There will be a special meeting of the
M. E. Church, Working Society at the
residence of L. H. Oster, Esq., tonight,
at which time the committee of arrange-
ment for the excursion will make a
report.

The report of the county commission-
ers says that the county treasury is ab-
solutely empty except the school fund
and a few dollars reserved from the
back taxes recently collected, etc. The
treasurer's report posted at the court
house door shows that the county is in
debt to him. Who has the reserve?

Marriage of a Former New Bernian.
The marriage of Mr. Will Manly, the
youngest son of the late Judge Manly,
of this city, to Miss Hughes Kennedy
of Baltimore, took place yesterday
evening at the country seat of her pa-
rents, in Baltimore county, Md.
The mother, sisters and brothers of the
bride were present at the happy event.

Congratulations were wired from
here to which we now add those of the
JOURNAL.

County Treasurer's Report.

The monthly report of the county
treasurer is posted at the court house as
the law requires. It shows that the ex-
penditures for the month of May, gen-
eral county fund, were \$688.72; receipts
from sheriff \$500.95, commissions
charged back thirty-one cents, making
total receipts, \$931.86, leaving a balance
in favor of the treasurer of \$243.14.

The court house fund shows a bal-
ance in the hands of the treasurer of
\$279.00.

Interest paid received during month,
\$725.96; paid out, \$718.60, leaving a
balance of \$6.36.

The report of school fund shows on
hand, at last report, \$39,093; received
since from E. W. Carpenter, \$28.75;
from W. H. Ellison, J. P., \$6.00;
Price, \$1.60; total on hand, \$71,177.

County Commissioners Report.

We publish today the report of the
county commissioners to the board of
justice. It is a somewhat lengthy
document but will be found interesting
to the taxpayers, and could have been
made more so if a few other matters
had been touched upon and explained.
For instance, it would have been a mat-
ter of some interest to the people to
have been informed how much money
was collected on back taxes and how
has it been applied. The magistrates,
one by one, may have examined the
records and satisfied themselves on this
point, but it certainly would not have
done any harm if the commissioners,
who received the money from those
owing back taxes, had embraced this
in their report.

There is one point in the report which
the JOURNAL cannot with proper self-
respect pass unnoted. It is this:
Upon the part of a few not well in-
formed, but otherwise well meaning persons,
daring as heart to subvert what they
consider the true interest of the county,
there has been an outcry against what
they have been pleased to term the
wasteful and unwise ex-
penditures of the commis-
sioners in the management of the county
fund to one who will take the trouble
to impartially examine the records, the
fact appears that in almost every ex-
penditure under the control of the
commissioners, the most rigid economy
has been exercised.

Now it is known in this community
that the JOURNAL made direct charges
against the board for extravagant and
unwise expenditures of the county's
money, & their published annual state-
ment upon the truth. And in
response to a demand from a
magistrate in the county we pointed out
in the annual statement which any
citizen in the county, whose atten-
tion has been called to the matter, anyone
has had to acknowledge with shame.
Now the annual report goes before the

justice and tell them we were not well
informed. Now we admit that these
old foxes around the court house, when
they have been there a good long time
form a pretty close corporation, and it
is right difficult to obtain correct infor-
mation about things that they don't
care to have made public, but it is cer-
tainly unfair for the commissioners to
tell the justices that we are not well in-
formed when we get our information
from their published statement. Now
which was wrong, the published state-
ment or the record? Will the records
show expenditures differing from the
published statement?

The report, as we have said, will
prove interesting to the taxpayers. The
recommendation to the justices to en-
deavor to discountenance litigation and
as few cases up to the superior
court as possible is one upon which
every justice of the county should act.

The report was adopted without oppo-
sition and the commissioners were tri-
umphantly re-elected. Of course they
take this as an endorsement on the part
of the justices of their past services.
This is all right, and good, but we don't
propose that they shall send it abroad
that the JOURNAL made a charge against
them without knowing what it was do-
ing.

Shot Dead.

