

THE DAILY JOURNAL.

VOL. IV.

NEW BERNE, N. C., THURSDAY, JANUARY 21, 1886.

NO. 241.

LOCAL NEWS.

Journal Miniature Almanac.
New Berne, latitude, 35° 8' North,
longitude, 77° 8' West.
Sun rises, 7:08 | Length of day,
Sun sets, 5:15 | 10 hours, 7 minutes.
Moon sets at 6:10 a. m.

BUSINESS LOCALS.

Job work executed with neatness and dispatch at the JOURNAL office.

A good, gentle, family horse for sale. Apply to S. W. SMALLWOOD, ja16t

Real Estate Mortgages and Deeds for sale at the JOURNAL office.

All who have tried our 10c. hams say they are as good as any in market. HUMPHREY & HOWARD.

Chattel mortgages and Lien Bonds for sale at this office.

The wood yards are rapidly filling up.

Several oyster boats arrived yesterday.

A good lot of rice in market yesterday. 85 cts. per bushel was the highest price offered.

The California Minstrels, twenty-five strong, will appear at the New Berne theatre on Tuesday evening, January 20th.

And now Scherwin & Ash say they are not selling at cost but lower than anybody else. They keep a well-selected stock of clothing and shoes, and are abreast of the times.

Our Trenton friends will have a good opportunity to attend the Kellogg Concert next Wednesday night by taking the special train at Core Creek and returning on the mail train next morning.

Mr. Louis Brown, an aged man living on Broad street, while walking on the wharf at Moore & Brady's canning establishment yesterday fell down, his shoulder striking the iron track, and was severely hurt.

The wood pulp mill at Graywood is getting down to work and will be running smoothly in a few days. We have been shown a sample of the pulp, and one not acquainted with the business would hardly think that this pulp was once cypress wood.

Members of the New Berne theatre on the occasion of the Grand Operatic Concert which is to take place in this city on Wednesday evening, January 27th, 1886, will usher in evening dress, and in a great many places where Miss Kellogg has given her concerts, the audience have gone in similar attire.

Ms. J. P. Brogden of Trenton says chattel mortgages and lien bonds will be in great demand this year. The newspapers have advised against the use of these instruments on the farm for a long time with great earnestness but still their use seems to be on the increase. Suppose the papers change and advise that they are very useful things in the production of cotton and corn, and making the family happy? In case they do the JOURNAL has plenty of them for sale.

Oysters.
The famine is over and Sam. Radcliff now has a supply of fine Nelson Bays. He continues to cater to the wants of those who are fond of the delicious delicacy—and who is it that don't like a fine oyster—preparing them in any style desired. If any man don't like them as they are put up at Radcliff's he should be soon.

Spinning Wheel Quartette.
The Clare Louise Kellogg Concert Co. will close their entertainment on Wednesday night next with the "Spinning Wheel Quartette," but not in costume. It is one of the most effective things ever presented to the public and will be highly enjoyed by the large audience which will greet the Company here.

An Annapolis.
At New Berne in 1885, during the cold spell, the mercury fell to zero.—Star.

If the Star has reference to this city it is in error. The thermometer on board the revenue cutter Stevens fell to 5° above zero. This was on Monday morning, January 11th and was the lowest point reached during the cold snap. In the city the lowest point reached on the same morning by Dr. Charles Duffy's thermometer was 9° above zero, while Mr. Isaac Patterson's, in another portion of the city, a self-registering thermometer, fell to 13° above zero.

We doubt if the mercury ever fell to zero during any cold snap in New Berne. Two years ago during a cold snap it was asserted that in 1837 the thermometer in front of Capt. Alex. McNeill's store on Broad street registered 5° below zero, but Col. Jno. D. Whitford in a one fully prepared article published in the JOURNAL, showed conclusively from files of old newspapers that such was not the case. The "oldest inhabitant" undoubtedly got the thing mixed; it was 5° above zero, and not below, as his memory had it.

Personal.
There are many Northern visitors in our city this winter, and we are pleased to hear that they are enjoying themselves sporting. Among them are Col. S. S. Atwell and wife of Providence, R. I., visiting Capt. S. H. Gray, and Messrs. Henry Kirk and Wm. Tecumseh White, of Lowell, Mass., stopping with Mr. D. N. Kilburn.

Messrs James Brooks and Jess Quinler of Johnson's Mills, Pitt county, were at the Exchange yesterday with cotton and rice.

