

# THE DAILY JOURNAL.

VOL. IV.

NEW BERNE, N. C., WEDNESDAY, AUGUST 26, 1885.

NO. 126.

## LOCAL NEWS.

**Journal Miniature Almanac.**  
New Berne, latitude, 35° 6' North,  
longitude, 77° 3' West.  
Sun rises, 5:27; length of day,  
sun sets, 5:35 1/2 hours, 8 minutes.  
Moon rises at 7:30 p. m.

**Rain at Sea.**  
Light showers yesterday.  
Good time to sow turnips.

**Turnips Almanac struck it right yesterday.**  
The showers yesterday were in good time for the corn crops which followed the potato crops.

The first bale of cotton in the Charlotte market closed strict middling and sold for 10 1/2 cents.

About fifty excursionists left on the Shenandoah yesterday for Nags Head, Norfolk and other points.

Mr. J. K. Willis received a large lot of material for the Shenandoah yesterday which will be worked up in his new shop.

Mr. C. J. Rhen having declined the position of cotton weigher, the county commissioners will at their next meeting fill the vacancy.

The steamer *Goldsboro* arrived yesterday evening from Baltimore with a cargo of goods. The *Experiment* sailed with a cargo of shingles, naval stores and lumber.

The Elm City brought up yesterday morning a good cargo of corn, oats and fruit from Hyde county. She left on schedule time in the evening for the outside trip.

The house on Middle street north of Broad, formerly occupied by Mr. F. Boeser, and now owned by Mr. M. H. Satter, has been repainted and now presents a handsome appearance.

The Shenandoah brought in a good large lot of cotton bagging yesterday, and we noticed Dall Bros. shipping a lot to a farmer up Neuse who had sent 240 lbs. in haste. We expect to see it back in a few days wrapped around some.

Wilmington received her first bale of new cotton last Saturday. It graded strict low middling, weighed 547 pounds and sold for 11 1/2 cents per pound. We hope our buyers will see that the first bale in New Berne market brings a good round price.

**Warming and Stock Raising.**  
Messrs. F. S. Coburn and E. H. Fonville have purchased the tract of land known as Lloyd's Meadow, in Onslow county, about 25 miles from New Berne, and will put the larger part into rice and erect a rice mill next spring. They expect to obtain an improved grade of beef cattle and raise for New Berne and Wilmington market. We are glad to see the young men going into farming and wish them success.

**From Errol.**  
Some one writes us from Errol, a postoffice recently established in this county about eight miles below Vanceboro, that the crops of cotton and corn are good, the health of the neighborhood very good, Mr. C. A. Ipock has lost his horse and that Miss Annie Lee of Vanceboro is teaching school at Gasper's school house. These are the most important items in the communication which was of space forbids publishing the whole; besides, we do not know the writer.

**From Errol.**  
It is suggested that the present time is a good one to trim the lower branches of the streets. This gives free passage to air underneath the cooling breezes, and contributes much to the comfort as well as the appearance of the streets generally. Lower Broad street is especially in need of attention in this respect, and will no doubt receive early attention from our zealous City Marshal. The arched streets of New Berne has been for many years its boast, and with a little snipping up each year, it will continue to be one of its most lovely features in the hot days of late summer and early autumn.

**Personal.**  
Mr. T. B. Hyman, of the firm of Taylor, Smith & Co., and Will B. Lane, Esq., of Goldsboro, were in the city yesterday.

Mr. J. F. Taylor, of the firm of Taylor, Smith & Co., left for the Northern markets yesterday morning per steamer *Shenandoah*. He is gone for his fall stock of goods, and expects to astonish the natives when he comes back.

Mr. R. L. May and Mr. Giddens, of Errol, called to see us yesterday and informed us that an important trial for burglary was in progress when they left Errol. Our Jones county friends please further particulars.

Thousands of children are saved from death each year by the use of Dr. Williams' Pink Pills. It is the most popular remedy. Only 25 cents a bottle.

## The Crops Near the City.

Yesterday evening, in company with Mr. T. A. Green, we took a short drive up Neuse road and had the pleasure of taking a view of the crops after a refreshing shower of rain. The farms that came under our observation were those of Messrs. Nat. Tisdale, Geo. Allen, T. A. Green and J. A. Meadows. The cotton on Messrs. Green and Meadows' farms is very good. They both planted after a pea crop, and we are sure, if they have no set back from now on, will get near four hundred pounds per acre. Mr. Green has a twelve-acre patch that will make fully this much, and Mr. Meadows has a small patch which followed cabbage, that will probably reach five hundred pounds. Mr. Allen's cotton is the third crop this year on the same land. First peas, second beans between the pea rows, and third cotton in the pea row. The cotton is not looking near so well as that of his neighbors, Green and Meadows, but it demonstrates the fact that three crops can be successfully made on lands in this vicinity.

