BUSINESS LOCALS.

MINCE MEAT.

C. E. SLOVER.
AT BRILL'S THE JEWELER—Spectacles and eye glasses.—We carry a complete line of optical goods, and can fit glasses to any eye.

For a pure article and delightful drink, try the Canada Malt Beer, kept by J. F. Taylor, and also R. Whitman.

When preparing for your Thanksgiving Festivities, please remember that C. E. SLOVER offers goods suited to the occasion.

FOR SALE.—A first-class piano very near new. Been used but very little. Mrs. P. H. KORNIGAY, Hancock St.

THANKSGIVING.—The New Berne Board of Trade at a regular meeting held on Thursday, Nov. 18th, adopted a resolution not to open their places of business on Thursday the 23rd day of November, it being the day set apart by the President of the United States and the Governor of North Carolina for the people to observe as a day of thanksgiving and prayer.

JAMES REDMOND,
Secretary and Treasurer.

The Cotton Exchange here and throughout the country will be closed on Thanksgiving day.

Thos. Gates & Co. are making repairs to their store on the corner of South Front and Craven streets.

Several oyster boats were in the market yesterday and had some very fine Tournaquin Bay oysters.

The steamer *Stout* arrived yesterday morning with a cargo of general merchandise and left last night with a full cargo of cotton.

It is said that Craven county is well represented at the Oxford Orphan Asylum. Let our people remember this on Thanksgiving day.

Sam Radcliff "set 'em up" last night to North river oysters. His saloon is furnished with the best and he knows how to prepare them.

Cottage prayer meeting, under the auspices of the Y. M. C. A., at Mrs. Fannie H. Brinsop's on Spring street at half past 7 o'clock this evening.

Miss Hannah Allen will attend the reading room of the Y. M. C. A. this evening to receive visiting ladies. The rooms will be open from 2 to 6 p. m.

Some of the merchants complain of lack of gas yesterday morning. Let friend Green know about it and he will push up the checks and give you plenty.

Rev. Mr. Crawford announced on Sunday that there would be services at the M. E. Church on Thanksgiving Day, and a collection taken up for the Orphan Asylum. We presume the other churches will do likewise.

Mr. Simmons wishes us to state that his library have been hauled out and piled in a cart of about ten cents per load, hence are in better condition than those that have lain in a large pile, some of which are wet and rotten. Neither cold weather nor frequent elections will affect his prices.

The Sec. and Treas. of the New Berne Board of Trade has turned over to Mr. T. A. Green \$50.00 as a Thanksgiving offering to the Oxford Orphan Asylum. It will be forwarded today. This action was timely and proper on the part of the Board. Now let us hear from the Cotton Exchange.

Lurgery.—On Thursday night of last week while Dr. G. K. Bagby was absent at Clayton, a burglar entered his house on South Front street through a window and went to Mrs. Bagby's room up stairs and in pulling down a dress hanging up in the room, which had about three dollars in silver in the pocket, struck Mrs. Bagby. The burglar got down stairs to the front door, carrying the dress with him, which he robbed of its contents and fled. Mrs. Bagby was unable to recognize the intruder, only she knows it was a tall colored man.

A Deer story.—A Mr. Henry Pittman, from some of the creeks below, was in the market yesterday with a lot of fat racoons. One of them he reported to have measured 8 inches across the back and weighed when dressed 35 pounds. Mr. J. B. Wynne, the Tournaquin bay oyster dealer at the market, says he was thirteen years old last fall. Col. T. E. Mearns says he had an ostrich on his tall which makes him a Coalition man. This is not the first of a challenge for our Southern correspondent, who now holds the premium on big snakes, possums and coons, but as a matter of

fact that Mr. Pittman did bring a fine lot of coons to market and one of them was the largest and fattest ever seen here.

Personal.
Miss Theresa Cohen, of New York City, is on a visit to friends and relatives in New Berne.

Dr. G. K. Bagby has returned from a professional visit to Clayton.

Meers. M. DeW. Stevenson, L. J. Moore, W. W. Clark, W. E. Clarke and Clement Manly are attending Pamlico Superior court.

W. S. Chadwick, Esq., and Capt. Sam Thomas, of Beaufort, were in the city yesterday.

Meers. C. W. Bell and Wm. Hardesty, of Harlowe, were at the exchange yesterday with cotton.

Cadet Claude Foy, of the Davis School at La Grange was home on a visit on Saturday and Sunday and returned yesterday morning. He is a trim looking cadet and we venture to say can keep the step with any of his comrades.

Col. G. L. Nowitzky smiled upon us last night, as jovial and happy as ever. He is on his way to Norfolk via the popular steamer *Shenandoah*.

Capt. H. W. Wabab returned from a visit to his farm in Hyde yesterday. He will gather over fifteen thousand bushels of rice this year.

Work of the Y. M. C. A.
The annual services of the Young Men's Christian Association in this city were held at the Baptist Church on Sunday night. A very large crowd was present and an able and appropriate sermon was delivered by Rev. Dr. Whitfield. From the annual report we gather the following facts:

Organized June 21, '85, with eighteen active and two associate members. Membership now, 96 active and 89 associate members and two honorary members.

