The county commissioners will be in
session tomorrow.

The *Shenandoah* will leave promptly
at 8 o'clock this morning.

A gay time in store for the excursion-
ists to Nags Head next Tuesday.

The large quantity of haggling and
tossing in the Old Dominion wharf reminds
us that the cotton season is approaching.

The schooner *Melvin*, loaded with
lumber, is reported aground at the
mouth of Slooms creek, about 15 miles
below the city.

The Silver Cornet band will accom-
pany the New Bern Steam Fire Co. to
Nags Head. Everything will be done
to make the trip pleasant and agree-
able. Monday Tuesday morning.

Mr. Adams has taken a position
with Messrs. Duffy in the dry goods
and notions business on Middle street.
Mr. Jones has many friends in this
section of country who remember him as
a good and successful merchant. Mr.
Duffy is fortunate in securing his ser-
vices.

There were also cases before the
Mayor yesterday. Five "boiled doves"
of color, were found guilty of disor-
derly conduct and fined one dollar and
cost each. Those for using profane
language were required to deposit one
penny and cost with the Marshall, and
one drunk and down was made to pay
one dollar and cost. A good day for
law and order.

Personal.
Mr. Geo. Howard left yesterday
morning for Baltimore.

Mr. B. L. Bryan left for Charlotte,
his present home, yesterday after spend-
ing several days pleasantly at his old
home.

F. Ulrich, Mr. L. H. Cutler, Mr. T. A.

A Water Captured.
About a week ago some one entered
the dwelling of Judge Seymour on East
Front street and took therefrom several
articles of ladies' wearing apparel and
other things. A colored boy about
grown had called at the house several
times during the day and asked the ser-
vants if he could do anything for them,
carry a message to the Judge, etc. A
description of this boy was given to
City Marshal Hargett, who, from the
description, worked up the case
which led to the arrest of Ben Spicer,
colored, on Monday night, and the recovery
of some of the stolen goods. He was
taken to the residence and at once
recognized. He was arrested and was
sent to jail to await a hearing tomorrow
morning.

The Teacher's Trial.
We call attention to the advertise-
ment of the *Griff* School in this issue.
The trustees are desirous to open the
school on Monday, September 13th. The
services of Messrs. King and Jones have
been secured as principals and will be
conducted by a full corps of teachers.

We again urge the people of New
Bern to rally to the support of this
school. Five hundred children have
been taught during the past year and
many more are being taught. The
number of children in the schools would
cost in the neighborhood of fifteen
thousand dollars.

Are the people disappointed in the
work of the school? Are they ready to
burst up and each one start his own
little private school? Did we make a
mistake in starting the school and erect-
ing a good building for the purpose? If
not, what is the matter? Several hun-
dred dollars must be raised yet be-
fore the school can be assured to
go on for the usual time. We
are not fully informed as to the work
done by the committee to solicit funds,
but we hardly think they have made a
thorough canvass. When they do, we
hope there will be a liberal response.
We can not afford to go backward in
this work, all are interested and all
should aid in the work.

Chickens.
The beautiful Wyandott chickens to
be seen in Mr. A. M. Baker's yard is
sufficient proof that a successful mer-
chant can be a successful poultry raiser.
This was not the case with a very suc-
cessful law firm in this city who tried
poultry raising a year or two ago.
Their chickens were all raised and the
raiser skipped before they knew whether
it was a success or a failure.

Mr. Baker has a large and beautiful
yard—back as well as front—at his resi-
dence on Pollock street, and the back
yard is nicely arranged for fowls. The
house is rat-proof to prevent the pestif-
erous rat from killing the little chicks,
and it is kept clean and neat. Great
attention is given to the feed, water and
building and here is the secret of his
success.

