The Steamer Experiment arrived yesterday morning with a large cargo of general merchandise.

Mr. John Dunn has returned from the North and reports a big stock in his life following.

The steamer L. H. Cutler arrived from up Ten yesterday evening with nineteen bales of cotton and a lot of naval stores.

A colored taxpayer endorses our position on the school committee matter. We publish his communication elsewhere.

Mr. L. H. Cutler is rapidly filling up his new hardware stores with a good assortment of hardware and house furnishing goods.

The third rail has been laid on the W. W. track at Goldsboro so as to admit the trains of the M. & N. C. R. R. to the yard.

Wilmington is to have, it is stated a new \$10,000 hotel. Cannot New Berne invest one quarter of that sum in a similar institution?

Large loads of meat boxes are constantly passing the JOURNAL office on their way from Sitman's mill to J. N. Williams' meat house at the foot of Cannon street.

Miss A. K. Howerton has removed to the rooms over the stores of Messrs. S. K. Eaton and M. H. Sultan, and gives notice that she is prepared to accommodate boarders.

We have a well written account of Miss Chapin's lecture on Friday night, but owing to the late hour at which it was sent in, we are compelled to defer it until next issue.

Freeman Ernal, Esq., says it is time for the newspapers to begin to correct their reports of big crops. He is satisfied they will all be disappointed before the crop is gathered.

Mr. E. J. Dinewady conducts the services of the Young Men's Christian Association this evening at the Presbyterian lecture room at a quarter to six o'clock. Subject: "The Christian's Armor."—Eph. 6:13.

We hear these are several agents in the city canvassing for the History of General Grant, but the only authorized agents in this city for the Memoirs of U. S. Grant, a book written by himself, are Messrs. Boyd & Berry on South Front street.

Mr. Daniel Stinson brings us a very fine pear weighing one pound two ounces and measuring twelve inches in circumference. It was sweet and juicy and very fine flavor. The climate in this section seems to be well adapted to the growth of the pear, and many fine ones are produced.

Notice is hereby given to the advertisement of Mrs. C. Erdmann in this issue. This is a home enterprise and anyone visiting Mrs. Erdmann's place of business will be impressed with the cleanliness enforced and the neatness with which the work is done. A person smoking a cigar from Erdmann's may rest assured he is smoking the pure article put up by clean hands. It is a home enterprise and deserves a liberal patronage.

Allen's Forty Lessons.

The first addition of this valuable text book is now out. It is handsomely bound and a gem of typographical neatness. Mr. Allen has done a good work for the children of the State if his book, as it should be, is at once put in the hands of the teachers and pupils of the public schools.

Church Services To-Day.

Baptist Church—Rev. C. A. Jenkins, Pastor, Services at 11 a.m. and 7 p.m. Subject at night: "Temperance." Sunday-school at 4 p.m. Seats free, and the public cordially invited to attend.

Centennial Sermons.

EDITOR JOURNAL:—All over the United States today there will be preached sermons on the subject of "Temperance." It is just one hundred years since serious work has been begun against the great cause of intemperance outside of the churches, or rather in addition to their efforts. We hope that everywhere there will be large audiences, and that the good work of rescuing men from the demon (drink) may be blessed.

In the Presbyterian Church in our city, Rev. L. C. Vass will preach, according to notice given elsewhere, on the "Reclabites."

School Matters.

EDITOR JOURNAL:—Please give me just space enough in your paper to say that in regard to the colored school controversy, your position meets the wishes and ideas of all colored people who ever give any thought to the subject at times when there is no election of teachers to be held, and no near approach of an election for public officers.

I say if the committee have selected competent and worthy teachers; if the opposition can show to the contrary of this, they should be heard and heard. But can they do this; will they attempt it? I am sure that I speak the sentiment of nine out of every ten of the competent and unbiased colored people of the whole State, if not the whole country, for I have talked with very many of them, when I say they desire that the educational work of the colored people should go on just as it is. For just as soon as it is changed the schools will go the way of all the other "financial" and "enterprising" associations that have been managed by the colored people of New Berne. If any of the teachers are immoral or incompetent, let them be removed. If not, let them be treated with proper respect.

