A delightful rain yesterday.

H. B. Duffy makes an announcement in his column.

The schooner J. B. Anderson, Capt. James Boone, arrived yesterday from Philadelphia with a cargo of coal for Watson & Daniels.

The steamer Elm City was brought up on Tuesday night by the steam tug Saxon and her shaft taken immediately to the machine shops for repairs. As soon as completed she will resume her schedule.

Mr. J. V. Williams, General Manager of the Elm City, requests us to state that the purser of the Elm City had collected no fare from the passengers on board the boat when the accident happened on Monday night, and that the money they paid for passage on the Shenandoah back to the city was paid back to them by him.

Personal.

Mr. and Mrs. Phil. Sondheim of New York are in the city for a few days. They have been spending the winter at Aiken, S. C. Mr. Sondheim visited the Cotton Exchange yesterday. He is connected with a firm in N.Y. who are large dealers in cotton. Mrs. Sondheim is a niece of Mrs. Jos. Schwerin.

Miss Sarah A. Jerman, of Jones county, is visiting relatives in the city.

John E. Woodard, Esq., of Wilson, was attending the district court yesterday.

Mr. D. R. Jackson, of Kinston, was in the city yesterday.

Serious Accident.

Mrs. Disoway, living on East Front street, while standing on her back porch yesterday with her hands resting on the banister rail, the rail broke and she fell to the ground, a distance of eight or ten feet, breaking both wrist and badly bruising her face and body. Dr. Hughes was called to her assistance and at last accounts she was doing as well as could be expected under the circumstances.

Mrs. Ida Seren.

The "singing reader," Mrs. Ida Seren, appeared at the Theatre last night with a new program and gave a very satisfactory entertainment. She has come fully up to the recommendations that preceded her. Her singing and reading are very fine and entertaining. Those who had the pleasure of hearing her will want to hear her again. The music rendered by Miss Ascherfeldt on the piano added considerably to the entertainment.

The District Court.

Court convened yesterday morning at 10 o'clock. The following cases were disposed of:

U. S. vs. Asa Waller, illicit distilling; guilty. Judgment suspended on payment of cost.

U. S. vs. C. E. Palmer, embezzlement. This is the case given to the jury on Tuesday evening when, on account of the serious illness of one of the jurors, a mistrial was made. A jury was again empaneled and a verdict of not guilty rendered.

U. S. vs. George Jones, illicit distilling. Defendant submitted and appealed to the mercy of the court. Judgment: Pay a fine of one hundred dollars, and be imprisoned for six months. He will be confined in the county jail of Jones county.

This closed the docket and the jurors were discharged.

Opinion of a Visitor.

Mr. J. Wilkins, of N. H., who spent several days here not long since and made some investments, writes us the following note about New Berne:

The location of New Berne is such that it is destined to improve and advance with good harbor frontage with boats running up the Trent and Neuse rivers bringing the products of the soil here to be shipped to the great markets with the best steamboats and railroad facilities running back into the interior of the State and extending across the sound gives the place an importance which no other place possesses, situated on or near the sound having the privilege of visiting some of the trucking farms in and about New Berne, one finds the advantages of the soil and climate are such that it would be difficult to find a place on the whole Atlantic coast where all facilities are so combined to bring quick returns and make people happy as here. Grapes abound, peaches flourish, cabbage and asparagus follow sharp, then the white cotton fills up the vacuum.

The Stowaway Jackson Monument.

Mr. J. W. Lee, of Danville, Va., arrived last night, and is working in the interest of the Jackson Memorial Association. It is a fact perhaps not generally known that the spot where Gen. T. J. Jackson lies buried is unmarked, save by the simple stone placed there from limited means by his devoted wife. That the grave of such a hero should remain longer without proper testimonials of his courage, daring and self-sacrificing devotion to his country, shows a lack of appreciation on the part of those whose cause he espoused.

Mr. Lee has proper testimonials of his authority to receive donations for this noble purpose, and we trust our citizens will not let him go away empty-handed.

Kinston College.

We have received the catalogue of Kinston College for the year 1885-86; and by an examination of it, find that the college is steadily growing in popularity and usefulness. It is no longer a merely local school; its influence permeates this entire Eastern section, and with its steady growth it will not be many years before it will rank with the old colleges of the State. Its course of study embraces Latin, French, German, Mathematics, English Literature, Rhetoric, English Grammar, Geography, History, Book-Keeping—Allen's Forty Lessons—Music and other primary branches.

During the present year one hundred and sixty-seven students have been enrolled and these were drawn from the States of Florida, Virginia, Texas and fifteen counties of North Carolina. The commencement exercises will begin June 1st and close June 3rd. The annual address will be delivered at 11 a.m. June 3rd, by our townsman, Clement Manly, Esq.

