Inquiries Answered. A "Tourist" writes a very sensible communication, which we publish today on our second page, and asks the question, "Will your best Eastern North Carolina lands produce the food crops, such as oats, corn, potatoes and hay and make good pasture land for stock?" 'Tourist' certainly knows very little soil and climate are specially adapted to the growth of the very cereals and vegetables which he inquires about. because of the fact that our farmers are trying to make a cotton country out of soil naturally adapted to the growth of corn, oats, potatoes, and grasses, and therefore the best in the world for raising stock. Instead of cotton being the only crop that can be successfully grown be successfully grown. Our farmers have got in the habit of making it and it is a hard matter to get out of it.

As to why Southern farmers cannot make money by changing from a cotton producing section to cereal and stock raising we have no answer to make because we know of no reason unless it is that they don't know how.

It is very evident that the time is coming when Eastern North Carolina will have to quit cotton as the principal truth.' crop, as the producers further South can make it for less money than we can, and our lands are better adapted to corn, oats, potatoes, market vegetables, and stock raising. We hope "Tourist" will bring his friends on for we are sure they will meet with a hearty welcome, and will find an investment in lands in this section profitable.

Making Hay.

As a further answer to "Tourist" we will state that Mr. Geret Vyne of Havelock has just shipped about 20,000 kill Cleveland in order to rid the country of Democrats. The Colored Graded School. EDITOR JOURNAL :-- The colored Graded

School of this city closed the fall session for the holidays last night with an exhibition that was, in all of its parts, very creditable. The singing was excellent. The programme was short and interesting, consisting of declamations and essays, both original and selected, some of which were rendered in a way that would have done credit to persons

delinquents whenever the single tax is paid. The Register of Deeds was or dered to give statements of amounts due by each delinquent and was empowered to give statements of amounts due by each delinquent and was empowered to employ an assistant for this prepage at the cost of the county, provided not more than one dollar per dey should be paid. An order was also passed that county vouchers be received in payment of back county taxes due.
