Miss Dora Ascherfeld, who has been in our city since last fall, left yesterday merning for her home at Havre de Grace, Md. Miss Ascherfeld was engaged here in teaching music, a profession to which she is devoted, and a more accomplished performer upon the piano-forte is rarely met with. During the time here she has rendered valuable services as organist at the churches on different cocasions, and also at parties and social gatherings her musical talent was much sought. On leaving she expressed herself as having been very much pleased with her stay in New Berne, and the many friends and acquaintances she has made here regret her absence and will ever welcome a return.

CHICAGO, June 25 .- At the Root street crossing of the Lake Shore railroad this morning the police on duty numbered thirty, which included every available officer of the town of the lake force. There was no change in the situation up to 9 o'clock, and no intimation of any attempt to move trains had been received up to that hour. A car-load of Ushers always in the yestibules to well-come and seat strangers. A cordial in-night from Toledo. About 90 clock the imported switchmen were taken out to Forty-third street in charge of Superintendent Amsden. Shortly before 10 o'clock the officials, with the assistance pastor. Services at 11 a.m. and 8 p.m. of the police succeeded in attaching an engine and caboose to a waiting freight train.

Beyond the expostulations of the crowd no trouble was experienced until after the caboose was attached to the train. The crowd grew in proportions and more threatening; the police and railroad employees were cursed and threatened with violence. In the meantime a small force was divided between the trains, and in guarding the switches to prevent the latter being turned eq as to make impossible the free movement to the cries of several of their leaders, the crowd rushed past the police and turned the switches in spite of the latter. The police had their clubs drawn and used them in a few instances, but the officers were either so thoroughly astonished or oversweed by the crowd they made no successful resistance. " A portion of the crowd at the same m ment surged toward the train which had commenced to move out but which passing upon open switches, was thrown from the track, the engine and all the cars being detailed. To complete the wreck, the compling pins were withdrawn and thrown away. During the molec the police succeeded in making two arrests. The excitement in the vicinity is still very

Wassington, June 24.—The following special notice was today issued by the general superintendent of railway mail service: "By order of the Postmaster General the clerks named below have been removed from the service for insubordination in coaspiring to obstruct the regulation of the service by the department and to injure its efficiency. They have secretly attempted to form an association with a view to dictate action to the department, and many of them have also been guilty of deception towards their fellow-elerks by representing the purposes of such association to be merely benevolent, and thus entangling them. At the same time the Postmaster-General directs me to express his gratification that so few Off With Their Heads. to express his gratification that so few comparatively could be found to engage in such a scheme, and his acknowledg-ments to those who have kept the de-

partment informed [The names are omitted as they are all in the west and unknown to our

people.—Ed. Journal.)
"Division superintendent will please insert this notice in their next general order. The Postmaster-General, in further

explanation of the causes which re-sulted in the issuance of this notice, in an interview this afternoon, said: "Several weeks ago information was received by the department that a few postal clerks who were apparently con-scious that there were reasons for their removal from the service were endeav-oring to call at the co-operation of postal clerks generally in an association to be formed for the purpose of interposing their opinion on the questions of removals by threatening a strike or the combined resignation of many clerks at one time, so as to menace the department with embarrassment. The attempt to enlist general co-operation failed, the greater number of postal

clerks who were approached on the subject refusing to entertain it. It was the plan of the originators after the initiation of a member, during which he was bound by an oath to secrecy and obedience, to secure his resignation in blank and to have all the resignations in the hands of the executive committee to be filed simultaneously, and to require the clerks who were members of the association to abandon their runs at a time to be fixed. Their object was to maintain their own positions and tenure of office. The department has waited until the principal ring leaders and exsoutive officers were certainly known, and those removed embrace all those who have been specially active. In

point of fact," continued the postmas-ter-general, "the scheme never secured general favor, and the department is not desirous of punishing by removal those who have been cheated into nominal co-operation, but does not wait for resignations from any who have been active in the enterprise. It is a curious commentary on the folly of men," said the speaker, "that upon examining the files in the cases of the men

who are removed by this order it appears that very many of them have been complained against for some reason and their removal sought before, but the department has refused to make the removals and the entry had been made in positions would have been quite secure had they not forfeited them by insubor-dination. The headquarters of the movement has been Indianapolis, Ind. Some little effort was made to organize at Chicago and other places, but with no success. I do not anticipate the least trouble or inconvenience to the business interests of the country, "concluded the Postmaster-General, "in consequence of

these removals.
