is unlike any other factory you ever interior towns. January delivery tanks through which steam pipes go from last week. Spots weakened and into which the fish are placed 1.16c., and closed at 9 3.16c. -cooked by steam and then put into a hydraulic press. This pro. The total future sales this week were 593,600 bales, against 368,000 cess separates the oil from the fish bales last week. Spot sales amount —the oil passing through other ed to 4,524 bales, against 3,517 pipes into another department and bales last week. Deliveries on conthe fish is placed into a well constructed railway car and carried bales last week. The receipts at some distance to a large platform to ports this week amounted to 134,dry for scrap. They have invested in buildings, machinery, steamers week, and 75,294 bales this week and boats of all descriptions, over last year. The receipts since Sept. lars, and have capacity of working over ten million fish annually. Near by is the large and commodious factory of Chadwick, Jones & Co. It has recently been purchased by this firm and they are enlarging its capacity for manipulating nsh.

These two factories alone employ between fifty and a hundred men. A little higher up the river is the factory of Howland Bros. Then there are two or three more smaller factories in the county. This whole industry in one way or another employs over three hundred men, and pays out annually to the laboring class over (\$50,000) fifty thousand dollars. There are from fifteen to twenty sail vessels and one steamer employed in the business. You can very easily see how an industry of this kind tends to build up the A country and make the waste places M

bloom and blossom as the rose. Those who visit Beaufort and Ju Carteret county, especially that Se part that stretches along the sound, and look chiefly at the soil for No. wealth and sustenance go away with Below will be found the sales for

that wash her shores.

Chiefly at sea, ranging all along paper, is published every Thursday at \$2.00 the coast from Bogue Inlet to Cape Lookout; from a quarter of a mile from shore to three miles at sea. inch one day \$1.00; one week \$2.00; one Vessels varying in carrying capaeity from 75,000 to 200,000 fish, sail Advertisements under head of "Business up and down the coast in search of -that is the fish do-and can be seen on the surface of the water at some distance. These large vessels ten lines will be inserted free. All additional carry with them two small row boats containing a purse net. One Payments for transient advertisements must boat takes one end of the net and will be collected promptly at the end of each they row around the schools of fish, dropping off the net as they go and ished that contains objectionable personal- bottom of the net, the fish are with small nets into the large vescribed.

The oil obtained from these fish is used for tanning purposes and also in paint. The scrap is used in

This fish scrap can be purchased from the factories for about \$25.00 per ton, and can be manufactured by any farmer so as to give him a better and cheaper fertilizer than etc., I will send a recipe that will cure he buys from abroad. But there is you, FREE OF CHARGE This great nothing like getting shoes from remedy was discovered by a missionary Boston and most from Chicago.

THE COTTON MOVEMENT From Bradstreet's.

N. M. J.

The market for both spots and favor of the fishing interest of the futures was more active during the State. "For," said he, "they are week just closed, and the volume of catching shad-yes, shad, and mak- sales showed a heavy increase. It ing manure of them." That man may be stated, however, that this was wise, like a great many other activity, especial'y in spots, was GASTON HOUSE. men are, and talked by sound. For obtained at the expense of values, he, like others, had no doubt heard which encouraged a good demand these fish called, as they are often, for high grades toward the middle S: R. STREET, SR., Proprietor. Chamber Set, 10 Pieces shad or more familiarly, fat backs, of the week. The causes for the and he took them to be the veritable white shad. They are unlike
any other fish. They are of the
same genus with the shad and resame genus with the shad and redelivery closed last week at 9.17c.

Deaf and Blind.

tally blind and deaf, and could not taste anything except sait. Her bories became the seat of intense pain, her joints were swollen and painful, and eventually her whole body and limbs became covered with splotches and small sores. Her appetite failed, and she gradually lost flesh and strength, and had bu little use ofherself, as her limbs and muscles were paralyzed.

As she now scenied well and hearty the reporter asked what wrought such a wonderful hange.

"I used a medicine recommended by a friend," she replied, "and before one bottle had been taken I began to see andhear. The second bottle relieved all rheumatic pains and improved my appetite. When I had completed the use of six battles my eyesight and hearing were fully restored, sense of taste returned, all splotches disappeared, sores all healed, and my strength and fiesh respored.

"What was the medicine?" atked the reporter.

"Botanic Blood Bahm-B. B. B.—was the great remedy that acted so powerfully on my disease and cured me. I never experienced any impleasanant symptoms from its use, and its action is so quick that it surprises all."

The reporter them sought a physician who knew the case, whereupon be handed us the following lines:

POCOMOKE Super-Phosphate

Is Unrivalled for all Fertilizing Purposes, and especially adapted to the growth of EARLY TRUCKS

A trial is all that is needed to convince any one of the unrivalled excellence of POCOMOKE, and our references are the planters of this section, as well as our patrons generally, throughout the South.

The following are a few of many Testimonials: E. H. MEADOWS & CO., New Berne, N. C.

DEAR SIES—I have used FOCOMORE for the past three years on my truck farm, and have received better results from it than any other fertilizer, more especially when used under Potatots and Cabbage. I expect to use ten to fifteen tons on the next crop. Yours truly,

I used POCOMOKE under cats, applying at the rate of 200 pounds to the acre, giving it a tho.ough test by the side of No. 1 Peruvian Guano, and the action of POCOMOKE was the F. L. SNIPES, Zuni Station, Va.

I used POCOMOKE super-phosphate this year in connection with several of the best Guanos on the market and think it is a good, if not better, than any I sver used. It hastens the grop more and makes cotton mature earlier than any I sruged, consequently have very little stained.

B. J. JLDEN, Franklinton, N. C.

Where I applied POCOMOKE at the rate of 200 pounds to the acre I make one and one-half bushels of peanuts to the shock, against three pecks to the shock on the same land where no Pocomoke was used.

B. G. GRAY, Smithfield, Va. E. H. MEADOWS & CO., Agents, New Berne, N. C.

FREEMAN, LLOYD, MASON & DRYDEN, Mirs, Worfolk, Va.