If the school committee are guilty of forcing such an unworthy and incompetent class of teachers upon us, let the committee answer for it. But no one presumes to make any such charges. They only bring forth such reasons as sidly show how much they need to be placed under the instruction of these very teachers, or some others, that they may acquire at least a little good common sense.

I do hope that the school committee and county board of education will see the selfish, foolish motives of the originators and agitators of this movement, and act accordingly. These are the sentiments of a colored taxpayer and citizen and

Kinston Items.

Business revives slowly. Watermelons are waning—grapes waxing.

School boarders make clean shelves for butcher, baker and grocer.

Kinston College now numbered 180. The Graded School has over 200.

About 160 bales of cotton were sold here up to the 19th—average price 85c.

We are very sorry to know of the continual serious condition of Mr. William Phillips of this place.

Mr. A. Slaughter has moved his groceries into one of Mr. S. H. Loftin's brick stores under the opera house.

We regret very much to learn of the illness of Dr. H. D. Harper. Hope to see the smiling face of the Doctor soon again on the street.

Mrs. Henry Moore died at the residence of Burwell Canady, Esq., in Kinston, on Tuesday night. The remains were taken to the old family burial ground in the county.

Mrs. Chapin, agent of the W. C. T. U., lectured on Temperance in Loftin's opera house, on Wednesday night, to an audience of about one hundred and fifty persons. Those who heard the lecture speak of it in terms of highest praise.

Your itemizer made a tremendous mistake in his last item. He said Mr. Street had returned from Buffalo, but it is not true. A gentleman very much resembling Mr. Street was seen driving with a lady who resembled Mrs. Street. Hence the mistake.

Rev. George Joyner, last pastor of Disciples' Church in Kinston, died here on Thursday morning, the 17th. Dr. Walsh preached the funeral sermon late Thursday afternoon, and the remains were taken to Pitt county for interment.

Mr. Joyner had no enemy—all were his friends. He was a most faithful preacher, a finished scholar and most amiable gentleman. His age was about fifty. He leaves a wife and four children to mourn the loss of an excellent parent.

Rev. Dr. N. C. Hughes, sr., of Beaufort county, is delivering a series of lectures on "Geology and Genesis" in the Episcopal church. The public are invited to attend. The first lecture, "The Antiquity of the Earth," was given on Thursday night to a comparatively small audience, but a very appreciative one. The lecturer is well posted both in Geology and in Genesis, and is peculiarly qualified for the task he has imposed upon himself. The people of Kinston should improve this rare opportunity, for it surely will more than repay them for the time spent in hearing.

It is truly wonderful to see the many various and beautiful improvements in our cemetery, wrought under the skillful direction of Rev. Israel Harding. Any one who had not seen our city of the dead since last May would hardly believe that it was the same place. The trees have been trimmed, bushes and vines removed, walks cut out and section paths made, neat head-boards with names placed over the mounds which had been long forgotten by most discerning old decayed fences taken away and the brick walls whitewashed—in fact, neatness and order ruled the day. When the means and the men meet, success always follows. And one of the great factors in all this change is the accessibility of good tools and materials, which are stored handy in a little white tool house near the west gate.

Cartaret County Items.

(From Telephone.)

Menhaden so far have been exceeding scarce and but few have been caught. We presume the weather has not been cold enough to start them down the coast.

Beaufort is afflicted with more sickness than usual this fall and we think much of it is attributable to want of sanitary precautions.

Messrs. J. B. Noe, John Skarran, and James H. Marshall, are among the seriously ill in this community, but we are pleased to learn their symptoms are now more favorable.

Our county jail now contains six occupants, more than at any one time before in a number of years, though only four are there as criminals and they are not all from this county.

A lease was made by the Commissioners at their last meeting of three lots on the northwest corner of the public square to a committee of citizens of Beaufort for the purpose of building an Academy.

Farmers generally in this county are now engaged in picking out cotton, and while the crop is not a full one, the yield is reported better than last year. The low price, however, at which the staple is quoted gives some cause for uneasiness.

