Thousands of mullet and flounder fish are being caught and sold to Morehead and Mr. Henry Hall, and the Pollocks-ville mail carrier every week by George Littleton, Irvin Smith, Mart Heady, Bill Dennis and Asa Moore, and sold at from ite. to Sic. each according to size, from 11 to 2 inch; flounders from 11 to 8 cts.

The schooners Gold Leaf, Minnie Ward and Packet are in port, the latter partly loaded and bound for New Berne. Schooner Etta, M. Bloodgood, from Charleston, S. C., tried to come in Bogue Inlet, but got aground and had to go back again. She went into Beaufort, and was loaded with guano bound for Washington, N. C.

Mr. G. W. Ward and C. B. Frazelle have come home to sepnd Christmas but say they think they could have seen a better one away from home; the latter is teaching school at Piny Green, the former has been at Gum Branch, and is nov ready to take a school for the next 10 months. If anyone wants a fourth-class teacher at a first-class salary just call on that gentleman for the next ten days at Swansboro, N. C., for he is after that time, going to Florida.

Christ nas has come and gone, and we think it the dullest we have ever seen in Swansboro; one or two little dances, and one or two parties, which seemed to be filled with the "oh be" joyful spirits of just men made perfect, is all the fun we have yet seen and today is the 2d day of Christmas. There were some fine Christmas turkeys eaten, some of the people seemed to want to excell their neighbors in the best turkey, and the boys had some fun out of it at the expense of one stingy man who bought a turkey from a lady; carried it home and kept it two days and then carried it back and told the woman he wanted her to take it back because it was a poor old hen and not a fat gobler. The boys say is'n't it strange that a man who thinks he knows so much, to carry a tuskey two miles in the day time and not find out it was a "blamed old poor hen." The lady took back the turkey and the next day we saw him going out to hunt for a big 75 cent fat gobler. We didn't hear whether he found one or not.

Several marriages have taken place lately around and about here; last Wednesday Mr. E. Barlow and Miss Sallie the Rev. Mr. Pate, who is conducting the Rev. Mr daughter of I. A. Provow of Brown sound. A short while back Mr. Fillmore Gillett art, and were in striking contrast to the disgusting daubs which have been palmed off as "views of Ireland." Should Mr. Howorth's excellent company ever again favor our city with a visit, their reception will be a hearty one, as it should be wherever they go. #### An Interesting Change.

WASHINGTON, Dec. 31.—Mr. Bayard, in the opinion of observers of public sentiment, has partly regained the ground he lost by reason of his unfortunate misjudgment in selecting Foreign Ministers and Consuls in the beginning

of his administration.

In spite of his creditable management of the Keiley case and other diplomatic matters, however he is no longer the ideal Bayard. To Wade Hampton and other Southern men who were once devoted admirers he is a shattered idol of clay. Even his friends admit that as a can-didate for President he is not likely ever to be as strong as he has been.

Were a Democratic National Conven-tion to be held now, the original Bayard tion to be held now, the original Bayard men, especially those from the South, all the silver Democrats of the West, all the revenue reformers, and, in fact, all the great body of anti-Cleveland Democrats, would concentrate upon Carlisle as their candidate for President. It is too early yet to say what will happen in 1888, but midway in President Cleveland, administration the gisphoards. land's administration the signboards point to Kentucky a graw .nd and

Some genius proposes to introduce paper shirts. This might do for Japan, but would prove a "big thing" for the doctors, because rheumatism, etc., would become frequent. If, however, people would keep Salvation Oil convenient, paper shirts might still be a success. It costs only 25 cents.

I heard one of our worthy magistrates say that he was really tired of so much lawing with each other. "Why," said he, "our magistrate's courts are having a continual court; ho adjournment in Trenton." Well, so it is with our colored people every fall, when they house their crop they commence selling it out to go to law and lawing each other until their grop is axhausted. Experience is their crop is exhausted. Experience is a dear school, but some of our colored friends can't even learn in this school

Certain capitalists of New Beuford, Massachusetts, have entered into obli-gations with the land owners adjacent to White Oak river to clean out and clear the river of all obstructions to a point, which is designated in the contract, but I have forgotten the name of the point. The owners of these lands have granted them the privilege of cutting all marketable timber near the river for ten years. Provided that they remove and clear all obstructions out of the river, and that they must not cut the timber from the lands at no point on the stream any faster than the clearing and cleaning out of the river progresses. We further know that these obligations have been agreed upon; as they are now in our register's office for registration. We would like to say to capitalists who desire to invest their capital in timber, that there is an almost inexhaustable supply of good tim-ber, such as oak, hickory, cypress, pine, birch, maple, holly, etc., on the banks of the Trent and Tuckahoe rivers, and if they desire any of these timbers, probably they might secure a good inestment for their capital by an examination of our timber lands on these rivers. We know that our people would welcome all who desire to invest capital and would render all such all the aid and encouragement in their reach.

MILWAUKEE, Dec. 31: -Several persons are starving in Palmyra in a frenzy of religious excitement. Three weeks ago a revival began, and the minister and several others pledged themselves not to taste a morsel of food until certain things were accomplished.
