

THE DAILY JOURNAL.

VOL. IV.

NEW BERNE, N. C., TUESDAY, SEPTEMBER 29, 1885.

NO. 155.

LOCAL NEWS.

General Maritime Almanac.
New Berne, latitude, 35° 6' North.
Longitude, 77° 3' West.
Sun rises, 5:54 Length of day
Sun sets, 5:45 11 hours, 52 minutes.
Tides rise at 8:47 p. m.

BUSINESS LOCALS.

The Best Overies the market affords can be found at HENRY BROWN'S Float and Market dock. 26 3/4.

Job work executed at this office at prices to suit the times.

Miss JENNINGS has still several vacancies in her school, which she would be pleased to have filled by the 1st of October. 24 tool

Old papers for sale at this office.

Eggs and chickens scarce.

Dick Williams has fired a brick kiln of 125,000.

Our policemen report a dead calm in their business.

Mr. John Dawson continues to bring in watermelons occasionally.

We have not had a genuine big cotton day this season. Receipts so far have been light.

The steamer Elm City took out a good freight and several passengers for Hyde county yesterday.

The schooner Eddie, Capt. Joe Harris, arrived from Philadelphia on Sunday with a cargo of salt.

A three masted schooner arrived yesterday and anchored in the stream off the railroad wharf.

The steamer Goldboro arrived this morning from Baltimore with a cargo of general merchandise.

A boat load of Core sound oysters was in market yesterday. They are very nice for the season and of splendid flavor. 210381981714

Cotton moved up to 9.02 1/2 yesterday at the Exchange, though there was no corresponding advance in the New York market.

Greene county Superior Court convenes next Monday, Judge Conner presiding. C. C. Taylor will be on hand ready to receipt for the JOURNAL.

A lot of September peaches were in market yesterday. They were brought up from Hyde county by the steamer Elm City on her last trip, and were grown on the Matamuskeet Lake by Mr. Morgan Fisher.

We notice another large box of Allen's Book-keeping being carried from the express office yesterday. This is the second lot. About 300 copies were sent out last week, and we learn this lot will all go during this week.

The Defiance arrived on Sunday and was visited by many, it being her first trip since being rebuilt. She is now almost a brand new boat. She went on the way July 27th at Philadelphia, and on the 10th of Sept. reported at Baltimore for her cargo. Quick work.

Two freight trains went out on the A. & N. C. R. R. yesterday. The Clyde line has on a full line of boats now and will make three trips per week. These, with two trips per week by the Old Dominion will be able to keep freights moving rapidly to and from Norfolk, Baltimore, New York and Philadelphia.

Personal.
Ex-Judge Thomas was up from Beaufort yesterday returning last night. He will move up for the winter in a few days.

The new postal card not being satisfactory a change was ordered, which has caused a scarcity of the article. New Berne, however, has not been inconvenienced yet.

New Mail Route.
Our Jones county itemizer states that a new mail route has been established from Trenton to Core creek on the A. & N. C. Railroad, giving Trenton two mails per day. This will be of great convenience to the Trenton people. If some of our home people can secure the route and put on a good conveyance it will be of much convenience to the traveling public.

We hope our Chincupin friends will persist in their efforts for a route and postoffice at or near Dr. Whitaker's until they get it.

Shakespeare and Nico.
A gentleman in this city who retired last on Sunday night after reading (perhaps improperly) one or two of Shakespeare's plays, and when in the midst of a dream in which was quaintly mixed the stirring scenes of the playwright and every day occurrences, was suddenly awakened by a severe pain in his hand, which had been indicated on his hand, and realized its nature, when a woman jumped from the bed who had inserted his sharp and villainous little teeth in the thumb of the surprised dreamer. The wound bled freely and was for a time painful.

A New Industry.

The snuff dipping habit is as much a fixed fact as tobacco chewing or dram drinking, and will perhaps longer resist a crusade than any of its associate objectionable practices. In this connection it is almost superfluous to state that the peddling of "tooth brushes" by which the pungent powder is transferred from box to mouth is a scene of daily occurrence, but frequently the vendors are unable to dispose of their wares. A very worthy gentleman in this city, in charge of a popular establishment on Craven street, to relieve the wants of many of these persons would frequently purchase the "black gum" sticks which fact becoming known he suddenly found himself the only dealer in the article and now supplies not only a number of New Berne customers, but persons living on the banks of Portsmouth and elsewhere. The demand for "good gum brushes" now equals the supply.

