"The best is the cheapest," is an old and true axiom. The Diamond Lens Spectacles are the best for the eyes, who need artificial aid for the eyes. Beware of cheap trade marks, a small diamond.

Cotton is still booming.

H. B. Duffy's Bargain House is the display of goods. New Berne will be an inviting place for purchasers this spring.

W. T. Hill, manufacturer of rubber stamps, gives notice that he is prepared to fill orders on short notice. See "ad."

The peas have improved considerably within the last two or three days. It is thought now that something like a two-thirds of a crop will be made.

Alex. Justice gives notice that he has a well selected stock of groceries, canned fruits and vegetables which he wants to exchange for a small amount of cash.

Rev. A. A. Watson will make a visitation of the parishes here on Sunday next. He will be at Christ Church in the morning and at St. Cyprians in the evening.

Our fine stock dealer, J. W. Stewart, had a customer from Duplin county yesterday who came down to see if his horses are as fine as the one which goes out in the JOURNAL every week. He was disappointed and did not purchase.

Two colored fish dealers engaged in a dispute in the market yesterday. They "hit" like they meant business until separated. The price of fish was not seriously affected by the engagement, nor were human eyes impressed by the "fighting."

A squad of forty-eight convicts, ten white and thirty-eight colored, were brought down from Raleigh last night and will go by the steamer Trent to some point on Pamlico river and thence across to the Plymouth turnpike. Superintendent Rheim had them in charge.

The steamer Pamlico of the Old Dominion Line left her dock at 12 m., Friday, 25th instant, and we have seen a telegram received at the Western Union office at 4:30 p. m., Saturday, 26th instant, which said "Pamlico arrived at 11 o'clock." This will put the steamer in New York on Sunday night in ample time for Monday's market and in prime good order.

The steamer Trent of the same line will leave her wharf at 12 m., Monday, 28th instant. She will receive up to the instant.

These Bantly, Eq., has been over an inch high in the water, the recent cold weather with favorable weather since this time on Newport to announce a shipment, by the 10th of April.

Mr. Ken With a Good Article of Fine Tobacco ask your dealer for "Giant."

Reorganized.
The "Old Maids Club" of this city has reorganized, and we are informed they will summer it at Morehead City this year. An old bachelor threatens to organize an opposition club and compete for popularity at the same resort. Ladies and gentlemen: pool your issues, and you will be better prepared to stand the boy-cot.

Fine Buggies.
The carriage house of C. T. Randolph on Broad street, is now filled with elegant home made buggies. The work is first class, of the latest styles and of the best material. This is an industry that ought to be encouraged. Instead of buying Cincinnati buggies, we should patronize a home industry specially when we get superior goods for about the same money. Any one wanting a good buggy should go to Randolph's shop before purchasing.

A Fine Success.
The Missionary Text, given by the members of the Women's Missionary Society of the Methodist Church, at the residence of Thos. A. Green, Esq., on Friday evening, was a success in the highest sense of that word.

At an early hour the capacious parlors and hall-way were filled with a large expectant audience. A program had been previously arranged consisting of an address of welcome, an original essay, choice selections from the best Missionary literature, and appropriate music, vocal and instrumental. The music and interest were marked throughout the rendering of the program and it was evident that the hearts of many had been touched. At 10 o'clock all were invited to the large dining room to partake of an elegantly prepared supper. At 11:30 o'clock the prize boxes were opened and their contents amounted to nearly fifty dollars. All present felt grateful to the ladies for an opportunity of spending an evening so pleasant socially, so profitable intellectually and so elevating morally.

Demolishing a Church.

WILKESBARRE, Pa., March 24.—In forenoon today the members of the Nantook school board, with a large force of workmen, broke the Bethel Congregational Church, threw out all the furniture and tore down the building. They claimed the right to do this under the will of the late John Mills, who left the land for a school or church purpose, and it is claimed that the church society never obtained legal possession. The school board will be prosecuted criminally and also sued.

Another Big Deal.

NEW YORK, March 24.—The Mail and Express says that a syndicate has been formed, including Senator Payne and Messrs. Burke and Ritchie, of Ohio; Ernest Wiman and A. B. Boardman, of New York, and James McLaren, of Ottawa, to organize a company with a capital of \$10,000,000 to buy every mine in Canada. Mr. Ritchie, of Akron, Ohio, is said to be the originator. Mr. Wiman is away looking over the ground; on his return the details will be made public.

Appointed Minister to Turkey.