City Finances.
Treasurer Jas. W. Moore on yesterday paid the last note held against the city for money borrowed to pay current expenses during the past year. The board of council made the best financial stroke for the city in this matter that has been inaugurated in some time. They borrowed the money at 8 per cent and reduced the expenditures 25 per cent by paying cash, thus making a net saving of 17 per cent, and they have the satisfaction of knowing that they have no vouchers afloat. Two or three years more of such management will wipe out the last cent of the city debt and then we will breathe a little freer.

War Times.
We copy today from the Philadelphia Press a well written account of the battle at Bristol Station, Va., on the 14th of October, 1863, by Capt. James A. Graham, of the 37th N. C. Regiment. Capt. Graham writes to correct some errors made by John Estlin Cooke in the Press some months before. The surviving members of Cooke's and Kirkland's brigades, especially those of the 37th Regiment, will at once recognize the truthfulness of his account of that terrible slaughter.

Capt. Graham alludes to the fact that it was the fortune of Cooke's brigade to meet in every battle after that, with one exception, during the year 1863 the 2d corps of the Federal army, and he might have truthfully added that in every battle or skirmish from the opening of the campaign at the wilderness in 1864 down to the breaking of the lines near Petersburg in 1865, Cooke's brigade always held the ground or drove the enemy.

The Cold Snap in Florida.
It is now found that the cold snap in Florida did not damage the orange trees as much as was first reported. We clip the following from the Ocala Banner which claims that the cold snap will prove beneficial, rather than deleterious to Florida:
The freeze of 1886 will long be remembered in the history of Florida. In severity and duration it was more intense than the famous freeze of 1835. That year every orange tree in Florida was killed to the ground. This was owing to the fact that there was warm weather preceding it. This year the trees were in good condition, having been hardened by gradual cold weather all winter long, and the damage to trees, except in sandy bottoms and other unfavorable locations, is very slight. We believe the result of it will benefit the State and especially this portion of it. It settles the "frost line" business and demonstrates the amount of cold the trees can endure. We have two groves and considerable land suitable for the culture of oranges and lemons and feel very much encouraged. We will hardly have another such freeze again in fifty years and we are satisfied that these trees can stand out ordinary winters with perfect immunity.

The Difference.
Mr. Ben. Higgins, the bear killer of Beaver creek, Jones county, brought down yesterday a quarter of very fine beef for which he could get only four cents per pound. He took the JOURNAL to task for reporting it at five to seven cents. But he forgot to notice that our market report says "on foot." Now if he had brought that quarter "on foot" and failed to get market quotations, then he would have had a good excuse for rapping us, but as he brought it on a cart, why, he oughtn't to say a word. If he had brought it "on foot" he certainly would have earned more whether he got it or not.

But there is one thing about this beef that Mr. Higgins can't understand, and we are in the same fix. He says he showed it to a dealer in the city who had a fine quarter just received from Baltimore which cost ten cents per pound. The only difference he or the dealer could discover in the two quarters was that the shank of his was a little longer the Baltimore quarter. But the dealer would only offer him four cents for his beef while the Baltimore quarter cost ten cents per pound. If Mr. Higgins could have shipped it via Baltimore or New York and let it come to New Berne as Baltimore beef, or from some other big place, he would have had no trouble in getting ten cents. There is nothing like having a good reputation; and we think the sale of Mr. Higgins' beef was undoubtedly hastened by the general reputation of our country beef. But no matter how poor the beef, if below the price, the consumer in this city must pay ten cents for his steak.

BRIEFS.
Six men were buried at Onray, Cal., by a snow slide.

The Irish question is assuming a threatening outlook. Manuel Balmaceda has been nominated president of the republic of Chile. Editor Stead of the Pall-Mall Gazette has been released from prison, his term having expired.

Nothing has yet been heard of the City of Nassaw, which left Philadelphia on Christmas for Jacksonville.

Montana desires to become a State. Let her come in; she will be Democratic and will act as an offset to Republican Dakota.

The press dispatches have it that Mary Augustine has died at New Orleans at the advanced age of 125 years. Hard to swallow.

A machine has been invented by a Baltimorean to set type by electricity. It will be some time, if ever, before this can be accomplished successfully.

The ministers of Baltimore have adopted resolutions approving the decision of Postmaster-General Vilas in refusing to allow a mail delivery by carriers in that city.

The steamship "South America" from St. Inago, put in at Newport News for coaling; upon heaving anchor she hauled up the bowsprit of a man-of-war, supposed to be that of the "Congress," sunk by the "Merrimac" in 1862.