The schooner Nellie Floyd, a large three masted vessel, came in on Saturday last leaking considerably. She was loaded with phosphate, from Charleston to New York. Capt. Johnson called a survey, and the vessel was found to be leaking in two places, near the rudder and at the foremast. She was hoisted to the railroad wharf at Morehead City and partially discharged in order to repair damage.

Rheumatism.

Although a practitioner of near twenty years, my mother influenced me to procure B. B. B. for her. She had been afflicted with several months with Rheumatism, which had stubbornly resisted all the usual remedies. Within twenty-four hours after commencing B. B. B. I observed marked relief. She has just commenced her third bottle and is nearly as active as ever, and has been in the front yard with "rake in hand," cleaning up. Her improvement is truly wonderful and immensely gratifying. STATE NEWS.

cleared from our Exchanges.

Pamlico Enterprise: Considerable complaint is being made of the cotton worm beginning so early. It is feared that much damage will be the result.

Smithfield Herald: The revival at the Methodist Church at Princeton, which closed last week, resulted in 27 conversions.—Rev. Mr. Nowell, baptized 23 applicants in a pond near Clayton last Sunday. He will baptize again at an early date.

Wilson Mirror: We regret to hear that, Charlie Taylor, son of Dr. Taylor, late of this county, was killed in Texas last Friday night in a difficulty with a drunken man, Charlie has hosts of friends here, who will regret this sudden taking off of a valuable life.

Tarboro Southern: The Southerner it is believed, can safely say that the work on the A. & R. road to extend it to Raleigh, it is said, will subscribe quite liberally to the road, and that this subscription together with those already voted to the road by townships along the proposed line will insure its early building.

Goldsboro Argus: Another smoke-house raiding took place at "Sandy Plains" on Tuesday night. This time Mr. Geo. D. Ham was the loser. We hear that it is strongly suspected that there is an organized band of thieves in that neighborhood. We would not be surprised if such be the case and that they have allies in this city.

Fayetteville Observer: The tobacco crop in this county is reported to be exceedingly fine. Many of the planters have already succeeded in housing and curing the weed, and the united testimony is that the tobacco is of most excellent quality. We hope the pioneers in cultivating this new crop in our neighborhood may be abundantly rewarded. Our chinquapin and black jack lands are said to be peculiarly adapted to the growth of fine tobacco.

Durham Reporter: Mr. Lea Perry, who has been spending several days in Granville, informs us that the crops are looking well in the portion of the county where he visited. He also says that Messrs. Harris & Bro., at Milton, have now in use a road steamer which they use for hauling their goods from Franklinton to their store, a distance of eight miles, over the roughest of roads. The engine guides itself and is a 24 horse power. The first trip was made last Thursday, carrying 12,000 pounds.

Raleigh State Chronicle: Secretary Nichols reports the prospects booming for the State fair. Space is being allotted to different exhibitors, and in a little while now, the exhibitors will be coming in. The exhibit this year promises to be most excellent and the people from all over the State are coming to see it.—Maj. S. M. Finger is at his post again, and is hard to work in his office after spending several weeks talking education to the people in different towns in the State. Maj. Finger is an efficient officer, and is a strong advocate of continued improvements in our public school system.

Scotland Neck Democrat: Last Thursday Willis Bradley, who shot at Mr. Whitehead a few weeks since and who was guilty of an abominable crime, and who since the shooting had been hiding in the woods we suppose, was pursued and captured by a body of men near Tarboro. When captured, he pulled from his pocket a bottle and said he had been expecting capture and that he was ruined, then he drank the contents of the bottle, poison, and two hours after was in the hands of physicians in Tarboro, but still insensible. He was finally lodged in jail, where he will await court.

Charlotte Democrat: Complaints is made that silver change is scarce, owing to the increased demand for cotton picking, etc. We thought, from the complaints made by the anti-silver men of over-abundance, that barrels of it could be produced at almost any time. Deposit your greenbacks in the Banks and we presume they will bring forward plenty of silver.—Since the 1st of September, 1,092 bales of cotton have been sold in this market against 125 for same time last year.—Bishop Watson, of the Episcopal Church of this State, favors removing the organs and choir from the galleries of churches and placing them on the floor with the congregation. If that were done everywhere there would be no straining of heads and necks backwards to

see the singers in the "back loft."