CHARLOTTE, N. C., June 9.—W. E.
Cuthbertson, a grocer of this city, was
this afternoon shot through the heart
and instantly killed by his son-in-law,
Cyrus Long, a young dry goods clerk.
Two years ago Long married Cuthbertson's
daughter; but the match was so
bitterly opposed by the girl's father
that the couple ran away and were mar-
ried. Since then Cuthbertson had made
repeated threats to kill Long. Long's
baby was sick last week and Cuthbertson's
wife went to see it. When she
returned Cuthbertson gave her a brutal
beating and would probably have
killed her but for the interference of
neighbors. This week Cuthbertson
made threats to kill Long and sent him
word that he intended to shoot him on
sight. This afternoon, as Long was
standing at a tailor's store on Trade
street, Cuthbertson approached when
Long drew his pistol and shot him dead.

Congressional Work.

JUNE 8.—HOUSE.—Judge Kelly, of
Penn., occupied the session today in a
vigorous reply to the speech made by
Gen. Wheeler, of Alabama, Friday, at-
tacking the memory of Edward M.
Stanton, whom he referred to as the
"arch conspirator." He moved to ex-
punge Gen. Wheeler's speech from the
Record.

SENATE.—Mr. Dawes offered a resolu-
tion calling upon the Secretary of the
Treasury for information as to the legal
authority, opinions and decisions upon
which was based the action of the
Treasury in postponing the collection of
the tax on whisky bonded for export
and afterwards returned to this country
in 1885 and 1886, and other information
in regard to the whisky affected by
such Treasury action. Agreed to.

The bill for the relief of naval cadets,
dropped from the rolls by the operation
of the naval appropriation bill of 1882,
was then discussed for some time,
slightly amended, and finally laid upon
the table.

The Senate then proceeded with the
bills on the calendar.

The following measure was passed:
A bill providing for a commission of
three persons to be appointed by the
President, by and with the advice and
consent of the Senate, to investigate the
truth of the alleged discovery of the
specific cause of yellow fever.

The commission is directed to go to Mexico,
and, if necessary, to Cuba, Central
America and Brazil, for purposes of the
investigation. The commissioners are to
be medical men, one or more of them
to be an officer or officers of the govern-
ment, and specially versed in biological
research, particularly in the microscopic
investigation of the germs of contagious
diseases.

American Enterprise.
No invention of the nineteenth century
has worked a greater revolution in
household economy or conferred more
benefits on humanity than the sewing
machine.

MR. GLADSTONE has resolved to appeal
to the country on the Home Rule issue.
The President and his bride have re-
turned to Washington, their honeymoon
having lasted only six days.

Richard M. Hoe, of Hoe printing press
fame, died in Florence, Italy, on the
8th inst. His home was in New York.
In Berlin, Germany, missions are on a
strike for 13 cents an hour, while in
some of our leading cities they are on
a strike for \$3.50 and \$4.00 a day.

New Orleans, seeing that Memphis is
to have a bridge across the Mississippi,
wants one too. Owing to the great
depth of water and strong current there
it will be a great undertaking to bridge
this mighty river at New Orleans,
though it really does seem that modern
engineers are not to be baffled.

At Brooke Hill, Henrico county, Va.,
steps are being taken to raise funds for
the erection of a monument to mark the
place where General J. E. B. Stuart, the
noted Confederate cavalryman, fell
during the war.

Dr. Valentine Mott, who has recently
returned from Paris, where he spent
several weeks with Pasteur, studying
his theory of inoculation for hydropho-
bia, asks for modest contributions to
establish an institution for the purpose
in this country. He thinks that about
\$5,000 will be sufficient to start with.

The Onslow Railroad.

The importance of having a railroad
to New River, in Onslow county, can
scarcely be exaggerated. It ought to
go to Jacksonville, but not to be the
final terminus of the road. It should
be pushed right on to New Berne. Wil-
mington would do most of the trade all
along the line. But aside from the
products of a rich agricultural section
that would come to Wilmington, the
important oyster and fishing interest is
not to be overlooked for a moment. In
five years from the completion of the
road to New River there ought to be
one thousand persons working in the
canning factories of Wilmington.—WV.

