The people must act in concert with him or he can accomplish nothing. Let a full attendance be present tonight and some definite steps be taken.

No Attorney.

The county commissioners at their meeting this week failed to elect an attorney for the ensuing year. If this step is taken for comomy we doubt if us yesterday that they had been trying to get along without a regular attorney pect to be preachers of the gospel. Communications from the W. C. T. U. but had about concluded that it wes more economical to have one employed by the year, as they often find it neceseary to consult one, and if there is any difference in the two plans of employ-ing by the year and piece-meals, the by-the-year plan is the more favorable one for the county.

FIFTH DAY. The great snow which covered the

ground to the depth of six or eight inches interfered very greatly with the services on Sunday, so much so indeed that no services were held anywhere else than at the Methodist church. Here Bishop Granbery preached a most instructive and helpful sermon from Rom 1, 11, 2. He gave special application of his text to the life and demeanor of the preacher and pastor, as the things of godliness were manifest in the life and

character of that apostle of God, Paul. the apostle to the Gentiles.

The morning hour having expired. Mr. Caldwell, of Tennessee, called up for consideration the Electoral Count bill, which was special continuing or-der. Mr. Hatch, of Mi-souri, antwgonized the motion with another provid ing for consideration of the bill to enlarge the powers and duties of the Department of Agriculture.

The House, however, decided by a vote of 101 to 27 to consider the Senate as preasing session for a charter for the Rock Lime. Electoral Count bill, with proposed New Berne Cotton and Grain Exchange. House amendments.

In advocating the bill, Mr. Caldwell, chairman of the committee having juit diction of the subject, explained that its object was to prescribe the mode in which the count of the electoral vote was to be made, and to supply an omission which existed in the Constitution The passage of the bill would settle all questions which arose from time to time as to the electoral count. It would decide that the power to count the vote did not reside in the President of the Senate; that it resided in the two houses of Congress; was not merely ministerial power, but power to count and conse-quently to decide the legality of votes to be counted; that the action of the two houses should be separate upon all questions arising during the count, but joint as to the result, thus preserving the dignity and rights of both bodies by conceding to each equal and concurrent power without merging the lesser body into the numerically greater.
