large hams 11 cts. small ones 12c., at
m12 1w K. R. JONES.

FRESH STRAWBERRIES every day at
JOHN DUNN'S. 11 3t

Business meeting of the Y. M. C. A.
tonight.

The City Marshal has begun the work
of subduing the grass and weeds on the
streets.

The steamer *Experiment* arrived
from Baltimore last night with a cargo
of merchandise.

Remember the bazaar Thursday night
at the McLean building. A pleasant
time is anticipated.

A large force was engaged at Moore
& Brady's cannery yesterday. They
are now running on peas.

The steamer *Neuse* took out a large
cargo of general merchandise for Kin-
ston and other points yesterday.

Mr. Walter Willis has shown us a bean
two and one-half inches in length. This
crop will be ready for shipping in a few
days.

The trustees of the New Berne Academy
will hold a special meeting at the
President's office this evening at 4
o'clock.

The Gaston House veranda is being
repaired so as to present an appearance
more in accord with the excellent fare
the proprietor is now extending to his
guest.

The corner stone of the Confederate
monument at Washington, N. C., will
be laid today by F. H. Busbee, G. M. of
Masons, he having called a meeting of
the Grand Lodge for the purpose.

The *Shenandoah* carried out a large
shipment of cabbage yesterday. The
trucks are about done shipping peas;
the Norfolk truckers having begun to
ship, the price for New Berne peas will
not justify the producers in shipping.
Most of the picking now is for the can-
ners.

The fire alarm was sounded yesterday
morning about 3 o'clock and the depart-
ment dashed out with its usual prompt-
ness to find a small tenant house on
Norwood street, near the Western
end of Pollock, on fire and
nearly consumed before they
could reach it. The house belonged to
O. Guion, Esq., and had only one
hundred dollars insurance on it. The
department was in time to prevent the
spread of the fire which was very invit-
ing, a strong breeze springing up about
that time.

Old Coin.
Mr. J. E. Delemar, of Pamlico county,
called yesterday and exhibited an old
copper coin, a British farthing coined
during the reign of George III. It was
found while digging compost in his
yard about three inches from the top of
the ground. He also exhibited an old
one cent piece, U. S. money, issued in
1798.

Journalistic Improvements.
The *Western Sentinel* comes to us
much improved in size and make up.
The first number of the enlarged edition
contains the opening chapter of "Just
After the War," a story of the South,
written by Miss Eleanor M. Jones, of
this city, which is cut in two by one of
those horrible woodcuts that now de-
face so many of the newspapers, and
which we fear will be taken by some
readers as the hero of the story.

The *Greensboro Patriot* has enlarged
and improved. It is a splendid weekly
paper and looks well in its old age.

Personal.
Mr. E. Gerock is attending the Grand
Lodge of I. O. O. F., which is in session
at Goldsboro.

Capt. S. H. Gray has returned from a
visit to Providence, R. I.

Mr. Chas. H. Westcott and family left
for their home at Chestertown, Md.

Miss Lillian C. Roberts left on the
Shenandoah yesterday for a visit to
relatives at the North.

Mr. and Mrs. T. A. Henry arrived from
New York last night.

Messrs. E. W. and S. W. Smallwood,
J. H. Hackburn and J. W. Moore left
for Washington yesterday to attend the
laying of the corner stone of the Con-
federate monument which takes place
today.

Col. Hall, with his accomplished
daughter, left for their home at Wil-
mington yesterday morning. The Col.
has done a public service in the address
delivered on the "Battle of New Berne."
It has long been wanted.

ADVICE TO MOTHERS.
MISS WINSLOW'S SOOTHING SYRUP
should always be used for children
teething. It soothes the child, softens
the gums, allays all pain, cures wind
colic, and is the best remedy for diar-
rhoea. Twenty-five cents a bottle.
Jan 3d 4th 2w 1y

A New Road.

The A. & N. C. R. has commenced a
road, under the superintendence of
Capt. J. J. Robertson, from near Dover
across to the Beaver creek section of
Jones county. The distance is only
about three miles and it will tap one of
the finest farming sections of Jones
county, a section where the farmers
have to haul their cotton and other pro-
duce from ten to fifteen miles. The
President of the railroad is extending
aid to the citizens in that section, who
desire this road with the expectation of
making it a good feeder.

