### BUSINESS LOCALS.

Just received, by Mrs. S. F. Stanly, a new supply of Boyer's Choice Candles. Mrs. Dillingham's superior Ice Creams served daily at her rooms and furnished on reasonable terms for parties or festivals.

Rather cool yesterday.  
No Raleigh Observer last night.  
Picnic excursions are now in order.  
The street sprinkler makes quite a handsome appearance on our streets now.

The steamer *Defiance* arrived from Baltimore yesterday morning with a cargo of general merchandise.

There is some complaint among farmers about the stand of cotton. The dry weather prevented much of the earlier planting coming up, and many had to replant after rain.

A meeting was held at the Weinstein building on Tuesday night for the purpose of organizing a lodge of Knights of Labor. We have not learned whether an organization was effected or not.

Judging from the orders being made by His Honor Judge Shepherd, there will be a goodly number of farm hands at the jail to hire out. Farmers will take notice and send in their applications.

We published in our issue of 11th the destruction of a tenement house by fire, the property of O. H. Guion. The house was insured in the N. C. Home Insurance Company of this State. The loss was adjusted and insurance paid in full on the 24 inst., less than two weeks after the fire occurred. This is the earliest adjustment and settlement of loss by fire, which has ever come under our observation. The company is represented in this city by Roberts & Henderson.

**Through the Canal to Beaufort.**  
The steamer *Wave*, now refitting at Howard's ship yard, is to run from the Clubfoot terminus of the New Berne and Beaufort Canal, through to Beaufort, Morehead City, Swansboro and points on White Oak river, making connection at Bell's mill, on Clubfoot creek, with the steamer *Cleopatra*. Col. Jno. D. Whitford, in his series of interesting articles on the early history of New Berne, published in the Daily JOURNAL in 1882, mentioned the little steamer *Cordons*, which plied regularly between New Berne and Beaufort, through the old Clubfoot and Harlowe creek canal, forty or fifty years ago. This history is here repeating itself. We shall watch the present undertaking with interest, and wish it the most abundant success.

**Commencement Exercises.**  
We are in receipt of another batch of handsome invitation cards to the commencement exercises of a number of our schools.

**Kings Mountain High School** will hold its exercises on June 4th. Rev. Dr. E. A. Yates will deliver the address. Thanks to Messrs. A. H. White, of Jones county, and J. A. Brooks, of Pitt, for invitations.

The closing exercises of Statesville College will be held on Wednesday and Thursday, June 2d and 3d. Thanks to Miss Everitt for invitation.

The commencement celebration of the Washington Literary Society of the Davis School, at La Grange, will be held on the 9th of June. Hon. S. A. Asho, of Raleigh, delivers the address. Thanks to our young friend D. W. Roberts.

The first annual commencement of Greenville Institute, Greenville, N. C., will be held at Skinner's opera house June 14th. Address by Rev. T. W. Babb.

**Can't Understand It.**  
Mr. J. T. Eaton, of Carteret county, called to see us yesterday on his way from the Shenandoah Valley, Va. He says he found lands could be sold readily in the valley for \$150 per acre, although it is half covered with stones, and people buy it at this price for stock raising. He can't understand, he says, why or how a man can pay such prices for land for stock raising when there are thousands upon thousands of acres in Eastern Carolina as well, and in many respects better, adapted to stock raising which can be bought for a mere song. He says farmers in that country sell their spring lambs on the farm for \$4 to \$4.50 per head.

If Mr. Eaton will allow us, we will suggest that the price obtained for products grown on lands has much to do with the value of said lands. We would like to see the farmer in Eastern Carolina that ever obtained \$4.00 per

head for his spring lambs. But here stock is not fed more than three months in the year and perhaps this is the cause of so much inferior stock which is bound to bring inferior prices. But another question is can't a man afford to raise stock on range for much less money than the farmer who has to feed at least eight or nine months in the year, and can't he raise fine stock at much less cost in a mild climate and plenty of good range. These are the points Mr. Eaton is pressing in favor of Eastern Carolina and we hope he may continue to press them until some one will demonstrate by actual experiment that stock raising can be made a profitable business in Eastern Carolina.

