SLIGO GUARDED BY POLICE AND CANALEY. SLIGO, Nov. 28.—The nationalist chiefs held a private meeting in the town hall today and discussed their future course of action. Mesers. The Knights Puzzled.

CHICAGO, Nov. 29 .- The gentlemen who are trying to organize a Knight of Labor co-operative packing company, appear to be having a hard time of it from outside influence and opposition. The leading men in the yards favor the scheme and have offered to pay for their share of the stock at once, but so far no money has been paid into the commission for incorporation. The feeling comes from antagonistic social ists elements, who are not in the trade tem. Another argument is that the government must pay interest upon its bonds, whether these are held by the banks or not, hence the profit to the banks on these bonds has been obtained without charge on the treasury; while on the other hand, if the banks had not been offered sufficient inducement to invest in these bonds, many more of tham would have gone abroad at low prices, and the country as a whole would now be so much the worse off. 3 That the want of flexibility in the currency and of elasticity of volume are consequences arising from the ecarcity of bonds and the high prices to which they have risen. themselves and who think it will have

and when these men became wealthy or got any money, they would lose their interest in wage workers and thus be a bar to universal co-operation. Again the scheme was not feasible, as the wealthy packers would crush them out by selling at lower figures than they could possibly afford, and with the selfish mature of man, public wage-workers included, would buy where it could get meat cheaper. The chairman called for a debate upon the question. Only one man spoke for it.
