### Cold rain yesterday.

VOL. IV.

A large lot of cotton is on the plat form waiting for the price to advance Mrs. B. M. Gates and her brother, Mr Bledsoe, of Wayne county, were visitors at the Cotton Exchange yesterday.

Mr. J. V. Williams is preparing his dwelling on the corner of Graven and Neuse streets for the paint brush.

The sheriffs of Craven, Jones, Beau fort Hyde, and Pamlico have paid their taxes at the National Bank in this city. The steamer Experiment sailed yes-

stores, cauned goods, shingles and rice.

Deputy collector Alpheus W. Wood attended the grand tournament and ball at Aurora on the 5th inst. and reports that they had a big time.

Mr. Wm. Asher, the mail carrier be tween this city and Washington lost a fine horse on Wednesday night at Daniel's ferry. It is supposed he died of colic.

Col. Geo. I. Nowitzky returned from Onslow Superior court yesterday, and having dispensed a sufficient quantity of Indian tea to insure good health to the farmers which will enable them to raise a good crop this year.

The Young Men's Christian Association have received a donation of twentyfive dollars from a lady, to assist them in securing the twenty-five dollars previously mentioned. Fifty dollars more are needed. Who and how many will give this?

### Gray Engle.

Rufus Bryant, col., of Bachelor creek in this county, brought to the city yesterday a live gray eagle measuring 8 feet from tip to tip. His plan of catching engles, he says, is a great secret and when questioned as to how he caught him would invariably answer, "I conjured him !"

The Howorth's Hiberoica Comedy and Specialty Company. In mentioning the first performance of this Company we were forced, from want of time, to omit several attractive features of the entertainment. Among ity. these was the gentlemanly and distinct the panorama which was delivered by ment. Bert. Kimball in just words enough and not too many, as is often the case in such exhibitions. Then the clever performance of the same gentleman as a ventriloquist whose "Jerry and Susie" with the old man and woman kept the audience in a 'spell' of laughter during the term of their occupancy of the stage.

And last but not least the rich amusement in the ten minutes of laughter afforded by the Doctor and his student. Last night, notwithstanding the very disagreeable weather, a good audience greeted them. Some new features were introduced, among them the Gazoo band, and Silly Bill and Father; Mr.

Ashton as Silly Bill carried the audience by storm: John Fenton's dancing was as good as ever performed on the stage here; Dutch Swimson, Mr. Flannery, was terday with a full cargo of cotton, naval repeatedly applauded, and the young ladies Misses O'Lynn and Fenton performed their parts admirably. I say great possibilities because these industries have not been fully developed. Like the gold that lies hid in the bowels of the earth, needing only to be dug out, smelted and made into coin to demonstrate the wealth that was latently slumbering there. So our own industries need only the proper application of the brain and muscle to produce the most wonderful results in variety and extent of crops. In obedience to the rule that the greater the natural advantages the less they are appreciated and utilized. We slept amidst the finest opportunities, heedles to the invitings of wealth, whose lap of riches she lays open at our feet. But while these industries have not reached any high state of development, yet, as the gold dust that sparkles in the rock points out the place where the mine exists, so we possess in the slight demonstrations made here, and there the evi-The introductory article of Mr. Jona-than Havens, in the JOURNAL of 7th inst., on the watershed counties of Fontore North Caroling is one of or some twenty-five or thirty square miles her palmiest days-this industry needs only a fair encouragement to become the seat of the vast capital that will soon render him all the aid needed in rightly accomplishing his laudable aims. thereafter. Mr. Gray called up Mr Beck's recent resolution of inquiry in regard to the payment of customs duty in coin and the application of that coin to purposes of a sinking fund, etc. He would vote for the resolution but for reasons very different from those which actuated Mr. Beck. He was not a bondholder nor the son of a bondholder but was in

favor of paying bondholders in honest coin. Of course this means that Mr. Gray thinks bondholders ought to have gold regardless of the law which says they shall be paid in coin. Mr. McPherson made a speech on the

same line with Mr. Gray. They evi-dently want the bondholders to have gold. On motion of Senator Edmunds, the

Utah bill was taken up, the question being upon the motion of Mr. Hour to franchise the women of Utah. The motion was rejected by a vote of 11 yeas and 37 nays, and very properly so, for the women of Utah are no more entitled to vote than other ladies. An amendment, proposed by Mr. Ed-

munds, was agreed to, providing that marriages within, but not including the fourth degree of consanguinity, shall be deemed incestuous and punishable by imprisonment.

Mr. Morgan opposed the provision for trustees to administer the affairs of a Mormon church. He characterized polygamy as an offense that "stinks in the nostrils of civilization." He thought if anything was to be done about it, it should be torn up root and branch.

Mr. Edmunds replied that those trusees would deal only with the property of that church. The committee had feared to abolish the whole corporation, which Congress had a clear right to do, and had confined the work of the trustees to the temporal affairs of the church. The committee had not wished to move a precedent for legislative interference with religion. Apart from the feature of polygamy, Mr. Edmunds did not think the belief of the Mormons greatly different from the belief of other sects. After further debate as to provisions relating to the testimony of husband and wife, the debate went over till tomorrow, Mr. Edmunds saving he would then ask the Senate to "sit it out" and

bring the bill to a vote. Mr. Blair, from the committee on education and labor, reported favorably the bill to aid in the establishment of common schools-the same as the bill that passed the Senate last Congress. In the House the call of States for the introduction of bills was resumed. Mr. Seney, of Ohio, introduced a bill to repeal the Civil Service act.

Mr. Wilkins, of Ohto, to provide for the issue of circulating bank notes to national banking associations. Authorizes the Comptroler of the Currency to issue circulating notes to any national banking association to an amount not exceeding the par value of bonds deposited by said association.