Kinston Items.

Taffy is again in fashion.
Cotton went up to 8.75 last Friday.
Sweet potatoes retail at 20 cents per peck.

Northern cabbages retail from 15 to 25 cents.

Claud Hill is now salesman for Mewborne and Albritton.

Capt. White's steamer, the Blanche, and his new flat-boat are taking down good loads of cotton now.

All our merchants have fine and well selected stocks of goods, and are ready to sell at reasonable prices.

Not much serious sickness in town now, though coughs and colds abound. Too much ozone in the air.

Mr. John O'Connor is now in the field as a cotton buyer. John is always in earnest, in whatever he undertakes.

Fayette McCullen, recently of the firm of Midyette, McCullen & Co., is now with Mr. Alex. LaRoque, where he will be pleased to see his many friends.

Our accomplished pharmacist, Mr. John E. Parrott, treated your itemizer to a simple cigar a few days ago. John is a good judge of the article. Try him.

The gates of our front yards, having been kept carefully closed all summer, are again being left open, to swing across the sidewalk and knock down passers-by at night.

We regret very much that Prof. Geo. Grimley, Superintendent of Kinston Graded school, is confined to his bed with severe sickness. He is a fine worker in Teachers' meetings and our County Association meets soon.

Mr. S. H. Loftin set a good example when he painted the fronts of his brick stores so neatly; for ex-Mayor Burwell Canady has "followed suit" and is dressing out his hardware store at the corner of Queen and Gordon streets in a coat of red with various trimmings.

Messrs. Frank Gates and Charles Woodley, of Kinston, have gone to attend their last course of lectures at Bellevue Hospital Medical College, New York. They both have talent and their many friends here will welcome the young M.D.'s home, next spring, with much pleasure.

The Lenoir County Teachers' Association will meet at Kinston College on Saturday, 30th of October. All teachers, preachers and editors are eligible to active membership. A full meeting is desired. Prof. Geo. Grimley, Kinston, will take pleasure in giving information in regard to the workings of the Association.

A number of business men assembled on last Thursday, 24th inst., at Loftin's Opera House for the purpose of taking steps to advance the commercial interests of Kinston. An organization under the name of Merchant's Exchange was effected. Mr. Lam Harvey elected as its President, S. Oettinger Secretary. After appointing various committees, the Exchange adjourned to meet again Thursday, Oct. 1st, at 7 o'clock p. m.

Mr. Frank Barrett, (son of Major W. J. Barrett, our now postmaster), left here on Tuesday last, in company with Mr. Thomas Williams, for Texas. Frank is well known in Lenoir county. He assisted his father, for two seasons, in the cotton weighing business, and gave evidence of first-class business talent and energy. Upright, honorable, intelligent and moral, he will surely make his way in the world. He goes to swell the large number of North Carolinians who have made their home in the Lone Star State—and a most worthy representative will he be of our Eastern section. We wish him good luck and plenty of it.

A number of our music-loving ladies and gentlemen met last Friday night in order to take steps for organizing a musical society here. Mr. Jas. F. Hill was chosen temporary chairman and Mr. Samuel Chadwick temporary secretary. Messrs. Lawrence Miller, Louis Einstein and Prof. Geo. D. Meares were appointed a committee on organization. Twenty-one were present. The meeting then adjourned to convene next Friday night, to hear the report of the committee and complete the organization. The place of meeting is the music room at the college.

Fatal Difficulty in Burke.
A correspondent informs us that Geo. Taylor and a man by the name of McGrath got into a difficulty at Glen Alpine, Burke county, Monday, when the town marshal, R. H. Lee, in attempting to quiet the disturbance, found it necessary to use his billy on McGrath, striking him three times on the head, from the effects of which McGrath died the next morning. Lee came to Morganton early Tuesday morning, and returned there. An investigation of the matter was had before W. E. Poe, J. P., and Lee is now in jail.—Statesville Landmark.