**The Superior Court.**  
Court convened promptly at 9:15 o'clock yesterday morning and work was resumed on the criminal docket. Rapid progress has been made on the docket this week and it is quite probable that it will be disposed of today or tomorrow. Judge Shepherd has a tact for dispatching business that is possessed by but few of our Judges, and we note with pleasure that Solicitor Collins seems to have caught the inspiration and is doing better work than usual. The following cases were disposed of yesterday:

In the case of State vs. Wm. Wilson and Sarah Wingate, F. & A., which was given to the jury on Tuesday evening, a verdict of guilty was returned. They were sentenced to twelve months imprisonment in the county jail, Wilson to serve out his term first, Wingate to give bond for appearance at the expiration of Wilson's term and then serve out her term.

State vs. John Mayo; larceny; not guilty.

State vs. Robert Thompson, alias George Doe; larceny; not guilty; rearrested on capias from Pasquotank county.

State vs. Augustus McCafferty; affray; mistrial; case remanded to J. P.

State vs. Dinah Boyd; larceny; submitted; sentenced to twelve months in penitentiary.

State vs. Jane Forbes; slander; guilty; three months in county jail.

State vs. Southey Blanco; convicted at last term; failed to pay cost; judgment prayed; eight months in county jail, commissioners to hire out.

State vs. Cicero Haywood; same as the above.

State vs. Stepney Lee; A. and B.; not guilty.

State vs. Wm. Woods; larceny; guilty.

State vs. Oliver Randall and Redding Hammond; larceny; not guilty as to Randall, guilty as to Hammond.

State vs. Wm. Whigate; larceny; guilty; twelve months in penitentiary.

Immediately after the recess at dinner the civil issue docket was called and a committee appointed to prepare a calendar.

Court took a recess to 9:15 this morning.

### ADVICE TO MOTHERS.

Mrs. WINSLOW'S SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle. Jan 24th at hawtly

### BRIEFS.

The cable rate war continues. It is now quiet on the Greek frontier. Wilmington is considering a \$60,000 court house.

Evangelist Sam Small opposes church fairs and festivals.

Hail stones as large as walnuts fell during a recent storm in Texas.

The sixty-seventh anniversary of the Queen's birthday, was celebrated in England Monday.

The largest theatre in the world is the new opera house in Paris. It covers three acres of ground and cost over \$2,000,000.

The tables have been turned. A Canadian schooner containing mackerel has been seized at Portland for the want of proper papers.

The great Bartholdi statue is being rapidly placed in position. It is to be unveiled September 3d next, by President Cleveland with grand ceremonies.

Baron de Struve, the Russian minister, who has just returned from a foreign tour, is said to be one of the most popular members of the diplomatic corps at Washington.

It is related that hungry rats devoured a five pound package of yeast cakes some time back in a Northern town, and a few hours later when the yeast worked, the noise of popping rats was heard throughout the land and their fragments strewed the neighborhood.

### Hatteras Inlet.

EDITOR JOURNAL:—It has been a subject of dispute as to what year Hatteras Inlet was opened; whether in 1846 or in 1850. One thing is certain, it was an open inlet in the year 1709, and it so appears on old charts and maps. The map now lying before me was made by Lawson, the early historian and surveyor-general of North Carolina. I copy the following sailing directions for entering the inlet from page 113 of his history: "The inlet of Hatteras lies to the westward of the Cape, round which is an excellent harbor. When the wind blows hard at Nor. N. E., if you keep a small league from the cape point, you will have three, four and five fathom; the outermost shoals lying about seven or eight leagues from shore. As you come into the inlet, keep close to the south breakers till you are over the bar, where you will have two fathom at low water. You may come to an anchor in two fathom and a half when you are over; then steer over close aboard the north shore, where is four fathom close to a point of marsh; then steer up the sound a long league, till you bring the north cape of the inlet to bear S. S. E. half E., then steer W. N. W., the east point of the bluff land at Hatteras bearing E. N. E. the southernmost large hammock toward Ocracoke bearing S. S. W. half S., then you are in over the bar of sand, whereon is but six feet of water, then your course to Pamlicoough is almost west."

