Not long since, while the office was draped in mourning for Vice President Hendricks, an old gentleman from the country with a clerical appearance walked in and gazed for some moments at the drapery, went into the money order department and asked the clerk:

A Suggestion.

The great work of the Department of Agriculture of North Carolina is to develop the industrial enterprises of the State. We believe it has already done delphia, employs 4,180 hands. much in that direction. Its province is to take the lead and foster the rise in new industries. The complaint in the eastern part of North Carolina is that it has done nothing for this section of the State, and that what it commenced to do it has abandoned. In the fish-hatching business it was, we think, accomplishing a deal of good when it assumed the role of Lot's wife. We are a race of farmers and fishermen. As farmers we come in for our share of the good work of the Department for the whole State, but our peculiar interests are as fishermen. It is believed by thoughtthe city. New Danger for Senator Payne.

They are now looking forward to the seat of Senator Payne. The investigation by the Legislature of Ohio contemplates a report to be sent to the Senate. with a request for an inquiry by that body to reach beyond the limits allowed to the Legislature under the power to send for persons and papers.

No charges are made against Senator Payne. The most alleged is that he is the beneficiary of an election defiled with corruption. As he has publicly invited the fullest scrutiny, there is no likelihood that the movers in the business will fail to go to the extremest length of their authority to make out a case for action at Washington. And they would have pursued this course

without any invitation. The methods adopted to eject the members from Hamilton county in order to make sure of Mr. Sherman's reelection, and the proceedings of a min-ority of the Senate, dictated by the reck-

The session lasted about three hours, the principal part of which time was considering the action of the Senate in executive session yesterday in making a formal demand of the Attorney-General or copies of all papers in his department relating to the recent change in office of the United States Attorney for the Southern District of Alabama. A general discussion ensued and showed a slight division of sentiment as to the proper policy to be adopted by the President in this particular case, which is generally regarded as an issue, and an action which will necessarily estab-College, and regulating the method of lish a precedent.