Jones County Items.

This section of our county is as thickly populated as any part of our county and will compare with intelligence pluck and energy with any agricultural community in Eastern Carolina.

We learn that Mr. W. E. Ward has rented Capt. E. R. Page's gin and has put it in excellent condition. We think that friend Billy is too well known in Jones county to fail in getting a fair share of patronage.

We hope that all of our citizens who raised cotton with the view of buying pork, will avail themselves of the present low prices and fill their meat houses, as it can now be had at \$10 1/2 dollars per barrel in New Berne.

I would like to call the town authorities of Trenton to the little bridge across the side walk at the corner of Market and Trent streets. We think there is really two dangerous holes might cause some one to be badly hurt if they were to step in them of a dark night.

We can't expect cotton buyers to come to Trenton until we either have a telegraph or telephone so they can have means to obtain the prices of cotton in New York and other points almost instantaneously. Let all go to work and have it. We can do it with a small outlay.

We sincerely hope that the Postoffice Department will grant the people of the Chincupin section their petition for a route from Trenton to Kinston with a postoffice at Dr. Fred Whitaker's. The people who reside in this section have to depend on Trenton and Kinston for their mail, which is a great inconvenience to them, having during the summer season sometimes to let their mail stay in the office at Trenton and Kinston 8 or 10 days before they can get it.

We hope that the railroad authorities will put up a warehouse at Core creek, so that the people can have a place to store their baggage and freights. I am confident that the people are needing it, as it would be such a convenience to shippers and passengers. As it is now, passengers who desire to take the cars have no place to shelter themselves from the bad weather when they are waiting for the cars, only by the courtesy of the private citizens of the place. We hope that there will in the near future be accommodations both for passengers and shippers.

I am glad to inform our citizens that the new Postoffice Department has established a new mail route in our vicinity—Trenton to Core creek—twelve times a week. I typed the schedule as printed in the proposals for bidders, route 13, 610, from Trenton to Core creek, daily except Sundays, 8 1/2 miles. Leave Trenton 7 a. m. and 5 p. m. Arrive at Core creek 9 a. m. and 7 p. m. Leave Core creek 9:30 a. m. and 7:30 p. m. and arrive at Trenton 11:30 a. m. and 9:30 p. m. Bond required with one thousand dollars. Now, fellow citizens, we have secured our long desire; a double daily mail to Core creek. Let us bestir ourselves and secure a telephone, the very thing to give Trenton a boom. If we had one it would induce cotton buyers to visit us every fall and winter and purchase bale cotton in Trenton and at the same time our farmers would spend large amount of their crops with the Trenton Merchants. Besides it would induce men of capital to move to Trenton and establish business wherever they found that the farmers were selling their cotton and willing to spend the money with the Trenton merchants.

Bell's Ferry Items.
Dr. Woods has been sick for a few days.
The infant child of W. S. Blount died last week.
Rice crops 'are much improved since the rain, but too late to do much good.

Mr. Robert Woods has been visiting his father's family during the past week.

Geo. McCotter and Josh. Manning are out on a big hunt. Can't say what kind of game.

Mrs. Ball and children from Raleigh including Master Willie, are visiting their many friends in town.

Mr. Joel Patrick was thrown from his buggy last evening and hurt right bad. Buggy completely torn up.

Patrick & Tucker bought the first bale of cotton sold in town. It was raised by Frank Thomas, of Lenoir county.

There will be a grand ball at Bell's Ferry Thursday night, Oct. 13th. C. K. Johnson, W. B. Hollen and L. A. Cobb, managers.

Since writing the above I have been informed that there has just been found just below Contentnea creek, in Neuse river, a colored man so badly mangled up as to be impossible to identify him.

Will let you know about the daily mail when we hear from Postmaster-General Vilas. We certainly need it. I notice all papers published on Thursday coming to this office do not reach us until the next Monday and Wednesday.

A Railroad Speaks.
My wife has been a great sufferer from catarrh. Several physicians and various patent medicines were resorted to, yet the disease continued unabated, nothing appearing to make any impression upon it. Her constitution finally became implicated, the poison being in her blood.