Driving into Mr. Green's farm we were surprised to find such magnificent corn which is growing upon land that produced eighty barrels of potatoes to the acre last spring. He has a rich bottom extending through the farm where the ditches are being put in first-class order, and under the superintendence of Mr. J. D. LaRoque, a man of considerable push, licks are being put in for another crop. Here we had the pleasure of seeing a lot of thrifty, slick shoats, a yard full of chickens and ducks, a patent hen's nest and everything having the appearance of a well-to-do, thrifty farmer.

Mr. Tisdale's corn which followed potatoes is also fine; his cotton is not so good as Messrs. Green and Meadows'. The cotton crop in this immediate vicinity has been rather poor for two years past, but this year it bids fair to make a full crop. It is a pleasure to visit these growing crops, and we expect to go again.

**Poor Man's Beans.**  
The season for this favorite vegetable is now here and our farmers from over Neuse river have them often on the streets for sale.

From some cause or other, it is said that this peculiar variety is local to that section. How that is the case we are not prepared to say, but that it is a most excellent bean we are fully convinced and that it is always free from strings and an excellent snap.

## La Grange Items.

"Doc" Hadley of Boston, was in town last Sunday.

Kirby Statton, son of Josiah Statton, jr., in Buckleberry, left for Chapel Hill Monday.

Our schools, the Davis and L. C. I., will begin next week. We hope to see both these well patronized.

Simon Wooten and K. E. Bissell of our place, left for Baltimore Monday to buy their fall and winter goods.

It is said that quite a number of boarders are at the hotels at Seven Springs. These Springs grow in popularity each season.

Fodder pulling is on hand. The work is at best disagreeable, and with the present dry and hot weather, it will be almost intolerable.

Sickness in our village and in the surrounding country is still much and severe. Our physicians are busy and on the go nearly all the time.

Another engine for cotton ginning purposes arrived here last week, shipped to D. M. Stanton, of our place. We suppose it is for the use of some of our cotton farmers.

We were pleased to see Rev. G. W. Sanderlin in town last week. He has not entirely recovered from his recent sickness, but we are glad to see him well enough to be out.

Preaching by the pastor at the Baptist Church last Sunday and Sunday night; also on Saturday. The ordinance of baptism was administered on four converts Sunday morning.

Rev. A. McCullen has been away from town for several days, conducting a protracted meeting at Sharon in this county. We are glad to hear that success crowned his efforts.

Mossley Hall township is, as usual, furnishing her share of the court at Kinston this week. Several jurors, many litigants, and lots of witnesses, are our part of the makeup this week.

Col. A. C. Davis returned home last week, after a visit of several days to Tarboro. The Colonel has a way of going by private conveyance, through the country, and we suspect he has an interest in so doing.

Hot and dry. Crops are certainly in need of rain. Cotton has shedded the forms, and half grown bolls are drying up. An average crop cannot be expected about here. The rice crop, in many places, is nearly a failure. The best of seasons now could not bring it out. The outlook for the farmers around here is not at all promising.

**Cars Running Through.**  
The Norfolk Southern Railroad is now sending its cars from all stations on its line to Wilmington, N. C., or to any point desired South or West, without breaking bulk, having made arrangements with the Seaboard and Roanoke Railroad. This is a matter of great convenience to the people along the line of road. —*Norfolk Ledger.*

## Kinston Items.

Judge McKoy opened the August term of Superior Court on Monday. We hope that court week will bring the usual rain.

The cotton crop in some sections is suffering now, and a timely rain would add thousands of dollars to the general pocket book.

There was a colored camp meeting in a pine grove, one mile east of Kinston, on Friday, Saturday and Sunday. There was much excitement, many curious visitors and much preaching.

When your reporter was in Salem, last week, he had an opportunity of visiting Dr. Bahnon's carp pond. The fish were numerous and fine; but the most interesting sight was the lilies. There could be seen the magnificent lotus of the Nile, the white, pink and purple lilies of India, China and Japan. These aquatic plants flourish in our waters in all their native luxuriance.