The Principal of the College, Dr. R. H. Lewis, is a gentleman of culture, carries a large stock of good common sense, and has many years experience in teaching. He is a practical man in his business, and has a corps of assistants equally devoted to their profession and thoroughly qualified to fill the positions assigned them.

Dr. Theo. Whitfield.

The Baltimore Baptist pays the following compliment to Rev. Dr. Whitfield who has been called to the pastorate of the Baptist Church in this city:

Dr. Theo. Whitfield is upon the Delectable Hills. A great blessing has fallen upon his church at Goldsboro, N. C. He has recently closed a meeting in which he was assisted by Rev. J. E. Hutson, the evangelist. Thirty-two persons were added to the membership of the church, and the church itself was thoroughly refreshed. What added the finishing touch to Dr. Whitfield's grateful joy was the conversion of two of his children. His family now is a household of faith and his cup overflows with rapture and thanksgiving.

Dr. Whitfield has a drop of bitterness mingled with his joy. He has lately accepted the care of the Baptist Church at New Berne, N. C., and writes very sadly of the necessity which is soon to separate him from his beloved charge at Goldsboro. If we were the Captain-in-chief of the Southern Baptist host we would be strongly tempted to break up that New Berne arrangement and put Dr. Whitfield in the field as an agent for Foreign Missions. We know no other man whose heart is so thoroughly in the work, and if he was abroad among the churches it would be greatly to the advantage of our board.

IS A STEAM MILL A VESSEL?

OPINION OF JUDGE SEYMOUR.

MAYER & CO. VS. STEAM SAW-MILL ACTIVE. Eastern District of N. C. In Admiralty. Opinion.

Seymour, J. This is a libel against the structure known as the "Steam Saw Mill Active," brought by seamen and material men for services and supplies. The only question for decision arises on a special plea to the jurisdiction of the court, interposed by the claimants. It is, is the thing seized the subject of admiralty jurisdiction in an action ex contractu.

The steam saw-mill Active is a barge upon which has been erected a saw-mill. It was intended to be used, by being towed from place to place, in sawing up logs wherever they might be most accessible, and converting them into lumber, and has the capacity of carrying several thousand feet of the lumber so made.

The fact that the barge had no motive power, and could be moved only by some other vessel, has after some hesitation been held by the admiralty courts to be immaterial—a lighter, *The Gen. Case*, 1 Brown 344; a floating elevator, *The Hezekiah Baldwin*, 8 Ben. 566; a floating dock, *Jerome v. Floating Dock*, 3 Hughes 508; a canal boat, *The Kate Tremaine*, 5 Ben. 60; a pile driver, *Kearney v. Pile Driver*, 3 Fed. Rep. 246; a dredge, *The Alabama*, 19 Fed. Rep. 544; have all been held subjects of admiralty jurisdiction.

On the one hand a steamboat intended to be used as a saloon and hotel has been held not to be a vessel, and on the other, a floating construction used as a traveling theatre to be one. *The Hendrick Hudson*, 3 Ben. 413. The true test is not, whether the construction can float, but, whether it is intended to be moved from place to place by water. Admiralty jurisdiction extends to things moveable, engaged in

navigation or commerce on navigable water. The Rock Island Bridge, 6 Wal 216. The Hendrick Hudson did not come within it because it was intended that it should be stationary. The Steam Saw-Mill Active does, because it was intended that it should be towed from place to place according to the exigencies of business. She was a barge before becoming a saw-mill, and is one still, with a saw-mill placed upon her deck, and she is as much designed for navigation as she was before the saw-mill was superadded to her. All the reasons for exercising Admiralty jurisdiction over her still exist. She employs seamen, navigates from place to place, is liable to marine accidents, and to the need of salvage services,—and her credit as a vessel may be essential to her preservation. The *Hezekiah Baldwin*, 8 Ben. 559. The plea to the jurisdiction is overruled.

BRIEFS.

The Pacific mail steamship, "Honduras," has been wrecked.

The "wet" ticket was carried at Richmond and Lynchburg by a strong majority.

An American fishing vessel is reported to have been seized off Cape Breton, Canada.

Little Greece has acted upon the advice of the Powers and decided to disarm at once.

Geronimo, the leader of the Apaches, has been doing more bloody work. This time it was in a Mexican settlement.

Booth and Salvini appeared together in "Othello" at New York. Though reserved seats went at \$4, the theatre was fairly packed, and it was pronounced the greatest performance ever given in this country.

Ex-Minister Wallace is in favor of changing the name of our country from "United States" to "America." The latter is the passport for citizens of this country in Europe, where the name United States is seldom used.

Boot blacks in Louisville have struck against five cent shines. They say they want ten and will make it unpleasant for the boy who doesn't demand it. The following manifesto has been issued: "Not a boy don't black no shoes no more for 5 we will not black no man at that price ten cents the price."

