

THE DAILY JOURNAL.

VOL. V.

NEW BERNE, N. C., WEDNESDAY, APRIL 28, 1886.

NO. 24.

LOCAL NEWS.

Journal Miniature Almanac.
New Berne, latitude, 35° 8' North,
longitude, 77° 3' West.
Sun rises, 5:13 | Length of day,
Sun sets, 6:43 | 18 hours, 30 minutes.
Moon rises at 1:42 a.m.

BUSINESS LOCALS.

Lost—Last night at the 5th Ward meeting, held at Samaritan Hall, a reversible overcoat. A suitable reward will be paid for recovery.
D. G. MOSELY.

Mrs. Ida Serven will appear at the Theatre again tonight.

Peas were selling on the O. D. wharf yesterday at \$2.50 to \$2.75.

The **Shenandoah** carried out about 1,500 packages of truck yesterday.

The schooner **Ella Hill** arrived yesterday with a cargo of hay for J. A. Meadows.

In shipping truck the A. & N. C. R. will use ventilated cars, constructed for the purpose.

The entertainment at the Theatre tonight will be well worth the money. Procure tickets early. Popular prices.

"Data a bad man to fool wid," said Moses Bryan shaking his head, as Mr. Bob Peebles was presenting very forcibly to the jury the case against C. E. Palmer.

The meetings at the M. E. Church continue. The sermons by Rev. Mr. Crawford are very interesting and are making a deep impression on the congregations.

"Come in to court! as you are reconciled to do this day," said the court yesterday when calling out a defaulting defendant "or you will be punished."

The **Wilmington Star** yesterday gives an account of the death of James A. Lassiter, which occurred on Sunday morning from an overdose of laudanum. He was said to be from La Grange.

O. Marks is out with a new advertisement. He watches the markets with a hawk's eye and buys largely of specialties. Read his new "adv," it is well worth the time to those who want goods.

The contest among the Republicans in the fourth and fifth wards in this city for councilmen is said to indicate the relative strength of the Hahn and Stimson factions. If this is true, the result showed that the Stimson faction is waxing and the Hahn faction waning.

Leg Amputated.

Mr. W. D. Brown, of Fort Barnwell, Craven county, has been a cripple for several years in his right leg. Monday he came to the city with a determination to have it taken off, and yesterday evening Dr. C. & F. Duffy performed the operation, taking it off below the knee. He is getting along well.

Death of Two Valuable Dogs.

On Monday night Messrs. Wm. and Warren Ellis lost a valuable dog each from poisoning. Some strichnine had been placed for cats that had been playing sad havoc with a bunch of young chickens on an adjoining lot and the dogs gained access to it and the result was death to the dogs. One was a pointer the other a setter and both were highly prized by their owners.

Accident to the Elm City.

The steamer **Elm City** left her wharf at 10 o'clock on Monday night for Norfolk with a full cargo of lumber, cotton, truck, etc., and when near Broad creek light house her shaft broke and she was compelled to anchor. The **Shenandoah** on her inward trip was signaled and she drew up and took aboard the mate of the **Elm City** and three passengers and brought them to the city. The mate secured the steam tug **Steam** and went down for the **Elm City**.

The passengers, or one of them, came to the JOURNAL office and filed a bill of complaints against the two lines for making him pay two dollars to get back to the city. When informed that it was beyond our power to remedy such difficulties further than to publish them as news, he departed, saying that he would give it to 'em when he got to Norfolk.

Reasons for not Publishing.

We have a communication from the Superintendent of public instructions of Lenoir county in which he takes exceptions to an item sent by our Kinston correspondent, claiming that the item was a hit at him instead of the colored teacher it was aimed at. We do not publish the communication because we are satisfied the Superintendent has not seen the item referred to but has been misinformed. In proof of this we quote from his letter. After relating the circumstances of our itemizer meeting a teacher on the streets of Kinston and proceeded to examine him (which statement we believe is also incorrect) he says that the itemizer exclaimed: "How do such teachers get certificates?" Now

if the itemizer had asked such a question, the Superintendent would have justly felt aggrieved. But instead of asking this he merely said, "Why grant certificates to such ignorant persons?" This was a remark prompted by the circumstances connected with it, and one to which it appears to us the Superintendent could give a very satisfactory answer.

