Cottage prayer meeting tonight at 8 o'clock under the auspices of the Y. M. O. A lat the residence of Mr. Wm. Gas-kins at the somer of Bast Front and King streets.

There is not an intelligent taxpayer in Craven county who will not acknowledge the necessity of having able, honest and intelligent representatives in the next General Assembly.

. The good people of Craven county must unite without regard to party for their own interest, for preservation of law and order, and for smashing corrupt political rings into smithereens.

The Republican party of Craven county is split in twain. One wing is in favor of a citizens ticket. The Democrain and all good citizens should unite with the united clost a citizens' ticket.

"Vox Populi" brings fogward the name of Clement Manly, Esq., as a candidate for the consideration of the meeting tonight. The suggestion is certainconsidered by that body.

The object of the mass meeting tonight is to putforward a citizens' ticket. Democrate us well as Republicans, in fact everybody who wants a representative in the next General Assembly

Personal personal prejudices should for once be laid saide. All know how Graven county has suffered for want of a representative in the General Assembly. We have an opportunity-new of sending members. Will we do it or will we throw away

An opportunity presents itself to the people of Graven county to send two representative to the next General As-sembly nat wil be able to remind the other members of that body that we are a part of the people of North Carolina and as such are entitled to consideration. We want no more ground pea At the coming Republican Congress

sional convention to be held in Kinston physical endurance will be likely to decide who will be the candidate. The plan of nominating candidates in the black district now is to hollos him through. The candidate that carries the most and best hollowers to Kinston will be certain to elsim the nomination. The delegates will not have much to do with it.

Injustice to Lawyers.

Our Hyde county correspondent raises the question as to whether or not there is a farmer in the first congressional and other districts competent to represent the people in Congress. He an swers the question himself by naming a man, Mr. Branch, that would make a land. Mayor of Toronto, for the city; very good representative. But if the and Supreme Prelate J. S. King for the very good representative. But if the people fail to go to work and bring out Mr. Branch or some other good farmer, is it right to abuse the lawyers for their ly a good one and will be doubtless well own inactivity and supineness? We think not. Our correspondent says, "they toil not, nor do they spin, yet nearly all the fat places are given them." Now it is well known in this grand concert at the Caledonia Curling section and nearly every other section that no class of people work harder in a who will not consume his whole time political campaign than the lawyers, in sheffling ground peas, are urged to either. The Hertford county democratic convention, held on Monday last, resolved that its members "witnessed with alarm that increasing restlessness for office which is constantly demanding the re moyal of able and honorable public servants merely to try new men, and con demned it in the strongest terms as subversive of the best interests of the people, and as tending to disorganize the Democratic party. They declared further to the delegates appointed by the convention that they were decided y in favor of the renomination of justices Smith, Ashe and Merrimon for the supreme court, and the renomination of their present solicitor, Representative in Congress, and Senators, and requested their delegates to the respective on the 25th of August the question of conventions to use all honorable means to secure their retention in office." News and Observer,

This doesn't exactly correspond with the action of the Congressional Executive Committee that assembled at Edenton a short time; ago. That committee, after it had transacted the business for which it was called adopted resolutions pledging the district to Pruden for Supreme Court Judge. Now no one can question the right of the Democrats of Hertford county, when in convention assembled, to declare their choice for any position to be filled, but what right has an executive committee, constituted for another purpose altogether, to at-tempt to please a district or a county to any particular man. We raise this point not to the projudice of Mr. Pruden but on account of the tangerous precedent