I secured a bottle of B. B. B. and placed her upon its use, and to our surprise the improvement began at once, and her recovery was rapid and complete. No other preparation ever produced such a wonderful change, and for all forms of Blood Disease I cheerfully recommend B. B. B. as a superior Blood Purifier.

R. F. Bonch, Yardmaster Georgia Railroad, Atlanta, Ga.

For sale wholesale and retail by H. N. Duffy. Cash to accompany the order.

NEWS BY MAIL.

PARISH H. DUSHER APPOINTED.
WASHINGTON, D. C., Sept. 26.—The President today appointed Fabius H. Dushee, of North Carolina, to be United States Attorney for the eastern district of North Carolina.

ROSWELL F. FLOWER DECINES.
WATERTOWN, Sept. 26.—Roswell F. Flower addressed a letter to George Raines, chairman of the late Democratic convention, positively declining the nomination for Lt. Governor.

HEAVY FROSTS.
EVANSVILLE, Ind., Sept. 26.—News from Booneville, reports very heavy frosts doing great damage to the tobacco crop. Farmers, frightened by the early frosts, have commenced to cut their tobacco while it is yet green and the damage it is thought from this source will add greatly to that resulting from frost. Advances from counties in southern Kentucky also report great damage to tobacco, where the loss will be much worse than in Indiana, tobacco being the principal product.

FUTURES.
NEW YORK, Sept. 26.—The Post says: Future deliveries are advanced 5-100 and have consequently still further run away from the Liverpool prices. The sales are 42,000 bales and the market closed steady.

HORRIBLE DEATH.
ATLANTA, Sept. 25.—This morning James Usher, night watchman at the Central railroad yards, while attempting to open a switch was run over by a backing train. The tender of the engine struck him, rolling him under the wheels in a horrible manner, breaking his neck, both arms and his thigh.

THE CAPE MAY RACE.
NEW YORK, Sept. 26.—The Dauntless and Genesta started from Sandy Hook at 4 o'clock this afternoon to race for the Cape May cup. The wind is from the south, fifteen miles an hour; the weather fair.

U. P. R. TROUBLE SETTLED.
RAWLINS, Wyoming, Sept. 26.—It was learned last night from what is believed to be an official source that there will be no strike on the Union Pacific R. R. The reason given is that the Knights of Labor by organizing a strike would practically endorse the killing of the Chinese at Rock Springs. So they have determined to settle the trouble by more peaceful means. The Chinese are all at work in the Rock Springs mines and considerable coal is being turned out. A few white miners have accepted passes to other points. Those remaining refuse to go to work. The railroad company has, it is said, made arrangements to import 300 Mormons from Utah and Idaho, to take their places in the mines. Winter quarters are being constructed for the troops now here.

Gum Branch Items.
Mr. G. R. Venters is having his fine house plastered and chimneys put up. Mr. Geo. McRae from Kinston, is the mason.

The farmers are busy now picking cotton; the price per hundred pounds for picking is 40c. The turnout is rather small so far.

The deer, or deer, hunters have come in, and many deer. Bryan Harget says he has got to go again; meat has got to come certain.

Some sickness in our neighborhood; among the children, chills and fevers. One grown lady, Mrs. Padrick, wife of Buck Padrick, is very low with typhoid fever.

Thanks to the giver of all good. We have had a refreshing rainfall, which was very much needed; it being the first rain to wet the ground here in about six weeks.

Silas Venters is just from Swanboro, where he has been to deliver and put up an engine for Jas. O. Frazelle, on New river. Silas reports all quiet down there. The snake man is gone, he says, but sent word to the Kinston Free Press man that he will attend to all snake stories when he gets back home again.

One of Tom McGee's workmen killed a rattlesnake recently that had caught a large squirrel and was trying to swallow him, and guess he would have succeeded, but the man got tired waiting and killed him; he had 12 rattles. The squirrel was alive. The man said the snake charmed the squirrel from the top of a tree.

Mr. Elijah Newbold and son Bryan have just returned from a visit to Funder county to the convict camp of Capt. Motter, and report the road in active progress with 20 convicts at work. Mr. Ernest Barry, from Richlands, one of the overmen, was out to see his folks a few days ago. Ernest looks well; he has been with Capt. Mc. about two years.