—One of the best men in South Carolina, and recently with the best prospects of any business man in that State, has gone down physically and financially under the heavy load of dealing in cotton futures, one of the worst sorts of gambling known to the public. Will not our next Legislature do something to stop the cotton-future business, which is ruining so many good men and begging their wives and children.

DIED.

In Greensboro, Alabama, of apoplexy, on the 17th of August, 1885, Augustus Benners, in the 67th year of his age.

Augustus Benners was a native of Newbern, N. C., where he was born in the year 1819. He was a son of the late Lucas J. Benners and Frances, his wife. His mother was Frances Batchelor, a sister of the late Mrs. Edward Graham; and an aunt of the late Mrs. Elizabeth B. Daves.

Mr. Benners passed his childhood and early manhood in Newbern, and was graduated at a very early age at the State University at Chapel Hill, carrying off the highest honors of his class.

After his graduation he read law with Judge Wm. Gaston, and in 1840 removed to Alabama, where he was associated in the practice of his profession with the Hon. William M. Murphy of Greensboro, in that State. Mr. Benners soon attained eminence at the bar, and was equally prominent and active in political life, having represented the county of Greene in the Legislature of Alabama for a number of years. He was a man remarkable for sincerity and earnestness of character, while his fidelity and devotion to his many duties and trusts, public and private, passed into a proverb. In 1846 he was married to Miss Hatch, a daughter of Mr. Alfred Hatch, the latter also a North Carolina, well known in both Craven and Jones counties.

This estimable lady died five years before her husband, an irreparable loss to one of his warm domestic affections, and from which he never fully recovered. Mr. Benners died an humble, faithful Christian, well stricken in years, beloved and revered by relatives and friends, honored by his fellow-men—one of the excellent citizens and noble men, of whom North Carolina has contributed so many to the State of Alabama. THE Emerald Cigar Factory

NEW BERNE, N. C., C. ERDMANN, Prop'r.

Having taken possession of the new building specially constructed for my business on Middle street, (opposite Old Fellows Hall), I am now enabled to do full justice to my patrons, in the manufacture of the

Finest Brands of Cigars,

which are of sufficient merit to deserve the popularity they now possess. Aside from the excellent material used, and the superior make, the CLEANLINESS observed in a great manufacture of my goods give them a great pre-eminence over the Tenement House made Cigars of the large cities so generally smoked by the unthinking, and so often the cause of serious ailments and deaths.

In connection with the Factory is a humbly-appointed

"Smoker's Emporium,"

where every kind and variety of Cigars and Tobacco may be found at a reasonable price. A full line of Smoker's Goods, including Meersbaum, Brier-wood, and every variety of Pipes and Cigar Holders, Touches, etc. FINE IMPORTED HAVANA CIGARS, and in fact everything kept in a First-Class Tobaccoist.

A RARE CHANCE For a Good Farmer.

The Plantation known as the CALVIN PERRY PLACE, two and a half miles from New Berne, on the Trent road, is offered for sale, CHEAP for CASH. It contains eight hundred acres, seven hundred of which are cleared. It is well adapted to the growth of corn, cotton, and every variety of truck. A splendid dwelling and out-houses, beautifully located. Two tenant houses, a line orchard and vineyard, which alone, owing to convenience to market, will support a small family. This plantation is drained by Trent river and Jimmie's creek, and extends to Trent road, is splendid for stock raising, and a rare chance for investment.

JAMES MEANS' \$3 SHOE

These Shoes for gentlemen are made of finest Tansey Calf Skin, stitched with large silk Machine Twist, and are unequalled in Durability, Comfort, and Appearance. They are made in various widths, to fit any foot, and with either broad or narrow toe. The merits of these shoes have caused such an enormous increase in the demand for them that we can now furnish proof that our celebrated factory produces a larger quantity of shoes of this grade than any other factory in the world. We particularly request those who have been paying \$5 or \$6 for their shoes to at least try on a pair of these before buying a new pair. It would seem to us to be a waste of money to buy elsewhere.
