THE JOURNAL.

J. H. HUNN, Editor. W. HARPER, Business Manager.

NEW BERNE, N. C., DEC. 9 1885.

Entered at the Post office at New Berne, N. C. as second-class matter.

It is announced that Gen. LOGAN will never again consent to be second on a Presidential ticket. He must go up head or remain in the Senate.

The additional prominence which Mayor GRACE'S libel suit will give the N. Y. World will pay the damages sued for if the courts sustain the Mayor.

A MORMON uprising is threatened in Utah. This will aid Gen. SCHOFIELD in his recommendation that the army of the U. S. be increased to 50,000 men.

HON. SAMUEL J. TILDEN has written a letter to Speaker CARLISLE on the defenseless condition of the harbors of the United States. The letter is said to be one of the best of his State papers and is much discussed by Members of Congress.

THE ORGANIZATION OF CONGRESS. Congress convened on Monday and promptly organized, the Senate electing Senator SHERMAN, of Ohio, President pro tem, the House electing JOHN G. CARLISLE, of Kentucky, Speaker.

This places SHERMAN, the now most offensive partisan to the South, in the line of succession to the Presidency, with the life of but one man between him and that high office. This makes it the more important that the question of the succession be speedily fixed.

In the meantime the prayers of the South will earnestly go up for the preservation of the life and health of GROVER CLEVELAND.

The New York World gives the following estimate of the qualifications of the presiding officers of the two Houses:

JOHN SHERMAN was the second choice of the Republican Senators. Their first choice was Gen. LOGAN, and he wisely declined. In capacity Mr. SHERMAN is fit for the position. He is a man of ability, but he has used his ability for evil purposes.

Mr. CARLISLE is unanimously chosen Speaker because of his remarkable qualifications as a presiding officer. He has judicial impartiality and clearness of judgment, and entire familiarity with the rules and with the principles of parliamentary law.

THE COTTON MOVEMENT

The market for options showed a declining tendency this week, the range of prices giving unmistakable evidence of the lack of supporting features.

The visible supply statement on Saturday, which showed a deficiency of nearly 300,000 bales, as compared with last year, was one feature which gave comfort to the believers in an advance in prices.

The news from Liverpool, however, was not of a very reassuring character, and tended to further lower values until Wednesday when a somewhat stronger tone was reported.

The gain in price, however, was very slight, and little ground for any advance could be seen to exist. The "outside" influence still failed to materialize, and the demand from spinners was slack.

The southern markets did a fair business during the week. Spots ruled steady at 97 1/2c for middling uplands, but it is safe to say that no good cotton could be secured, from middling upward, without an advance on published quotations.

On Friday the course of prices showed no particular change from the rest of the week's quotations. December delivery closed at 9.35 against 9.43 last Friday.

The holding of supplies by planters was still a subject of complaint this week, but the market still refused to respond to those efforts to raise prices. With the utter lack of demand, either consumptive or speculative, the operators on the exchange are becoming rather despondent, and are inclined to look upon future prospects in a gloomy way.

The total future sales this week were 389,400 bales, against 328,900 bales last week. Spot sales amounted to 2,510 bales, against 5,516 last week.

Deliveries on contract were 900 bales, against 800 bales last week. The receipts at ports amounted to about 243,000 bales against 258,297 bales last week, and 280,364 bales the same week last year.

The total receipts since September 1, were about 2,600,000 bales against 2,708,811 bales at the same time last year.

The following comparative figures are given to December 4:

Table with columns for 1885 and 1884, and rows for Visible supply, Exp's since Sept. 1, Six days' receipts, Exp's Gr't Britain, Exports continent, Exports France, Stock New York, Consolidated stock.

The following table shows the closing quotations for futures at New York Friday evening, with comparisons:

Table with columns for Dec. 4, Nov. 27, Dec. 4, and rows for December, January, February, March, April, May, June, July, August.

Below will be found the sales for the week ending yesterday, and the closing quotations for middling uplands at seven leading ports, with comparisons:

Table with columns for Week's Sales, Dec. 4, Nov. 27, Dec. 4, and rows for Galveston, New Orleans, Mobile, Savannah, Charleston, Baltimore, Norfolk.

The following is the comparative Liverpool statement for the dates named:

Table with columns for Dec. 8, Dec. 4, and rows for Sales of the week, Sales American, Sales for export, Sales for speculation, Actual export, Forwarded, Total at k. Liv., Of which is Amer., Imp. for the week, Of which is Amer., Amount afloat, Of which is Amer.

The Providence cotton market is reported as slightly easier and generally dull. Middling uplands are worth 10c., and middling galls 10 1/2c. At Philadelphia cotton moves slowly on a basis of 9 1/2c. for middling uplands.

One morning Douglass Jerrold and Compton proceeded together to view pictures in a gallery. On entering the ante-room, they found themselves opposite to a number of very long looking glasses. Passing before one of these, Compton, remarked to Jerrold: "You've come here to admire works of art. Very well; first feast your eyes on that work of nature!" pointing to his own figure reflected in the glass.

Christmas is coming and the turkey gobbler trembles in his boots. Messrs. Eaton and Pelletier, from Carteret county, passed through town last Friday en route for the meeting of the State Grange, at Rocky Mount.

The news of the result of the election in Atlanta, Ga., was received with more than ordinary expression of gratification considering the distance between this place and that city. Several men who have been whiskey dealers for sometime have been heard to rejoice at the result. It is the opinion of nearly every one that Prohibition at some future time is inevitable.

The meetings at the Baptist Church have been going on for about ten days. Drs. Nelson and Huffman are in attendance with the pastor, and much interest is manifested and it is hoped that much good may be done. The appeals made to sinners are powerful and eloquent, and the attendance is good.

Rev. Mr. Nash preached in the M. E. Church on Saturday night and Sunday to a large and attentive audience. Our Methodist friends are delighted to hear that Rev. F. A. Bishop will be their pastor for the ensuing year. Rev. Mr. Anderson leaves for another field and carries with him the love and esteem of this entire community.

The citizens of Castello Bros. raided our town last week. This company is assisted by the Teets boys, we did not attend but hear it well spoken of, and from the continuous peals and shouts of laughter that emanated from their canvass during the performance we think they must have made lots of fun. We could hear Jake with his bangs from our door and we imagine his performance was highly amusing. If there is any mirth in a fellow, Jake Teets knows how to bring it out.

"WE LIVE AND PERMIT OTHERS TO EXIST." DEXTER, TEXAS, March 16, 1885.

BLOOD BALM CO. It is a great pleasure to us to state to you that your B. B. B. takes the lead of all blood purifiers in this country, on account of the cures it has effected since we have handled it.

To the present time he has used less than three bottles, and is walking around visiting his friends in the neighborhood. He has gained strength and is rapidly. All scrofulous sores are healing daily, and you never saw a happier man than he is.

We had a case of nasal catarrh in our own family [a little girl of four years old], who has been using B. B. B. for about two weeks, and already seems to be about well.

We take pleasure in recommending B. B. B. as a medicine worthy of the entire confidence of the public. Its action is more rapid than any blood remedy we ever handled.