The Jacksonville (Fla.) Herald has published interviews with a number of leading orange growers as to the effect of the recent freeze. The general opinion is that the young trees are greatly damaged, but that the old ones have suffered but little. They are of the opinion also that the freeze has killed the insects and malaria, which will be very beneficial.

The latest novelty is a wager of \$500 by Oliver Woodson, of Camden, N. J., that he can devour more pancakes at one meal than any other man. This has been taken up by Mitchell Delaney, of Brooklyn, on condition that it take place on a cold morning and he give five days notice.

Now they speak of Crude Petroleum as a remedy for consumption; better not try it, but take Dr. Bull's Cough Syrup—the standard cough remedy of our age. It is agreeable to the taste, never fails to cure, and costs only 25 cents a bottle.

Kinston Items.

Several new pupils have enrolled in the Graded School this week.

N. J. Rouse, Esq., spent a part of the cold snap hunting near La Grange.

Mr. Bennett B. Barnes, of Jones county, died on Thursday, January 14th.

Mr. Thomas Joyner has been employed to give writing lessons in Kinston College.

Mr. Jack Long is displaying excellent taste in painting Mr. L. J. Newborn's new building.

Mr. J. W. Hodges, a very successful farmer from near Washington, N. C., is in town, having work done by our dentist, Dr. Harper.

Col. S. B. Taylor, of Catherine Lake, Onslow county, was in town Tuesday. He brought his daughter, Miss Annie, to attend Kinston College.

Mr. Walter Thomson and W. T. Cox, Esq., from near Richlands, were in town Monday, buying stock and otherwise preparing for farming.

White Humphrey and Mr. Steed, from Richlands, were in town Monday. They report "the bottom dropped out" of mercantile business.

Mr. and Mrs. J. P. Cox, of Onslow county, have been spending several days at Mr. Olive with their daughter, Mrs. H. T. Ham, who has been very sick.

Rev. Mr. Journey preached a very practical, salutatory sermon last Sunday night, from the three questions, "Is it well with thee; is it well with thy husband; is it well with thy child?"

Henry Archbell has been enlarging his business. He has opened the next door to his bakery, and furnished a large room with tables, where he accommodates boarders at reasonable rates.

Mr. Noah Palmer, of the firm of Dryden & Palmer, Baltimore, is making his yearly visit to relatives at La Grange and Kinston. He comes thoroughly equipped for hunting, and enjoys himself hugely in that line.

Mr. W. R. Skinner has lately closed a public school near Capt. Byrd's and will continue to teach at the same place. That community has supplemented the public funds until the scholarship is well advanced, demanding a first-class teacher.

The board of education met on Monday and Tuesday, and apportioned enough of the school fund left at their disposal to raise the amount in every district in the county, colored and white, to \$60. There is yet some money left in their hands, which they will not pass upon till they hear from Supt. Finger.

Never Give Up.

If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a bilious nature, by all means procure a bottle of Electric Bitters. You will be surprised to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by all druggists.

Congressional Work.
WASHINGTON, Jan. 18.—SENATE.—Mr. Sherman resumed the Chair of the Senate today.

Among the petitions presented and appropriately referred was one by Mr. Coke, from merchants of El Paso, Texas, complaining of smuggling on the Mexican border, and urging Congress to take measures to put a stop to it.

Among the reports submitted from the committees was one by Mr. Callom, from the committee appointed to investigate the subject of regulations of freight and passenger rates on railroad and water routes.

Mr. Harrison offered a resolution to admit Hon. G. C. Moody, of Dakota, to the floor of the Senate during this session.

Mr. Cockrell objected and the resolution went over.

Mr. Voorhees presented memorials from citizens of Montana, praying that the territory may be admitted as a State into the Union, and also introduced a bill providing for such admission.

Mr. Harrison gave notice that on Friday he would call up the Dakota bill.

The Judicial Salary bill was placed before the Senate, the pending amendment being that of Mr. Morgan limiting the increase of salary to cases of "Judges hereafter appointed." The amendment was rejected.

Mr. Call offered an amendment providing for the removal of Judges for drunkenness.

Mr. Edmunds thought drunkenness on the bench a high misdemeanor which would come under the provision of law, and that Mr. Call's amendment was unnecessary. The amendment was rejected.

The bill came to a vote and was passed. It gives all U. S. District Court Judges \$5,000 a year and prohibits them from appointing their relatives to office in their courts.

The bill providing for the Presidential count was then placed before the Senate. At 4:45 p. m. the Senate went into executive session. At 5:02 the doors were re-opened and the Senate adjourned.