### Kinston Items.

Sheriff Galloway is in town on business. The meetings conducted by Ashley S. Johnson, are still going on. 16 have been baptized up to this writing.

The windows are being put in at the Methodist church, and all is being made ready for the district conference, which begins today.

J. L. Hartsfield has a very fancy lot of China and glassware, which he will be pleased to show during commencement week. It makes one think of "ye olden times."

Mr. Mark E. Haskins and Miss M. E. Gooding were married last Sunday morning, May 23d, by Dr. E. D. Harper at Mr. Isaac Gooding's, the bride's father. Success and happiness be with you, my friends.

William Hunter has been in town recently, hailing from Atlanta, Ga. His many friends gladly welcome him. He drums for the sale of coffee, looking after the welfare of the dead, but he is a live man himself, and don't you forget it.

The Disciples have a Union meeting at Rountree's, Pitt county, on next Sunday and Saturday. Ashley S. Johnson, of Tennessee, who has been preaching here for some time; is expected to attend, and important business is to be done.

The county board of education met on Saturday, May 23d. They made an additional appropriation of seventeen cents to each child from two thirds of the funds which have come into the treasury from fines, licenses, etc., since the last appropriation. Of the one third left to be appropriated so as to equalize school facilities, about \$2,000 is now on hand. The board will meet again on Saturday before the first Monday in June to appropriate that fund and do other necessary business. If you are concerned come and let the board know what you want instead of staying home and finding fault of what they do.

Capt. Robt. E. Fisk, of Montana, and Lieut. A. P. Haring, of New York, accompanied by A. J. Yeomans, of New Berne, were in town Saturday. They came to visit the battle grounds about Wise's Fork and other points. Capt. Fisk was in command during the fighting. Some daring Southerner climbed a hornbeam, and taking deliberate aim, shot the Captain. The ball entered his mouth and knocked out a number of his teeth. One of the Captain's men saw the smoke of the rifle, took aim, and shot the Southerner dead. He dropped his rifle, and fell, lodging on a lower limb of the tree. These gentlemen found the very spot and the tree, and cut several sticks from its branches to take home with them that they may not forget this little incident of life.

### Tri-From Harlowe to New Berne.

DEAR JOURNAL:—On our first passage up the Neuse upon the smart little steamer *Cleopatra* we find ourselves with time to give you this little communication. This is an advantage and pleasure which Harlowe has not before enjoyed, but while in a different season of the year we might desire a larger and more commodious boat, still she is fully equal to the present emergency and makes our New Berne trips much more certain and pleasant and the most certain line we have yet had, and we hope for it much success and long existence.

But we promised to say something of our trip. Well, near 10 o'clock we found ourselves at Bell's mill, our nearest landing, where, amid the busy din of our active saw mill, and surrounded by many anxious ones desirous of starting out upon such a pleasant trip with us, but who were not ready, we steamed out and run very quickly out of Clubfoot and were soon beckoned at Taylor's mill, where were in waiting two bales cotton, Irish potatoes for shipment by the Shenandoah and some other general freight; and there we were joined by the Rev. F. S. Becton and Mr. W. G. Temple, the former on his way to the District Conference at Kinston, from where we soon are out on the Neuse and encountering a severe head wind which of course somewhat impeded our progress, as it would any steamer, but still our run was a pretty pleasant and successful one, which after a few hours we were nearing the Slocombs creek station, where we were soon stopping and were joined by Mr. Dillard, his amiable daughter and niece, who for their feminine presence gave that pleasure to our party which only female beauty and character is able to bestow. We found when we arrived at the wharf that we had occupied about the space of six hours, which was though exceedingly pleasant, as we found our party comprised of a Methodist preacher and two Sunday-school superintendents, and how many other such characters we don't know, who very pleasantly occupied a part of the time in discussing Sunday-school and such important matters. On the trip we had the pleasure of one of those most invidious hours, that of eating, and though invited by the captain to dine with him, we were glad to find that we had a sufficient lunch along which our party seemed to enjoy very much, as one had a plenty to eat and a plenty of time in which to eat, and as we, after the pleasant and beautiful run up the Neuse, and on landing at the O. D. wharf, in the City of Elms, we can but feel thankful to Capt. Warren, who seems so genial and anxious for the happiness and comfort of his passengers and we hope to be able to duplicate many such pleasant trips from Harlowe to New Berne with him.

