except for

more serious reasons than exist in this case, and because since the decision was made the parties aggrieved have had

J. V. WILLIAMS, German carp do not suit the ideas of the Kentuckians as a food fish, and the Louisville Courier-Journal mentions people there who would like to get rid Pork, Side Meat, Lard of the fish with which they have stocked their ponds.

CLIPPINGS.

A recent prize man in one of the lead-ing New England colleges is said to have paid his way through college by buying old clocks and other bric-a-brac in back country towns, and selling them at fancy prices to New York and New Haven collectors.

In view of his very slender means and very large family, with no prospect of wealth, Sir Stafford Northcote's acceptance of an earldom has excited much surprise. It is without precedent to confer upon any but a Prime Minister higher rank than a Viscounty. Sir Stafford has about \$25.000 a year.

> A Note of Warning to Suffering Humanity.

We feel that we would be wanting in the duty we owe to suffering humanity if we did not sound a note of warning n regard to the use of Mercury and other poisonous minerals in the treatment of Blood and Skin Disease If the reader could see the horrible suffering, the awful wrecks of human health and happiness, shown by our corre-

spondence with those who have been dosed with these mineral poisons, he would shudder with horror. Arsenic Mercury, Antimony, and Iodide of Potassium are some of the remedies most ordinarily used for these diseases, and they are all POISON. Do not take these poisons. They might dry up your dis-ease for a few days, and with it you will have Mercurial Rheumatism, which may bring you years of torture. The Mercury seems to sink into the bones, and the Potash drives the Poison into the system, only to lurk there and at-tack the tender organs of the body, as the lungs, the throat, the nasal organs and stomach. Hundreds of people have been made deaf, and a great many blind, by the use of Mercury and Potash. Beware of Mercury and Potash Mixtures gotten up in imitation of our Specific. A few grains of sugar of lead dropped into a glass of these imitations will cause the poisonous drug to fall to the bottom, and show the danger of using them. Swift's Specific is entirely vegetable, and is the best tonic for deli-cate ladies and children and old people in the world.

Treatise on Blood and Skin Disease mailed free. The Swift Specific Co., Drawer 3, At

lanta, Ga. For sale in New Berne at HANCOCK BROS.

A Railronder speaks.

My wife has been a great sufferer from Catarrh. Several physicians and various patent medicines were resorted to, yet the disease continued unabated, nothing appearing to make any impres

sion upon it. Her constitution finally became implicated, the poison being in her blood. I secured a bottle of B. B. B. and placed her upon its use, and to our sur-prise the improvement began at once, WHOLESALE ONLY.

H. R. Bryan, Esq., has returned from a visit to lower Pitt and reports crops looking well in that section.

The hot nights recently have improved cotton considerably in this section, but there is plenty of room for still further improvement.

Examining Pension Claims.

All day yesterday the State board of

All day yesterday the State board of pension examiners, composed of Gov. Scales, Gen. W. P. Roberts and Hon. T., F. Davidson was engaged in examining claims sent in from various counties. They looked at about 100 claims and al-lowed about 30. A number were passed over informally. Some were rejected. Many of those passed over were for lack of further proof, which under the statute the board can take. The work done yesterday was satisfactory. Of course a beginning has to be made and much more rapid work can be done with more experience. The task of examining these claims is a hard and thankless one. The board will spare to pains to do juathese claims is a hard and thankless one. The board will spare no pains to do jus-tics and serve the pensioners and State to the very best of its ability. The work will be continued today. Applications pour in and there are many days work ahead, of course. --News and Observer.

condition, at his residence in Beaufort and no hopes are entertained of his recovery.

A boy, Claudie, son of Rev. Mr. Leary in this county, was bitten by a snake last week but although the friends were fearful of results at first, he has recov ered.

Messre. Dey & Bro. are beginning to make shipments of fish scraps. We are sorry to see it go abroad to be manufac-tured, as we think the fertilizer should be made here.

We learn that the number of gues at Morehead City is larger than usual for the first of July and the hotel pro-pristors seem to be greatly encouraged. New attractions are being constantly added and the sources of enjoyment correspondingly increased.

Mr. W. F. Howland, lately appointed collector of customs, received his commission and took charge of the office last week. The deputy collectors under the outgoing collector and also the boat-man tendered their resignations which were filed in the office.

Mr. David Pierce has received an appointment as Postmaster at this place, and will probably take charge of the and will probably take charge of the office in a few days. This recognition of the services of a faithful man and of the wishes of a large majority of the Democrats of this township has been long expected and the arrival of the appointment seemed to be a source of con-gratulation for everybody.

Mr. J. F. Jones sent us on Wednes-day last a small aligator, supposed to be two years old. It was caught on the 6th inst. by Messrs. Eli Sanders and R. W. Humphrey, after a very exciting chase, on the Bogue Sound public road. They discovered it asleep only a few inches from the track and securing it they took it to Newport in Mr. Sanders' buggy. The reptile is lively and com-bative and is willing to fight anything that comes within reach regardless of size. Mr. J. F. Jones sent us on Wednes

If be promptly reperces once boards and through the pr

resent, as it is understood, their claims for relief to Congress, but without ob-taining any modification of existing laws in the premises. You are therefore instructed to be

governed by the principle enunciated in such decision on the importation of any rice-meal or granulated rice which may e returned by the appraiser as possess ing the characteristics therein men-tioned—that is to say, the substance must indicate that it has been subject-ed to an intentional process of grinding

or manufacture.

Very respectfully, Asst. Secretary. COLLECTOR OF CUSTOMS, New York.

Meeting of the State Medical Society

and Board of Medical Examiners.

From the North Carolina Medical Journal. The largest number of medical gentle-men ever assembled in North Carolina attended this the thirty-second meeting of the State Society. Over eighty names were added to the list of regular members.

Over one hundred candidates were xamined for ficency necessitating the sembling of the Hourd of Examiners on Monday preceding the meeting. The Board devoted nearly 17 hours of the 24 to their work, less the short time taken for meals, in all about 2 hours. During this time over 100 candidates were examined in a most careful and conscien-tious mannet and several of them care

fully re-examined. The results, we believe, as far as the examiners are concerned, have caused day hast a small alignator, supposed to be five years old.