The work of the association is divided into nine parts, each part being under the supervision of a committee whose duty it is to see that the work committed to their charge is faithfully carried on and that the members of the association find suitable employment.

Devotional meetings have been held every Sunday afternoon. The average attendance at these meetings for the past year has been 48. Many young men have made their first talk and offered their first prayer in public at these meetings.

Cottage prayer meetings are conducted by the missionary committee every Tuesday night. These meetings have been held in every quarter of the city and have been well attended. Many who never attend the services of the churches have attended these meetings, and by them the aged and infirm who are unable to attend church have been cheered and strengthened.

Invitations to the services of the different churches have been issued to the number of 924. Of this number 66 were left at boarding houses, 282 at hotels, 254 on board boats and the remainder at various places. It is the desire of the association to have one of these invitations placed in the hands of every stranger who remains in our city over Sunday.

The rooms of the association have been comfortably furnished, and the reading room, through the kindness of the ladies, has been made bright and attractive. They donated the carpet and raised the means to purchase nearly all the books.

The library committee have striven conscientiously to place before the public nothing of an objectionable character. An inspection of the books, papers, magazines, etc., will show that their work has been well done. The people of New Berne should be proud of such a library, which is for the benefit of the town and not for the members of the association exclusively.

Through the generosity of many of the members of the New Berne Athletic and Social Club, we have erected and furnished a building for gymnasium purposes. Young people must have an enjoyment and it is provided for them here free from evil influences.

The treasurer's report shows receipts from all sources from July 1st, 1885, to September 15th, 1886, to be \$1,123.19, and expenditures \$1,050.73, leaving a balance on hand of \$72.47.

The association has passed the critical period and is now on a solid foundation. That it is doing a good and noble work cannot be denied. Its reading-room and gymnasium are creditable to the city and the members of the organization should receive the encouragement of every good citizen.

Stonewall Items.
Mrs. Carrie Hamlin, wife of A. H. Hamlin, died at her home in this place after a long and protracted affliction.

There is reasonable hope that Levin Wheaton, who is seriously sick with hemorrhagic fever, will recover.

C. H. Fowler raised one of the largest Japan persimmons that I ever saw. It measured ten inches in circumference and weighed ten and a half ounces. It was as palatable as it was large.

On the night of the 19th inst. all the prisoners in Pamlico jail made their escape by cutting their way out. There were but three, one white and two black. The crime they were charged with was petit larceny; not much damage done.

If You Wish a Good Article Of PURE TOBACCO, ask your dealer for "Old Rip."

BAPIST CONVENTION.

Third Day's Proceedings.

MORNING SESSION.
The convention was called to order by the President at 9:30 a. m.

After devotional exercises and reading the minutes of yesterday Prof. C. E. Taylor, President of Wake Forest College, offered a series of resolutions looking to a more thorough organization of the work of education among Baptists in the State. The resolutions were adopted after discussion by Prof. Taylor, J. H. Mills and Dr. Huffman.

The Sunday-school work being the special order for 10:30 o'clock, the report was read by N. B. Broughton, of Raleigh.

The report shows an increase in Sunday-school work. More of the country churches are keeping up their schools during the entire year than formerly.

Eleven years ago, when the convention met in this city, there was a large debt upon the Board and only about 8,000 pupils. Now we have no debt and more than 62,000 pupils. Mr. Broughton urged that the Sunday school was not the nursery, but the workshop of the church. Let us magnify the importance of the Sunday-school work. It is the right arm power of the church.

Col. Heck agreed heartily with Mr. Broughton. The Second Church in Raleigh grew out of a mission Sunday school. The Third Church in Raleigh also is a child of the Sunday school work. If a church will employ as pastor a man who does not believe in Sunday schools, that church needs a missionary sent to them.

At the close of his speech Col. Heck offered a resolution recommending renewed efforts to establish Sunday schools in all destitute sections, and recommending that every member in each Sunday school contribute one cent per month on each first Sabbath to the extension of the work, and turning this over to the Sunday School Board for expenditure, as they may find necessary.

The report of the Sunday School Board and the resolutions offered by Col. Heck were adopted.

The committee to nominate the Board of Education reported and the report was adopted.

The committee to whom was referred the resolutions from the Western Baptist Convention in regard to the organization of the Ashe and Alleghany Association, reported and the report was adopted.

Rev. Dr. Pritchard, representing the Bible Department of the American Baptist Publication Society, read a communication giving an account of the Bible work.

Mr. J. H. Mills, from the Committee on Aged and Infirm Ministers, reported, recommending the appointment of a committee of five to prepare and submit some plan for the care of aged and infirm Baptist preachers.

Rev. A. M. Conway, of Wilmington, representing the colored Baptist State Convention, was welcomed. He made a short address to the body and asked for co-operation and help in their work.

Prof. Thos. Hume, jr., offered a resolution looking to the appointment of a committee to correspond with the churches as to the best methods and plans for raising contributions for the different objects of the Convention.

The resolution was referred to the Board of Missions.