Messrs. Venters & Bro. almost made a failure in making brick; put them in kilns, before drying enough. George says he will know better next time. Walter Murrill is making now; has about 10,000 made, and says he will get a sixpence worth of soap that he don't fall in his. Walter is busy in many things; trying to finish his cage for a bird. We reckon Tom Mc. and his force will soon be ready for the painters and masons, and then W. B. can go and do likewise.

We were at the Allum Springs last Sunday for the first time; stayed all night with our clever Sheriff Murrill, who lives at these Springs and owns the lands around, except a lot owned by Bryan Cox, Esq. These two gentlemen have splendid residences entirely new and painted in the latest style. Visited Catharine Lake and saw our old friends Simon Taylor, John F. Cox and several other of our friends and went to an association meeting of the colored people near here, and saw a crowd we have never seen in the country to a colored church. About 2,000 or 3,000 people were present, all colored except about 50 whites.

A Valuable Citizen.

Mr. T. P. Summers, of Sharpesburg township, brought to town, Wednesday morning for *The Landmark*, a splendid lot of apples, embracing four varieties, all equally good. He has an orchard of 300 trees and there is hardly a faulty apple in his crop this year. Returning home Wednesday afternoon, Mr. Summers hauled out on two wagons a cane mill which he had bought of the Chattanooga Plow Works through Messrs. A. J. Evans & Co., of this place. It cost \$300 and Mr. Summers proposes to have it at work Monday and expects to make a lot of sorghum for his neighbors. He owns and operates already about \$3,000 worth of machinery. He is the finest sort of a man, and since the war has won a competency with his own arm. Such a man as he is worth much to his community and county. He is an example of what energy and integrity of character will do for a man, and it is a pleasure to all right-thinking people to see him prosper.—Statesville Landmark.

COMMERCIAL.

JOURNAL OFFICE, Sept. 28, 8 P. M.
COTTON.

NEW YORK, September 26.—Futures closed steady.

September, 9.59 December, 9.67
October, 9.57 January, 9.75

A CARD.

NEW BERNE, N. C., September 22, 1885.

I would most respectfully say that I have recently returned from New York and the Northern Markets, where I purchased a Full Line of Staple and Fancy Dry Goods, Notions, Shoes, Hats, and Ladies and Gentlemen's Furnishing Goods, and that I will open a First-Class Dry Goods Store on Middle street, opposite the Baptist Church, SATURDAY, SEPTEMBER 26TH, and will sell for One Price and exclusively for Cash. I will have Mr. D. F. JARVIS and JAMES HUDSON with me as salesmen; I have had eight years' experience in the Dry Goods business under Mr. ASA JONES. Hoping my old friends and customers, and the citizens of New Berne and surrounding country, will give me a share of their patronage,

I remain, very respectfully,

GEO. HOWARD.

FOR SALE CHEAP.

One Ten-Horse Power Onoda Engine and Boiler.
One Boss Cotton Press, power made by Maxwell & Crutcher.
One Corn Mill, 20 inch, steam quality, French burr, Harrison make, pulley.

Possession given immediately. The machinery will be sold without house and land. For particulars apply to sep29 dtw

THE

Emerald Cigar Factory

NEW BERNE, N. C.,

C. ERDMANN, Prop'r.

Having taken possession of the new building, specially constructed for my business on Middle street (opposite Old Fellows Hall), I am now enabled to do full justice to my patrons, in the manufacture of the

Finest Brands of Cigars,

which are of sufficient merit to deserve the popularity they now possess. Aside from the excellent material used, and the superior make, the CLEANLINESS observed in the manufacture of my goods give them a great pre-eminence over the Tenement House made Cigars of the large cities so generally smoked by the unthinking, and so often the cause of serious ailments and disease.

In connection with the Factory is a handsomely appointed

"Smoker's Emporium,"

where every kind and variety of Cigars and Tobacco may be found at retail.

A full line of Smoker's Goods, including Meerschaum, Briar-wood, and every variety of Pipes and Cigar Holders, Pouches, etc. FINE IMPORTED HAVANA CIGARS, and in fact everything kept in a First-Class Tobaccoist's.

PATRONIZE HOME MANUFACTURES.