In this yard there are now about one
hundred and thirty of these Wyandott
and quite a number of other common
breeds; also a number of Pekin ducks.
The peculiarities of the Wyandott are,
they are healthy in this Southern cli-
mate, are good layers, grow to good
size, and are beautiful in color. They
have three different growths of feath-
ers, each growth of different color.
One hen in this lot laid one hundred
and thirty-two eggs before setting.

We have long believed that poultry
raising could be made profitable in this
section if properly conducted, but ex-
perience has shown that no enterprise will
fail sooner if not properly conducted.
Mr. Baker has succeeded thus far—on
a small scale, to be sure, but it is a suc-
cess—and it is because he has given it
his personal attention.

Politics and Teachers.
EDITOR JOURNAL.—The *Griff* wants to
know why Craven county's honored
son, our worthy County Superintendent,
objects to public school teachers dab-
bling into politics. It wants to know if
the superintendent can make a political
speech, why can't his teachers? One
reason, that if the superintendent al-
lowed the teachers of Craven to dabble
in politics when they write for a news-
paper, had grammar and improper
usage of the English language would be
a simile of the following words copied
from the *Griff*. There was an inscrip-
tion on a tomb stone in a certain church
yard which read:

"Stranger when this grave you see,
Think of God and follow me."
Some mischief fellow came to it and
read it and answered it in the fol-
lowing rhyme, etc.

Mr. Long's teachers who are required
to stay out of politics according to the
saying of the *Griff*, would have written
that paraphrase thus:

"Stranger when this grave you see,
Think of God and follow me."
Some mischievous fellow saw
read and answered it in the fol-
lowing rhyme: etc. Twenty-eight words
used, four being superfluous and eight
used incorrectly. It would have been
better for the *Griff*, for a superintendent
to have kept him out of politics.

Mr. Long has advised the public teach-
ers of Craven to stay out of politics, but
he has not been able to keep all out.
To keep all out, it would require one
superintendent for every male teacher.
Ninety-nine persons out of every hun-
dred will agree, that teachers should not
come down from their honorable and
high calling to dabble in degraded poli-
tics.

We teachers of Craven county recog-
nize this important fact, that the law
makes the county superintendent the
advisory officer educationally, hence he
advises the teachers and not the teachers
advise him.

The course of Hon. John S. Long is
satisfactory to the taxpayers, parents
and school teachers of Craven county,
so let the *Griff* keep on griffing.

MARY TEACHERS.
Most Excellent,
J. J. Adams, Chief of Police, Knox-
ville, Tenn., writes: "My family and I
are beneficiaries of your most excellent
medicine, Dr. King's New Discovery for
consumption; having found it to be all
that you can claim for it, desire to tes-
tify to its virtue. My friends to whom
I have recommended it, praise it as
every opportunity."
Dr. King's New Discovery for con-
sumption is guaranteed to cure coughs,
colds, bronchitis, asthma, croup, and
every affection of throat, chest and
lungs. Trial bottles free at Hancock
Drug Store. Large size \$1.00.

At the burning of a theatre in British
India over 100 persons perished.

Turkey is reported to be making large
additions to her armaments.

The German army is making arrange-
ments to celebrate on a very grand
scale the nineteenth birthday of Emperor
William.

The United States ship-of-war *Foebic*
has sailed from Portland, Maine, with
sealed orders, not to be opened within
31 hours.

The heat in some of the northern cities
has become very oppressive. Already
there have been a number of cases of
heat prostration.

At a meeting of the shareholders of
the Panama canal, M. de Lesseps prom-
ised the completion of the canal by
June, 1889, and within the cost pre-
viously estimated.

In St. Louis a movement is on foot to
unite all the street railway companies
under one management. The plan
further contemplates running the entire
system by cable.

A young man had a rather novel ex-
perience on going in bathing up in New
Jersey. While in the water some one
carried away his clothes and the unfor-
tunate fellow had to go nearly a mile
home in an empty barrel.

