CYRUS B. WATSON, Esq, Winston, writes a communication to the State Chronicle in which he says the Democratic press of the State must take their share of the losses in the State. There must be something in Mr. WATSON'S statement; we have a private letter from

A TOICE FROM THE marks.

MARLBORO, Pitt county, N. C.,

November 8, 1886. During the late politic

During the late political canvase I had the pleasure of hearing a speech from Cantals Octavius Coke, of Baleigh, in which he paid a high compliment to the county, commenting upon its pleasing topography and the neatness and productiveness of our tarms. He speake words el oheer and congratu-lation to us upon having such a constity land to dwell in and urged goodly land to dwell in, and urged the importance of all good people thinking and acting upon the political issues of the day. He not only urged it as a right but as a Christian duty, as citizens of a great commonwealth. He spoke of that will make more than one column of this the necessity of an industrial school where our youth could be trained in

the different branches of Architect urs and Mechanism and showed how each community might rear its own artizans and organize its own manufactories. He charged us to instruct our representatives to anpport in the next legislature a bill for the establishment of such a Business Manager. school, but, alas! through all his eloquence, and in all his advice, not one word fell from his lips as to the advantages of educating the head and the hand together for the management of the agricultural interests of our grand old State. He

said nothing about refanding to the the inauguration of Governor GOR. these many years, been misapproof returning to its proper channel that \$7,500 interest per annum, and architects in their rapid strides to prominence and power. This

may have been an oversight with the honorable gentleman, but one peculiar to the politician, for I have is now reported that he is fitting never heard of its being mentioned oat a flibustering expedition for by one on the stamp. And just here I am reminded of the facility with which politicians will appropriate to themselves the glory of have been better after all, if Sec every public enterprise, as was exretary BAYABD had let him served emplified in a speech by Governor

summer; when, before a large audience, he extolled the services of the 01 State Board of Agriculture and declared that to Senator Vance and President Battle of the State University belonged the credit for the establishment of that Board, when blame for the recent Democratic it ought to be known to every intelligent man in the State that to another, whose sense of delicady CHOICE FAMILY GROCERIES prevents him from laying claim to it, belongs the honor not only of a district where there was much urging that branch but of the est apathy which attributes the cause tablishment of the State Department of Agriculture, which, when it shall have been restored to its former useful line of labors for the State, will be a source of pride to every friend of State enterprise. Honor to whom honor is due is my motto, and when an humble citizen performs a labor of great and permanent good let him not be robbed of the honor in order that still in abolishing the present system of more glory may be added to these county government. We predict already bonored to the highest, that they will not, and that the Yet such is often done and many a lucky fellow allowed to attain amended in some respects, will not prominence on the merits of some patient, toiling neighbor whose be abeliabed. We make a still native modesty beclouds the work Believing in the right of every that Hon. C. C. CLARE would speak of public institutions and the acts and use his influence in favor of of public servants, I hope I don't abelishing the present system of overstep that right or the bounds county government will find that of propriety in suggesting to the they did not know what they were voters of Eastern Carolina that it might be worth their while to inquire whether the good they derive from the State Department of Agriculture is commensurate with the amount of taxes they say into the a communication copied from the State Treasury ? If not, let them know the dause and ask that it be removed. There was a time when the voice of the Commissioner of Agriculture was heard and the influence of the a few things in favor of our eastern Department was felt from one end section. This may be considered of the State to the other. Today I meet numbers of men who think the department of Agriculture dead and so far as any material good to isfaction among the people." Per- us it is, for it is evident that its haps it is, but who furnished the best emergies as well as those of the State Immigration agent have been and are devoted to the devel-opment of the resources of the West almost to the exclusion of the East. And our people should know the cause of such discrimination. Strangers who chance to come among us are channed with our section and wonder that a country so wealthy in climate, soil and timbered fands, with fertile farms all underlaid with marl and borthe newspapers have condemned its departure from principles and the people have rebuked the leaders. The punishment will prove a bless-ing to the party. The bail seed must not be put in the hands of the sovers. how the montality of this tistics sho section compares favorably with that of any other portion of the State. ## SOWING THE SEED.

In another column will be found Progressive Farmer. It is from an armer who ventures to easter criticise Captain COKE's speech in that county, and endeavors to say by Mr. WATSON, of Winston, as "diligently sowing seeds of dissatisfaction among the people." Perseed, and how will the people get rid of bad seed if their fruits are not exposed?