HOUSE.—In the absence of the Speaker, the House was called to order by the Clerk, and a note from Mr. Carlisle was read, designating Mr. Springer, of Illinois, as Speaker pro tem. for the day.

Under the call of States a number of bills and resolutions were introduced.

By Mr. Lauder, of Ga., repealing the statutes which impose taxes on notes of State banks, State banking associations and municipal corporations.

By Mr. Struble, of Iowa, (by request) to provide for a uniform ballot box.

By Mr. Hepburn, of Iowa, to create a board of commissioners for inter-state commerce.

By Mr. Wolford, of Ky., granting a pension to Mrs. Melkleham, the only surviving granddaughter of Thomas Jefferson.

By Mr. Willis, of Ky., granting pensions to survivors of the Mexican and Indian wars.

By Mr. Cole, of Md., constituting eight hours a day's work for government laborers. Also, prohibiting the employment of convict labor.

By Mr. Lovering, of Mass., to prohibit by constitutional amendment the contracting of convict labor.

By Mr. Hiscoc, of N. V., to repeal all internal revenue taxes on domestic tobacco.

By Mr. Henderson, of N. C., to prescribe the terms of office for persons employed in the civil service and for appointment of appointments to public service among Congressional districts on basis of population.

By Mr. Pettibone, of Tenn., to promote peace among nations by the establishment of an international tribunal on some fixed principles of arbitration.

There were 570 bills introduced under the call.

An order was made designating the 28th inst. of the day for the delivery of eulogies upon the late Reuben Ellwood, of Ills.

Adjourned.

Almost Swallowed by the Waves.

HAMILTON, Bermuda, Jan. 13.—The American bark Idaho, Capt. Richardson, six days from New York, bound to Cienfuegos with a general cargo, arrived at this port yesterday in tow of the tug Gladstone. Capt. Richardson reports that he sailed from New York on Wednesday, 6th inst. On Friday, the 8th, a heavy gale arose, which increased during that night and Saturday, the sea running mountains high, and the vessel laboring heavily. On Saturday at about 4 p. m. a heavy sea broke on board, carried away the main pinrail covering board, and stripped the starboard side from the forward part of the main rigging to the after part of the after house, leaving the whole starboard side of the ship open and exposed to the sea. The crew were set to work to nail canvas from the outside of the ship up over the deck. While this was being done the second mate and one seaman were washed overboard on the port side of the vessel, but were rescued. The same sea which washed them off carried away a part of the port rail. During the whole time the pumps were manned and worked.

On Sunday, the 9th, the weather continued boisterous. The ship's position by observation was latitude 28° 29', longitude 70° 38'. The sea was running very high, and the ship straining and leaking badly. At 9 a. m. while all hands were on deck tugging the topmast staysail sheets, a tremendous sea broke on board about the starboard fore-rigging, carrying away everything it met—two boats of the house, cargo, derrick, gangway ladder, hencoop, bin, masts, the galley and all its contents, with room occupied by the second mate and cook. The starboard bulwarks and stanchions were smashed and covering boards split from about the fore-rigging to the poop. The cook was washed overboard, but managed to grasp the port rail forward, and was rescued with difficulty. The deck load was jettisoned, as it was washing about in all directions, the main deck being full of water. As the weather moderated the

wreck was cleared, and when the damage was ascertained the captain decided to bear up for Bermuda. On Monday the weather moderated, and on Tuesday morning Gibbs Hill light was sighted.

FOREIGN.

MANDALAY, Jan. 19.—Flying columns of British troops sent out on reconnoitering expeditions have returned to Mandalay. They lost several men killed and wounded in a skirmish with the Daicots. The latter's loss is unknown. Reinforcements are needed here. Much uneasiness prevails regarding the situation. Europeans long for the arrival of Lord Dufferin, Viceroy of India, when it is hoped that a firm policy will be adopted.

CONSTANTINOPLE, Jan. 19.—Owing to the pressure brought to bear on Prince Alexander of Bulgaria, he has agreed that negotiations for peace between Serbia and Bulgaria shall be carried on at Bucharest.

BELFAST, Jan. 19.—Loyalists here are indignant over Mr. Gladstone's refusal to receive a deputation of Loyalists from this city. There is a marked revival of party feeling in the north of Ireland. Irish Loyalists are arranging for meetings in leading towns of England for the purpose of obtaining support.

COMMERCIAL.

JOURNAL OFFICE, Jan. 20, 8 P. M.
