There is some difference between nine thousand dollars and eighteen thousand dollars, and between all the State lands in a county and 'the State lands on the lator has not sufficient discernment to perceive this difference, that certainly is not a fault of mine. He says that I could not tell the committee who were the men who backed me up, and did not have a single incorporator from the North. He did not know, when he made that statement, that two letters were exhibited to one of the committee containing the names of five men in New York City, whose names might have been inserted if the committees wished it done. It is sufficient for the Onslow legislator, and for the Senate committee and the House committee and the whole Legislature, to know that I was there in the interest of the people of two counties in this State, who had petitioned the Legislature to do certain things, which the people had a right to do, and the right to command their servants to

He says that next morning I tried to get "some members," to introduce the resolutions of censure, and failed. That is not true. I had no right to ask any member to introduce the resolutions. This was done by the secretary. I gave the copy to the Onelow representative He says that next morning I tried to This was done by the secretary. I gave the copy to the Onslow representative in person, and delivered to the Speaker of the House the resolutions of censure, accompanied by two petitions from uttizens of Onslow concurring in sentiment and judgment with the resolutions adopted by the meeting. He says they will not be presented unless he orders if done. Very well, if the right of petition, which is guaranteed to the people by the Federal and State Constitutions, and the method of introducing petitions prescribed by the rules of the U. S. House of Representatives, and also by those of U. S. Sepate, are to be over-House of Representatives, and also by those of U. S. RUMORS OF WAR. - It is a sad commentary on our Christian civil ization that there are more armed men ready for fighting than ever New Berne Furniture Store, before in the history of the world. Estrope is a vast camp, and has 4,000,000 of men ready for warfare, even in time of peace. A conflict lasting live years, which would involve all the nations, as the next great war is likely to do, would see fully 10,000,000 of armed men, bent on slaughtering each other. Matters look ominous on the Continent. France and Germany are glaring at each other across their respective frontiers, and should the hot words now spoken be followed by hard blows, the flames of war would spread over the entire Continent. For Russia would attempt to seize Constantinople, Austria and England would fly to the defense of the Sultan, while Italy would take part with Germany, so as to wrest from France to Sapoleon 111, in Te turn for Solferino and Magenta .-
