Appointments and reports for over-night for the JOURNAL office. ...

Mr. W. H. West, of London, was at the Cotton Exchange yesterday with cotton.

Mr. J. J. Wolfenden now holds forth next door to Green, Foy & Co.'s banking house.

The Steamer "Cineton" brought down seventy-five bales of cotton yesterday.

The Steamer "Kineton" brought down the largest cargo of the season from up North.

The Steamer "Kineton" brought down the largest cargo of the season from up North.

The Steamer "Kineton" brought down the largest cargo of the season from up North.

Mr. C. H. Blank has opened an auctioneering office in the building on the corner of South Front and Middle streets.

Two cases before the Mayor yesterday. One for a dog, one for a pig.

People Do Read Advertisements. We very often have applications for space in our local items columns.

James Means' \$3 shoe. It is not reasonable, nor is it keeping with good common sense to think that a man who has a newspaper and wants to buy something will not consult the columns of his paper to see if anybody wants to sell the article needed.

Jones County Items.

Ed Stanly says he captured 60 squirrels during the past week. Cotton is opening, and some of the farmers are bringing it to Trenton.

Trenton and vicinity would be glad to have a daily mail route between her town and Core creek, only a mile distant.

Mr. Sylvanus Barker has moved his family to Trenton. He has had a neat and attractive sign painted and placed in front of his store.

Mr. Zeb Butler, I believe, has the title of being the king fisher around Trenton. Whenever I happen there in the evening, I see him with a monster string of chub, jacks and perch, hanging around and selling to customers.

Our merchants who went North have all returned, and are receiving their stocks; all of them are busy opening, spreading out and marking; steamers are whistling up our Trent water per week, laden with goods for Trenton and other points.

As the season is fast approaching for planting out shade trees, will not the citizens of Trenton interest themselves a little and plant out in the several vacant places along their streets some trees? as it will not only beautify and adorn them, but will in a few years improve the health of the town by the leaves absorbing miasma.

We will again remind our county authorities that several shade trees are much needed around our court house. When Trenton shall have lined her streets with neat shade trees, and shall have completed her park, we begin to think that our county townsmen have a little town pride about them, and won't we country people, too, be pleased to see it.

I understand that there will be a general advance into the cotton fields during the present week, and the pickers are now happy. Well may our laborers be happy; plenty of work to do, with wages same as last year, while all the necessities they may need can be purchased at very low prices.

Our laborers ought to now lay by something for a rainy day, with such advantages; but they won't unless they change from their former ways, which will be to lay out the most of their earnings in just such articles as they do not need—tin horns, jaw-harps, and fancy pocket knives. It has been said by some one, that experience is a dear school but that some people will learn in no other. But it appears that the majority of our colored people can't learn anything even in this hard and dear school.

I have seen many of them have plenty to serve them and waste it by buying luxuries in the space of a month, and nearly starve during the balance of the year, and when they had replenished their barns and smoke-houses, would follow the old way, waste and starve again.

The county board of education met on Monday last and redistricted the county making 16 white districts and 16 colored ones reducing the number of districts a little over one third. Several of the old districts were found to be unusually small. One of them only had 9 children in it all told—whites. Several had but 14 children. Our county is so out by the river, the creeks, and the pocones that it is almost impossible to make it into districts, but what there will be some inconvenience to some of our people.

Committees were appointed in all the white districts, great care was exercised in selecting them, choosing working, active, energetic citizens, men whom they knew were friendly to the cause and would leave no stone unturned to advance the cause of education. They also exercised the same care in selecting the colored committees electing in every instance men of good character and men that could read and write. The board found one district in Tuckahoe township near the Duplin line that some colored man, woman or child could be found in it. The white man there can exclaim with Selkirk, that he is monarch of all he surveys.

Cad's turkey has laid 191 eggs and quit.

I was over in Jones County this week. I have a new bridge over Cypress creek.

The commissioners have received the new road from Cyrus Brown's to Richlands the Onslow part of it.

We had a work force on the Q. B. branch road last Tuesday. Eighteen hands reported for duty. Richlands furnished two—one of them a colored man, Wade Green—who was the only colored man that worked on his own hook.

Messrs. Nelson, Whitford and Hill Humphrey of New Berne were up a few days ago and put up two patent hinged gates on the Q. B. branch road, where it passes through Mr. E. L. Frank's plantation. You can sit in your buggy and open or shut the gate.

Mr. Isaac Brook says the buzzards have refused to eat his hogs that are trying with the dogs, and they have found two dead dogs and a wild hog. He says that even the dogs are afraid to approach the hogs.

Mr. A. H. Whitcomb had a rather troublesome break at his mill on Saturday. The mill was down for two days, but by noon today the mill was running again. The water of the mill will make things lively again.

NOT FOR CHINESE LAUNDRYMEN. WASHINGTON, Sept. 15.—In reply to the protest of the Women's National Labor Convention against the giving out of the washing of towels for the Treasury Department by contract, upon the grounds that it employs the white Chinese laundrymen, the Secretary of the Treasury has replied that the work in several of the departments is given out by contract, and an equal opportunity to responsible steam laundry establishments which employ American labor, and under no circumstances will it be given to the Chinese.

Job work executed at this office at prices to suit the times.

Stonewall Items.

Mr. Sallie Conroy, aged 70 years, after a long and painful suffering with old age and consumption, died at her residence on the 14th inst. at 9 o'clock a. m.

Johnnie Hooker is seriously sick with hemorrhagic fever. Mrs. Mallo Cherry, the wife of F. F. Cherry, is dangerously ill with childbed fever. Her friends are more than anxious about her condition. There is considerable sickness in our country.

Mr. A. H. Whitcomb had a rather troublesome break at his mill on Saturday. The mill was down for two days, but by noon today the mill was running again. The water of the mill will make things lively again.