We know nothing about railroading,
and therefore dislike to make sugges-
tions to those engaged in the business,
but it strikes us that the President's
idea about aiding in the construction of
these public roads is a good one, and a
practical one. It is a step towards de-
veloping the country along the line and
consequently increasing the business of
the railroad. With a number of these
roads reaching out into the good farm-
ing sections, and with reasonable
freights both farmers and railroads will
be materially benefited. In the Beaver
creek section of Jones county the people
have been hearing the whistle of the
train while at work on their farms for
over a quarter of a century, yet they
have to haul their products, many of
them, fifteen miles to get to a shipping
point. This ought not to be.

How He Totes Himself.

Solomon Stafford was arraigned before
Justice Watson yesterday to answer a
charge made by his wife, Caroline Staff-
ord who wanted him placed under
bonds to keep the peace. After Caroline
had told her story the court decided that
Solomon should pay the cost and give
bond in the sum of fifty dollars to keep
the peace towards all citizens for six
months and especially toward Caroline.
"Who do you offer as bondsman?"
asked the justice.

"I will stand my own bond," replied
Solomon.

When he was made to understand
that this would not be in accordance
with law, he replied:

"I don't know nothing about the law,
I always tote myself in a way not to get
into law. Neber had but two cases in
law in my life. What must I give bond
for?"

"To keep the peace," replied the jus-
tice.

"Keep the peace how?" replied
Solomon.

"Towards all citizens of the State,
and especially Caroline Stafford."

Solomon pleaded that he could have
the money for the cost by Saturday,
and that if the court would not allow
him to stand his own bond, he would
try to get some one else to do it. A com-
mitment was placed in the hands of
the constable, who was instructed to
carry Solomon to the Rodgers house on
Craven street, if he failed to give a sat-
isfactory bond and make arrangements
for the cost.

Hookerton Notes.

Our town is enlivened by the throng
of ladies seeking new spring robes.

We were pleased to see the smiling
face of Sheriff Harper in town recently.

Miss Ara Hall, who has been teaching
for Mr. Wm. Coward, left last week for
her home, in Orange.

Miss Jennie Jordan left last week for
her home in Orange, after spending
sometime in our midst.

The river has been increased by the
recent rains, so we have been enlivened
by the music of the whistles.

Mr. Joseph Tilghman shot and killed
an eagle at Mr. Hooker's mill sometime
ago that measured 6 feet from tip to
tip.

Dora Jones, of our town, who has
been teaching in Pitt, will resume her
work again very soon. Miss Dora is an
excellent teacher and we wish her
much success.

We had quite an enjoyable excursion
on the steamer *Carolina* on the 5th from
Snow Hill to Edwards' bridge. Quite
a number of young people, as well as
the aged, boarded the boat at Snow
Hill and Hookerton with well-filled
baskets and pleasant faces, both making
the trip more enjoyable. The *Snow
Hill* band furnished music for the occa-
sion.

Decoration Day

At the National Cemetery, May 30th.

All persons interested in the observ-
ance of this day, will please meet at the
store of Maj. Palmer, on Thursday next
the 13th inst., at 4 o'clock p. m. to make
arrangements for the occasion, and or-
der of the day.

On the 30th, the public is cordially in-
vited to attend at the cemetery at 8
p. m.

A Bad Fix.

Thousands of men and women all over
the country are silently miserable,
while the outside world think you have
no cause to grieve. But, ah! We pro-
nounce no anathemas against any other
remedy, but we assert that one single
bottle of B. B. B. will do more in the
cure of any case of blood poison than
twelve bottles of any other. Our book
is free and it tells the tale. Address,
BLOOD BALM CO., Atlanta, Ga.
Sold in New Berne by E. N. Duffy
and E. H. Meadows.

BRIEFS.

In most of the Southern States the
prospects of a large fruit yield is prom-
ising.

Jones and Small have closed their first
week of meeting in Baltimore with no
abatement of interest.

Greece is spluttering again. The for-
eign ministers have left Athens and
troops are being pushed to the frontier.
The lower court has been fully sus-
tained by the higher and there no
longer remain any hopes for Cluveria.
The death of a sea captain recently
was ascribed to blood-poisoning, caused
by his vessel carrying a cargo of nitrate
of soda.