The Philadelphia *Press* says that Mrs.
Grant is very much pained at the re-
ports of her daughter Nellie as living
unhappy, and being desirous of obtain-
ing a divorce. She says there is no
truth in it and that while Mr. Sartoris
has expensive tastes and lives extrava-
gantly he has money enough.

ment of the new British Ministry:

Kinston Items.
It is said that Handsome Grady does
love Sampson "big blues."

Bear's oil, according to Dr. Green
Budd, of Contentment Neck, is a certain
cure for consumption. It is taken as a
substitute for cod liver oil.

Richard L. Parrott is home again
from official duties in Washington City.
It is quite observable, too, that he has
added two hairs to his luxuriant mous-
tache.

It is said the office of Senator of the
11th district is seeking the farmer of
Pink Hill, Anthony Davis, Esq. The
office always knows the right man for
the occasion.

The thriving town, Bell Ferry, is
growing ambitious. It is said a tele-
phone will be established between that
place and Kinston or New Bern about
the beginning of the cotton buying
season.

Some of our patriot statesmen must
inevitably die or be sent to Dr. Grimson
unless kind friends cease annoying
them into becoming candidates for
offices. We know at least a dozen or
more such patriots who are now suffer-
ing in mind in this way. Let this annoy-
ance cease at once or Lenox must soon
become a good field for an undertaker.

Boy Israel Harding expressed last
week to the Fayetteville Fair a box of
fancy fruit, consisting of three lemons
larger than goose eggs, pulled from the
tree of R. E. Davis, Esq. of this county.
These trees—there are only two of them—
bear hundreds of lemons ranging
from the size of a walnut to that of a
goose egg.

Giles Parker's cider mill, a few miles
from Kinston, has become the popular
Sunday resort of prohibitionists since
the restrictive town legislation on Sun-
day liquor drinking. In this connection
"King Davis Dunn and Co." request
us to say, if the *Free Press* continues its
Sunday trips to that delightful locality,
it may find "a negro in the cider mill"
as well as finding a spirited summer cam-
paign during these dull and hot days.

"Papa," asked young Buster Fields,
addressing the head of the family and
pointing to a beautiful rose which was
critically looped to the lapel of the wid-
ower's coat collar, "do widowers have
sons only among girls?" "No, my
little boy, such your thumb, why do
you ask that question?" "Because,"
Miss Lina says when you go out among
the girls, you always come home bloom-
ing and blossoming with flowers."

Washington News.
WASHINGTON, July 30.—The President
today nominated George A. Jencks of
Pennsylvania, to be Solicitor General.
Indications continue favorable for an
adjournment of Congress without delay
by next Monday. Should the President
however, decide to sign the bill, the
adjournment will not be until the
adjournment until Tuesday, on which
day it will become a law without pres-
idential approval.

Conferees on the River and Harbor
bill talk less hopefully today of their
prospects for agreement, but the issues
are well defined and the differences
may be reconciled in a moment, when-
ever one side or the other decides to re-
cede. It is not probable, that failure to
agree upon the measure will postpone
an adjournment. The worst of the re-
sisting problems to be solved are en-
bodied in the Sundry Civil bill, and the
difficulty with them consists rather in
their number than their character.
There was a call for a conference upon
the measure this morning, but a quorum
did not appear at the appointed time
and nothing was done.

The unwillingness of the President to
sign any bill until he has had time to
study its provisions has given rise to an
apprehension that Congress will be
kept in session to afford this opportu-
nity some days after the appropriation
bills are passed. There is, however, be-
lieved to be little ground for this ap-
prehension, for although official copies
of the act of Congress are not sent to the
President until all differences have
been reconciled in conference and the
results ratified by the two houses, yet
all but the controverted points are open
to inspection, and may be examined in
the printed bills before the committees
are appointed, and the progress made
upon controverted points is daily set
forth in the *Congressional Record*. The
President may, therefore, as his pre-
decessors have done, keep up with the
current proceedings and be ready with
his approval or veto almost as soon as
completed measures can be examined
and enrolled.

