**THE TRUCKING DISTRICT OF NORTH CAROLINA.**

Col. B. S. PARDEE writing from New Berne to the Baltimore Manufacturer's Record says:

This section of the State owes to a merchant of New Berne, Mr. Geo. Allen, a debt of gratitude for originating this important and profitable industry. Fifteen years ago the people here bought their early vegetables and their strawberries from cultivators elsewhere. Mr. Allen, convinced that they could share in this profitable trade, sought by precept and example to induce his fellow citizens to adopt his view. At first it was uphill work, but the few who took his advice were so amply repaid that ere long the business was established on a permanent footing.

I was taken, today by Mr. Green, of the banking firm of Green, Foy & Co., out into the heart of the trucking district in this immediate vicinity. This was the first general pea-picking of the season. There were fields of from fifty to one hundred and fifty acres in extent green with vines, and dotted over with bands of industrious pickers, while by the side of the cart paths were piles of crates, and at intervals at the ends of the row were those that had been filled, standing on end ready for the stencils. Mule carts laden with full crates were encountered on the highways, while others were in the fields receiving their loads. Whenever a crate was filled the picker received twenty-five cents from the superintendent, and went back to the row with an empty basket and happy face to resume her occupation. At least two thousand women and children were at work today, to whom was paid—a quarter of a dollar at a time—not less than \$1,500. The steamer Shenandoah took away 4,000 crates this evening; the railroad half as many more, most of which will be delivered in New York Monday morning, and before this letter is published from \$10,000 to \$12,000 will have been received here for this day's shipments. Turnips, cabbages and Irish potatoes will follow the pea crop in rapid succession, and, as during this week there were two days of rain, all these vegetables are looking well, and give promise of a speedy and abundant crop. The most forward potatoes are now about the size of pullets' eggs, and cabbages are beginning to head.

The branch house of Moore & Brady, of Baltimore, has done a fine business in canning oysters here during the season which ended last Wednesday. They have put in some very fine pear canning machinery this spring, and will commence that branch of their business at once. This firm secured from the city, at a nominal price, the lease for 99 years of an extensive frontage on the Neuse river, where they put up a large building and a wharf. With their shells they are constructing wharves and slips, which will, in a few years, be completed and give them a very large place for the transaction of their business.

The extensive establishment of the S. H. Gray Manufacturing Company, at the mouth of the Trent river, opposite this city, is the most conspicuous group of buildings in view of travellers coming, by steamers, from Albemarle Sound. In these buildings are made millions of wooden plates for grocers, pie dealers and picnickers. Here also are the pulp works, where cypress logs are torn into small fragments by a peculiar machine, and these are drawn by an air blast into the great cauldron where they are boiled to a pulp. This is pumped into a huge tank, and stirred in water until free of all dirt, when it is run out into a paper machine,

deprived of most of its water, reduced to the desired thickness, and then carried to the dryer. The system employed was invented by a Swede, Beckmann by name. This establishment represents an investment of \$65,000. New and costly machinery has been ordered, which will add considerably to that sum. One of the buildings is two stories high, and 200 feet long by 40 feet wide; another is 80 feet long, of the same width as the first, and 3 stories high. A laboratory and a brick kiln, for roasting magnesite, are also parts of this establishment. The pulp has been pronounced by experts the best they have ever used. It is simply a mass of minute, but very tough fibres, that look under the microscope like the finest and whitest of wool. This will make a new demand for cypress—a timber that abounds in these lowlands and often attains immense size. Doubtless the success attending this new enterprise will lead to many like it in the coast counties of the South.

**A Captain's Fortunate Discovery.**  
Capt. Coleman, schr. Weymouth, plying between Atlantic City and N. Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for Consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast. His children were similarly affected and a single dose had the same happy effect. Dr. King's New Discovery is now the standard remedy in the Coleman household and on board the schooner. Free trial bottles of this Standard Remedy at Hancock Bros. Drug Store.

The Pittsburgh Ministers' Association the other day decided in favor of boycotting Sunday newspapers and retail liquor stores. Then they stopped a resolution condemning the boycott as "a method of coercion unmanly and cowardly, subversive of the fundamental principles of justice and equity and utterly repugnant to the spirit of our civil and religious institutions." One of their number called attention to this fact, and urged that the ungodly might charge them with inconsistency; but the resolution was put through just the same. It makes all the difference in the world whose ox is boycotted.

**ECONOMICAL CHINAMEN.**—Living among the humble classes of Chinese working in San Francisco is very cheap. A man who earns only four cents a day will live on two cents and two meals; the remaining two cents will pay for the shelf on which he lies at night and what clothing he may need. For ten cents a day a Chinaman can get in Chinatown two meals of rice, salt fish and vegetables, and wash each meal down with a cup of good Cargon. Ten persons eating twice a day of two kinds of meat and vegetables, and the never absent rice and tea, can board for \$1.25 each a month.

Why is it that the girl with the biggest feet always wants to play Cinderella? We don't know; but we do know that the best remedy for coughs and colds is the far-famed Dr. Bull's Cough Syrup.

**DUFFY'S COLUMN.**

**BARGAIN**—"A gainful or satisfactory transaction."—Webster.

We repeat with emphasis, everything formerly mentioned in this column calling attention to the many "Bargains" with which our store is packed from the bottom to the top, and after reading the above definition of this much discussed word, we hope, if you want "gainful or satisfactory transactions," that you will visit our "Bargain Store." We invite the public to inspect, compare, and judge for themselves, quality at all times considered.

We have cheap or low-priced goods for those wanting goods of such character, and medium or fine goods for those wanting such kinds, but do not discriminate against any class of trade. Our store is for the public, and we at all times welcome any in search of Bargains. As to competition with the "large and imposing houses that are in our city," we would say that our building is much smaller than we would like it to be, but if you compare what is in it, with other stores, think you will decide that goods with us are abundant. We are grateful and thankful for past favors, and a continuance of your valued patronage is most earnestly solicited.

**FOR FRIDAY AND SATURDAY:**