Since the very serious troubles with
strikers in Chicago, Milwaukee and Bay
View, it is thought that the troubles are
about at an end.

Estimates in New York place the
number of men throughout the country
engaged in the eight-hour movement to
be between 350,000 and 400,000.

Joseph C. Barrett of Newport, Pa.,
while working in the woods, hung his
vest on a bush. The woods caught fire
and when Barrett went for his vest
nothing could be found save his gold
watch which had fallen to the ground
and was steadily ticking in spite of the
fire.

It has been remarked that American
people invest more money in farming
implements than any other nation in
the world, and especially does this seem
so in the South, that is, individual
farmers buying costly machinery only
to be used a short while in the season
and the balance of the season to lay up
and rest. Improved machinery prop-
erly applied, and the State of Kentucky
might be cited where it is done, will
prove advantageous. Farmers in that
State combine in sections for the pur-
chase of costly machinery such as mow-
ers, threshers and the like, and by pitch-
ing their crops so they may be harvested
at different periods, they are thereby
not only enabled to put less money in
implements, but get a great deal more
work out of them which is hardly more
injurious than remaining idle.

Jones County Items.

Cool weather and the worms are
playing havoc with the crops.

We hear considerable complaint
of a bad stand of melon crops.

Mr. F. S. Koonce, of Cypress
creek, says he has a chicken with
four legs.

The indications are that the
honey suckle crop will be more
abundant this spring than usual.

William McDaniel is done chop-
ping out corn, and commenced
chopping out cotton last Thursday.

Your itemizer has new Irish po-
tatoes as large as hen's eggs that
were planted the last week in Febru-
ary.

I have noticed that some one in
our county has started a new enter-
prise, getting white oak staves, as
I have seen several piles of them
near the bridge at Trenton several
times.

Mr. John P. Gray says that the
bears are in his neighborhood and
have nearly killed a fine sow for
him; says that he supposes it was a
young bear from the wounds in-
flicted.

At the town election on the first
Monday in May, the following gen-
tlemen were elected officers for the
ensuing year: Mayor—W. E.
Ward, Commissioners—C. C.
Green, R. L. May and Dr. Rom
Whitaker. Constable—I. H. Pol-
lock.

Two of our worthy and excellent
citizens had a controversy in law
before a magistrate over the small
sum of \$5, and each of the litigants
had a lawyer to attend his case.
Would it not have been better to
have referred the case to a couple
of neighbors and let them settled it
instead of the lawyers! [If this
was done in every case, what would
become of the lawyers!—Ed.]

The Prohibition party met at
Trenton on Saturday last and or-
ganized by appointing a central
committee of five and transacting
other business. We were present
and noticed that there were but
three persons that participated in
the proceedings. We are a little
curious to learn how it is that there
was such a slim attendance on this
occasion, as there were several who
claim they will vote with the dry's
in the town, and yet they would
not even attend.

Mr. Louis Haywood says that
Mr. G. W. Koonce, of Cypress
creek had on his plantation a little
pond with no outlet to drain it, so
he concluded to sink a well in its
centre to drain it. After digging
about eight feet he came to an old
well curb which on examination
proved to be fat lightwood in an
excellent state of preservation,

which he utilized and cleaned out
a distance of several feet and found
it set on a bed of rock, and whoever
first dug it had picked through the
rock a hole about 18 inches in di-
ameter and at the bottom of this
well was found the hull of a peach
kernel perfectly solid and a small
toy wheel which soon fell to pieces
after striking the air, and the handle
of an old bone handle case knife,
which was very large and in good
preservation. No one in the neigh-
borhood had any idea of a well ever
being in that pond. Old man
Killis Koonce, who is over 80 years
old, has no recollection of a well
nor a house near the pond. But
Mr. Koonce has succeeded in drain-
ing the pond.

Southern Baptists.

MONTGOMERY, Ala., May 8.—The sec-
ond day's session of the Southern Baptist
Convention shows an increase in
attendance.