The Lenoir County Institute was in session in Kinston last week, in the graded school building. Capt. W. S. Byrd, the county superintendent, was in charge. The captain knows how to select his lieutenants, for he had some of the best material in the State. Prof. James Y. Joyner, late of Winston graded school, lectured daily, both in the white and colored departments of the Institute, on Eng. Grammar, Reading and Phonetics. Prof. Joyner is an energetic and forcible speaker. He makes lasting impressions. Prof. B. F. Grady, county superintendent of Duplin, was excellent on History and Arithmetic. Prof. G. is known over the State as a gentleman of extensive culture and ability. Dr. Jno. A. Pollock, a physician of note in our county, gave lectures on physiology and hygiene. Dr. P. always speaks with emphasis, and both knows what to say and how to say it. Special lectures, in the opera house, were delivered as follows: On Tuesday night by Prof. J. Y. Joyner; subject, "What shall we do with our girls?" On Wednesday and Thursday nights, in same place, by Prof. B. F. Grady; first, on Meteorological Phenomena; and second, on Botany. On Friday night, at same place, Dr. H. D. Harper, one of the county board of education, gave a lecture; subject, "One Thing." Dr. Harper is always lively and sparkling, and is a most interesting speaker. The average attendance was perhaps seventy.

At the regular sessions of the Institute, Mrs. Ross Parrott managed the colored department with skill and ability. Much good was accomplished, and the teachers now know what other teachers think.

## Duck Creek Items.

Miss Ward has gone to Pender on a visit.

Everybody busy pulling fodder, which is poor.

Col. Fonville has a very fine Jersey bull, which he values at \$150.

Some fine sheephead were caught by Ed. Fonville a day or two ago.

Dr. Monfort has a very fine colt down with distemper, and a horse coming down.

L. W. Morris has a sick child and Louis Morris two of them. Not much sickness around.

Mr. Coburn has bought Lloyd's meadow, and it is rumored intends to put it under cultivation.

Same old, old story from every one, crops bad; about one-half of a crop only will be made around here.

Rumors say Wm. J. Gillet has been married, and that Simpson is getting ready to be; looks like it, as he has commenced building a dwelling.

Quite a crowd at Queen's Creek. Going home Mr. McGee's mule got frightened by a hog with stagers and ran away; no one injured; buggy broke up some.

Oysters are good; a certain person who was told they were not good as the month had no "r" in it, said; "Yes they were, as August did have an 'r'." He was asked to spell it, and did so in this way, "O-r-g-u-s-t." Are all eating them now?

Captain Bixby, engineer in charge of the Carolina coast, has asked for \$30,000 to improve New River. If it is granted it means transportation for us. We still hope that New Berne will do something, or that the A. & N. C. will run a branch down here.

## A Remarkable and Sad Accident.

A letter received from Germany brings the information that the Queen Elizabeth mine, in Clausthal Hanover, caved in on the 10th of July. It was several thousand feet deep and when the ground gave way the building over the mouth of the mine fell in and disappeared. The saddest of all was that three young men were at the bottom of the mine, engaged in extracting some of its treasures, and on these the mighty masses fell, burying them thousands of feet below the surface of the earth. One of these young men, August Mueller, was a cousin of Rev. Mr. Peeschan, of this city. No accident like this has ever happened on that part of the Harz mountains. —*W. H. Star.*

## NEWS BY MAIL.

MADRID, Aug. 24.—The number of new cases of cholera in Spain yesterday was 5,919; deaths 1,950.

MARSEILLES, Aug. 24.—There have been 160 deaths from cholera here during the past two days.

TOULON, Aug. 24.—Fifty persons have died here during the past forty-eight hours from cholera.

MARSEILLES, Aug. 24.—Increasing. The cholera is perceptibly increasing here every hour and the situation is already alarming. Within the past forty-eight hours 300 new cases have been admitted to the Pharo hospital, and during the same period 200 deaths from that disease have been reported within the city limits, besides 50 in the southern suburbs.

## Jones County Items.

The fall session of Prof. Mewborn's school at Trenton will commence the first Monday in September.

The dry spell continues with us. Our crops are suffering severely. Cotton and young corn are nearly ruined.

I learn that Mr. Andrews, the contractor, will be ready to raise the frame of the Episcopal church at Trenton on Tuesday next.