An Old Citizen Speaks.
Mr. J. M. Norris, an old resident of
Rome, Ga., says, that he had been badly
troubled with kidney complaint for a
great many years and with eczema for
three years; at times could scarcely
walk and had tried many remedies
without benefit, until he began taking
Electric Bitters and anointing his hands
and feet with Bucklan's Arnica Salve.
This treatment afforded him great relief
and he strongly recommends Electric
Bitters to all who suffer with kidney
complaints, or need a blood purifier.

The Atlantic.
The new steamer for Wilmington
Steam Fire Engine Company No. 11 ar-
rived yesterday afternoon by the five
o'clock freight train on the Wilmington
& Weldon Railroad, Foreman Parmelee
and a delegation of the company were
at the depot with a team to meet it.
The new engine was taken to the com-
pany's engine house where the firemen
were engaged until a late hour yester-
day evening putting on the fittings and
connections which came separately.
The engine is called "The Atlantic."
It is as pretty as a picture, and was
greatly admired by all who saw it yester-
day. It is quite different from the
old engine—the Little Giant—although
built by the same makers; it is larger,
stronger and lighter, and is by far the
handicraft engine's eye seen in Wil-
mington. The company may well be
proud of it. Foreman Parmelee tele-
graphed to the makers last night the
safe arrival of the machine, and it is ex-
pected that a man will be sent on at
once to test it.—Wilmington Star.

Notice.
To the Chairmen of the Democratic
Township Committee:
At a meeting of the Democratic Ex-
ecutive Committee held July 24th, it
was ordered that the township con-
ventions for the purpose of electing mem-
bers of the executive committee, also
delegates to the State Convention, be
to be held August 1st, 1886, at 7 o'clock
p. m. at the residence of J. H. HACKBURN,
Sec'y Dem. Ex. Com.
Pleasant Street, A. H. P.

After urgent solicitations from many
friends I have consented to run another
of those health-giving, soul-stirring,
blood-renewing, knock-in-the-head al-
lments excursions to Nags Head, and
at the small sum of \$2.00 for adults;
children from four to twelve, half fare.
It will be unnecessary to attempt to
describe the beautiful scenery, the
and the elegant drives on the beach,
among the "Kill Devil Hills," the deli-
cious plunging into the sea, the
romantic promenade for the young;
the ride, along the ocean breeze, for those
less sentimentally inclined, the excel-
lent outside of the "prize of oysters,"
Capt. Tom Southgate, and the enjoy-
ment of the best of the oysters, crabs
and other delicacies which make
most Jacobs leads his growing babies
with—are only part of the pleasures to
be enjoyed on this trip; and words are
inadequate to tell the balance. I can
describe the beauties and the pleasures
of the trip; you must go to enjoy them.
Our "fire leader" will participate in
this grand excursion, and will see that
your cup of enjoyment is continually
overflowing.

Let this be a grand success as well as
a grand excursion; and the "b'hoys"
shall have all the credit. The hour and
date will be the same as a former
trip. Fall in.
J. B. HARRIS, Agent.

He was happily married to Miss Amelia
Neal, December 8, 1875.

Four years ago he became a resident
of New Bern and has for sometime
been engaged in the mercantile busi-
ness.

Mr. Dickinson was a quiet indus-
trious man, a good citizen, and an af-

ter, Mrs. George W. Dickinson, on Pol-

The deceased was the widow of the late
J. B. Neal; was born at South river,
June 26, 1835, and has since resided in
that vicinity. Having for some time
been in feeble health, she came to New
Bern last winter for medical treat-
ment. Since that time she has suffered
much from an affection of the heart
which terminated her life rather sud-
denly on Friday, July 30.

Mrs. Neal had been for years a con-
sistent member of the Methodist church
and gave evidence of her preparation
for death. She leaves a son and
daughter with a large circle of relatives
and friends to mourn her loss.