### Great Chicago Strike!

It is generally known throughout the whole country that large strikes are being made among the laboring classes in some of our largest cities, such as Chicago, Philadelphia and New York. Some have been wounded for life and some have lost their lives. The question now arises, what shall be done to keep the peace in Eastern North Carolina? The farmer cannot afford the eight hour system at the present prices of produce, neither is the laboring man satisfied with the present prices of labor. Some relief must be had; something must be done; some one must come to the front and devise some scheme by which the people may be relieved from such a tyrannical oppression. In view of the foregoing facts, and in the absence of any relief from other sources, we suggest that the quickest and most satisfactory way of keeping down strikes and dissensions among the laboring classes of Eastern North Carolina is to make the prices of goods and supplies in conformity to low wages, and in making the suggestion we hereby announce to the public that we propose to act upon it, and direct everybody, laboring classes and all, to the great cheap cash store of Humphrey & Howard, where they will find a large and complete stock of groceries and dry goods at prices. The most vital strike in life is the strike for wages and means which guarantees you perfect satisfaction at the least cost, the strike then for the great cheap cash store of Humphrey & Howard will certainly obtain for you the lowest possible prices, thereby alleviating all past troubles and guaranteeing you peace, prosperity and happiness in the future.—m20dwl

### Harlowe Items.

Our truckers will begin to ship their Irish potatoes this week.

A rain storm last night, giving us a splendid season, which is much appreciated, as it was getting rather dry for crops and pleasure.

The steamer *Cleopatra* came in last Monday with a good freight and left Tuesday, carrying about six passengers and leaving several others who wished to go, but were not quite ready.

Mrs. Bell and daughter, Miss Charlotte, and Miss Clara Bell, who have been on a visit to your city for two or three weeks are expected to return on the steamer *Cleopatra* tomorrow.

Isaac Miller, col. engineer at Bell's mill, while attempting to put the grist belt on this morning, his right hand caught between the belt and main shaft which wrung his hand off above his wrist. Dr. Mason was at once called. He will amputate the arm above the wound. It is a very severe wound; but we hope he will get over it.

The Sunday-school picnic is the grand topic. Our people are doing everything possible to make it a success. All Sunday schools are invited to meet with us on this occasion, the 3d day of June and enjoy the festive day, as are also all who wish to enjoy such an occasion. Many are expected from every direction. We are glad that some of our friends will run an excursion down from your city on that day. We suggest that it would be a pleasant trip for them. A pleasant day spent in Harlowe would, we think and hope, be enjoyed by them. We will not throw out too many inducements in this item, lest we should be held responsible for the pleasure of the day; but come. I feel sure many would enjoy it. Cast off Mr. Editor, your editorial mantle for that day and come; we will be the gladdest to have you and guarantee you a pleasant trip.

"Oh, might I kiss those eyes of fire, Ten thousand scarce would quench desire; Still would I steep my lips in bliss, And dwell as age on every kiss." That young dude needs something for his blood; he is utterly too fresh. B. B. B. is the best thing for him, because one bottle will cure him. But that dude is not all alone in his terrestrial glory—not by a "jug full." Many others are considerably "rattled," just now about that blood poison business, but B. B. B. will cure for the least money, and in the shortest time. The boom is coming. Purify, Purify.

### M. E. CHURCH SOUTH.

RICHMOND, May 24.—The M. E. Conference today passed a resolution that the book agent pay to the bishops and bishops' widows the amounts designated to be paid them annually, aggregating \$31,000.

A resolution was adopted that United States Senators Harris, Whithorne and Morgan be requested to look after the Publishing House claim before Congress.

The Committee on Mission Work reported, approving of co-operation with the Woman's Missionary Society.

A resolution was adopted praying the attention of the President of the United States to the international treaty with China, a disregard of which threatens violence to missions of the church in that country.