Asheville to Get a Public Building.
WASHINGTON, June 9.—Bills were
favorably reported to the Senate today
from the committee on public buildings
and grounds, appropriating \$80,000 for
a public building at Asheville, N. C.,
and \$200,000 for a public building at
Savannah, Ga.

Excitement in Texas.
Great excitement has been caused in
the vicinity of Paris, Texas, by the re-
markable recovery of Mr. J. E. Corley,
who was so helpless he could not turn in
bed, or raise his head; everybody said
he was dying of Consumption. A trial
bottle of Dr. King's New Discovery was
sent him. Finding relief, he bought a
large bottle and a box of Dr. King's
New Life Pills; by the time he had
taken two boxes of pills and two bottles
of the Discovery, he was well and had
gained in flesh thirty-six pounds.

Great Chicago Strike!
It is generally known throughout the
whole country that large strikes are
being made among the laboring classes
in some of our largest cities, such as
Chicago, Philadelphia and New York.
Some have been wounded for life and
some have lost their lives. The ques-
tion now arises, what shall be done to
keep the peace in Eastern North Caro-
lina? The farmer cannot afford the
eight hour system at the present price
of produce, neither is the laboring man
satisfied with the present prices of labor.

Some relief must be had; something
must be done; some one must come to
the front and devise some scheme by
which the people may be relieved from
such a tyrannical oppression. In view
of the foregoing facts, and in the ab-
sence of any relief from other sources,
we suggest that the quickest and most
satisfactory way of keeping down
strikes and dissensions among the labor-
ing classes of Eastern North Carolina
is to make the prices of goods and supplies
in conformity to low wages, and in
making the suggestion we hereby an-
nounce to the public that we propose to
act upon it, and direct everybody, labor-
ing classes and all, to the great cheap
cash store of Humphrey & Howard,
where they will find a large and com-
plete stock of groceries and dry goods at
strike prices. The most vital strike in
life is the strike for ways and means
which guarantees you perfect satisfac-
tion at the latest cost, the strike then
for the great cheap cash store of Humphrey
& Howard will certainly obtain for you
the lowest possible prices, thereby al-
leviating all past troubles and guaran-
teeing you peace, prosperity and happiness
in the future.—mldwlm

Chicago Anarchists in Custody.

CHICAGO, June 8.—John A. Henry, the
notorious crank socialist, anarchist, etc.,
is locked up at the Chicago avenue sta-
tion. Yesterday afternoon he boarded
an incoming train at the northwestern
station, and picking up a cap and punch
which the conductor had just laid aside,
he donned the cap, and, punch in hand,
called out, "This way for Elgin, Lock-
port and Freeport." Some of the offi-
cials wanted him to tell what he meant
by such conduct. He shouted in reply:
"It's none of your business. I am a
socialist and anarchist. I have as much
right to this cap and punch as any one
else. I am a communist and own my
share of the world, and have a right to
it. You can't arrest me." He was
promptly arrested. He was very noisy
when he reached the station, and kept
it up throughout last night. At times
he seemed to be a raving maniac. There
is no doubt about his being weak mind-
ed. The brigade of the anarchists gen-
erally has been broken by the indict-
ment and impending conviction of their
leaders for murder, conspiracy and riot.
The charge against Henry is disorderly
conduct, although an attempt as to his
sanity will now probably be made.

William Solger, who testified to the
proceedings of the anarchist meeting
where the plan to blow up the police at
the Haymarket street riot was formed,
before the grand jury, and who has
been missing for three weeks, last even-
ing, in company with his wife, sur-
rendered himself to Police Captain
Schubert at the station house. He was
promptly locked up. He appears very
pale and careworn, and avows that he
has been confined to his house by ill-
ness. The police feel much gratified at
his appearance, as his testimony will be
of vital importance to the prosecution
of the arrested and indicted anarchists
whose trial will begin on the 14th inst.

He predicts that the Chamber of Deputies
by conduct such as the passage of
this bill will drive the republic into
civil war.
