We hope the good work will continue. Dr. Whitford, the pastor, expects Rev. Thomas Dixon, Jr., next to assist him in continuing the meetings.

registered and explain to them the objects of the coalition movement. The time for work is short and every friend of the movement ought to show his hand.

Coalition.
The present political contest in this county is of such a peculiar character that no citizen can be uninterested or passive. It is a time and occasion when indifference is almost criminal, and failure to perform one's whole duty reprehensible. To exercise the right of suffrage is not a mere privilege, it is a duty that at this time is mandatory in its nature, and incumbent upon every citizen who desires good government and the perpetuity and maintenance of our liberties. In local elections hitherto, indifference among Democrats may have been pardonable as no hope of success existed in the face of Republican majorities; many of the rank and file of Republicans were indifferent because they relied upon their leaders who ran the "machine" to nominate the ticket, for which they mechanically voted knowing that it was the best and all they could do. But now when good and honorable men in both parties who have long viewed the corruption and imbecility that characterized the managers and recent legislative representatives, with shame and regret, have burst the shackles and fetters of Bourbonism, and assuming a high, lofty and patriotic stand, have placed hands in the common cause of ending the deplorable state into which the political affairs of our county has fallen, it becomes the bounden duty of every good citizen without regard to his former party affiliations to come manfully forward and bring to a successful issue this splendid scheme so happily inaugurated. It is a time when there is a tide in our affairs which if taken at its flood, will lead to good government and the countless blessings that follow in its wake. It is a time when a knowledge of failure ensues there is no knowing when the opportunity may again occur. It is a time when wide political breaches may be filled, scars healed, good fellowship and brotherly feeling created by fighting in the same cause and create a sentiment that will pervade the body politic that will lead to prosperity and happiness.

The election of Clark and Lane means creditable, serviceable, and able representation in our legislative halls, and the election of Stinson, Habbe and their associates, capable and reliable men in charge of our most important county offices. These gentlemen are the choice not only of the leaders of the two parties, but are endorsed by the respectable citizens of the county without regard to party. Of their opponents it may be said that they represent but a questionably reputable faction of the Republican party whose every principle is subservient to the all absorbing one of *baudle*, whose only interest lies in what they can make out of politics, and whose professions of fealty to a party they reflect no credit upon, a sham and a fraud. The spawn and outcome of a mob gang are held together only by "the cohesive power of plunder" and their defeat in November will result not only in the purification of the Republican party, but will be an assurance and guarantee for the future that its nominees will be pure and capable men.

The Famous Cotton Picker a Success.
SUMNER, S. C., Oct. 13.—The cotton picking machine of the Mason cotton harvester, invented by C. L. Mason, of this place, was tested today in the field in the presence of committees from the New York and Charleston cotton exchanges, and representatives of the State agricultural department. The machine picked cotton at the rate of 180 pounds per hour without injuring the bolls or plants. The general opinion of those present is that the machine is correct in its principle, does fairly good work now and can be made completely successful.

The company offered him \$200 for the lease, and agreed to move the cabin to any place he named. He was in earnest, too, as the company soon found out, and still lives on their land and still keeps the \$200.

A communication from Minister West has been transmitted by the Department, calling attention to the threatening state of affairs on the boundary line between Montana and the British possessions, and suggesting the adoption of measures calculated to prevent raiding across the line by hostile Blood and Pagan Indians.