We are certain that the Superintendent of Lenoir county, and we know him personally and well, will thank us for not publishing his communication when he learns, as we already know, that our itemizer would not do him or any other man an injustice.

The District Court.

The U. S. district court for the Eastern district of North Carolina, convened yesterday morning, Judge Seymour presiding.

District Attorney F. H. Busbee, Assistant Attorney R. B. Peebles, Marshal V. V. Richardson, Deputy Marshal S. R. Street, Clerk R. B. Lehman, and Assistant R. B. Blackledge, and Capt. Wagoner, the officer of the grand jury, make up a corps of officers as efficient, polite and attentive to duty as can be found in any court.

The following grand jurors were sworn:

Thos. S. Howard, foreman, E. M. Jarman, J. C. Eatman, A. R. Dennison, F. G. Simmons, W. F. Kornegay, Wm. Arthur, E. B. Hackburn, Anthony Davis, sr., Jno. Rollen, E. P. Loftin, Archibald Cox, Edward Bull, D. M. Stanton, Dempsey Wood, J. G. Bagwell, Simon B. Taylor and John Berry.

His Honor's charge was short and to the point.

The morning session was taken up in making up and charging the grand jury and calling over the docket.

At the evening session the case of U. S. vs. C. E. Palmer for embezzlement was taken up. Green & Stevenson appeared for the defendant; Messrs. Busbee and Peebles for the government. The jury took the case about 6 o'clock and before they could agree one of them, Mr. Dowdy of Pamlico, was taken seriously sick and a mistrial was made.

Court took a recess until 10 o'clock this morning.

The Theatre Last Night.

Mrs. Ida Serven was greeted with a large and appreciative audience last night. She fully sustained the fine reputation that preceded her and gave an excellent entertainment. Tonight there will be a change of program and everybody should go.

Personal.

Col. B. S. Pardee arrived on the **Shenandoah** yesterday morning. He has made an extended trip South since in New Berne last, and promises us an interview on matters of importance to the South and this section in particular.

Mr. H. Engelberger and wife, who have been stopping at the Central Hotel for a few days left for Beaufort, their future home, on Monday night. Mrs. Engelberger is a sister of our townsman, S. F. Teiser.

Capt. S. H. Gray left yesterday morning for Providence, R. I.

Messrs. John Tull and Demsey Wood, of Lenoir county, who are attending the U. S. Court as jurors called to see us yesterday. There are several gentlemen from Lenoir and other counties adjoining attending this court whom we would be pleased to see at any time. Come in, gentlemen, and tell us the crop prospects.

Messrs. R. F. Mayhew, of Bayboro, and C. R. Thomas, jr., of Beaufort, are attending court.

Mr. Lockwood, of the N. Y. **Daily Graphic**, arrived on the **Shenandoah** yesterday morning and left in the evening for Washington, N. C.

Seymour Hancock left on the **Shenandoah** yesterday evening for Highland Falls, where he is to attend a preparatory school to enter West Point. He has received the appointment for West Point, and we hope he will reflect honor on his native town in that position.

Mr. Samuel Co. ward arrived yesterday morning from Norfolk on the **Shenandoah**, accompanied by his bride.

The A. & N. C. Railroad.

The following from the Goldsboro **Messenger** shows that there are some people in this section who don't think they are being "willfully deceived and for a purpose" by the President of the A. & N. C. R. We better all wait until the President and officers submit their reports to the stockholders meeting and then we will have facts and statistics to be governed by in whatever comments we see fit to make.

The change of gauge on the Atlantic & N. C. Railroad was completed on Thursday last, and the gauge of the entire line, from Goldsboro to Morehead City, is now that of the standard recently adopted for all of the wide gauge railroads throughout the country.

The good order in which the change

was effected reflects credit upon the management of the road. The entire work was completed in six days, and without an accident of any kind whatever, and not missing even a single connection. President Bryan, after knowing the change had to be made, saw his opportunity and went squarely at the work, doing the same over the entire 95 miles of roadway, with merely his own force of about sixty men. This made it slower of course, but made the expense light and saved much money to the road.