We think that the county authorities ought to plant out shade trees around the court house at Trenton, as the sun, when it broils down upon the house, particularly when the thermometer is at 90, is anything but comfortable.

We learn that the Rev. R. H. Whitaker is to assist the Rev. A. D. Betts in a meeting at Lee's Chapel the second week in September and is to lecture on "Tolerance" at Trenton, Lee's Chapel, Polkville, and perhaps other points in the county, during his visit, which will be a rare treat to the people of Jones.

During the past week we had court in Jones county. We had quite a calm time, I noticed but very little drunkenness during the whole week. Trenton, for some cause, can boast of as good order and as sober a crowd as any little town in the State. Quite a change in two years; we are glad to see it. May it long continue so.

We learn that Mr. Winfield Eubanks had the misfortune to get the dwelling in which he resided burned a few days ago; he succeeded in saving nearly every thing, having lost \$30 worth. The family were all gone on a visit to some of their relatives, and had it not been for his neighbors, would have lost everything in the house. Supposed to be the work of an incendiary. The house belonged to Mr. W. E. Ward, who has sustained some heavy losses by fire during the last 3 years, having had 3 houses destroyed by fire, aggregating in value about three thousand dollars.

I notice in our county that most of the criminals convicted are the young men and boys who have had the advantages of our schools. Can it be possible that "Little learning is a dangerous thing"? If so we ought to strive to give them sufficient learning to say and learn the right way if such a thing can be done. The most of our criminals are the colored people, who are continually filling our jails, who stand charged mostly with larceny, murder, forgery, fornication and adultery. We are of the impression that their teachers and parents ought to adopt a strict discipline of morals and teach them that too, both at school and at home their full duty in morality, also that every man should earn a living by the sweat of his brow.

I had the pleasure of meeting at Trenton on Saturday last Mr. Julian Bender who was visiting relatives. I interviewed him on shooting alligators; said that the Swansboro itemizer reported the number correctly, that he did kill seven, but as to the sheep and turtle he could not say whether or not as he left them for others to dissect. It is said by persons who know all aboutigators that when they get hungry they will fill themselves with light wood knots; yet some of our people who are not acquainted with their habits somewhat doubt the itemizer's statement about his having a grown sheep in him, but they ought to recollect that he had swallowed a loggerhead turtle and that gator had had a time of it with him a chewing, pinching and gnawing and stirring up his digestive apparatus. If he had not been killed so soon he might have attempted to swallow a steam boiler, who knows?

On Saturday last John E. Green, col., was arrested and brought before Justice Smith, charged with entering the dwelling of C. M. Shute, who resided about 3 miles above Trenton. I learn that the evidence was that a sister of Mr. Shute was awakened by some noise in her room. She was sleeping on stairs and saw Green pass between her and a window where the moon was shining in the room. She knew him and screamed out for help, when Green darted down stairs and made his escape from the house before he could be captured. The Magistrate promptly ordered him to jail, when he started to run, and would have gotten away, but officer Meadows brought him down by shooting a ball in his thigh. We have not learned whether his wound was dangerous or not. We learn further that he entered the house by unbolting the door, and that he was tracked to and from his home, which was near Mr. Shute's.

## A Charming Comedy in Court.

"I appear for the plaintiff, your Honor."

It was a boy about 8 years old. When standing erect his chin was just level with the table in front of him. He addressed Judge Barrett, who, in the supreme court, was hearing motions. His honor looked at the child in surprise.

"I was sent in here from the office to say that the case had been settled, and ask the court to file the notice," continued the boy.

The defendant's lawyer, a man of six feet four inches, arose and objected. As the big man and the little stood side by side, lawyers and spectators roared with laughter. The clerk rapped for order and the judge tried to look grave, but the proceution was irresistible and he laughed louder than any one else in the room.

"Adjourned until tomorrow," he said, as he left the bench and withdrew to his private room.

## Plain Questions.

Mythical ideas are fanning the public brow with the breath of prejudice, ignorance and humbuggery. Have you the remotest idea that your scrofula was created by the use of potash and mercury? No matter what the cause, B. B. is the peer of all other remedies. Do you presume that your troublesome catarrh is the result of mineral poison-

## ing? B. B. B. is the quickest remedy.

Are your chronic ulcers and boils and sores the result of potash and mercury? Medical gentlemen will not tell you so, but B. B. B. is the only sovereign remedy. Were your terrible kidney troubles created by mineral poisoning? Not a bit of it, but B. B. B. has proven to be a reliable remedy. Are your skin diseases, your eczema, dry tetter, etc., the effect of too much potash and mercury? The medical profession are the best judges, and they say, but B. B. B. makes more pronounced cures than all other preparations combined.