WASHINGTON, March 24.—The President this afternoon appointed Oscar S. Straus, of New York, to be envoy extraordinary and minister plenipotentiary of the United States to Turkey; Harold Marsh Sewell, of Maine, consul general of the United States at Apia, and N. J. George, of Tennessee, consul of the United States at Charlotte, N. C. The new minister to Turkey, engaged in importing. He was president of the Cleveland and Hendricks Business Men's Club in 1886.

ADVICE TO MOTHERS.

MRS. WINSLOW'S SOOTHING SYRUP should always be used for children's ailments. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle. mar17 dntuesat wly

Over 250 Tramps Cremated.

SAN FRANCISCO, CAL., March 24.—The steamer Belgio, from China and Japan, brought news of a dreadful tragedy at Hsia Shih Chen, China. Over three hundred tramps appeared in the village, and the inhabitants, greatly irritated, invited them into the temple, and during the night set fire to the edifice. Only forty of the tramps escaped from the blazing building, the remainder being burned to death.

Keeping a diary is not what it is cracked up to be. Thirty days of accuracy is about the limit of endurance; but Dr. Bull's Ough Syrup has never yet disappointed any one who has used it; secure a bottle for that awful cold.

Inter-State Commerce Commission.

WASHINGTON, March 24.—The President today signed the commissions of the inter-state commerce commissioners, but they will be held at the White House and delivered to the new appointees upon their arrival. Information was received today that Judge Cooley cannot reach Washington until the close of next week, and it was decided to make no effort to get the commissioners together before that time, as other members also have private affairs to wind up. When the commission assemblies its first action will be to organize and then to immediately begin its official consideration of the interpretation which shall be given the most important provisions of the law. Candidates for the position of secretary are numerous, and each commissioner seems likely to have a favorite for the position.

Give you a reason on compulsion.

Why of course I will. I am cured of rheumatism, which has kept me in bed for twenty years, by using Eucalypti Oil, which cost me only 25 cents.

but the reward did not come because it was not "Cap." but Mr. Nat. Gaskill's. About night, after at least fifty boys had been sorely disappointed in not receiving the reward, a man from near Rocky ran, about six miles in the country, seeing the advertisement in the JOURNAL, brought in the sure enough "Cap." and received the reward of \$2.50 and went on his way rejoicing.

An Important Discovery.

WASHINGTON, March 24.—Two Kentuckians—one a blacksmith—recently called at the Navy Department and announced that they had discovered a process of treating steel which will practically revolutionize the art of steel tool making. They intimate that the invention relates to the chemical bath in which the tool is immersed in the tempering process. The callers asserted that by their method of treatment the commonest grades of metal, such as shear or cast steel, could be so tempered in the matter of hardness and toughness as to fully equal the best grades of tool steel. A pair of cheap cast-steel shears can be edged up equal to the best tool shears. An experiment was made in the blade of Secretary Whitney's pocket knife, with the result that it was possible to cut or whittle an ordinary steel key without apparent injury to the blade. Moreover, the results of the treatment are asserted to be so under control that it is possible to temper steel to any degree of hardness or toughness that may be required by the use for which it is intended. The Secretary, after consultation with the chief of the bureau of ordinance, decided to permit the process to be tested experimentally at the Washington navy-yard. Commodore Seward accordingly ordered specimen bars of steel to be prepared, and the experiments have already been begun.

FOREIGN NEWS.

UNITED IRELAND ATTACKS HALFPOUR.

DUBLIN, March 24.—United Ireland, Mr. Parnell's organ, publishes a bitter attack on Mr. Balfour, chief secretary for Ireland. It calls him "The bloody Balfour, with tiger's heart wrapped in a woman's hide," and says: "He has entered lightly into a struggle with the Catholic Church. In such struggles the proudest despots have been humbled in the dust. Prince Bismarck, swaying the destinies of Europe in the whole career, but once learned the bitterness of defeat; and that was when he laid his hand on the Church, which resents the sacrilegious handling of the sacred privileges of the priest-hood."

ENTOMBED IN A TUNNEL.

LONDON, March 24.—Eighty-five men were entombed by the explosion in the Bull colliery at Lydney, Wales, yesterday. The accident occurred in a tunnel a mile and a half from the mouth of the pit. Seven bodies have been recovered. The tunnel is blocked by the debris caused by the explosion.

SECRETARY MANNING IS ENGLAND.

LONDON, March 24.—United States Consul Jordan and a number of American residents of Liverpool went down to the mouth of the Mersey in a special steamer today and heartily greeted Secretary Manning on the arrival of the Atlantic.

Excitement in Texas.

Great excitement has been caused in the vicinity of Paris, Texas, by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head, everybody said he was dying of Consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills, by the time he had taken two boxes of pills and two bottles of the Discovery, he was well and had gained in flesh thirty six pounds.