Another important point gained in so early effecting the change of gauge is that the work has been done before the truck shipping season begins. The trucks along the line of the Atlantic Road now save the expense and annoyance of a transfer at Goldsboro and they will have the advantage of securing for their use cars especially built for truck shipping, well ventilated and fitted up in the most modern style.

There seems to be much life in the "Old Mullet" yet. We are told that notwithstanding the crippled condition of the road in the past, the present able management has managed to pay off the old indebtedness of the road and the change of gauge, and of the rolling stock to conform to it, has been effected without assistance from outside. Hurray for the "Old Mullet!" She stands ahead of all the other roads in changing the gauge.

Atlanta Mouths Open.

Six months ago we had no demand for B. B. B., but now our retail demand is such that we are forced to buy in gross lots. We attribute the rapid and enormous demand to the comparative size and price of B. B. B. (being large bottles for \$1) and its positive merit. It sells well and gives our customers entire satisfaction. Our sales have increased 500 per cent. within a few months.

JACOBS' PHARMACY,
per Fred. B. Palmer, M.D.
Sold in New Berne by R. N. Duffy and E. H. Meadows.

BRICKS.

There is a movement to make two Sattes out of Kansas.

Queen Victoria is going to Liverpool in May, her first visit there since 1851.

It is estimated that not less than 5,000 persons were converted in Cincinnati by Jones and Small.

The foundation of the house in which Shakespeare spent the latter portion of his life still remains.

Ex-President Arthur's illness is described as more serious than his friends are willing to admit.

A Wisconsin man has been sued for damages because his bees trespassed upon his neighbors pasture.

A place where old Roman coins are manufactured has been discovered in Connecticut. They satisfy the curious all the same.

Jeff. Davis has written a letter expressing his views as to what legislation might be adopted to bring about harmony and unity of action between capital and labor.

The North Carolina **Teacher** for April is a good number, containing a number of articles of real merit. It opens with an excellent poem entitled, "Memory's Wreath," by Martha Mills, of Thomasville, N. C.

Foreign countries, and especially Germany, are watching the movements of France with no little interest. For the last few years France has been quietly, but in a most methodical manner, making arrangements whereby she could instantly mobilize her entire forces in the event of an outbreak of war.

Were I all I could wish me, great, glorious, and free. First flower of the earth, and first gem of the sea. Life still would not be worth living, if I had chronic rheumatism, and couldn't get Salvation Oil.

Congressional Work.

SENATE.—Not in session.

HOUSE.—On motion of Mr. Blount, of Georgia, a resolution was adopted setting apart June 1st and 3rd for the consideration of business reported from the Committee on Post Offices and Post Roads.

The remainder of the day was devoted to action upon bills reported from the Judiciary Committee. Bills were passed providing that all claims now existing against the United States, except pensions claims, must be presented for adjudication and payment within four years of the passage of this act, and that all claims arising hereafter must be prosecuted within six years from the time they accrued, proving that in all cases of disputed handwriting, a comparison of the disputed writing with any writing proved to the satisfaction of the judge to be genuine, shall be permitted to be made by witnesses, and such writing and evidence of witness in regard to it may be submitted to the court and jury as evidence of the genuineness or otherwise of the writing; providing that any judgment or decree rendered in the U. S. Court within any State shall take effect (notwithstanding it is not docketed) by way of lien to the same extent and in like manner as a judgment or decree of a State court.

What Can Be Done.

By trying again and keeping up courage many things seemingly impossible may be attained. Hundreds of hopeless cases of Kidney and Liver Complaint have been cured by Electric Bitters, after everything else had been tried in vain. So, don't think there is no cure for you, but try Electric Bitters, and so, perfect a Blood Purifier, Electric Bitters will cure Dyspepsia, Diarrhea and all diseases of the Kidneys, invaluable in affections of Stomach and Liver, and overcome all Urinary Difficulties. Large bottles only 50 cts. at Hancock Bros.

La Grange Items.

The present indications are that fruit will be plentiful the coming season.

Richard Wooten, a colored man, died of pneumonia in our town last Saturday night.