For sale wholesale and retail by R. N. Duffy. Cash to accompany the order.

## DIED.

On Tuesday morning, Aug. 25th, at St. Elmo, Ala., W. D. Toler, son of Chas. Toler, of Swift Creek.

Mr. Toler left this city in '68 for Alabama, where he has been engaged in the turpentine business, and leaves three small, motherless children to mourn his loss, also an aged father and mother and sisters whom he has not seen for twelve years.

## COMMERCIAL.

JOURNAL OFFICE, Aug. 25, 8 P. M.

Sec. & Treasurer  
New Berne Academy.

## Valuable Farm for Sale

1,112 ACRES OF LAND,  
IN JONES COUNTY,

Two miles from a good landing on Trent river, and lying on the Quaker Bridge road adjoining the State lands in White Oak woods.

Three hundred and twenty-five acres of this land are cleared and is well adapted to the production of cotton, rice, corn and peas, and has nine tenant houses on it. It can be easily divided into five or six farms, and can be purchased for Six Dollars per acre, one-fourth cash, the balance on time. For further particulars apply at JOURNAL OFFICE, or to J. P. HARPER at the plantation, where the growing crop can now be seen.

## Notice.

CHARLES E. NELSON  
Has removed to his old stand on Broad street, between Alex. Miller and E. M. Favis, where he would be pleased to see his friends and customers, and supply them with the best Beef, Veal and Mutton the market affords.

## Aurora Academy,

AURORA, N. C.  
The FALL SESSION of this School will open

August 31st, 1885.

This institution is situated in a growing and progressive town.

R. T. BONNER, Principal,  
Mrs. R. H. LANE, Music Teacher.  
For board, tuition and terms, send to  
R. T. BONNER, Principal,  
aug10dwt Aurora, N. C.

## SEND DOWN YOUR BROKEN GLASS,

Ornaments, China, and broken Toys, SCOTTS to cement them. Also, buy Putty, fresh parched every day, for five cts. a quart. Office on South Front street, between Hancock and Middle streets, New Berne, N. C. all

## Newbern Academy,

Established by an Act of the Legislature of N. C., VII. Session, 1811, the third of November, 1798. It is under the control of a board of twenty-four trustees.

## Newbern Graded School

(Under the auspices of the Trustees of the Newbern Academy.)

PRINCIPAL:  
PROF. PRICE THOMAS.

ASSISTANTS:  
Prof. George W. Neal, Prof. D. L. Ellis,  
Mrs. A. B. Ferber, Miss Mary Manly,  
Miss Rachel Brooks, Miss Ann Christmas,  
Miss Annie Chadwick.

## NOTICE.

The Trustees would respectfully call the attention of parents and guardians to the advantages offered for the education of their children and wards, at the Newbern Graded School.

During the last year, a large and commodious building has been erected, which, with the old building, will furnish accommodation to eight hundred pupils. Situated in the midst of a beautiful grove, it is surrounded by ample and well kept grounds, thereby offering comfort and means of recreation to the pupils.

Experience has shown that in securing the services of the present corps of teachers, the Trustees have been fortunate in obtaining the services of those well qualified for the positions assigned them.

## STUDIES.

In the ten grades, are embraced all the primary, intermediate and advanced grades of studies, embracing Latin and Greek, and taught from the most approved text books now in use.

## CALISTHENICS.

Classes are regularly taught in this beautiful and graceful bodily exercise.

Allen's System of Book-Keeping is taught by an expert in the advanced grades, FREE.

Arrangements are being made for teaching vocal and instrumental music, painting and drawing on favorable terms.

At the last session of the school over five hundred pupils were enrolled. Having accommodation for eight hundred, the trustees are willing and anxious to extend the benefit of the school to the children of Graven and the adjoining counties at a very moderate rate of tuition.

Good board can be had in Newbern at very low prices.

## RATES OF TUITION.

To white children whose parents are citizens of the city of Newbern, tuition is free.

To white children whose parents are not citizens of Newbern, the following charges are made:

Tuition in Primary Department..... \$1.00 per month.

Tuition in Intermediate Department..... 1.50 "

Tuition in Advanced Grade Department..... 2.00 "

School Opens on Monday, September 7th, aug10dwt