A correspondent to one of the Northern papers writes that "Pilot Knob," this State, bears a close resemblance to the great Egyptian Sphinx. He describes it like unto a gigantic lion with head reared as if in the act of rising. The head is of solid rock, several hundred feet in height, with shoulders and breast that are finely proportioned, and at a few miles distant it looks like a thing of life and intelligence. It stands fifteen hundred feet high and can be seen fifty miles away.

Congressional Work.

SENATE—April 26.—Hon. Washington C. Whitthorne, appointed to fill the vacancy caused by the resignation of Senator Jackson, was sworn in. Mr. Hoar thought as the appointment was for Senator Jackson's term the credentials should read "until the meeting of the Legislature."

Mr. Harris said the credentials in using the word "term" referred to the term "as fixed by law." The credentials were filed.

A bill was passed extending the time for the completion of the records of the clerk of the Commissioners of Alabama claims.

A bill was reported by Mr. Harris making an appropriation to complete the public building at Jackson, Tenn.

On Mr. Harris' request the bill was at once passed.

Mr. Blair then addressed the Senate on his proposed constitutional amendment prohibiting the manufacture of alcoholic liquors as a beverage. Mr. Blair treated the subject at great length. Discussing the question in its legislative, as well as its economic and moral aspects, he thought it the proper time for the prohibition idea to assume control of national parties—at least the Republican party. That party, Mr. Blair maintained, in conclusion, would yet concentrate its tremendous energies and perfect equipment upon this gigantic national evil until the evil was destroyed.

HOUSE—Mr. Coff reported from the Committee on Public Lands a bill to forfeit the lands granted to the State of Michigan to aid in the construction of the Marquette and Gutsenogon railroad, and it was placed on the calendar.

The call of States for the introduction of bills was then proceeded with, and the following bills, among others, were introduced:

By Mr. Springer—To establish a department of labor, and to create a board for the arbitration of controversies between labor and capital.

By Mr. McComas, of Md., by authority of the select committee—To investigate disputes between mine owners and miners in the coal regions of Pennsylvania, Maryland and West Virginia.

The House then went into committee of the whole, and the consideration of the river and harbor bill was resumed.

What Can Be Done.

By trying again and keeping up courage many things seemingly impossible may be attained. Hundreds of hopeless cases of Kidney and Liver Complaint have been cured by Electric Bitters, after everything else had been tried in vain. So, don't think there is no cure for you, but try Electric Bitters. There is no medicine so safe, so pure, and so perfect a Blood Purifier. Electric Bitters will cure Dyspepsia, Diabetes and all diseases of the Kidneys. Invaluable in affections of Stomach and Liver, and overcome all Urinary Difficulties. Large bottles only 50 cts. at Hancock Bros.

Kinston Items.

Mr. J. P. Cox shipped the first peas on the 28th, and he says they are full, and not simply hulls.

Miss Hennie Patrick has recently returned from Pitt county, where she has been teaching.

Rev. Mr. Ray of the State Board, preached at the Baptist church Wednesday night, April 28th.

Mrs. Sue Leggett and a gentleman from Nash county were married at Mr. Thad Askew's, April 27th. When it was mentioned, we guessed a Lenoir county widower, but we are not a prophet nor the son of a prophet.

A gentleman from the North passed down the road last night to marry Miss Nancy Manney, Beaufort, N. C. They courted when young, but were prevented from marrying. She is now sixty-five and he perhaps older, neither having married.

The Lenoir county teachers' association meets at the Graded school building on Saturday, May 1st. Let every teacher in the county attend and receive or give some thought to help in the schoolroom. A good bill of fare has been prepared, and there will be enough for all.

A most brilliant marriage ceremony was performed at the Episcopal church on Tuesday morning, 8 a.m. April 27th. The contracting parties were Dr. B. L. Long, of Hamilton, N. C., and Miss Sallie Miller, one of our most lovely and highly esteemed young ladies. They were attended by ten of their friends, all of whom entered into the spirit of the occasion, some of them showing more feeling (excitement) than the bride and bridegroom. The Doctor and his lovely bride left on the morning train, accompanied by a few friends and the best wishes of many relatives and loved ones. A reception was held at Mr. G. E. Miller's on Monday night, at which Mr. Robeson, of Goldsboro, and Mr. Lamb did their full share to render the time enjoyable to all; and so universal and incessant was the pleasure that the midnight hour came ere anyone thought of the time.

Was It Cancer?

I have been taking B. B. B. for six or seven weeks for something like cancer on my neck, and I would not take ONE THOUSAND DOLLARS for the benefit I received.

I had previously tried various so-called blood remedies, but the B. B. B. is the best, the quickest and the cheapest blood purifier I ever used. I refer to any merchant of Griffin, Ga.