Hot and dry in our town. We hear that a light rain fell last Sunday a few miles north of this place.

Chief Pitts had a good job of locking up in our place Saturday. Two found their way into the guard house.

The ladies in town decorated the M. E. Church last Saturday—Sunday being Easter. The decorations were very fine.

Cotton planting is going on, by those not already done. The earth is very dry in places and the crop is not expected to come up till rain.

Rev. Mr. Hires attended his regular monthly appointment here last Saturday and Sunday. Three deacons were ordained Saturday, Dr. Whitfield, of Goldsboro, assisting.

Misses Lillie Rouse and Lillian Dillon, from Peace Institute, Raleigh, spent three or four days at their homes last week. They returned Monday.

Scott, the Goldsboro house mover, has changed things around in our village wonderfully. A big improvement has been made in this business in a few years, the roller taking the place of the pine pole slide.

Very few of our citizens have engaged in the trucking business this year, and these on a small scale. The few peas planted about here are looking tolerably well, the potatoes are better, etc. We hope those who are trying this business this year will meet with better success than last year.

The series of meetings at the M. E. Church are still going on. The services last week, by Rev. Mr. Holden, were very instructive, and good was accomplished. Rev. Mr. Byrd arrived from Morehead City Monday morning and will assist the pastor, Rev. Mr. Rose. Four additions up to this writing. Much interest has been taken in the meetings by all our business men and citizens, the stores being closed and business suspended during the morning service.

Excitement in Texas.

Great excitement has been caused in the vicinity of Paris, Texas, by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of Consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds.

Trial Bottles of this Great Discovery for Consumption free at Hancock Bros.

FOREIGN NEWS.

A MONSTER ELECTRIC TOWER.

PARIS, April 24.—An iron tower 984 feet high is to be erected on the grounds of the coming Paris International Exhibition. The tower will be supported by four pillars which will be higher than the towers of the Cathedral of Notre Dame, which have an altitude of 295 feet. The structure will cost \$1,000,000 and will be surmounted by a powerful electric light that will be visible, it is believed, as far as Dijon, which is 197 miles southeast of Paris.

STILL ANOTHER PASTEUR PATIENT DIES.—PARIS, April 24.—The Russian woman who was bitten by a mad wolf, and who had been under treatment by M. Pasteur for the prevention of hydrophobia, died today of the malady. The failure of the treatment in her case is ascribed to the delay in its commencement.

Prof. Roscoe, the celebrated English chemist, and four other British medical scientists, have arrived here to study M. Pasteur's system of inoculation.

ORANGEMEN AND CATHOLICS.

GLASGOW, April 24.—A collision between Orange and Catholic roughs occurred after the holding of a Loyalist meeting here yesterday. Four arrests were made. At a later hour an Orange mob attacked a Catholic chapel which was crowded with worshippers and smashed all the windows. The few police who were present were powerless to prevent the mob's work of destruction. The priest, conducting the services in the chapel, ordered the doors to be locked and thus prevented the mob from doing further mischief.

Ernal Items.

The young folks anticipate having a picnic at poplar spring, near Ernal May 7th.

Farmers are having splendid weather for cotton planting, and they are making good use of it.

Quite sickly in the vicinity of Ernal with bad colds; it appears to be an epidemic; hardly one has escaped the direful malady.

No deaths or marriages in the immediate neighborhood, but at Vanceboro Miss Sallie Buck and Mr. George Langley were made one on the 21st inst.

Fire broke out in the woods here from some unknown cause, and would have burned the fences of F. Jackson but for the assistance of accommodating neighbors, Brooks, Miller, Tinner, Wilcox and Chase, who ran with all their might to his rescue. They succeeded.

Mr. A. O. Warren preached at Kitt Swamp last Sunday in Mr. Holton's stead. His discourse was most excellent. There is some hope of this place being much improved in the near future; lands are being cleared, merchandising going on, and a schoolroom built will add lots to the place.

The London Truth fears that overdressing is a constitutional defect in America; this may be so, but there is one thing England cannot help acknowledging,—that we have the greatest remedy for asthma ever known—Dr. Bull's Cough Syrup.