Dr. Pritchard offered a resolution in regard to the publication of a memorial volume of the life of Rev. Thomas Meredith, which was pending when the time arrived for adjournment.

Rev. B. Cade pronounced the benediction.

NIGHT SESSION.
At 7:30 p. m., after the congregation had joined in singing "Am I a soldier of the Cross," President Bailey called the Convention to order.

Rev. J. L. Carroll, of Asheville, read a portion of the 6th chapter of First Timothy. Rev. J. B. Boone, of Hendersonville, offered prayer. Mrs. Jenkins sang "Is not the life more than meat."

The special order for the evening being a discussion in the interest of Wake Forest College, President C. E. Taylor took charge of the meeting. He stated that Hon. C. M. Cooke, of Louisville, President of the Board of Trustees, was prevented by recent serious illness, from being present and offering the usual report to the convention. In his absence he would submit a brief statement. There are at the college at this time about 200 students; three professors had been added to the faculty; the endowment fund amounted to \$175,000 and recently the Hon. J. J. Davis had told him he knew no fund more securely invested. Wake Forest College is the property of the Baptists of North Carolina. He did not believe in class education, but of all. They rejoiced that while the sons of the rich were at the college, there were also those there from between the plow-handles. Education worked down and lifted up—not beginning at the top and working down. He referred to the work that some had done in pushing forward those in whom there was the promise of usefulness. A few moments ago we heard sweet notes from the organ, and doubtless thought only of the dexterous fingers that touched the keys, forgetting the humble one back of the instruments pattering into it, stroke by stroke, the air that brought out the sweet harmony. Look out the bright-eyed, hopeful boys in your neighborhood and push them forward. He hoped the day would never come when Wake Forest College would not be upon the hearts and constitutions of the denomination. A new laboratory was needed at once, and by God's help they intended to have one and he hoped that before this meeting closed steps would be taken to secure this building. He closed by introducing Prof. J. W. Gore, of Chapel Hill.

"I presume," the Professor said, "that every member of this convention has contributed in some way to Wake Forest College, and therefore I address a portion of the stockholders. God has

given us the book of nature to study that we may learn of Him. In the heavens, in the rocks, in the microscopic animals, in physical life, in electricity, in light, in sound, in chemistry, now one of the most practical sciences, we learn of God and His glory. Wake Forest College is ready to teach chemistry, except for lack of a laboratory."

"Nearer my God to Thee" was sung. Rev. Thos. Dixon, of Goldsboro, was introduced. The towns are the centre of influence, and from these the country and the people are reached. The Catholics understand this and hence we see the spires of their cathedrals in all the cities. He attended a great meeting in New York addressed by Bob Ingersoll; he saw in the choice seats the late—Bill Arp's "clerk," and Sam Jones' "bon ton." These claimed to be descendants of monkeys, and he was willing to let them believe it. Another class was there, the masses. For these he felt concerned. How? By passing laws saying he shall not think this or that? No! But with teachers prepared to meet the men calling themselves scientists; men who have studied the question, and with keen, cutting sarcasm can go to the bottom and drive these false teachers from our midst. To teach these men you must equip Wake Forest College, by the erection of one building now and then, soon, another.

Mr. Dixon's address was received with rapt attention and great delight. President Taylor said they needed \$5,000, and at once undertook to raise it. Something over half the amount was pledged, and the Convention adjourned.

If you are afflicted with loss of appetite, nausea, and vomiting, bilious disposition, duff pains and humors in the parts affected, and feverish symptoms, you may safely compute that you have gonorrhea. Rub therefore forth with thoroughness with Salvation and the great pain destroyer. Price twenty-five cents a bottle.

CHARLOTTE, N. C., Jan. 9, 1885.
The Dr. B. B. medicine has done more good for my kidney affection than any I ever used. Its action is speedy, and it is a fine tonic. T. O. CALLAMAS.
Sold in New Berne by R. N. Duffy and E. H. Meadows.

Burned to Death and Restored to Life.
I know of a man near Maxey's, Ga., who for ten or twelve years was almost a solid sore from head to foot. For three years, his appearance being so horribly repulsive, he refused to let any one see him. The disease, after eating his flesh, commenced on his skull bones. He tried all doctors and medicines without benefit, and no one thought he could possibly recover. At last he began the use of B. B. B., and after using six bottles his sores were all healed and he was a sound man.

He looks just like a man who had been burned to death and then restored to life. The best men of the county know of the case, and several doctors and merchants have spoken of it as a most wonderful cure.

density of the water and about 100 measurements of the current have been made between Long Shoal and Roanoke Marshes, and the character of the bottom has been determined in fully 50,000 instances. Probably quite a number of the natural beds discovered by the survey are unknown to the majority of oystermen.

A sub-party is now working in the neighborhood of Far creek and Long Shoal river, and the survey is by this time extended below Middleton. The Schooreby sailed on the 8th inst. for Far creek and will continue the survey below Middleton and along the west shores of the sound. A general examination of the deep waters will, however, be completed in time for a report to be submitted to the next legislature. *C. City Falcon.*