This morning a report was adopted
providing for raising \$10,000 to be ex-
pended in evangelizing the colored race
in the South. The discussion of the
means for better reaching the colored
people was long and interesting and
consumed most of the morning session.
An event of the discussion was a speech
by the colored pastor of the colored
Baptist church in Chattanooga.

In the afternoon session the report on
the resources of the Home Mission
Board was adopted. It recommends
the raising of \$55,000 to carry on the
transfer of the Sunday-school paper
Kind Words from Macon to Atlanta.

A missionary mass meeting for home
missions was held tonight. Many fine
addresses were made.

Distinguished Baptist ministers will
occupy most of the pulpits tomorrow.

On Monday discussion of the foreign
mission report comes up.

It is a strange fact that the strongest
minded women shrink from being
caught in their own night-caps, but
they never hesitate to declare their
exalted opinion of Dr. Bull's Cough
Syrup that has cured innumerable
coughs and colds.

Cypress Creek School.

Closing exercises of Cypress creek
school, Jones county, this year, will be
on the 16th and 17th June.

Exercises on the night of the 16th,
commencing at 8 o'clock consist of
dialogues, etc. On the 17th, commencing
at 8:30 a. m., readings and declamations
by the school.

Afterward Mr. J. D. Stanford, of
Duplin county, will deliver the annual
address.

We will then expect the noon's repast
which our kind patrons and friends
must not forget to provide.

Through the kindness of the editor
we invite all our friends to meet with
us.

"Cowards are cruel!"—but the brave
man won't drive a suffering horse. He
will buy a bottle of Salvation Oil and
invariably cure his animal.

Crop Report.

WASHINGTON, May 10.—The May crop
report of the department of agriculture
indicates an improvement in wheat dur-
ing April of 2 points, with a general av-
erage of condition of 95. There is no
marked change anywhere, but a slight
advance is noted in the Ohio valley. The
Missouri, Texas, Tennessee, Carolina,
Virginia, and Maryland May average
last year was 70. The season
has been favorable and the crops
are more advanced than usual. Aver-
ages in the principal States are: New
York, 96; Pennsylvania, 95; Ohio, 97;
Michigan, 91; Indiana, 93; Illinois, 92;
Missouri, 101; Kansas, 67. The condition
of rye averages 96, barley, 97. Cotton
planting has been delayed by the
rains on the Atlantic coast, and by over-
flows on the Gulf coast. The proportion
to be planted in May averages 20 per
cent. In averages this year's proportion
does not exceed 14 or 15 per cent. The
stand is necessarily defective on the wet
lands, but replanting is rapidly filling
gaps. The proportion already planted
are as follows: North Carolina, 73;
South Carolina, 82; Georgia, 83; Florida,
94; Alabama, 80; Mississippi, 76; Louisi-
ana, 77; Texas, 84; Arkansas, 75; Ten-
nessee, 77.

His Bones Protruded Through the Flesh.

A prominent Alabama physician said:
"A patient who was almost dying from
the effects of Tertiary Syphilis and who
had been treated by several noted phy-
sicians without benefit, used one dozen
bottles of B. B. B. and was entirely
cured. He had ulcers on his arms, and
the bones protruded through the flesh
and skin at the elbow, and death seemed
inevitable."
Sold in New Berne by R. N. Duffy
and E. H. Meadows.

MARRIED.

At the home of the bride's parents,
near Swansboro, Onslow county, on the
evening of the 5th of May, 1886, by Dr.
W. G. Montfort, Esq., Mr. Levi Fulcher
of Hull Swamp, Carteret county, to Miss
Maggie A., eldest daughter of Elisha W.
Freeman, Esq. The attendance were
Mr. Willie Bell and Miss Ida Pittman,
Mr. Lewis Fucher and Miss Hannah
Russell, Mr. Sam'l Thomas and Miss
Lou Freeman, Mr. E. W. Freeman, jr.
and Miss Lillian Dudley.

A large concourse of friends assembled
to witness the ceremony of the happy
couple, to whom we extend our best
wishes. We certainly congratulate you,
friend Levi in your good luck in suc-
ceeding in capturing for yourself such a
beautiful and lovely being for your
bride, and you, Maggie, may your
future life be as lovely, calm and serene
as the goddess of purity, prosperity and
fidelity.
G. W. W.

COMMERCIAL.
